This handbook is part of a series that consists of:

**Book 1:** Undergraduate Prospectus

**Book 2:** Authorities and Information of Record

**Book 3:** General Rules and Policies

**Book 4:** Academic Calendar and Meetings

**Book 5:** Student Support and Services

**Books 6-11:** Handbooks of the Faculties of Commerce, Engineering and the Built Environment, Health Sciences, Humanities, Law, Science

**Book 12:** Student Fees

**Book 13:** Bursary and Loan Opportunities for Undergraduate Study

**Book 14:** Financial Assistance for Postgraduate Study and Postdoctoral Research
The University has made every effort to ensure the accuracy of the information in its handbooks. However, we reserve the right at any time, if circumstances dictate (for example, if there are not sufficient students registered), to

(i) make alterations or changes to any of the published details of the opportunities on offer; or
(ii) add to or withdraw any of the opportunities on offer.

Our students are given every assurance that changes to opportunities will only be made under compelling circumstances and students will be fully informed as soon as possible.

Guide to the usage of this Handbook

The following is a general overview of the structure of this Handbook for the guidance of users. The contents are organised in a number of different sections (see below) each of which has a particular focus. The sections are interlinked by cross-references where relevant.

(a) **General Information:** This section includes information on the professional status and recognition of the Faculty's degrees, its links with professional bodies and the list of qualifications offered. It also includes lists of the various prizes, medals and scholarships awarded on academic merit and contains information on the criteria for the Dean's Merit List.

(b) **Rules for degrees:** This section covers the Faculty rules for each of the various degree programmes. These rules should be read in conjunction with the general University rules in the General Rules and Policies Handbook (Handbook 3). Students are expected to acquaint themselves with the rules in both Handbooks and to check annually whether the rules or curriculum requirements have changed since the last edition. **Important rules:** All students must familiarise themselves with the Degree Rules in this Handbook. In addition, students must refer to Handbook 3, General Rules and Policies and particularly take note of the following:

- rules relating to registration and examinations;
- rules relating to changes of curriculum;
- rules relating to leave of absence;
- rules on Academic Conduct, N.B. the rules concerning dishonest conduct and plagiarism.

Detailed information on the undergraduate entrance requirements can be found in the University Prospectus. The PhD Degree rules are published in Handbook 3, General Rules and Policies.

(c) **Departments and Programmes:** This section contains entries for each department in the Faculty. Each lists members of staff, a summary of laboratory, workshop and other facilities, the research entities, and the programmes of study administered by each department. The curriculum for each programme (list of required courses) is set out in table form. The curriculum tables must be read together with (cross-referenced to) the lists of courses in the Courses Offered section which is described under (e) below.

(d) **Centres/Units established in the Faculty and Centres, Departments, Schools and Units Established in other Faculties:** There are entries for the principal Faculty entities/units which do not fall directly under academic departments e.g. the Centre for Research in Engineering Education and the Continuing Professional Development Programme and entries for the centres, units and departments in other faculties which offer courses for students registered in the Faculty. This is cross referenced to the list of courses offered in section (e).

(e) **Courses Offered:** The full list and descriptions of courses offered by the Faculty, both undergraduate and postgraduate, is set out in this section in alpha-numeric order (i.e. based on the course code prefix) which identifies the department offering the course and the course number. The courses offered by other faculties which are more commonly taken by students in the Faculty of Engineering & the Built Environment are also listed and described. N.B. A key (guide) to the course code system, the credit system and terminology (definitions) is set out at the beginning of this section.

Term Dates for 2019
1st Semester
1st Quarter 11 Feb - 12 Apr
Mid-term break 13 Apr - 22 April
2nd Quarter 23 Apr - 7 Jun
Mid-year Vacation 10 Jun - 14 Jul
2nd Semester
3rd Quarter 15 Jul - 23 Aug
Mid-term Break 24 Aug - 1 Sept
4th Quarter 2 Sept - 24 Dec

Public Holidays for 2019
New Year’s Day 01 January 2019 Tuesday
Human Rights Day 21 March 2019 Thursday
Good Friday 19 April 2019 Friday
Family Day 22 April 2019 Monday
Freedom Day 27 April 2019 Saturday
Worker’s Day 01 May 2019 Wednesday
Youth Day 16 June 2019 Sunday
National Women’s Day 09 August 2019 Friday
Heritage Day 24 September 2019 Tuesday
Day of Reconciliation 16 December 2019 Monday
Christmas Day 25 December 2019 Wednesday
Day of Goodwill 26 December 2019 Thursday

* Note: Whenever a public holiday falls on a Sunday the following Monday is a public holiday.
EXPLANATION OF CODES AND SYMBOLS USED

1  COURSE CODES
Every course described overleaf has a name and corresponding code. Each code has eight characters as follows, AAAInnnB, where:

| AAA | is the three alpha code of the department or unit administering the course (or in the case of a Faculty-administered course, of the Dean’s Office). |
| I   | indicates the academic level of the course |
| nnn | a number between 001 and 999 identifying the course |
| B   | the indicator of when it is offered in the academic year |

| EWA | Examination without attendance at lectures |
| CE  | Continuing education course |

Credit values for undergraduate programmes are displayed only as from 2010, and for the postgraduate programmes and GSB undergraduate programmes, as from 2011.

2  HEQSF COURSE LEVEL | DEFINES WORK TYPICAL OF

| 5 | The entry level of an undergraduate diploma or bachelor’s qualification |
| 6 | The intermediate level of an undergraduate diploma or bachelor’s qualification |
| 7 | The exit level for a general 3-year bachelor’s degree |
| 8 | The exit level for a professional 4- or 6-year bachelor’s, postgraduate diploma or honours qualification |
| 9 | A master’s degree |
| 10 | A doctoral degree |

3  RESULTS SYMBOLS
Note: results for courses completed in the current year will remain PROVISIONAL until confirmed at the end of the academic year.

A.  Pass

| 1 | 75 – 100% | First Class |
| 2+| 70 – 74%  | Second Class, Division One |
| 2-| 60 – 69%  | Second Class, Division Two |
| 3 | 50 – 59%  | Third Class |
| PA | Pass     | Note that certain postgraduate courses are graded Pass or Fail only |
| UP | Unclassified Pass | A condoned pass or a supplementary examination written on academic grounds is graded as an Unclassified Pass |
| SP | Pass | Pass result obtained via a supplementary examination |

B.  Fail

| F  | 0 – 49%   | Fail |
| FS | 40 – 49%  | Failed, but permitted to write a supplementary examination on academic grounds |
| SF | Supplementary examination failed |
| A SF | Failed, absent from supplementary examination |
| UF SM | Unclassified fail, subminimum not met |
| OSS | Subminima failed, supplementary examination awarded |

* NOTE: By virtue of inclusion on the Institution’s DHET approved Programme and Qualification Mix (PQM), all qualifications included in this Handbook are accredited by the Council on Higher Education’s permanent sub-committee - the Higher Education Quality Committee. Where a SAQA ID has not been provided, the qualification is awaiting the SAQA ID. The higher education sector has undergone an extensive alignment to the Higher Education Qualification sub Framework and thus all institutions are awaiting the finalisation of the process and completion of the awarding of SAQA ID’s. Please consult Handbook 2 or the HEQsF Programme and Qualification Mix (PQM) on the Institutional Planning Department’s website, as approved by the Department of Higher Education and Training, for a list of all UCT’s accredited qualifications.

The Faculty of Commerce offers two undergraduate qualifications: a Bachelor of Commerce and a Bachelor of Business Science. Each qualification is offered in a range of specialisations. Neither degree is superior to the other; the best degree is the best degree for each individual student. There are many similarities in terms of the core curriculum, especially in the early years of the degrees, but there are both structural and curriculum differences depending on the degree and area of specialisation. It is worth noting that there are important distinctions in terms of HEQSF levels of the two qualifications:

1. A Bachelor of Commerce degree is offered at HEQSF level 7, and takes a minimum of three years to complete.
2. A Bachelor of Business Science degree is offered at HEQSF level 8, and takes a minimum of four years to complete. This degree is also described as a professional undergraduate degree.

A BCom graduate is eligible to apply for an Honours degree at HEQSF level 8, and a Business Science graduate is eligible to apply for a Master's degree at HEQSF level 9. Therefore, a BCom student registered for an Honours degree in eg. Economics in year 4 will in fact be in the same Economics classes as a Business Science student in their fourth year. A Business Science student in their fourth year is still an undergraduate student because they have not yet graduated.
Please note: The minimum duration for postgraduate qualifications is a year except for the Doctor of Philosophy and the Doctor of Economic Sciences.

### Postgraduate Diplomas

</tr>
</tbody>
</table>
* Unless otherwise indicated all qualifications are HEQSF aligned, but SAQA registration numbers are still awaited for some qualifications.

The Faculty of Commerce also offers an Advanced Diploma at HEQF level 7 (the equivalent level of an undergraduate degree).

The rules for and further information on these qualifications can be found in the relevant sections in the Undergraduate Faculty Handbook.
ADMISSION TO PROFESSIONS

Information Concerning Admission to the Professions

Entrance to the Accounting Profession

General Information
The accountancy profession in South Africa is represented by a number of professional bodies including:

- **ABASA** (the Association for the Advancement of Black Accountants of Southern Africa);
- **ACCA** (the Chartered Association of Certified Accountants);
- **CIMA** (The Chartered Institute of Management Accountants);
- **SAICA** (The South African Institute of Chartered Accountants) who award the designation CA(SA);
- **SAIPA** (The South African Institute of Professional Accountants).

The University of Cape Town offers programmes to meet the educational requirements for the Initial Test of Competence (ITC) toward the CA(SA) qualification. Students following those programmes may be granted exemptions from courses required by the other professional bodies. In addition to the educational requirements, there are training requirements specified for each professional qualification. All enquiries relating to the training requirements should be addressed to the appropriate institute.

Chartered Accountant, the CA(SA)
Students studying towards the CA(SA) at UCT can do a BCom Financial Accounting (3 years); BBusSc Finance with Accounting (4 years). All these qualifications include Financial Reporting III, Taxation II, Corporate Governance and Management Accounting II. These studies are followed by the one-year Postgraduate Diploma in Accounting (PGDA). A PGDA or a BCom Honours specialising in Accounting or equivalent from an accredited University is a prerequisite to write the ITC.

Entrance to the Actuarial Profession

Qualification as an Actuary
In order to practise as an actuary in the Republic of South Africa, it is necessary to be either an Associate member or a Fellow of the Actuarial Society of South Africa. Moreover, several Acts of Parliament specify that certain statutory duties may only be performed by qualified actuaries, defined as a Fellow of the Actuarial Society of South Africa.

The Faculty of Commerce offers three degrees specially designed for students who wish to enter the actuarial profession and, ultimately, to qualify as actuaries, viz. the BCom in Actuarial Science, the BBusSc in Actuarial Science and the BCom(Hons) in Actuarial Science for students who already have an undergraduate degree in Actuarial Science.

In addition, and Advanced Diploma in Actuarial Science is available to students with a non-actuarial undergraduate degree (with strong mathematics and mathematical statistics). The exemption arrangements with the Actuarial Society of South Africa (which are explained in more detail below) mean that the total time required to complete all the parts of the examinations for Fellowship is considerably reduced.

Structure of the BCom and BBusSc degree in Actuarial Science:
The curriculum for the BBusSc degree extends over four years of full-time study and the BCom degree over three years. In the Field of Actuarial Science, the curriculum may be divided into the following categories of courses:

(a) Core courses in Business Science
(b) Ancillary and related courses
(c) Courses specifically corresponding to subjects of the Actuarial Society of South Africa.

The full standard four-year curriculum for the BBusSc degree in Actuarial Science the syllabuses for all the individual courses/subjects appear in the later sections of the handbook dealing programme of study or with Departmental Information and Course Syllabuses.

**Exemptions from professional subjects:**
The Actuarial Society of South Africa has officially recognised for exemption purposes the University of Cape Town's degrees in Actuarial Science.

Although recommendations for exemptions will be at the discretion of the external examiners, it is anticipated that a student who graduates with a degree in Actuarial Science from the University of Cape Town and obtains at least 60% for the appropriate courses may be able to obtain exemption from some or all of parts A1, A2 and A3 of the Actuarial Society.

**University courses required for exemption purposes:**
For information contact the School of Management Studies, Section of Actuarial Science

**Postgraduate studies for qualifying as an Actuary:**
Students who graduate from the University of Cape Town with a degree in Actuarial Science and who qualify for the abovementioned exemptions will be able to go on to complete the final parts of the examinations leading to the Fellowship of the Actuarial Society.

At postgraduate level, exemptions could be gained from the F1 part by enrolling for either the Postgraduate Diploma or Master of Commerce Actuarial Science at the University of Cape Town.

**General information regarding the Actuarial profession:**
General information regarding entrance into the Actuarial profession and student membership of the Actuarial Society of South Africa, as well as information regarding career prospects and the professional work of an actuary and the various fields open to a qualified actuary, is obtainable from the Honorary Secretary, Actuarial Society of South Africa, P.O. Box 4464, Cape Town 8000 or by visiting www.actuarialsociety.org.za

**Actuarial conversion course:**
This course of study offers a unique opportunity for graduates in a discipline other than Actuarial Science to change to an Actuarial career without having first to complete three years of undergraduate study.

The programme extends over at least one-year of intensive full-time study and affords the students the possibility of gaining exemptions from most of the parts A1 and A2 professional subjects.

**Entrance to the Legal Profession**

**Introduction**
Students wishing to qualify as Attorneys or Advocates must obtain the LLB degree. In the Commerce Faculty, it is possible to take either a Bachelor of Commerce or a Bachelor of Business Science degree as the necessary preliminary qualification for the award of the degree of Bachelor of Laws (LLB). Please note, however, there are a restricted number of places offered to candidates on assessment of their previous academic record. In general terms, an average of at least 65% is required.

**Bachelor of Business Science and Bachelor of Commerce Law streams**
The BBusSc or the BCom to be followed by the LLB degree is taken in accordance with the curricula set out in the section/s dealing with the Bachelor of Business Science and Bachelor of Commerce Law degree stream/s. This is followed by the Intermediate and Final LLB years. The
minimum period of registration is 6 years to complete the BBusSc degree and the LLB degree and five years to complete the BCom degree and the LLB degree.

Notes for BBusSc or BCom students intending to proceed to the Postgraduate LLB degree:

**Standard programme: admission to LLB at Preliminary Level**

1. The standard programme offered at UCT for entry into the legal profession is a three or four-year Bachelor's degree followed by a three-year LLB programme.
2. A candidate for the LLB must apply for admission in the final year of the BCom/BBusSc degree (before 31 October) to the Dean of Law, who will assess the applicant's suitability for admission as a candidate on the basis of his/her academic record in the BCom/BBusSc degree together with information furnished in the prescribed questionnaire (available from the Law Faculty Office). An overall average of at least 65% in the first degree is required.
3. There are no statutory language requirements for the practice of law. Language proficiency is, however, very important for the study and practice of law. Prospective lawyers are encouraged to include courses in the national languages in particular in their first degrees.

**Practising as an Industrial Psychologist**

In order to practice as an Industrial Psychologist in South Africa, it is necessary to register with the Health Professions Council of South Africa through the Professional Board of Psychology. The requirements for registration as an Industrial Psychologist include the completion of a recognised Master's degree and a 12-month internship.
The following are the general rules for postgraduate qualifications, and the rules for specific study programmes in the Faculty. They must be read in conjunction with the general rules for degrees and diplomas in Handbook 3 of this series.

Postgraduate Diploma in Actuarial Science  
[CG012BUS01/CG042BUS01]

Convener: P Botha

Entrance requirements:
Graduates who have completed the CT-series of the Examinations of the Institute and Faculty of Actuaries (UK), OR equivalently, the A1 and A2-series of the Actuarial Society of South Africa (AS) will be considered. Before we could consider admitting anyone to the Diploma it is necessary that we look at a full academic transcript to determine the suitability of the applicant. We will also need to know which actuarial examinations have been passed/exempted, as well as details and dates of any unsuccessful attempts.

Programme outline:
The Postgraduate Diploma in Actuarial Science is aimed at graduates who have completed the CT-series of the UK, OR equivalently, the A100 and A200-series of the AS and now intend to study the material for the A300, F100 and F200-series of AS examinations (i.e. CA, ST and SA-series examinations of the UK). Courses are offered in conjunction with the University of Stellenbosch.

Duration:
The Diploma may be done full-time (typically one year), but is often done on a part-time basis. Part-time students would generally not undertake more than one course per semester.

Prescribed curriculum/programme structure
[CG012BUS01 January intake/ CG042BUS01 June intake]

For the award of the Diploma a candidate will be required to complete courses worth at least 126 credits, of which 72 credits must come from the following coursework studied at the university:

<table>
<thead>
<tr>
<th>Code</th>

<td>Professional Communication</td>
<td>27</td>
<td>8</td>
</tr>
</tbody>
</table>

Assessment:
Students must pass every course taken, in fulfilment of the above requirement, with at least 50% to qualify.

The examinations may count 50% to 100% of the final mark for any course, depending on whether tests, tutorials and assignments are taken into account.

No supplementary examinations are awarded.

Readmission rules:
Pass at least one course per year. Courses may only be repeated once.
Further programme specific notes:
Candidates who complete the course requirements for the Postgraduate Diploma in Actuarial Science may elect not to graduate but rather to complete a Master of Commerce degree after a further period of study during which the candidate would complete a research dissertation or long paper.

Professional course credits
FGDB3.2 A candidate may apply for credit for up to 54 credits in respect of courses where the candidate has passed an equivalent level examination at another university, through the Actuarial Society or equivalent (F100-series or F200-series, 36 credits and 54 credits respectively) or at another institution recognised by the Senate for this purpose. Where a candidate has previously passed BUS4027W as part of an undergraduate degree at this University, this will only count for 27 credits, even if it is repeated.

Concurrent registration
FGDB4 The Senate may permit a candidate to register concurrently for the Degree of Master of Business Science and the Postgraduate Diploma in Actuarial Science.

Examination
FGDB5.1 Candidates are also required to submit assignments regularly and attend tutorial sessions, in addition to being continuously assessed through tests.

FGDB5.2 Candidates who do not perform adequately during any course will not be permitted to sit the final examination in that course.

FGDB5.3 Candidates who are unable to complete the programme within three years will not be allowed to continue.

Distinction
FGDB6 The mark for determining a distinction will be based on the prescribed courses completed at UCT. This mark is calculated as the average (without rounding) of the two best results obtained for these prescribed courses. The diploma may be awarded with distinction if the mark obtained is at least 75% and the diploma is completed within three years. The Class medal, if any, in any one year will be awarded to the student achieving distinction in that year, who has the highest average as calculated above.

Postgraduate Diploma in Management in Business Communication [CG041BUS25]

Convener: G Nodoba

Entrance requirements:
An undergraduate degree or equivalent in any area. All applicants are also required to submit their curriculum vitae detailing previous work experience and/or any extra-curricular involvement. This can be uploaded on to the online admissions form if the applicant is applying online to UCT. Applicants with undergraduate degrees from universities other than UCT are also required to submit their full academic transcripts to date. Students wishing to apply for the diploma with qualifications other than an undergraduate degree will need to satisfy the Senate that their qualification and/or experience are an adequate preparation for the work prescribed in the course. Students who are applying on the basis of work experience (Recognition of Prior Learning [RPL])
will also need to complete a separate RPL process. Candidates applying on the basis of RPL will be informed of the additional application requirements on receipt of their application.

Programme outline:
The Postgraduate Diploma in Management in Business Communication (PDBC) delivers an innovative curriculum seeking to equip graduates with the skills requisite of a changing and challenging business environment. With an explicit focus on business and corporate communication, the PDBC employs an experiential enquiry-based curriculum, allowing students to explore and debate various scenarios involving internal and external stakeholder interactions. Corporate communication is a critical business asset for strategic global change; in times of crisis, an integrated approach is a prerequisite to business success and sustainability. The PDBC encourages students to work collaboratively as problem-solvers and change-agents, guiding staff at all levels to serve the mission of the organisation and its publics.
The interlocking and integrative nature of the programme creates an additional level of learning whereby students can hold up theoretical constructs and test their applicability in practice.

Duration:
One year full-time. On an exception basis and with the permission of the Convener, students can complete the diploma over two years.

Prescribed curriculum/programme structure
[CG041BUS25]
Prescribed courses/structure: FTX1005F and BUS2011S must be completed by students who have not previously completed these courses or their equivalents, nor passed the entrance exam in these courses. These courses are non-credit bearing for the purposes of the diploma.

Plus two electives from the list of courses made available to students at registration, or as approved by the postgraduate convener .... 36

Total credits........................................................................ 180

*BUS4092H runs over the full year.
Attendance requirements and academic performance levels shall be set out in a course manual to be distributed by the department(s) concerned at the beginning of the academic year. The department concerned reserves the right to withhold a duly performed certificate from any student who fails to comply with these requirements.

All students are to complete all courses on the diploma.
Any deviation from the standard curriculum has to be approved by the Convener.
Assessment:
Each course is individually assessed by coursework and final project or examination. Students are required to pass every course with a minimum of 50% in order to qualify.

Readmission rules:
A student may not fail more than four semester courses.
A student may not fail a course required for the diploma more than once.
A student who fails a diploma course once may attempt that course once more. Supplementary examinations are offered in each course to students who achieve between 40 and 49% for their final course mark.
A student must have completed two courses by the end of the first year of registration and a total of five courses by the end of the second year.
Resubmission of failed assignments is at the discretion of the individual course convener.

Distinction rules:
A distinction may be awarded to a student who receives a weighted average of 75% or more across all courses.

Applications for the Diploma must be received by the University not later than the 31 October in the year preceding the year of intended registration.

Further qualification specific notes:
A candidate may obtain credits in respect of equivalent courses completed elsewhere for one prescribed course and up to two elective courses.
Students will be expected to acquire or have acquired the normal prerequisites (or equivalent thereof) for each of the above subjects (the prerequisites as set out in the Commerce Faculty Handbook).

Postgraduate Diploma in Management (Information Systems)
[CG040INF]

Convener: A Stander

Entrance requirements:
An appropriate bachelor’s degree, coupled with a minimum of three year’s work-appropriate experience. (An exception to the work experience criterion is made for the Business Analysis and Systems Analysis stream, because of the intensive way in which the course learning is embedded and interleaved in the specialised work practice of the students as interns in industry).

All applicants must submit a detailed CV, and supply answers to questions relating to relevant past and present work experience, skills and qualifications gained, involvement with the IS industry, their mathematical and English ability, their career progression, and motivation for enrolment in the course. Applicants may be required to write a Departmental entrance test.
Places may be limited and selection will be made by a Departmental committee. Allowance may be made for recognition of prior learning (RPL) as follows:

All non-degree candidates must have many years of proven IT/IS work experience at an operational or management level that can be shown to have compensated for the lack of a degree. They should contact the Department of Information Systems to clarify the exact entry requirements. These will include a report detailing their life experiences to date (primarily since the completion of formal schooling) and covering personal, work, education and community experiences, closely aligning each experience or job to skills and competencies gained along the way.
**Programme outline:**
This programme aims to provide best practice application and integration in Information Systems topics; to formalise and extend knowledge gained through work in industry and to develop critical reading and writing skills. Students may choose between four Information Systems streams:

*IS Management [CG040INF10]* which includes systems development, technology, project management and strategic use of information technology as applied to distributed commercial information systems;

*Computer Forensics [CG040INF02]* which includes risks in IT, legal aspects of computer forensics, the right to privacy and evidence, networking security principles, computer forensics investigations, investigation project management, technology crime, computer security, corporate governance and research methodology;

*Business and Systems Analysis [CG040INF05]* which is an industry demand-led programme that not only provides education and training as well as work experience via internships for new entrants to the Business Analyst and Systems Analyst skills pool, but also to current employees in this field to extend their skills.

**Duration:**
Two years part-time

**Prescribed curriculum/programme structure [CG040INF10]**

**Prescribed curriculum/programme structure:**
A candidate for the Diploma shall attend and complete the following courses:

<table>
<thead>
<tr>

<td><strong>120</strong></td>
<td></td>
</tr>
</tbody>
</table>

**Assessment:**
Students are required to achieve at least 50% for each of the courses. INF4015W/ INF4016W/ INF4012W/ INF4018W will be weighted at 75% and INF4017H at 25%.

**Readmission rules:**
A candidate who has not been successful in the course for the diploma shall not be permitted to present him/herself for a second time as a candidate for the examination.

**Distinction rules:**
The diploma will be awarded with distinction if a weighted average mark of 75% is achieved.
Further programme specific notes:
Students who after their first year meet the pre-requisites for INF4024W may have the opportunity of registering for this course and converting to Honours in Management Information Systems

Postgraduate Diploma in Management in Entrepreneurship
[CG030BUS03]

Convener: D Priilaid

Entrance requirements:
An undergraduate degree or equivalent in any area. Candidates who have not completed the courses FTX1005F (Introduction to Managerial Finance) and BUS2011F (Introduction to Marketing), or equivalents, prior to registration, will be required to complete these courses concurrently with the 1st semester courses. All applicants are also required to submit their curriculum vitae detailing previous work experience and/or any extra-curricular involvement. This can be pasted on to the online admissions form if the applicant is applying online to UCT. Applicants with undergraduate degrees from universities other than UCT are also required to submit their full academic transcripts to date. Students wishing to apply for the diploma with qualifications other than an undergraduate degree will need to satisfy the Senate that their qualifications and/or experience are an adequate preparation for the work prescribed in the course.

Programme outline:
The Postgraduate Diploma in Management in Entrepreneurship (PDE) delivers an innovative curriculum seeking to equip graduates with the skills requisite of a changing and challenging business environment. With an explicit focus on entrepreneurship, the PDE employs an action-learning based curriculum, the core thrust of which is to challenge the orthodox view that entrepreneurship is mostly about spreadsheets, business plans and projections of discounted cash flows. Instead the PDE encourages students to see themselves as change-agents, artists, creators, and visionaries in a year-long learning process whereby student groups start up and run their own businesses.

The interlocking and integrative nature of the programme creates an additional level of learning whereby students can hold up theoretical constructs and test their applicability in real time with real people and real money.

Duration:
One year full-time. On an exception basis, and with the permission of the Convener, students can complete the diploma over two years.

A student wishing to apply for the diploma with qualifications other than an undergraduate degree will need to satisfy the Senate that his/her qualification and/or experience are an adequate preparation for the work prescribed in the course.

Programme outline:
This diploma programme aims to provide specialised academic and professional knowledge to candidates in the field of marketing management. Inter alia, candidates will be exposed to in-depth courses in the areas of consumer behaviour, digital marketing, advertising and communications, retail management, services marketing, strategic management and international marketing. Contemporary issues are explored within these courses and candidates are encouraged to develop practical solutions in both a local and international context. The courses are applied in nature and geared towards equipping candidates with the knowledge and skills to succeed in an increasingly competitive workplace.

Duration:
One year full-time. On an exception basis, and with the permission of the convener, students can complete the diploma over two years.

**Postgraduate Diploma in Management in Sport Management**

**[CG028BUS12]**

**Convener:** D Maralack

**Entrance requirements:**
An undergraduate degree or equivalent in any area. Candidates who have not completed the courses FTX1005F (Introduction to Managerial Finance) and BUS2011F (Introduction to Marketing), or equivalents, prior to registration, will be required to complete these courses concurrently with the 1st semester courses.

All applicants are also required to submit their curriculum vitae detailing previous work experience and/or any extra-curricular involvement. This can be pasted on to the online admissions form if the applicant is applying online to UCT. Applicants with undergraduate degrees from universities other than UCT are also required to submit their full academic transcripts to date.

A student wishing to apply for the diploma with qualifications other than an undergraduate degree will need to satisfy the Senate that his/her qualification and/or experience are an adequate preparation for the work prescribed in the course.

**Programme outline:**
The objective of this diploma programme is to provide graduates interested in a career in Sport Management and Administration with a combination of both general and sport management skills and a well-rounded knowledge of the opportunities and challenges facing the industry in South Africa. The diploma places particular emphasis on the application of management theory to the business and administration of sport, both in the academic coursework and in practical exposure to the sports industry.
Duration:
One year full-time. In exceptional cases, and with the permission of the Convener, students may complete the diploma over two years.

Prescribed curriculum/programme structure

**Prescribed curriculum/programme structure:**

FTX1005F and BUS2011F must be completed by students who have not previously completed these courses or their equivalents, nor passed the entrance exam in these courses. These courses are non-credit bearing for the purposes of the diploma.

Plus two electives from the list of courses made available to students at registration, or as approved by the postgraduate convener.

Total credits for the year ........................................ 180

*BUS4092H runs over the full year.

All students are to complete all courses on the diploma.

Any deviation from the standard curriculum has to be approved by the convener.

Assessment:
Each course is individually assessed by coursework and final examination.
Students are required to pass every course with a minimum of 50% in order to qualify.

Readmission rules:
A student may not fail more than four semester courses.
A student may not fail a course required for the diploma more than once.
A student who fails a diploma course once may attempt that course once more. Supplementary examinations are offered in each course to students who achieve between 40 and 49% for their final course mark.
A student must have completed two courses by the end of the first year of registration and a total of five courses by the end of the second year.
Resubmission of failed assignments is at the discretion of the individual course convener.
Postgraduate Diploma in Public Sector Accounting [CG033ACC11] - Distance offering

Convener: I Lubbe

Duration:
The programme duration is 2 years.

Entrance requirements:
B Com (General Accounting) degree, or similar (NQF level 7) undergraduate degree in Accounting.

Prescribed curriculum/programme structure [CG033ACC11]

Prescribed curriculum/programme structure:
This programme comprises four courses, each consisting of a number of modules. All four courses are offered as online courses only, using a blended learning format. Passes in all four courses are required in order to be awarded the PG Dip in Public Sector Accounting qualification.

Compulsory courses

<table>
<thead>
<tr>

</tr>
<tr>
<td>ACC4036T</td>
<td>Public Financial Management</td>
<td>36</td>
<td>8</td>
</tr>
</tbody>
</table>

Total credits for the year: 120

All four courses are compulsory (i.e. there are no electives)

Assessment:
For each of the four individual courses: formative assignments (including regular submission of assignments and essays), one test per semester and final exams.
Per each individual course: students are required to achieve a year mark of 40% for each course in order to qualify to write the final examination in that course.
The results of the assignments held during the year will constitute the year mark for the course 40% of the final mark.
A final examination (including an integrated assignment) 60% of the final mark.

Readmission rules:
A student who fails to complete the requirements for the diploma at the end of his/her second year of study will be allowed to re-register in the third year for each of the courses that the student failed in the prior academic year. No student will be readmitted to the programme if he/she has failed any course in the programme twice.

Distinction rules:
The diploma may be awarded with distinction if a student has obtained an average of at least 75% with a subminimum of 70% in each course.
Postgraduate Diploma in Management Practice (Customised / Open Programme) [CG025GSB14/CG025GSB39]

Convener: E Shelley
Departmental postgraduate convener: K West/S Nair

Entrance requirements:
- Applicants must be at least 25 years old and have at least three years’ relevant work experience.
- All applicants are required to submit a curriculum vitae, two referee reports and three essays.
- Applicants must have an NQF Level 7 qualification.
- A Recognition of Prior Learning (RPL) opportunity exists if the applicant does not have an NQF Level 7 degree, and the applicant may be admitted if he/she:
  - Has at least five years of proven junior or middle-management experience supported by a documented management track record including a curriculum vitae, referee reports and personal motivations;
  - Competencies at a graduate level demonstrated by a portfolio of evidence (POL) that will be assessed by an RPL assessor.

Qualification outline:
The PGDip in Management Practice is a management development programme at a postgraduate, post work experience, pre-master’s level. The qualification is registered at the National Qualifications Framework (NQF) at Level 8.

The qualification provides the necessary theoretical foundations and learning processes that will enable managers to construct a framework of relevant and intellectual concepts for understanding and managing organisational viability and sustainable growth. Students will develop appropriate management practices through action learning and research processes grounded in their particular work context. These processes are designed to simultaneously develop the required management competencies and contribute to organisational performance.

The qualification has a strategic focus on management practice and is aligned with the vision and mission of the Graduate School of Business. Key themes are values-based leadership, an emerging market focus, and developing options and then making credible decisions about which option to action. The objectives are to enable junior to middle managers to:
- Develop an understanding of the meaning of organisational viability and sustainable growth within the context of an emerging market and an increasingly complex business environment;
- Exhibit personal leadership competencies, which reflect values-based solutions that address the contexts in which they operate.
- Apply the necessary managerial knowledge and understanding of tools, in order to be efficient and effective managers.
- Develop their ability to manage future learning and self-development and, in the process, develop a range of the above managerial competencies.
- Show the pedagogical skills of critical thinking, problem solving, collection and analysis of data and effective written communication in an action learning assignment completed back in the workplace.

Duration:
12-18 months part-time modular.
Prescribed coursework structure for the Customised Programme
[CG025GSB14/CG025GSB39]

Programme Convener: B Shrand

Prescribed coursework structure for the customised programme:
Students registered on the customised programme are required to obtain a total of 120 credits from four courses: GSB4102W Foundations of Systemic Management Practice as a compulsory course in Module 1, one elective course in Module 2, one elective course in Module 3 and GSB4107Z Technical Report as a compulsory course in Module 4. Only students who are completing this programme as part of a Barclays Compliance Academy cohort may take electives GSB4459X/Z and GSB4463X/Z.

Compulsory course (Module 1):

Assessment on customised programme structure:
The assessment of the qualification is based on the following projects in each of the courses undertaken:

1. Position Paper (55% of course mark): develops a conceptual framework and identifies opportunities for improvement by implementing two small improvement initiatives.
2. Reflective Practice Paper (30% of course mark): formal documentation and reflection of student’s own management practice.
3. Group Work (15% of course mark).
Prescribed coursework structure for the Open Academic Programme [CG025GSB14/39]

Programme Convener:
E Shelley

Prescribed coursework structure for open academic programme:
Students on the open academic programme are required to obtain a total of 120 credits from four compulsory courses plus one specialisation course. The specialisation course takes place after Business Acumen.

DP requirements:
A student must attend contact lectures and group sessions during the lecture periods.
A student must present all assignments for marking according to published deadline dates. A student must pass all courses with 50% to qualify and graduate with the qualification.
A student may be asked to revise and resubmit should he/she fail a major assignment with at least 40% or above and have passed the course with a minimum average of at least 50%. A student may not be re-examined in more than two courses across the qualification.
The student may only repeat a course once.
A student may only be re-examined once per course.

Readmission rules:
A student who does not qualify for a DP for any of the courses for above reasons will be deemed DPR (Duly Performed certificate Refused) for that course. This is deemed a course fail – the student has failed to meet the course readmission requirements.

Distinction rules:
Students with a weighted average of at least 75% for all courses of the programme and at least a 65% average per individual course will be awarded the diploma with distinction.

Postgraduate Diploma in Accounting [CG010ACC01]

Convener: R Carpenter

Duration:
The diploma involves one year of full-time study. Students who do not perform adequately by the end of the July examinations will be required to change their registration to the extended PGDA programme and deregister from Financial Reporting IV, ACC4023, and Corporate Governance III, ACC4025. The PGDA covers the material needed by candidates wishing to present themselves for the Initial Test of Competence (ITC) of the South African Institute of Chartered Accountants
Candidates who complete the diploma may present themselves for the Initial Test of Competence.

**Further programme specific notes:**
Qualification as a Chartered Accountant (South Africa) requires a pass in the Initial Test of Competence and the Assessment of Professional Competence and the completion of a registered traineeship contract. This training period is five years but exemptions or remissions (usually two years) may be granted to graduates. Enquiries about training contracts and entry to the ITC should be addressed to: The Secretary, South African Institute of Chartered Accountants, P O Box 59875, Kengray, 2100.

Applicants for the PGDA must apply using the prescribed forms. The closing date for students currently registered at UCT is 30 September. All other applications must also be received by 30 September. Late applications may be considered.

**Entrance requirements:**

1. A graduate of this University who has completed the prescribed courses for the BCom degree (Financial Accounting CA option) or the BBusSc degree (Finance with Accounting option) in the minimum time to graduation.
2. A graduate of this University from the BCom degree (Financial Accounting CA option) or the BBusSc degree (Finance with Accounting option) who has completed ACC3009 Financial Reporting III, ACC3022 Corporate Governance II, ACC3004 Taxation II and either FTX4057 Applied Investments or ACC3023 Management Accounting II over a period of two years and has obtained an average mark of 53% for the following courses: ACC3009 Financial Reporting III, ACC3022 Corporate Governance II, ACC3004 Taxation II and ACC3023 Management Accounting II, all in the preceding year or the year prior to the preceding year.
3. An applicant who has satisfied the Senate by means of such test as may be prescribed by the Senate that he/she has attained a level of competence adequate for the purposes of study for this diploma.

**Prescribed curriculum/programme structure**

**FGDA2.1** A candidate for the diploma shall attend and complete during one year of full-time study the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course</th>
<th>NQF Credits</th>
<th>HEQSF Level</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td><strong>Total credits per year</strong></td>
<td><strong>120</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Students who have not completed an appropriate Ethics Course will be required to register for and pass PHI2043F in order to be awarded the diploma.

**Assessment**

FGDA2.2 To qualify for the award of the Diploma a candidate must complete all the ACC courses specified in FGDA2.1 in the same academic year.

**Supplementary examinations**

FGDA3 A candidate who fails not more than one of the four ACC courses of the diploma may be permitted by the Senate to write a supplementary examination in that course.
Readmission
FGDA4 A candidate who fails to complete the requirements for the diploma at the end of his/her first year of study will be required to re-register in the second year for all the ACC courses of the Diploma. No students will be readmitted to the programme if they have failed any course in the programme twice.

Adequate performance
FGDA5 For the purposes of determining the "adequate performance" which is necessary to continue with the programme registration, the following must be satisfied after completion of the mid-year tests:
An aggregate of 40% of the year mark for all ACC courses for which the student is registered;
A 75% attendance at tutorials together with adequate preparation for and participation in the tutorial.

Duly performed requirement
FGDA6 Any student who is registered for the second time for the one-year PGDA programme, must satisfy the following criteria in order to remain registered after the completion of the mid-year tests:
An aggregate of 40% of the year mark for all ACC courses for which the student is registered;
75% attendance at tutorials together with adequate preparation; and participation for the tutorial.

Attendance registers will be strictly maintained. Except for extraordinary circumstances no medical certificates will be entertained for missing tutorials but medical certificates will be required for exemptions from tests and examinations.

Distinction
FGDA7 The diploma may be awarded:
1. with distinction; or
2. with distinction in one or more of Financial Reporting, Corporate Governance III, Managerial Accounting and Finance, Taxation; or
3. with distinction in the diploma and with distinction in one or more of the subjects listed in paragraph 2

Diploma with distinction
a. a minimum of 75% must be attained for Financial Reporting IV
b. a simple average of 70% for Financial Reporting IV, Corporate Governance, Taxation III and Managerial Accounting and Financial Management

In applying the distinction rules, only passes at the first attempt are taken into account.
Postgraduate Diploma in Survey Data Analysis for Development  
[CG038ECO15]

Convener: A Kerr

Entrance Requirements
A bachelor’s degree in statistics, economics or demography, or an alternative tertiary qualification plus appropriate work experience, such as the use of economic software and data analysis, subject to the University’s RPL criteria and an entrance exam. Recommendation of acceptance is at the discretion of the Graduate Committee.

Programme Structure
The Postgraduate Diploma in Survey Data Analysis for Development programme comprises two compulsory courses in the first semester, four compulsory courses in the second semester and a compulsory research report. The degree runs over 12 months if undertaken full-time and 24 months if undertaken part-time. The programme comprises 120 credits.

Curriculum
[CG038ECO0015]

</tr>
</tbody>
</table>

Total credits .......................................................... 120

Assessment:
To qualify for the postgraduate diploma, students must pass all courses including the research report to a value of 120 NQF credits.
The research component is examined by way of a research report (30 NQF credits) which will be due in early January in the year following the coursework.

Readmission rules:
Students who fail may repeat a maximum of two courses of the coursework component once provided that they have submitted the required research report within the timeframe for submission. A compulsory course may be repeated once.
There will be no supplementary examinations.

Distinction rules:
The postgraduate diploma may be awarded with distinction if students has an overall average of at least 75% with a subminimum of 70% for the coursework and for the research dissertation.
Further programme specific administrative requirements:
In addition to completing the University application form, all students must also submit a curriculum vitae (CV), letter of motivation and the names and contact details of two referees before 31 October. The programme begins in January.

**Postgraduate Diploma in Development Policy & Practice**  
**[CG043DPP01]**

Convener: B Levy

**Entrance Requirements**
The minimum admission requirements is an approved NQF 7 qualification; fluency in English, both written and spoken (requirements outlined in the UCT Directions for Applicants); basic computer literacy and relevant work experience. The academic components of these admission requirements are aligned with the university’s admission policy.

**Programme Structure**
The postgraduate diploma is offered on a part-time basis over an 18 month period. Each semester will commence with a two-week intensive period in residence in Cape Town, followed by interactive distance learning, organized around practical problems from participants’ workplaces.

**Programme Outline**
Graduates of the Postgraduate Diploma in Development Policy and Practice will have an enhanced professional capability, underpinned by an integrated, well-rounded understanding of the challenges of development policy and practice, and of the role of research in informing policy design and implementation. Graduates will be able to:

- Take an holistic view of complex development challenges, especially in the African context, based on specialist knowledge which enables them to address these complex challenges both systematically and creatively;
- Use relevant methods, techniques, processes and technologies which facilitate the making of sound judgements in specialised contexts;
- Compare and critically evaluate global and African continental knowledge and experience, in order to identify appropriate methodologies for enquiry and action that are sensitive to issues of social justice;
- Recognise the difficult ‘balancing acts’ associated with development policy formulation and implementation (e.g. difficult technical and ethical choices, and balancing the needs and demands of competing stakeholders in particular contexts) and address these in policy formulation and implementation;
- Demonstrate a capability for designing, implementing and managing policy processes for different social contexts, with a strong focus on communication with a range of audiences and the engagement of relevant stakeholders.

**Programme Description**

**Assessment:**
Assessments will include written assignments. For some courses, there will also be a written examination. Assessment will include application of analytical policy skills to workplace challenges.

**Readmission rules:**
Students who fail may repeat a maximum of two courses once, provided that they scored at least 40% on the first attempt.

**Distinction rules:**
The Diploma will be awarded with distinction if the candidate obtains a mark of 75% or more for the coursework.

**Further programme specific administrative requirements:**
In addition to completing the University application form, the applicant must submit a CV, referee details and motivation with a covering letter. Applications should be submitted by 30 September. Late applications will be accepted only in exceptional circumstances. The programme begins in January each year.

### Entrance requirements

**FH2**

Any one of the following may be admitted by the Senate as a candidate for the degree of Bachelor of Commerce (Honours):

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>2.1</td>
<td>A graduate of the University or a graduate of any other university recognised by the Senate for such purpose.</td>
</tr>
<tr>
<td>2.2</td>
<td>A person who has passed the final professional chartered accountancy examination of the Independent Regulatory Board of Auditors of South Africa or an examination which in the opinion of IRBA and of the</td>
</tr>
</tbody>
</table>
2.3 A person who has by means of such test as may be prescribed by the Senate, satisfied the Senate that:

2.3.1 he/she has attained a level of competence which in the Senate's opinion is adequate for the purposes of the programme; or

2.3.2 his/her qualifications are of a standard equivalent to any of those enumerated in 2.1 and 2.2 above.

2.4 Applicants whose first language is not English will be required to sit the TOEFL language test to verify fluency in English. Please refer to UCT Language policy.

Duration
FH3 The Honours course shall comprise not less than one year of full-time study or not less than three semesters of part-time study.

Examination
FH4.1 The Honours examination shall consist of a formal written examination or examinations. In addition, a technical report or research project will be required. Research that involves human participants or the use of animals must undergo ethics review according to Faculty specific guidelines. Candidates must ensure compliance with the Faculty Ethics in Research policy prior to engaging in any research.

FH4.2 The Senate may also require any candidate to present himself/herself for oral examination.

FH4.3 A candidate who has not been successful in terms of the requirements for the Honours programme in a particular field shall not be permitted to present himself/herself for a second time as a candidate for the same qualification.

Assessment
FH5 A candidate is required to pass each required component of the Honours qualification.

5.1 The names of the successful candidates in the Honours examination shall be published in three classes.

5.2 Unless otherwise specified, the research component of the Honours programme should be no longer than 15,000 words in length.

5.3 Unless otherwise specified, any research component of the full-time Honours qualification shall be submitted for examination by no later than 15 November of the candidate’s first year of study.

5.4 A candidate shall comply with such other requirements for specific qualifications as the Senate may prescribe.

Re-examination for specific qualifications
FH6 Unless otherwise specified, a candidate who fails an Honours course will not be permitted to repeat the course but may replace it with another course, provided it is not a compulsory course for the qualification. Senate permission is required to substitute a compulsory course.

Concessions
FH7 Any exemption from or modification of the above rules is subject to approval by the Senate.
Distinction
FH8 Distinctions may be awarded in ‘the First Class’. See distinction rule for the specific qualification.

Bachelor of Commerce Honours
specialising in ACCOUNTING [CH001ACC01]

Convener: R Carpenter

Duration:
This programme is offered on a full-time basis and in conjunction with the courses in the Postgraduate Diploma in Accounting (PGDA), which it is designed to supplement and enrich. The broad aim of the programme is the fostering in participants of conceptual knowledge and critical thought leading to the development of problem solving ability in the broader areas of financial reporting and related subjects in the PGDA.

Students who do not perform adequately by the end of the July examinations will be required to change their registration to the extended PGDA programme and deregister from Financial Reporting IV, ACC4023, Corporate Governance III, ACC4025, and ACC4050, Specialised Topics in Accounting and Research Report. This qualification covers the material needed by candidates wishing to present themselves for the Initial Test of Competence (ITC) of the South African Institute of Chartered Accountants (SAICA). Candidates who complete the degree may present themselves for the Initial Test of Competence.

Further programme specific notes:
Qualification as a Chartered Accountant (South Africa) requires a pass in the Initial Test of Competence and the Assessment of Professional Competence and the completion of a registered traineeship contract. This training period is five years but exemptions or remissions (usually two years) may be granted to graduates. Enquiries about training contracts and entry to the ITC should be addressed to: The Secretary, South African Institute of Chartered Accountants, P O Box 59875, Kengray, 2100.

Applicants for the BCom (Honours) in Accounting must apply using the prescribed forms. The closing date for students currently registered at UCT is 30 September. All other applications must also be received by 30 September. Late applications may be considered.

Entrance requirements:
1. A graduate of this University who has completed the prescribed courses for the BCom degree (Financial Accounting CA option) or the BBusSc degree (Finance with Accounting option) and who has obtained:
   an average mark of 65% for the following courses: ACC3009 Financial Reporting III, ACC3022 Corporate Governance II, ACC3004 Taxation II and ACC3023 Management Accounting II, all in the preceding year or the year prior to the preceding year.
2. An applicant who has satisfied the Senate by means of such test as may be prescribed by the Senate that he/she has attained a level of competence adequate for the purposes of study for this diploma.

Prescribed curriculum/programme structure
The programme comprises both course work and a research report of publishable quality.

The following courses are compulsory:

</tbody>
</table>

Note: Students who have not completed an appropriate Ethics course will be required to register for and pass PHI2043 in order to be awarded the degree.

Assessment

FGDA2.2 To qualify for the award of the degree a candidate must complete all the ACC courses specified in FGDA2.1 in the same academic year. This includes the submission of a research report as part of ACC4050W Specialised Topics in Accounting and Research Report.

Supplementary examinations

FGDA3 A candidate who fails not more than one of the four ACC courses (the courses specified in FGDA2.1 but excluding ACC4050W Specialised Topics in Accounting and Research Report) of the degree may be permitted by the Senate to write a supplementary examination in that course.

Readmission

FGDA4.1 A candidate who fails to complete the requirements for the degree at the end of his/her first year of study will be required to re-register in the second year for the ACC courses of the degree. No students will be readmitted excluding ACC4050W to the programme if they have failed any course in the programme twice.

FGDA4.2 A candidate who fails ACC4050W may be permitted to change the registration to Postgraduate Diploma in Accounting (CG010ACC01).

Adequate performance

FGDA5 For the purposes of determining the "adequate performance" which is necessary to continue with the programme registration, the following must be satisfied after completion of the mid-year tests:

- An aggregate of 40% of the year mark for all ACC courses (excluding ACC4050W Specialised Topics in Accounting and Research Report) for which the student is registered;
- A 75% attendance at tutorials together with adequate preparation for and participation in the tutorial.

Duly performed requirement

FGDA6 Any student who is registered for the second time for the one-year BCom (Honours) in Accounting programme, must satisfy the following criteria in order to remain registered after the completion of the mid-year tests:

- An aggregate of 40% of the year mark for all ACC courses (excluding ACC4050W Specialised Topics in Accounting and Research Report) for which the student is registered;
- A 75% attendance at tutorials together with adequate preparation; and participation for the tutorial.
Attendance registers will be strictly maintained. Except for extraordinary circumstances no medical certificates will be accepted for missing tutorials but medical certificates will be required for exemptions from tests and examinations.

**Distinction**

FGDA7 The Honours degree may be awarded in “the First Class” if the student has an overall average of at least 75% at the first attempt with a subminimum of 70% for the coursework and for the technical report.

**Bachelor of Commerce Honours**

*specialising in ACTUARIAL SCIENCE [CH001BUS01]*

**Convener:** P Botha

**Entrance requirements:**

An undergraduate degree such as the BCom (Actuarial Science) or the Advanced Diploma in Actuarial Science (Actuarial Conversion Course) from UCT or, with the permission of the programme convener, an equivalent degree from another recognised university. Candidates are required to have have passed or to be exempted from the subjects corresponding to the A101-103 and A201-204 subjects of the Actuarial Society of South Africa or subjects CT1 to CT7 of the Institute and Faculty of Actuaries in the UK. Candidates may still be considered if they are missing one of these subjects, but priority will be given to those candidates who have all seven.

**Programme outline:**

The UCT honours qualification in Actuarial Science is an intensive programme which is aimed at graduates who have completed either the BCom (Actuarial Science) or the Advanced Diploma in Actuarial Science (Actuarial Conversion Course) at UCT or an equivalent degree from another recognised university. Successful completion of this programme could lead to exemption from some of the examination which a candidate must pass in order to be admitted as a Fellow of either the Actuarial Society of South Africa or the Institute and Faculty of Actuaries in the UK (corresponding to the subjects A205, A301 and A302 in South Africa or subjects CT8 and CA1 in the UK). The programme consists of coursework and an actuarial research project.

**Duration:**

One year of full-time study or two years of part-time study

**Prescribed curriculum/programme structure**

* [CH001BUS01]*

**Coursework – Compulsory**

**Assessment:**

Students must pass every compulsory course with at least 50%, as well as passing the research project with a mark of at least 50%, to be awarded the degree.
Generally, tests, tutorials and assignments during the year will be weighted 40%-50% of the final
year mark (as per the departmental entry).

Readmission rules:
At least two courses (minimum 45 credits) should be passed in the first year. Any compulsory
coursework component may only be repeated once.
No supplementary examinations are awarded.

Distinction rules:
Students with a weighted average for the coursework and research project in excess of 75%,
including at least 75% for the research project, will be awarded the degree with distinction.

Further programme specific notes:
Prior to registration, students would be expected to acquire or have the normal prerequisites (or
equivalent thereof) for each of the above courses in the curriculum (prerequisites as set out in the
Commerce Faculty Handbook).

Bachelor of Commerce Honours
specialising in QUANTITATIVE FINANCE [CH001BUS09]

Convener: P Botha

Entrance requirements:
Candidates are required to have completed the BCom(Actuarial Science) specialising in Quantitative
Finance degree at UCT and achieve a minimum mark of 60% for both FTX3044F and FTX3045S.

Programme outline:
The UCT honours qualification specialising in Quantitative Finance is an intensive one-year
programme which is aimed at UCT graduates who have completed the BCom (Actuarial Science)
specialising in Quantitative Finance degree. The programme consists of coursework and
Quantitative Finance research project.

Duration:
One year of full-time study.

**Bachelor of Commerce Honours specialising in ECONOMICS [CH001ECO01]**

**Convener:** K Eyal

**Entrance requirements:**
A bachelor’s degree or equivalent qualification with a major in Economics.
An average of at least 65% in their final year undergraduate Economics courses.
Students completing Economics-based programmes at UCT will require at least ECO3020F (Advanced macroeconomics and microeconomics), ECO3021S (Quantitative methods in Economics) and another third year level economics course to be considered for a place in the Honours Programme.
Prospective Economics honours students from outside UCT are required to have taken third-year Econometrics or equivalent and sufficient Mathematics (typically a full first year course) to gain admission to the honours programme.
Foreign students may need to provide assurance of their competence in the English language.
Recommendation of acceptance is at the discretion of the Director of the School of Economics.

**Programme outline:**
The programme is designed to expose good graduates to a range of specialised topics and to refine the skills needed to pursue a successful research and professional career.

**Duration of the programme:**
Offered over one year full-time. The programme begins in January.

**Prescribed curriculum [CH001ECO01]**
The programme comprises three compulsory courses and one compulsory non-credit-bearing pre-course in the first semester, four elective courses in the second semester, and a research paper.
The total credits for the standard programme is 134 NQF credits.

**Non-credit bearing pre-course**

* Business Science (Economics stream) students are required to take three options in addition to BUS4050W.

Subject to the approval of the Graduate Convener, students may substitute a maximum of one of the options with an NQF level 8 course of a similar credit value offered in another department.

ECO4112F is offered as a non-credit-bearing block course at the start of the first semester, and serves as a mathematical foundation course to subsequent courses. Students who obtain less than 40% for this course will not be allowed to continue with the programme.

Please consult the School of Economics section of this handbook for descriptions of the compulsory and elective courses in the semester.

### Assessment:

To qualify for the honours degree, students must pass 134 NQF (level 8) credits. Each course must be passed with 50%.

### Readmission rules:

Students must obtain at least 40% for ECO4112F in order to continue with the programme. Students who obtain less than 40% for ECO4112F will not be allowed to continue with the programme.

Supplementary exams will be offered for ECO4006F, ECO4007F and ECO4016F during the second last week of the June/July vacation, but no other supplementary exams will be offered.

Economics Honours students must have passed all core courses (ECO4006F, ECO4007F and ECO4016F) before proceeding to the second semester elective courses. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to take second semester electives at the discretion of the Head of Department.

Should students fail one elective course, they will be allowed to register for the same course or another elective in the second semester of the following year. Should a student fail more than one elective, they will be denied readmission.

Students that receive a subminimum of 40% for their research paper (ECO4021W), will be given one opportunity to revise and resubmit their paper before the start of the following academic year.
The revised research paper will be eligible for a maximum grade of 50%. Any student who fails ECO4021W after re-submission fails the degree.

**Distinction rules:**
The Honours degree may be awarded in “the First Class” if student has an overall average of at least 75% at first attempt, with a subminimum of 70% for the course work and for the research paper.

**Further programme specific administrative requirements:**
In addition to completing the University application form, students applying from outside of UCT must also submit the course outlines of their highest level Economics courses as well as the names and contact details of the two referees to the Graduate Administrator, School of Economics before 31 October. BBusSc students intending to proceed to Economics Honours in their 4th year must please notify the Graduate Administrator before 31 October. The programme commences in January.

**Bachelor of Commerce Honours**

*specialising in FINANCE [CH001FTX05]*

**Convener:** F.Toerien

**Entrance requirements:**
A bachelor’s degree from a recognised university with a major in Finance or Investment Science. Selection will be on the basis of academic performance and the University’s equity policy. As a general rule, a minimum of 65% in the major subjects would be expected, but this does not necessarily guarantee acceptance to the programme, which also depends on capacity and the quality of competing applications.

**Programme outline:**
The programme will prepare students for participation in the Finance Industry or for entry to further academic development in Finance by exposing them to advanced issues in Finance from both practical and theoretical perspectives. As well as mainstream asset classes they will also become familiar with various alternative investments.

**Duration:**
Offered over 1 year of full-time study.

**Prescribed curriculum**

*[CH001FTX05]*

</tbody>
</table>

**Assessment:**
Students must pass every course with at least 50% to qualify. Generally tests, tutorials and assignments during the year will be weighted 40-50% of the final year mark (as per the departmental entries).
Readmission rules:
Students will not be allowed to repeat compulsory (non-elective) courses. A student whose research report is given a mark of less than 50%, but who is allowed to make changes to the project and resubmit it, will be awarded a maximum mark of 50%.

Distinction rules:
Students with an overall weighted average of at least 75%, and a subminimum of 70% for FTX4051H, will be awarded the degree “in the first class”.

Bachelor of Commerce Honours (PART-TIME)
specialising in FINANCIAL ANALYSIS AND PORTFOLIO MANAGEMENT
[CH022ECO09-January Intake] [CH023ECO09- June Intake]

Convener: L Neethling

Entrance requirements:
A minimum requirement to be considered for admission is a bachelor’s degree from a recognised university with an average of at least 60% in the major subjects. Students must have completed at least a first-year semester (18 credits) course in each of statistics (STA1000 or equivalent) and mathematics (MAM1010 or equivalent) with a final grade of at least 60% for each course. Applicants who have completed more advanced courses in mathematics or statistics may be exempted from this requirement at the discretion of the convener. Applicants who do not meet these entry requirements may be considered for admission at the discretion of the convener and the Head of Department. In all such cases, applicants will need to demonstrate appropriate numerical ability.

Programme outline:
The honours programme aims to prepare students to participate as highly competent professionals in the financial sector of the economy. To this purpose the programme is comprised of a range of modules which include studies in economic principles of finance, analysis and interpretation of financial statements, statistical methods in finance, equity valuation, futures and derivatives, fixed income securities, portfolio management and securities legislation.
The structure is such that the graduate should be able to analyse financial situations at an executive level; to utilise advanced quantitative methods to make financial decisions based on financial forecasts; and to interact between different professions to form financial strategies.

Duration:
This is a 12 to 18-month programme with intakes in January and June.

Prescribed curriculum
[CH022ECO09/CH023ECO09]
Prescribed curriculum/structure:
The curriculum consists of eight courses (14 NQF credits each) and an honours research report (30 NQF credits). A total of 142 credits must be obtained. Each course is modularised for 4-6 weeks, with classes presented after hours. The honours research report (ECO4106F/ECO4106Z) is restricted to between 8,000 and 10,000 words and is generally commenced once the coursework has been completed. Exemption from this requirement to enable students to complete the programme requirements within 12 months is at the discretion of the convener. All courses listed below are compulsory.
Assessment:
To qualify for the honours degree, students must attain at least 50% for each course.

Readmission rules:
Students are allowed to re-register once for a maximum of 2 courses. Students who fail to meet the re-admission requirements will be deregistered from the programme. Students that receive a subminimum of 40% for the Honours research report will be allowed to revise and resubmit their report for re-examination within 4 weeks of receipt of their grade. The revised research report will be eligible for a maximum grade of 50%. No supplementary examinations are awarded.

Distinction Rule:
The degree may be awarded in “the first class” if a student has an overall average of at least 75% at first attempt, and if the candidate obtains not less than 70% for both the coursework component and the honours research report.

Bachelor of Commerce Honours
specialising in INFORMATION SYSTEMS [CH001INF01]

Convener: M Tanner

Entrance requirements:
Unless otherwise agreed by the Head of Department, internal UCT candidates will be expected to obtain an overall average of at least 65% for their third year IS major courses, and at least 55% for each course. Applicants must submit a detailed curriculum vitae (CV), and supply answers to questions relating to any past and present work experience and activities, awards, skills, and qualifications gained, involvement with the IS industry, their intended career progression, and motivation for enrolment in the course. Applicants from outside UCT should also submit an authorised academic transcript of their marks, and give contact details of two referees. They may also be requested to provide examples of their written or project work, and may be required to attend an interview.

Programme outline:
The full-time honours course caters for recent graduates with an Information Systems major. It covers the major issues and research contributions in the field of IS applications and management,
involves students in the research process, and increases their practical experience and knowledge of IS through the development of a team-based software project or through industry-based internship.

**Duration:**
One year full-time or two years with an integrated one year industry internship.

**Prescribed curriculum**

[CH001INF01]

**Readmission rules:**

Failing INF4026F or INF4025S implies:

a. Failing the Final Examination with less than 45%

b. Failing the Supplementary Examination with less than 50%

(i) A supplementary examination (in which the year mark is discounted) will be awarded for INF4026F and INF4025S to students who fail the examination with a minimum of 45%

(ii) Students shall not be permitted to repeat INF4026F and/or INF4025S if:

a. They failed INF4026F and/or INF4025S more than once

b. They failed INF4024W and/or INF4027W

(iii) For Students who fail INF4026F and/or INF4025S more than once, the following applies:

a. The degree will NOT be awarded to students registered for the Bachelor of Commerce Honours specialising in Information Systems programme

b. Students registered for the Bachelor of Business Science specialising in Information Systems programme (4th year), shall be advised to convert to a Bachelor of Commerce specialising in Information Systems programme and graduate.

(iv) Students with a deferred examination will be required to write the first available subsequent examination offered, generally the subsequent examination will be offered the next time the course is run. Students failing to write the first available examination will be classified as AB for the that examination. Enrolment in the programme may not be extended beyond 2 years.

**Distinction rules:**

The Honours degree may be awarded in “the First Class” if student has an overall average of 75% or more, with a subminimum of 70% for both coursework courses and the research course.
Further programme specific notes:
The programme starts a week before undergraduate term starts.

Further programme specific administrative requirements:
Students are expected to be employed by the department as undergraduate tutors.

Bachelor of Commerce Honours
specialising in MANAGEMENT INFORMATION SYSTEMS
[CH022INF01]

Convener: A Stander

Entrance requirements:
An appropriate bachelor’s degree, coupled with a minimum of three years’ work-appropriate experience. (An exception to the work experience criterion is made for the Business Analysis and Systems Analysis stream, because of the intensive way in which the course learning is embedded and interleaved in the specialised work practice of the students as interns in industry).

All applicants must submit a detailed curriculum vitae (CV), and supply answers to questions relating to relevant past and present work experience, skills and qualifications gained, involvement with the IS industry, their mathematical and English ability, their career progression, and motivation for enrolment in the course. Applicants may be required to write a Departmental entrance test.

Places may be limited and selection will be made by a Departmental committee. Allowance may be made for recognition of prior learning (RPL) as follows:

All non-degree candidates must have many years of proven IT/IS work experience at operational or management level that can be shown to have compensated for the lack of a degree. They should contact the Department of Information Systems to clarify the exact entry requirements. These will include a report detailing their life experiences to date (primarily since the completion of formal schooling) and covering personal, work, education and community experiences, closely aligning each experience or job to skills and competencies gained along the way.

Programme outline:
Learning objectives:
• To develop critical reading and writing skills
• To develop analysis and research skills
• To deepen expertise in Information Systems topics
• To prepare for research based postgraduate study

Duration:
A candidate shall register for a minimum of two years of part-time study.

</table>

Assessment:
An overall mark of at least 50% is required to pass the programme and a minimum of 50% must be obtained for both the coursework and research components.

Readmission rules:
Students are allowed to re-register once for a maximum of 2 courses. No supplementary examinations are awarded. Students with a deferred examination will be required to write the first available subsequent examination offered, generally the subsequent examination will be offered the next time the course is run. Students failing to write the first available examination will be classified as AB for that examination. Enrolment in the programme may not extend beyond 2 years.

Distinction rules:
The degree may be awarded in “the First Class” if student has an overall average of 75%, with a subminimum of 70% in the coursework and in the research.

Bachelor of Commerce Honours specialising in STATISTICS

[CH001STA07]

Convener: G Distiller

Entrance requirements:
The minimum requirements are MAM1000W (MAM1010 and MAM1012), one semester of Computer Science 1 plus one of the following two sets of 3rd year courses: Applied Statistics stream: STA3030F + STA3036S; OR Mathematical Statistics Stream: STA3041F, STA3043S. Applicants fulfilling the minimum requirements above with an average of 65% or more for their 3rd year courses (at first attempt) can be confident of admission into the programme. Students who do not achieve the 65% level will be considered on a case-by-case basis, taking into consideration.

Programme outline:
This honours in theoretical and applied statistics and operations research aims to build on and consolidate the undergraduate studies in Statistical Sciences by giving students a good theoretical basis through the teaching of core modules and by exposing them to many different areas of statistical sciences through the offering of several elective modules. It includes a significant computing component. It is geared towards preparing students for jobs in quantitative analysis in widely diverse fields in industry, finance, and medicine. It also offers training in research through supervised project work.

</table>
Assessment: Assessment is per module through examination and class assignments. Students are required to pass all core modules and the research project module.

Readmission rules:
The duration of the qualification is one year. No readmission is allowed. Students are not allowed to repeat any of the modules or the course as a whole. Students may take more than the minimum number of required electives and the best of the marks for the required minimum number of electives will be taken into account in calculating the final grade.

Distinction rules:
The degree may be awarded in “the First Class” if student has an overall average of 75%, with a subminimum of 70% in the coursework and research dissertation.

Further programme specific administrative requirements:
Electives may with permission of the programme convener be taken from honours modules in other departments. At most one elective may be substituted by an undergraduate course again with the approval of the programme convener and subject to NQF credit requirements.

Bachelor of Commerce Honours specialising in TAXATION
[CH001FTX11]

Convener: T Johnson

Entrance requirements:
BCom or BBusSc or equivalent undergraduate degree containing taxation course(s) in the final year of that degree and the pre-requisites for FTX4010F (Stream 1- CH001FTX11). Academic references for all applicants may be requested. A curriculum vitae (CV) and academic transcript is required on application. An entrance exam or interview may be required.

Programme outline:
This is offered full-time (in 1 year) or part-time (over 2 years) by coursework and technical report. The aims of this stream are to advance students technical taxation knowledge and practical skills, in order to prepare them to embark on careers in the tax field.

Prescribed curriculum

Assessment:
The student must achieve at least 50% in the FTX4010F and at least 50% in FTX4037S. Oral assessments may be substituted at the discretion of the convener for any of the written assessments. A minimum of 50% must be achieved for the technical report (FTX4035W) and the overall weighted programme result must be equal to or exceed 50%. Full-time students must complete all
components of the programme in the calendar year of registration, including meeting the submission
dates for the technical report. Part-time students are only required to submit the technical report in
the second year of registration.

Readmission rules:
Compulsory courses may not be repeated. No supplementary examinations are permitted. Provided
that they scored at least 40% at first attempt for FTX4035W, students may resubmit the technical
report once.

Distinction rules:
May be awarded in “the First Class” if student has an overall weighted average of at least 75%, with
a minimum of 70% in the coursework and in the technical report.

Further programme specific administrative requirements:
In addition to the university entrance requirements, a successful interview with representatives in the
Department of Finance and Tax may be required.

Bachelor of Commerce Honours in ORGANISATIONAL
PSYCHOLOGY
specialising in CHANGE MANAGEMENT [CH001BUS08]

Convener : A Boodhoo

Entrance requirements:
A bachelor’s degree with Organisational Psychology/Industrial Psychology/Human Resource
Management as a major subject. In order to qualify for selection into the programme applicants
should have an average mark of at least 65% for their third-year level organisational psychology
courses. BBusSc students from UCT may be eligible for enrolment in their fourth year of study, but
all students are subject to the selection process. Selection is based on academic performance and the
University’s equity policy. A student who successfully completes the degree will be awarded a
BComHons, BAHons, or BSocScHons, depending on the bachelor’s degree they obtained.

Programme outline:
The programme consists of coursework and a research project.
The central theme of the coursework of this programme is organisational change. This programme
aims to equip students with the knowledge and skills to act as change agents within an organisation.
The aim of the research component is to introduce students to the full cycle of a research project,
from formulating research questions to producing a research paper publishable in a journal in the
field of Organisational Psychology. Students who complete this component also will have a
fundamental understanding of the ethics involved in the research process.

Duration:
One year full-time. The programme commences in the first week of February. The duration of the
programme cannot be extended. Under special circumstances a leave of absence may be
recommended at the discretion of the Head of Department or the Faculty Manager.

Prescribed curriculum
[CH001BUS08]

</tbody>
</table>
Please note that students who have not taken any finance courses in their first degree must complete FTX1005F Managerial Finance.

**Assessment:**
BUS4006W: Each coursework module consists of formative and summative assessments. Students are required to obtain at least 50% for all coursework modules.
BUS4030H: Each chapter of the research project has an assessment weighting (literature review, method, results and discussion). Together with the final research report submission these draft submissions make up the mark for BUS4030H. Students are required to obtain at least 50% for the research report.

**Readmission rules:**
No component/module may be repeated.
Students who fail FTX1005F can repeat it, or if it is the only module outstanding for the award of the degree, can repeat it by means of a UNISA equivalent.
There are no examinations or supplementary examinations.

**Distinction rules:**
The degree may be awarded in the first class if students obtain an overall mark of 75% or higher and if they obtain not less than 70% for both the coursework and the research report components of the degree.

**Further specific administrative requirements:**
Students applying for Honours must apply in the year preceding that for which the application is made. The deadline for applications is as per the University’s specified date.
Master’s Degrees

Full Time: (CM006GSB16)
Modular: (CM025GSB17)
CM008 Master of Business Administration specialising in Executive Management (CM008GSB09)
Students who successfully complete their master’s will be awarded an MPhil, MBusSc or MCom depending on their academic history.

Entrance Requirements

FM2.1 Except by permission of the Senate a candidate for the degree must hold a four-year year bachelor’s degree or be an honours graduate of the University or a graduate of any University who holds a degree recognised by the Senate as being equivalent.

FM2.2 A person must comply with the admission requirements prescribed for the programmes for which he or she wishes to be admitted as a candidate.

FM2.3 Applicants whose first language is not English will be required to sit the TOEFL language test to verify fluency in English. Please refer to UCT Language Policy.

Registration

FM3.1 A candidate registering for a programme for which a date for registration is stipulated shall register on that date.

FM3.2 A candidate registering for the first time for a programme for which no date for registration is stipulated shall register no later than the last Friday in February; provided that any candidate who is registering for the first time may register after 1 May, but shall not be permitted to count the remainder of the year as part of the minimum prescribed period of study for the programme.

FM3.3 A returning candidate for a programme for which no date for registration is stipulated shall renew his/her registration not later than the last Friday of February every year.

FM3.4 The appropriate MoU (Memorandum of Understanding) must be completed by all Master’s candidates in the Faculty of Commerce prior to registration for the dissertation / research project course in their programme and is valid for up to a year. For those completing minor dissertations (60, 90 or 120 credits), an abridged MoU is completed in the first year. Masters by dissertation only candidates (180 credits) complete a full MoU in the first year. A full MoU must be completed by all students prior to re-registration every year.

Readmission

FM4.1 A candidate shall obtain permission from the Faculty Board for each succeeding year of registration and must satisfy the Board that there are adequate grounds for the granting of such permission. The Board’s decision shall be based on progress reports.

FM4.2 A candidate who has not been successful in terms of the requirements for a Master’s programme by coursework and dissertation in a particular field shall not be permitted to present himself / herself for a second time as a candidate for the same programme.

FM4.3.1 A full-time candidate is expected to complete the requirements for the degree within two years.

FM4.3.2 A part-time candidate is expected to complete the requirements for the degree within three years.

FM4.3.3 Satisfactory progress for research as per MOU
Examination
FM5.1 The dissertation must show an acquaintance with methods of research and afford evidence of independent critical power in the handling and interpretation of material already known or newly discovered. The dissertation may embody the original work of the candidate, with such acknowledged extracts from the work of others as may be pertinent. The examiners may require the candidate to submit to such written or oral examination as they deem necessary.

FM5.2 The dissertation must be satisfactory as regards literary presentation and referencing style. The dissertation must incorporate an abstract setting out objectives, methods and conclusions.

FM5.2.1 Research that involves human participants or the use of animals must undergo ethics review according to Faculty specific guidelines. Candidates must ensure compliance with the Faculty Ethics in Research policy prior to engaging in any research.

FM5.4 A candidate shall not be given credit for any work that has been submitted for a degree at any other university.

FM5.5 A candidate may present his/her work for examination at any time in the final term of the registration approved for him/her or thereafter, but where a candidate intends to submit his/her dissertation for examination in the hope of the award of the degree at either the April or December graduation ceremonies, he/she must inform the Registrar, in writing, of his/her intention to do so 6 to 8 weeks before submission of the thesis. The final dates for receipt of the dissertation for examination by the Registrar are 11 February or 01 June. The University does not however undertake to reach a decision on the award of the degree by any specific date.

FM5.6 When presenting his/her dissertation the candidate shall be deemed by so doing to grant a free license to the University to publish it in whole or part at any time in any manner or format which the University may deem fit. Any permission given by a candidate to publish work done by him/her under supervision for the degree shall be subject to this, and it shall be the responsibility of the candidate to satisfy the University that he/she is entitled to grant this license to the University of all such work of his/hers already published, as may be included in or comprise his/her dissertation. The University's right to this free license may, however, be waived in any case where, on the recommendation of the Board of the Faculty of Commerce, the Senate is satisfied that the whole dissertation has been or is being published in a manner satisfactory to the University. No publication may, without the permission of the University, contain a statement that the published material was, or is to be submitted in part or in full for the degree.

FM5.7 In the case of examination by coursework and dissertation, a candidate must obtain at least 50% for each coursework component and for the dissertation.

FM5.8 Unless otherwise specified, the dissertation component of a coursework Master’s degree shall be not more than 25,000 words in length, while that of a research Master’s degree shall be not more than 50,000 words in length.

FM5.9 A candidate shall comply with such other requirements for specific programmes as the Senate may prescribe.

FM5.10 A candidate shall not be permitted to graduate until any corrections and alterations
required by Senate have been made to the electronic copy of the dissertation.

FM5.11 Except with permission from Senate, a candidate whose dissertation has been returned for revision and resubmission must submit a revised dissertation for examination no later than one calendar year after the date of original notification of the revise and resubmit result. A candidate required to make minor revisions to the dissertation or research project before being allowed to graduate must submit such corrections within six months of notification from the Faculty Office. All submission must comply with the submission dates set in Rules above.

FM5.12 No candidate shall be invited more than once to revise and resubmit his/her dissertation.

FM5.13 A candidate whose dissertation is failed will not be allowed to present him/herself as a candidate for the Master’s degree again for the examination in the same field of study, but may, with the permission of Senate, be admitted to another field of study.

FM5.14 In the case of a dissertation submitted for re-examination, the resubmitted dissertation will either be awarded a passing grade of 50% or not passed.

FM5.15 A candidate must submit:

a. For examination a digital copy in the format specified
b. For graduation a digital copy of the final corrected version of the dissertation in the format specified for the Library; and
c. one copy of the final corrected version in temporary binding for each of the candidate’s supervisors, unless the candidates indicates that the supervisors have copies of the thesis.

Degree Requirements

FM6.1 A candidate for the degree shall register for at least one academic year.

FM6.2 A candidate shall undertake an approved research dissertation under the guidance of a supervisor appointed by the Senate;

FM6.3 Every candidate shall select a subject for intensive study and research from among the Fields of the Research listed above. On applying for admission he/she shall submit his/her choice of subject for approval and must satisfy the Senate as to the suitability of his/her subject and the programme of research which he/she proposes to follow and the conditions under which it will be carried out.

FM6.4 Every candidate must satisfy his/her supervisor(s) that his/her work is of an acceptable standard. Progress reports must be submitted by the supervisor(s) to the Faculty of Commerce annually before 31 November. If a candidate has not made sufficient progress with his/her research by that date the Senate may, on recommendation of the Faculty, refuse to renew his/her registration.

FM6.5 A candidate may present his/her work for examination at any time in the final term of the registration approved for him/her or thereafter, but where a candidate intends to submit his/her dissertation for examination in the hope of the award of the degree at either the April or December graduation ceremonies, he/she must inform the Registrar, in writing, of his/her intention to do so 6 to 8 weeks before submission of the thesis. The final dates for receipt of the dissertation for examination by the Registrar are 11 February or 01 June. The University does not however undertake to reach a decision on the award of the degree by any specific date.
**Distinction**

FM7.1 The degree may be awarded with distinction.

FM7.2 Unless otherwise specified, the Master’s degree will be awarded with distinction if the candidate obtains an overall average mark of 75% or higher and not less than 70% for any component of the degree.

**Change of registration from Master's to PhD**

FM8.1 The Senate may, on the recommendation of the Faculty Board and the candidate’s supervisor, change a candidate’s registration, prior to submission of the dissertation, on the grounds of the quality and development of the candidate’s work.

**NOTE:**
Candidates wishing to change their registration should submit the following to the Faculty Office:

FM8.2.1 Letter of motivation that must be signed by the supervisor, HOS/ HOD/ Director of GSB.

FM8.2.2 PhD research proposal with the approved coversheet.

**Publication**

FM9 No publication may, without the prior permission of the University, contain a statement that the published material was or is to be submitted in part or in full for the degree.

**Concessions**

FM10 Any exemption from or modification of the above rules shall be subject to the Senate’s approval.
MASTER’S DEGREES

MASTER’S BY DISSERTATION ONLY

Master of Business Science /Master of Commerce / Master of Philosophy [CM009/CM010/CM034]

The master’s by dissertation only is a research degree on an advanced topic under supervision offered by any department in the Faculty. Examination is by dissertation alone (180 NQF credits). Prospective candidates should consult the appropriate Head of Department, School or Section concerned to discuss both the proposed topic and the availability of suitable supervision. The Faculty Office should be contacted for details regarding the application process. Entry is by selection. Selection is based on academic performance and demonstrated research competence and the availability of suitable supervision.

Master of Commerce (by Dissertation only) 

specialising in INFORMATION SYSTEMS [CM010INF01]

Convener: M Kyobe

Entrance requirements:

Unless otherwise agreed by the Head of Department, candidates with a full-time or part-time IS honours degree from the Department will be expected to obtain a mark of at least 65% for their honours degree. Applicants must submit a detailed CV, and supply answers to questions relating to any past and present work experience and activities, awards, skills, academic and professional qualifications gained, involvement with the IS industry, and their intended career progression. They should state why they are seeking a postgraduate degree in Information Systems, indicate whether full-time or part-time study, and describe their preparation for postgraduate studies. They should describe previous research done in their honours year, and any research they may have done in industry, and list any publications, technical reports or conference proceedings they may have.

Applicants should give details of any course, for which they are currently registered, and an interim evaluation from appropriate instructors, as well as details of any registration cancelled or applications for postgraduate study refused by an academic institution. Applicants without the IS honours degree from UCT should also submit an authorised academic transcript of their marks, and give contact details of two referees. They are also required to provide electronic or hard-copy examples of their past research (preferably their honours research report), and may be required to attend an interview. Those whose home language is not English must provide evidence of English language proficiency.

Acceptance is at the discretion of the Head of Department, and places may be limited. In addition, applicants must provide a strong motivation for not following the usual coursework and dissertation route, detailed evidence of research methodology courses taken, and full evidence of research carried out (electronic or hard copies are required). They should also submit a five- to ten-page cited and referenced preliminary proposal of the research area intended for study. Only students with an exceptionally strong and broad research background will normally be accepted for this master’s route, and the vast majority of candidates will benefit from the coursework and minor dissertation option.

Students who successfully complete the programme will be awarded an MPhil, MBusSc or MCom depending on their academic history.
**Master of Philosophy (by Dissertation only) specialising in Inclusive Innovation (CM034GBS40)**

Convener: W Nilsson

**Entrance Requirements:**
Applicants must hold at least an NQF Level 8 qualification in Applied Science, Commerce, Humanities, Health Sciences, Arts, or other related degrees. Alternatively, applicants who have a three-year degree with three or more years of work experience may apply as RPL (Recognition of Prior Learning) candidates. All applications are reviewed on a case-by-case basis.

Applicants must have already demonstrated a desire for solving problems within the key themes of education, health, finance and digital inclusion; or have a passion to pursue an area they have already researched substantially.

**Programme description:**
The Master of Philosophy specialising in Inclusive Innovation (MPhil) is an interdisciplinary, research-based degree that leads to the development of sustainable solutions for challenges in Africa and elsewhere. Inclusive innovators who take this learning journey will travel through a rigorous academic curriculum right through to practical prototyping of new business models, processes, services or products that help create a more inclusive economy and society at large.

Unconstrained by set cultures or organisations, they will work together in a “living lab” environment, where expertise, life experience, passion and innovation all converge to support new possibilities and ideas. In this rich, integrative space, commercial, technological and social innovations all combine to further Africa’s future.

**Duration:** Minimum one year, with possibility of extending for a further year to complete the dissertation.

**Readmission rules:**
The programme cannot be repeated.

There are no examinations or supplementary examinations.

**Distinction rules:**
The degree may be awarded with distinction if a student obtains an overall mark of 75% or higher in the research proposal and dissertation component of the degree.
MASTER OF COMMERCE (BY COURSEWORK AND DISSERTATION)

MASTER OF COMMERCE
specialising in Financial Reporting, Analysis & Governance [CM031ACC13]

Convener: M Graham

Entrance requirements:
An honours degree or equivalent (An HEQSF level 8 qualification in Accounting and/or Finance or relevant work experience in Accounting and/or Finance or CA(SA)). Candidates may be required to present themselves for an interview.

Programme outline:
The qualification is part-time by coursework and a minor dissertation (60 credit minor dissertation or an option to complete a 90 credit minor dissertation). The focus of this qualification is on real world applications and the qualification will enhance the skills required to achieve leadership in accounting and corporate governance decision making. Specific theoretical applications include all areas of accounting, including financial reporting, integrated reporting, corporate governance, risk management and corporate financial analysis.

Duration:
This is a two-year programme, but students will be allowed to take up to three years to finish. Any subsequent registration requires faculty approval.

Prescribed curriculum
[CM031ACC13]
Minimum number of credits required is 180

NOTE 1: This course can be exchanged for a 4000/5000 level course approved by the Programme Convener and subject to meeting relevant course pre-requisites and approval from the Course Convener.
Assessment:
Assessment will involve case study submissions, and written examinations. Students are required to pass all courses. A sub-minimum of 50% is required for the dissertation and students are required to achieve an overall mark for the aggregated programme of at least 50% or higher.

Readmission rules:
Students may repeat a maximum of one course, once only.
No supplementary examinations are permitted.

**Master of Commerce**
**specialising in ACTUARIAL SCIENCE**[CM031BUS01]

Convener: P Botha

Entrance requirements:
Graduates, with an honours level degree, who have completed the CT-series of the Examinations of the Institute and Faculty of Actuaries (UK), OR equivalently, the A100 and A200-series of the Actuarial Society of South Africa (AS) will be considered.
Applicants must submit a detailed research proposal in advance and acceptance is subject to supervision capacity.

Programme description:
The Actuarial Science Section of the School of Management Studies offers a Master of Commerce specialising in Actuarial Science, recognising the need for high level actuarial skills. Candidates can undertake coursework at HEQSF levels 8 and 9 that could count towards final qualification as an actuary, specialising in their preferred area of expertise. In addition it affords the opportunity to focus on high level (HEQSF level 9) actuarial research and thereby develop intellectual independence, self-direction and originality in tackling and solving actuarial problems. The credit dissertation weighting allows students to qualify for NRF funding.

Duration:
The degree may be done full-time (typically over 2 years), but is often done on a part-time basis in which case it might take longer. Part-time students would generally not undertake more than one course per semester.

**Prescribed curriculum**
[CM031BUS01]
The Master of Commerce degree in Actuarial Science by coursework and dissertation would be completed by:

Coursework:
Prescribed courses (listed below), offered in conjunction with the University of Stellenbosch (72 credits at HEQSF levels 8 & 9); plus

Research: A dissertation (108 credits at level 9) - BUS5002W
Total: 180 credits

A candidate may apply for credit for up to 36 points towards coursework in respect of equivalent-level examinations passed through the UK or the AS, or at another university.
Assessment:
Students must pass the required number of prescribed courses with at least 50%, as well as pass the dissertation with a mark of at least 50%, to qualify.
The examinations count 50% to 100% of any one course depending on whether tests, tutorials and assignments are taken into account (as per the detailed course entries.)

Readmission rules:
Pass at least one course per year. Courses may only be repeated once.
No supplementary examinations are awarded.

Distinction rules:
Students with a weighted average for the coursework and dissertation in excess of 75%, including at least 75% for the dissertation, will be awarded the degree with distinction. Only those courses completed at UCT and counting toward the degree would be counted. The weighting would be by NQF credits with coursework counting a maximum of 72 credits.

**Master of Commerce**

*specialising in APPLIED ECONOMICS [CM031ECO08]*

Convener: RC Daniels

Entrance requirements:
- A mark of at least 65% in honours level Microeconomics, Macroeconomics and Econometrics respectively, with an overall average of at least 65% in an honours degree in Economics (4th year) or international equivalent. Before admission to the degree a candidate shall have completed quantitative courses in Econometrics, Microeconomics and Macroeconomics at honours level, or the equivalent.
- Applicants with degrees outside South Africa are encouraged (and in some cases may be required) to submit a GRE test score. A strong performance in the quantitative segment (above the 80th percentile) is expected.
- Students who have completed equivalent courses at the master’s level may apply for exemption, but not credit, from particular courses.

Programme description:
The School of Economics offers a Master of Commerce specialising in Applied Economics in recognition of the need for a flexible structure which allows students to focus on research while choosing a curriculum best suited to their abilities and interests. The aim is to equip students with essential research skills (both quantitative and writing skills) and knowledge in their chosen area of specialisation.

The 120 credit dissertation weighting allows students to qualify for NRF funding.
Duration:
Offered over two years full-time, beginning in January.

Prescribed curriculum
[CM031EC008]
This curriculum comprises two compulsory courses, two optional courses and a dissertation (ECO5066W).

Students taking ECO5046F or ECO5021F or ECO5020F are required to take ECO5011F Quantitative Methods for Economists as a co-requisite for these courses. It is non-credit bearing for this specialisation. Lecture attendance is compulsory. A candidate will ordinarily complete the prescribed courses in the first year, and will be expected to complete the dissertation within the following year. The qualification comprises 240 credits.

*Submission deadline:
The master’s dissertation must be submitted by 31 October of the second year.

Optional courses may be added or withdrawn at the discretion of the School of Economics according to circumstances each year. Students should check with the Department prior to registration, whether a particular option will be offered in that year.

Students may take one approved course from a cognate discipline as an optional course (in either semester).

Please consult the School of Economics section of this handbook for descriptions of the compulsory and elective courses.
Assessment:
To qualify for the degree, students must pass all courses including the research component to a value of 240 NQF credits. To pass a course, a student must obtain 50% for the course. Candidates are normally expected to complete all the coursework within one year. The 120 credit dissertation, which should be no longer than 25 000 words in length, is expected to be completed in the year following the coursework.

Readmission rules:
Students must obtain 50% for each course they take in order to pass the course. Students may not fail more than two courses (compulsory or elective). Students may repeat a maximum of two courses once, provided that they have submitted the required dissertation within the timeframe for submission. If a student fails an elective they may substitute it with another elective. There will be no supplementary examinations. Satisfactory progress for research as per the MoU (Memorandum of Understanding) which is to be signed at the start of the academic year. Submission deadline: The master's dissertation must be submitted by 31 October of the second year.

Distinction rules:
The degree will be awarded with distinction if the candidate obtains an overall average mark of 75% at first attempt, and if the candidate obtains not less than 70% for both the coursework component and the dissertation component of the degree.

Further specific administrative requirements:
The closing date for applications is 31 October. The programme begins in January.

Master of Commerce
specialising in ECONOMICS [CM031EC001]

Convener: RC Daniels

Programme description:
The objective of the masters by coursework is to equip students with the theoretical and technical knowledge required to practise as a professional economist in the public and private sector. All courses, including the compulsory theory courses, include theoretical and empirical applications to reflect the objectives of the degree.

Entrance requirements:
- A mark of at least 65% in Honours level Microeconomics, Macroeconomics and Econometrics respectively, with an overall average of at least 65% in an Honours degree in Economics (4th year) or international equivalent. Before admission to the degree a candidate shall have completed quantitative courses in Econometrics, Microeconomics and Macroeconomics at Honours level, or the equivalent. A candidate who has not completed these courses, or their equivalent, shall be required to complete these as preliminary work whilst registered as a candidate for the degree in addition to the prescribed courses.
- Applicants with degrees outside South Africa are encouraged (and in some cases may be required) to submit a GRE test score. A strong performance in the quantitative segment (above the 80th percentile) is expected.
- Students who have completed equivalent courses at the master’s level may apply for exemption, but not credit, from particular courses.
**Prescribed curriculum**  
*CM031EC001*

The degree comprises four compulsory courses in the first semester, two elective courses in the second semester, and a compulsory minor dissertation (60 credits). The degree runs over 12 months. The programme comprises 240 credits.

With the permission of the Graduate convener, students may be permitted to take one Master’s course (level 5000) from another Department.

Optional courses may be added or withdrawn at the discretion of the School of Economics according to circumstances each year. Students should check with the Department prior to registration, whether a particular option will be offered in that year.

**Assessment:**

To qualify for the degree, students must pass all courses including the research component to a value of 240 NQF credits. To pass a course, a student must obtain 50% for the course.

The research component is examined by way of a minor-dissertation (9 000-10 000 word journal article style) (60 NQF credits) which will be due early February in the year following the coursework.
Readmission rules:
Students must obtain 50% for each course they take in order to pass the course. Students may not fail more than two courses (compulsory or elective). Students may repeat a maximum of two courses once, provided that they have submitted the required dissertation within the timeframe for submission.
If a student fails an elective they may substitute it with another elective.
There will be no supplementary examinations.
Satisfactory progress for research as per the MoU (Memorandum of Understanding) which is to be signed at the start of the academic year.

Distinction rules:
The degree will be awarded with distinction if the candidate obtains an overall average mark of at least 75% at first attempt, and if the candidate obtains not less than 70% for both the coursework component and the dissertation component of the degree.

Further programme specific administrative requirements:
The closing date for applications is 31 October. The programme begins in January.

**Master of Commerce**

**specialising in ECONOMIC DEVELOPMENT [CM031ECO12]**

Convener: A Black

Entrance requirements:
An average of at least 65% in an Honours degree and with a three-year major in Economics in a bachelor’s degree except with special permission of the convener, a candidate shall have completed a quantitative course in Econometrics at 3rd year level or equivalent. Recommendation of acceptance is at the discretion of the programme convener and the Graduate committee.
Applicants with degrees from outside South Africa are encouraged (and in some cases may be required) to submit GRE test scores. A strong performance in the quantitative segment (above the 80th percentile) is expected.

Programme description:
The School of Economics offers a Master of Commerce specialising in Economic Development in recognition of the need for a flexible programme structure which allows students to focus on research while choosing a curriculum best suited to their abilities and interests. The aim is to equip students with essential research skills (both quantitative and writing skills) and knowledge in their chosen area of specialisation. The 120 credit dissertation weighting allows students to qualify for NRF funding.

Duration:
Offered over two years full-time. The programme begins in February.

Prescribed curriculum structure

[CM031ECO012]
This programme comprises two compulsory courses, two optional courses and a dissertation (ECO5066W).
Students taking ECO5046F or ECO5021F or ECO5020F are required to take ECO5011F Quantitative Methods for Economists prior to registering for these courses. It is non-credit bearing for this programme. Lecture attendance is compulsory.
A candidate will ordinarily complete the prescribed courses in the first year, and will be expected to complete the dissertation within the following year. The programme comprises 240 credits.
Compulsory courses: With the permission of the convener ECO5074F may be replaced with another approved method course.

**Master of Commerce**
*specialising in* ECONOMIC SCIENCE [CM031EC005]

Convener: RC Daniels

**Entrance requirements:**
A mark of at least 65% in honours level Microeconomics, Macroeconomics and Econometrics respectively, with an overall average of at least 65% in an honours degree in Economics (4th year) or international equivalent. Before admission to the degree a candidate shall have completed quantitative courses in Econometrics, Microeconomics and Macroeconomics at honours level, or the equivalent.
Applicants with degrees from outside South Africa are encouraged (and in some cases may be required) to submit a GRE test score. A strong performance in the quantitative segment (above the 80th percentile) is expected.
Students who have completed equivalent courses at the master’s level may apply for exemption, but not credit, from particular courses.

**Programme Description:**
The School of Economics offers a two-year coursework and dissertation-based Master of Commerce Economic Science degree. The objective is to prepare students with the theoretical and empirical knowledge required for research in Economics, including doctoral research. It provides training equivalent to the first two years of a good PhD programme at an overseas university.
The coursework content of the first year of the master’s stream is similar to that of the Master of Commerce Economics. In the second year, students are required to complete additional compulsory courses in microeconomics, macroeconomics, econometrics and other electives. In addition students are required to complete a compulsory 60 credit minor dissertation.

**Duration:**
Offered over two years full-time. The programme begins in January.

**Prescribed curriculum**
[CM031EC005]

**Prescribed curriculum:**
The curriculum consists of a number of compulsory courses and optional courses. The courses may be completed during any stage of the degree. Students are advised to follow the Master of Commerce Economics stream during the first year. A candidate will ordinarily complete the prescribed courses in the first year, and will be expected to complete the dissertation within the following year. The qualification comprises 360 credits.

**Compulsory courses**
70  MASTER OF COMMERCE (BY COURSEWORK AND DISSERTATION)

With permission of the Graduate Convener, a Master’s in Economic Science student may be permitted to take up to two master’s courses (30 NQF credits) from another department. Options may be added or withdrawn according to circumstances each year.

Optional courses may be added or withdrawn at the discretion of the School of Economics according to circumstances each year. Students should check with the Department prior to registration whether a particular option will be offered in that year.

Please consult the School of Economics section of this handbook for descriptions of the compulsory and elective courses.

Assessment:

To qualify for the master’s degree, students must pass all courses including the research component to the value of 360 NQF credits.

The dissertation is examined by way of a 60 credit minor dissertation (9 000-10 000 word journal article style) (ECO5023W) to be submitted before the start of the next academic year in the following year (3rd).

Readmission rules:

Students must obtain 50% for each course they take in order to pass the course. Students may not fail more than two courses (compulsory or elective). Students may repeat a maximum of two courses once, provided that they have submitted the required dissertation within the timeframe for submission.

If a student fails an elective they may substitute it with another elective. There will be no supplementary examinations.

Satisfactory progress for research as per the MoU (Memorandum of Understanding) which is to be signed at the start of the academic year.
Distinction rules:
The degree will be awarded with distinction if the candidate obtains an overall average mark of at least 75% at first attempt, and if the candidate obtains not less than 70% for both the coursework component and the dissertation component of the degree.

Further specific administrative requirements:
The closing date for applications is 31 October.

Master of Commerce
specialising in FINANCE in the field of FINANCIAL MANAGEMENT
[CM031FTX02]

Convener: F. Toerien

Entrance requirements:
An honours degree or equivalent.
Two years of relevant work experience.
Candidates may be required to present themselves for an interview.

Programme description: Part or Full-Time
The qualification is part-time by coursework and a 90 credit dissertation.
The aim is to equip successful candidates with the skills to perform research, analysis and valuations in all the areas of financial management, including capital markets, derivatives, corporate finance, accounting and company valuations.

Duration: Part time or one year full-time
The degree is offered over two years but many students take until their third year to finish. Any subsequent registration requires faculty approval.

Master of Commerce
specialising in FINANCE in the field of INVESTMENT MANAGEMENT [CM031FTX07]

Convener: P van Rensburg

Entrance requirements:
A relevant NQF level 8 qualification with an appropriate research component at a recognised university. At least an NQF level 7 course in finance (BUS3026W at UCT which, for the purposes of illustration, has the prescribed textbook Bodie, Kane and Marcus, “Investments”) or ECO4053S Financial Economics and second year level course in statistics (STA2020 at UCT) is required. A NQF level 8 course in finance (BUS4083W at UCT) is recommended. Most UCT applicants are likely to be BBusSc (FNC, FCA, QFN, ECO) or Honours in Financial Analysis and Portfolio Management and Honours in Economics graduates. The entrance requirements for non-UCT students being the equivalent to that of UCT students but achieved at another recognised university.

Only students who can attend full-time are admitted. Foreign students may need to provide evidence of their competence in the English language being of a sufficient level that they can engage in academic writing. Applicants must demonstrate a high level of academic and quantitative ability. In general, a grade point average of at least 70% is required over the candidate’s university career. Admission is competitive and the above does not guarantee admission. In certain cases, an interview may be required. Each year there is a selection process that takes into account academic ability, equity and capacity available. Recommendation for acceptance is at the sole discretion of the programme convener.

Upon application, a brief note or email indicating the candidate’s intention to apply, confirmation of his or her full-time availability, a brief curriculum vitae (CV) and full mark record (academic transcript) is to be provided.

Programme description:
The aim of the programme is to equip successful candidates with the skills to perform research, analysis and the valuation of instruments listed on financial markets. The programme is both practical and research orientated, requiring the study of econometrics, the review of empirical studies and, at minimum, a half-thesis research report.

Duration:
This is a full-time one-year programme. Graduation (after dissertation external marking and corrections) will typically be in June of the following year.

The degree may be awarded with distinction if a student has an overall average of at least 75% with a subminimum of at least 70% for both the coursework and dissertation.

**Master of Commerce**

*specialising in INFORMATION SYSTEMS [CM031INF01]*

**Convener:** M Kyobe

**Entrance requirements:**
Unless otherwise agreed by the Head of Department, candidates with a full-time or part-time IS honours degree from the Department will be expected to obtain a mark of at least 65% for their honours degree. Applicants must submit a detailed CV, and supply answers to questions relating to any past and present work experience and activities, awards, skills, academic and professional qualifications gained, involvement with the I.S. industry, and their intended career progression. They should also submit a one-page preliminary proposal of the research area intended for study. They should state why they are seeking a graduate degree in Information Systems, indicate whether full-time or part-time study, and describe their preparation for postgraduate studies. They should describe previous research done in their honours year, and any research they may have done in industry, and list any publications, technical reports or conference proceedings they may have. Applicants should give details of any course(s) for which they are currently registered, and an interim evaluation from appropriate instructors, as well as details of any registration cancelled or applications for postgraduate study refused by an academic institution. Applicants without an IS honours degree from UCT should also submit an authorised academic transcript of their marks, and give contact details of two referees. They are also required to provide electronic or hard copy examples of their past research (preferably their honours research report), and may be required to attend an interview. Acceptance is at the discretion of the Head of Department, and places may be limited. If they have a dissertation topic in mind, or a potential supervisor, they may mention them, but this is not required at this stage and generally decided later in the course.

**Programme description:**
This programme aims to provide practice knowledge in Information Systems topics; formalise and extend knowledge gained through work in industry; to develop critical reading and writing skills and to provide exposure to research objective; methods and techniques.

Students may choose between three Information Systems streams:
- IS Education and Educational Technology, which includes teaching and learning of IS, and the use of education technology as an aid to teaching and learning.
- ICTs and Innovation, which includes ICT innovations and the use of ICTs for innovation, The Internet, e-commerce, e-government, mobile phones, m-commerce, t-commerce, and other emerging technologies.
- IS Management, Knowledge Management, IS Project Management and IS Development, which includes issues related to IS management, knowledge management, the IS professional, project management, work teams, systems development, IS security, IT governance and computer forensics.
It gives candidates exposure to conducting research in a rigorous manner and producing a sound research dissertation. It provides access to doctoral programmes.

**Learning objectives:**
- To develop critical reading and writing skills
- To develop analytical and research skills
- To deepen expertise in Information Systems topics
- To prepare for research based postgraduate study

**Duration:**
A full-time candidate for the degree in Information Systems shall register for a minimum of one academic year whereas a part-time candidate for the degree shall register for a minimum of two academic years.
The course begins in February.

**Prescribed curriculum [CM031INF01]**
This degree is offered on either a full-time or part-time basis. Students will be required to complete the following two courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course</th>
<th>NQF Credits</th>
<th>HEQSF Level</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>INF5005W</td>
<td>Information Systems Masters Dissertation</td>
<td>90</td>
<td>9</td>
</tr>
</tbody>
</table>

**Assessment:**
INF5004W is assessed through a number of deliverables and INF5005W is assessed through a dissertation.
In order to be awarded the degree, the candidate must pass both INF5004W and INF5005W.

**Readmission rules:**
No course may be repeated and no supplementary examinations are awarded.

**Distinction rules:**
A distinction will be awarded if the candidate has achieved an average of at least 75% over the two courses and not less than 70% for either of them.

**Master of Commerce**
*specialising in TAXATION in the field of INTERNATIONAL TAXATION [CM031FTX09]*

**Convener:** C West

**Entrance requirements:**
BCom(Hons) (Taxation) or CA(SA) or LLB or equivalent acceptable qualification / experience (evidenced by a submitted portfolio of academic and practical experience). Professional and/or academic references for all applicants may be requested. A curriculum vitae and academic transcript is required on application. An entrance exam or interview may be required.
Programme description:
This is a part-time coursework and minor dissertation programme.

The aim of the programme is to equip successful candidates with the skills to be well rounded, competent practitioners in the international tax field; to assess the tax efficiency of commercial transactions; to do research; to draft legal opinions; to deal with SARS on behalf of clients; and, to prepare for and execute tax litigation.

Duration:
The programme is offered over two years, part-time. The programme starts in January. The first year consists of coursework (FTX5034F and FTX5033S) and a methodology course (FTX4036S). In the second year a minor dissertation is completed (FTX5032W).

The period to complete the dissertation may be extended at the convener’s discretion.

FTX5034F, and FTX5033S and FTX4036S are completed in the first year of registration and FTX5032W in the second year of registration.

Assessment:
FTX5034F and FTX5033S: A student must achieve at least 50% weighted across all assessments.

Oral assessments may be substituted at the discretion of the convener for any of the written assessments. A sub-minimum of 50% must be achieved for the minor dissertation (FTX5032W) on an international taxation topic and the overall weighted average programme result must be equal to or exceed 50%.

Readmission rules:
Courses may not be repeated.
No supplementary examinations are permitted.
Satisfactory progress for research as per the MoU (Memorandum of Understanding).

Further programme specific administration requirements:
A successful interview with representatives in the Department of Finance and Tax may be required.

Distinction rules:
The degree will be awarded with distinction if the candidate obtains an overall average mark of at least 75% or higher, and if the candidate obtains not less than 70% in the coursework component and in the dissertation component of the degree.

Oral assessments may be substituted at the discretion of the convener for any of the written assessments. A sub-minimum of 50% must be achieved for the dissertation (FTX5031W) on a taxation topic and the overall weighted average programme result must be equal to or exceed 50%.

**Readmission rules:**
Compulsory courses may not be repeated. No supplementary examinations are permitted. Satisfactory progress for research as per the MoU (Memorandum of Understanding).
Distinction rules:
The degree will be awarded with distinction if the candidate obtains an overall average mark of at least 75% or higher, and if the candidate obtains not less than 70% in the coursework component and in the dissertation component of the degree.

**Master of Industrial and Organisational Psychology**

**[CM037BUS028]**

Convener: TBC

**Entrance requirements:**
Entrance requires an honours degree in Organisational Psychology or Industrial Psychology. In order to qualify for selection into the programme applicants should have an average mark of at least 65% for their honours degree. Selection is based on academic performance and the University’s equity policy.

**Programme description:**
The degree consists of coursework and a research dissertation.
The programme is aligned with the Health Professions Council of South Africa’s scope of practice for the professional training of industrial/organisational psychologists. The programme aims to equip students with the knowledge and skills to perform the role of scientist practitioner. The aim of the dissertation is to assess whether students have mastered the principles of the research process and are able to apply these to a dissertation.

**Duration:**
One year full-time (both the coursework and the research dissertation are completed within the year of study). The programme commences in the last week of January.

**Prescribed curriculum**

Please consult the School of Management Studies section of this handbook for a list of the compulsory and elective modules in BUS5033W.

**Assessment:**
The coursework contributes 50% towards the final mark for the Master’s degree. Students are required to pass each module in order to pass the course. Students are required to obtain at least 50% for their dissertation. The dissertation component contributes 50% towards the final mark for the degree. Students are required to pass both the coursework and research components in order for the degree to be awarded.

**Readmission rules:**
BUS5033W cannot be repeated.

**Distinction rules:**
The degree may be awarded with distinction if students obtain an average mark of 75% or higher and subminimum of 70% for the coursework and research dissertation component of the degree.
Further programme specific administrative requirements:
Students applying for the Master’s programme must apply on-line using the university’s application system in the year preceding that for which the application is made. The deadline for applications is as per the University’s specified date.
MASTER OF PHILOSOPHY

Master of Philosophy specialising in DEMOGRAPHY [CM033BUS11]

Convener: T Moultrie

Entrance requirements:
An honours degree with at least a full, first-year university mathematics course; and second-year
statistics, or their equivalent. Some or all of these requirements may be waived at the discretion of
the Convener.

Programme description:
On completion of the qualification, an MPhil in Demography graduate will be able to demonstrate
professional competence in the core areas of demographic analysis and research. Included in this is
the clear demonstration of a capacity to apply and develop methods of demographic analysis that are
both theoretically informed and appropriate to the research (and research context) pursued. The core
competencies are indicated by the material suggested in the course outlines. Particular emphasis is
placed on training demographers capable of working with developing countries’ data and in other
situations where data are either non-existent or inadequate.

Duration:
The programme consists of coursework and research dissertation components. The coursework is
completed in the first two semesters of study. The dissertation is done in the third, and if necessary
subsequent, semester. Diligent students should be in a position to submit their dissertation in time
for the August submission deadline, and thereby graduate at the end of two years’ full-time study.

</tbody>
</table>

Assessment:
Students must pass every compulsory course with at least 50%, as well as passing the dissertation
with a mark of at least 50%, to qualify. A minimum of 180 NQF credits are required for the award
of the degree.

Students who score less than 50% for either DOC5002S or DOC5003S will only be allowed to
continue their registration (and to repeat the failed course(s) in the following year) on appeal to,
and with approval given by, the Convener.
Readmission rules:
Students who score less than 50% for DOC5001F are ineligible to continue their registration in that year and will be deregistered from the programme.
DOC5002S and DOC5003S may only be repeated with the approval of the Programme Committee. Other courses may be repeated as required.
No supplementary examinations are awarded.
Satisfactory progress for research as per the MoU (Memorandum of Understanding).

Distinction rules:
Students with a weighted average for the coursework and dissertation of at least 75%, including at least 75% for the dissertation, will be awarded the degree with distinction. Students who have repeated any course required for this degree will not be eligible for distinction. The degree may be awarded with distinction in the dissertation if the student achieves 75% for the dissertation, but does not achieve 75% for the coursework component.

Further specific notes:
Scholarships are awarded to students on a competitive basis. The number of awards each year is not fixed, and scholarships will be awarded to students at the discretion of the Programme Committee.

**Master of Philosophy**

*specialising in MATHEMATICAL FINANCE [CM033BUS18]*

Convener: D Taylor

Entrance requirements:
There are limited places on the degree and admission is based on merit.
Applicants must have an honours (or four-year equivalent) degree from one of the Faculties of Science, Commerce or Engineering.
Applicants should be aware that this is predominantly a mathematical degree and preference will be given to candidates with a strong background in a mathematical science.
Admission is at the discretion of the admissions committee and meeting the minimum requirements does not guarantee acceptance.

Once admitted, candidates must pass or gain credit for the pre–courses to continue with the degree.

Programme outline:
The African Institute of Financial Markets and Risk Management in association with the School of Management Studies offers an MPhil in Mathematical Finance by coursework and dissertation. The programme has been designed to accommodate students from a wide variety of backgrounds. This degree is mathematical in nature and requires a high level of skill in statistics and mathematics. The programme is intensive and challenging, and combines training in applied mathematical, statistical and computing skills with a solid understanding of financial markets and asset pricing theory. It consists of 2 preliminary courses that run 4 weeks prior to the start of the rest of the degree, 150 credits of coursework and a 60 credit minor dissertation. Graduates of this degree are well-equipped for careers in the most sophisticated areas of investment banking, asset management, risk management, or any career where a solid quantitative finance or financial engineering background is useful. They may also pursue doctoral research in quantitative finance.
Duration:
The degree is only offered full-time over one year; it begins in January and ends in January of the following year. With the approval of their supervisor, a student may be permitted to re-register for the dissertation in the year following coursework, but fees will be payable.

Prescribed curriculum
[CM033BUS18]

</table>

The objective of the courses DOC5045F, STA5089Z and DOC5038Z is to harmonise knowledge of the fundamental tools in statistics, computational mathematics and finance needed to follow the remainder of the programme. A full course (30 NQF credits) typically consists of 48 contact hours. However, the specific organisation of each course will be adapted according to the learning needs.

Assessment:
To qualify for the degree, the student must achieve the following:
Pass or gain credit for the pre-courses, STA5089Z and DOC5038Z, and the co-requisite course, DOC5045F.
Pass courses totalling (at least) 150 credits (including the compulsory courses).
Pass the dissertation, which carries an additional 60 credits.

Readmission rules:
Any candidate who fails any of the courses required for successful completion of the degree, during the first year of registration, will be allowed to repeat a maximum of two courses in the following academic year.
Courses may only be repeated once.
DOC5005W, DOC5045F, STA5089Z and DOC5038Z may not be repeated.
Distinction rules:
The degree will be awarded with distinction if the candidate obtains a weighted average mark of at least 75% for the coursework component of the degree, and a grade of "Distinction" for the dissertation.

Further specific administrative requirements:
In addition to completing the University application form, an applicant must submit academic transcripts and a Curriculum Vitae. Application for the following year must be made by 30 September.

Master of Philosophy
specialising in PROGRAMME EVALUATION [CM033BUS015]

Convener: S Chapman

Entrance requirements:
The minimum admission requirements is an honours degree or a four-year professional bachelor’s degree at NQF level 8. Both types of degree should include a component in quantitative research methods. Please note that a bachelor’s degree or an NQF level 7 or below is not accepted. In order to qualify for selection students should have achieved an average of 65% for their honours / four-year professional bachelor’s degree.

Please consult the School of Management Studies section of this handbook for a list of the compulsory and elective modules in BUS5037W.

Programme description:
This is a one and a half-year full-time programme (both the coursework and dissertation are completed within the year and a half of study) commencing in the first week of February.
The programme consists of coursework and a research dissertation.
The coursework comprises five compulsory modules that run from February to October, and aims to equip students with advanced programme evaluation knowledge and skills. The research dissertation runs for 12 months, commencing in July of the year of registration, and concluding with submission of the dissertation the following year. The dissertation aims to assess whether students have mastered the principles of programme evaluation, are able to apply these to a real-life programme that they are expected to evaluate. Students who successfully complete the degree will be awarded an MPhil.

Assessment:
The coursework component contributes 50% towards the final mark for the master’s degree. Students are required to pass each module in order to pass the course.
Students are required to obtain at least 50% for their dissertation.
The dissertation component contributes 50% towards the final mark for the degree.
Students are required to pass both the coursework and the dissertation in order for the degree to be awarded.
Readmission rules:
The programme cannot be repeated.
There are no examinations or supplementary examinations.

Distinction rules:
The degree may be awarded with distinction if students obtain an overall mark of 75% or higher and a subminimum of 70% for both the coursework and research dissertation component of the degree.

Further specific administrative requirements:
Students applying for the Master of Philosophy (Programme Evaluation) must apply online using the University’s application process by the end of November in the year preceding that for which the application is made.

Master of Philosophy in Development Policy and Practice
[CM033DPP01]

Programme Convener: B Levy

Entrance requirements:
An Honours degree or its equivalent;
Five years of professional experience, with an orientation towards public service.

Programme description:
The degree will offer a structured and sustained learning opportunity, at the cutting edge of global knowledge and experience, with abundant opportunities for applied research on effective approaches and practices of public policy design and implementation in developing countries. The degree is offered on a part-time basis over a two-year period. Each semester will commence with a two-week intensive period in residence in Cape Town, followed by interactive distance learning, organized around practical problems from participants’ workplaces.

The first year compulsory curriculum is designed to address the challenge of designing, winning support for and implementing new programmes in government. It will strengthen students’ capacities to:

- Analyse how governance, political economy and institutional shortfalls influence outcomes – and explore practical ways of moving forward which take these institutional realities into account;
- Build organisational capabilities and effectiveness through careful diagnosis and adaptation to prevailing constraints and opportunities.
- Operate in one or more key policy areas, such as economic development, environmental sustainability or health policy;
- Become increasingly skilful leaders – with a strong focus on personal development and people-management; offered in partnership with the Graduate School of Business;
- Undertake applied research that both addresses practical policy and implementation challenges and meets requisite standards of rigour.

This compulsory curriculum will be taught by an eminent, globally-recognised faculty, who will bring to the classroom a rich combination of research eminence and practical experience at senior levels of policy-making and implementation.

The second year programme will build on the academic resources of the different faculties at the University of Cape Town, as well as those of local and international partners. A number of subject
areas will be introduced, from which students can select for in-depth work, potentially including: health care; trade, industrial policy and export promotion; climate change mitigation and adaptation; infrastructure and its regulation; labour markets and employment; governance and justice; information and transparency. In addition, as part of the second year programme, students will write a minor dissertation on an applied policy topic.

**Duration:**
Two years on a part-time basis

**Prescribed curriculum**

**Assessment:**
Assessments will include written assignments. For some courses, there will also be a written examination. Assessment will include application of analytical policy skills to workplace challenges.

**Readmission Rules:**
Students who fail may repeat a maximum of two courses of the coursework once, provided that they scored at least 40% on the first attempt. There will be no supplementary examinations.

**Distinction rules:**
The degree will be awarded with distinction if the candidate obtains an average mark of at least 75% for the coursework component of the degree; and not less than 75% for the dissertation.

**Further specific administrative requirements:**
In addition to completing the University application form, the applicant must submit a Curriculum Vitae, referee details and motivation with a covering letter. Applications should be submitted by 30 September. Late applications will be accepted only in exceptional circumstances. The programme begins in January.

**Master of Philosophy in People Management** [CM033BUS19]

**Convener:** S Goodman

**Entrance requirements:**
The minimum admission requirement is an honours degree in Human Resources or Organisational Psychology / Industrial Psychology and a minimum of three years’ work experience in the field of human resources. In order to qualify for selection into the programme applicants should have an average mark of 65% for their Honours degree. At the discretion of the Head of Section, applicants who do not have an Honours degree in these fields or the required mark in the Honours degree, but
have at least eight years of work experience in the field of human resources may receive recognition of prior learning. Such candidates may be required to write specialised admission tests.

Please consult the School of Management Studies section of this handbook for a list of modules in BUS5003W and BUS5004W

**Programme description:**

It is a two-year part-time programme (both the coursework and dissertation are completed within the two years of study) commencing in March. The duration of the programme cannot be ordinarily extended.

The programme consists of coursework and a research report.

The research project aims to assess whether students have mastered the basic principles of practical and applied research. Students who successfully complete the degree will be awarded an MPhil.

**Assessment:**

The coursework component contributes 66% towards the final mark for the master’s degree. Students are required to pass each module in order to pass the course. Students are required to obtain at least 50% for their project. The project component contributes 34% towards the final mark for the degree. Students are required to pass both the coursework and the research report in order for the degree to be awarded.

**Readmission rules:**

The programme cannot be repeated. There are no examinations or supplementary examinations.

**Distinction rules:**

The degree may be awarded with distinction if students obtain an overall mark of 75% or higher and a subminimum of 70% for both the coursework and research dissertation component of the degree.

**Further specific administrative requirements:**

Students applying for the Master of Philosophy (People Management) must apply online using the University’s application process by the end of October in the year preceding that for which the application is made.
Master of Philosophy

specialising in FINANCIAL TECHNOLOGY [CM033BUS29]

Convener: A/Prof C-P Georg

Entrance requirements:
There are limited places on the degree and admission is based on merit. The minimum admission requirements are an NQF level 8 qualification (honours or four-year equivalent degree).

Admission is at the discretion of the Admissions Committee and meeting the minimum requirements does not guarantee acceptance.

Programme outline:
The African Institute of Financial Markets and Risk Management in association with the Department of Statistical Sciences offers a full-time and part-time MPhil specialising in Financial Technology by coursework and dissertation. The qualification is intensive and challenging, and combines training in financial, statistical, and computing skills with a solid understanding of financial markets and financial innovation. It consists of 120 credits of coursework and a 60 credit minor dissertation, all of which can be completed within one year.

The primary objective of this master's degree is to equip students with the necessary technological, methodological, and research skills for the emerging field of financial technology. Admission to this degree is open for students from a broad range of backgrounds, but prior coding experience is helpful and a healthy interest in software development is a prerequisite. Students will graduate with a deep understanding of the core principles of financial systems, and a thorough knowledge of the concepts, tools, and systems of modern information technology.

Upon successful completion, candidates should be well equipped for careers in all areas of financial technology in the financial services, and the information technology sector; and to pursue doctoral research within the broad fields of quantitative finance, statistics, and computer science. The programme has been designed to accommodate students from a wide variety of backgrounds.

Duration:
The degree is offered over one year, full-time or two years, part-time and begins in February.

Assessment:
To qualify for the degree, the student must pass all of the prescribed courses and the minor dissertation.

Readmission rules:
If a student fails any number of the courses during their first year of registration, they will be permitted to repeat this/these course/s in the following academic year. A failed course may only be repeated once.

Distinction rules:
The degree will be awarded with distinction if the candidate obtains a mark of 75% or higher for each of the prescribed courses and the minor dissertation.

Further specific administrative requirements:
In addition to completing the University application form, the applicant must submit academic transcripts, a Curriculum Vitae and a letter of motivation. Application for the following year must be made by 30 September.
**Master of Applied Finance [CM040FTX15]**

**Convener:** F Toerien

**Entrance requirements:**
An Honours degree or equivalent, ideally in finance or a related discipline.
Two years of relevant work experience.
Candidates may be required to present themselves for an interview.

**Programme outline:**
The programme consists of three coursework modules and three practical research components. The aim is to equip successful candidates with the skills to perform research, analysis and valuations in all the areas of financial management, including capital markets, derivatives, corporate finance, accounting and company valuations. Lectures are face-to-face, typically in the evenings and Saturday mornings, and thus requires a presence in Cape Town.

**Duration:** **Part time or one year full-time**
The degree is offered over two years but many students take until their third year to finish. Any subsequent registration requires faculty approval. It is possible to complete the degree in one year full-time subject to the Programme Convener's permission.

**Prescribed curriculum**

Total credits for the year .......................................................... 180

**Assessment:**
Students need to achieve a mark of 50% or higher, for all six components of the course.

**Readmission rules:**
Courses may not be repeated.
No supplementary examinations are permitted.

**Distinction rules:**
The degree may be awarded with distinction if a student has a weighted average of at least 75% for the three coursework modules as well as a weighted average of at least 75% for the three research components.

**Further specific administrative requirements:**
- Successful interview by representatives of the Department of Finance and Tax.
- Selection of a supervisor and a signed memoranda of understanding between student and faculty member/s.
Master in DEVELOPMENT POLICY AND PRACTICE [CM038DPP01]

Convener: B Levy

Entrance requirements:
The minimum admission requirements will be: an approved postgraduate diploma or honours degree (NQF Level 8); fluency in English, both written and spoken (requirements outlined in the UCT Directions for Applicants); basic computer literacy and relevant work experience. The academic components of these admission requirements are aligned with the university’s admission policy.

Programme outline:
Graduates of the Graduate School of Development Policy and Practice Masters programme will have an enhanced professional and leadership capability, underpinned by an integrated, well-rounded understanding of the challenges of development policy and practice, and of the need for evidence-based research to inform policy design and implementation, grounded in applied research methodologies. This will prepare them to lead in the public sector in a way which:

- Takes an holistic view of development challenges, especially in the African context, based on specialist knowledge which enables them to address these complex challenges both systematically and creatively and understand the consequences of their problem solving;
- Is based on a command of relevant methods, techniques, processes and technologies which facilitate enquiry and the making of sound judgements in specialised contexts;
- Is anchored in cutting edge comparative global knowledge and experience, as well as exploring African continental knowledge and experience, enabling graduates to critically evaluate current and historical knowledge and identify appropriate methodologies for enquiry and action;
- Recognises the difficult ‘balancing acts’ associated with development policy formulation and implementation (e.g. difficult technical and ethical choices, and balancing the needs and demands of competing stakeholders in particular contexts) and directly addresses these in policy formulation and implementation, and develops significant insights;
- Enables them to design, implement and manage policy processes with a strong focus on communication with a range of audiences and the engagement of relevant stakeholders;
- Develop their competencies as motivated, self-regulated, lifelong learners in today’s technological age, who can devise their own learning strategies for sustained, independent learning, in both formal and informal learning contexts, for academic or professional development.

Duration:
The degree is offered on a part-time basis over a two-year period. Each semester will commence with a two-week intensive period in residence in Cape Town, followed by interactive distance learning, organized around practical problems from participants’ workplaces.

Research Design and Proposal Development ................................ 15 9
Research Project ............................................................................ 45 9

There will be no supplementary exams.

**Assessment:**
Assessments will include written assignments. For some courses, there will also be a written examination. Assessment will include application of analytical policy skills to workplace challenges

**Readmission rules:**
Students who fail may repeat a maximum of two courses of the coursework once, provided that they scored at least 40% on the first attempt.

**Distinction rules:**
The Degree will be awarded with distinction if the candidate obtains an average mark of at least 75% for the coursework component of the degree, and not less than 75% for the Research components.

**Further specific administrative requirements:**
In addition to completing the University application form, the applicant must submit a CV, referee details and motivation with a covering letter. Applications should be submitted by 30 September. Late applications will be accepted only in exceptional circumstances. The programme begins in January each year.

**Master of Commerce in Development Finance [CM035GSB30]**

**Convener:** N Biekpe

**Entrance requirements:**
A four-year qualification or honours degree in Economics, Commerce, Accounting, Finance, or another finance-related degree with a good quantitative background, or a four-year qualification or honours degree in non-finance related disciplines with at least 3 years’ experience in finance-related work with a good quantitative background; in particular, students working for development finance institutions, banking and non-banking institutions, government-linked development finance departments/institutions and NGOs working in the area of development finance.

**Programme description:**
The primary purpose of this programme is to provide advanced training in development finance, and to establish a platform for sustainable development finance research. On completion, the student will have acquired the skills and capabilities to critically analyse the techniques and procedures for financial sector development, financial management and issues on finance for development in a developing and emerging market context; to apply these techniques and procedures in a professionally competent manner; to undertake independent research, and to present research findings in a form that can be disseminated effectively to users.

**Duration:** Two years.
Prescribed curriculum

Programme Convener:
N Biekpe

Students will be required to obtain 108 credits from compulsory courses, 12 credits from elective courses and 60 credits from their research report.

</tr>
</tbody>
</table>

Submission deadline: The minor dissertation must be submitted by 5th December of the second year.

Assessment:
To obtain the qualification, a student must pass all nine compulsory courses and one elective course with individual marks of at least 50%. In addition to this, the student must also complete an independent research report with a mark of at least 50%. A course in Research Methods is also compulsory and will be used as a pre-requisite to the research report.

Failed Course Assessment: At the first and only attempt of repeating a failed core course, the following assessments criteria will apply: Assignment 40%; Final Exam 60%. The overall assessment of a repeat/failed course will be capped at 50%. Where a student is absent from an exam, the second attempt will be capped at 50%.

Distinction rules:
The degree will be awarded with distinction if the candidate obtains a weighted average mark of at least 75% for the coursework of the degree, and at least 75% for the dissertation.
Readmission rules:
Students must pass at least 6 of the compulsory courses.
Students may be permitted to reregister for a compulsory course only once and for a maximum of 3 courses.
If a student fails an elective, they are required to substitute it with another elective.
Supplementary examinations are not granted.
Students must complete coursework within a maximum period of 3 years.
The Master of Commerce in Development Finance programme cannot be repeated.

Master of Business Administration
[CM006GSB16 – Full time]/[CM025GSB17 – Modular]

Convener: M Jere

Entrance requirements:
 Applicants should:
- Be 25 years or older;
- Have a minimum of three years’ work experience;
- Have completed either a bachelor honours degree or postgraduate diploma or a cognate bachelor's degree equivalent at NQF level 8 through relevant work experience. Candidates not meeting the degree requirement can apply through the Recognition of Prior Learning (RPL) route and submit the Portfolio of Learning (POL) assessment form.

All applicants are required to write the Graduate Management Admissions Test (GMAT) and obtain a minimum score of 550.
All applicants are required to submit a CV, two referee reports and personal motivations in the form of three essays that will be used for selection purposes.
Selected applicants will be required to take part in an interview.

Programme description:
The MBA curriculum is structured around 16 compulsory courses that are designed to familiarise the student with the landscape in which business operates, provide a solid grasp of the fundamentals of management, and offer opportunities to integrate learning into holistic frameworks that are sensitive to the key challenges that organisations face today.

Students also complete a series of electives to enhance their knowledge and expertise in key specialist areas that they have chosen to focus on.

In addition to the compulsory and elective courses, the research report tests the ability of students to apply analytical skills and knowledge gained on the programme to a particular area of business. Students need to research a specific topic, collect methodologically robust data, interpret the data and apply the findings to resolve the research question. The exercise challenges the student to become acquainted with the current literature in a specific field, to make independent critical evaluations of contending points of view and to show understanding of the theory and its implications to practice.

The overarching goal of the MBA is to prepare graduates to make significant contributions to socio-economic challenges with a focus on emerging markets.

Duration:
One year (full time) or two years (modular).
Prescribed curriculum
[CM006GSB16/CM025GSB17]
The MBA is accredited with 210 NQF credits per programme; 190 from compulsory courses and 20 from elective courses.

Assessment:
Courses are assessed by means of class and mid-term tests; individual and group assignments; presentations; and final examinations/report submissions.
In order to pass a course, students must obtain a DP as stated in the individual course outline as well as a minimum of 50% on individual assessment components.

Readmission rules:
Semester 1 (terms 1 and 2 of the GSB academic calendar)
A student must obtain a minimum of 105 out of 115 credits in semester 1 in order to proceed to semester 2 (term 3).

Semester 2 (terms 3 and 4 of the GSB academic calendar)
Except with the permission of Senate, a student shall not be permitted to renew registration if she or he fails more than 10 compulsory credits and/or fails more than 20 elective credits.
Satisfactory progress for research report.

Degree rules:
1. Of the 210 credits required for the MBA degree, students must pass 180 credits from the compulsory courses and at least 20 credits from the elective courses.
2. With permission of the Director of the GSB, a student may be permitted to register for a maximum of 30 elective credits.
3. A student is permitted to repeat or substitute a maximum of 10 elective credits.

Distinction rules:
Students with an average for the coursework and dissertation of at least 75%, including at least 75% for the dissertation, will be awarded the degree with distinction.

Master of Business Administration specialising in Executive Management [CM008GSB09]

Convener: K Sewchurran

Entrance requirements:
Admission is subject to a selection process. Applicants should:
- Have a minimum of ten years of management experience.
- Have completed either a Bachelor Honours degree or Postgraduate Diploma or a cognate Bachelor's Degree equivalent at NQF Level 8 through relevant work experience. Candidates not meeting the degree requirement can apply through the Recognition of Prior Learning (RPL) route and submit the Portfolio of Learning (POL) assessment form.
- Take the Graduate Management Admissions Test (GMAT) and obtain a minimum of 550 points OR write the Modified Career Path Appreciation assessment (MCPA). Applicants are required to write the National Benchmark Test (NBT) if they did not obtain a minimum of 550 in the GMAT. This test, developed by the University of Cape Town, provides additional insight into the candidate’s verbal and quantitative abilities and is assessed in conjunction with the GMAT or MCPA results and other indicators.

Selected applicants are required to take part in an interview.

All applicants are required to submit a curriculum vitae, two referee reports and personal motivations in the form of 3 essays that will be used for selection purposes.
Duration:
The programme runs over two academic years.

Prescribed curriculum
[CM008GSB09]

</tbody>
</table>

Distinction rules:
To graduate with distinction, students must have a mark of 70% or more for courses 1 to 5, a mark of 75% for the dissertation and a total average of 75% overall.

General rules:
Students must comply with the general rules for Master’s degrees in the university’s Handbook 3. Students are also required to comply with the terms and conditions contained in the EMBA Administrative Manual.

Assessment:
The outcomes of each course are assessed by means of both group and individual assignments. In order to pass a course, students must obtain a DP as well as a minimum of 50% on all individual assessment components.

DP requirements:
Students are required to complete 70% of the inter-modular submission requirements.

Class attendance:
Requests for absence from class must be submitted at least seven working days prior to the required attendance dates. Only six days’ absence is permitted during the course of the programme, with a maximum of two days per course. All lectures missed require a 500-word review (per lecture) to ensure that learning is not lost and that students continue to contribute meaningfully to group work. Absence without written acceptance is considered a breach of the duly performed criteria.

Leave of absence:

Award of the degree:
The MBA specialising in Executive Management is accredited with 210 credits. Students must pass all courses with a minimum of 50% in each in order to qualify for the Master of Business Administration specialising in Executive Management degree.
Readmission rules:
• As each course is a prerequisite for the next course; students must pass each course in order to be readmitted to the next course. Except with the permission of Senate – or their delegated authority – students will not be permitted to proceed if they have failed a course.
• There are no supplementary examinations.

Further programme specific administrative requirements:
Applications for admission must be submitted by 31 October in the prior year.

Master of Commerce (by Coursework and Dissertation) in Risk Management of Financial Markets [CM036BUS24]

Convener: D Taylor

Entrance requirements:
There are limited places on the degree and admission is based on merit. Applicants must have an Honours (or four-year equivalent) degree.

The minimum admission requirements are:
☐ An Engineering degree from any sub-discipline

OR
☐ An NQF Level 8 qualification (honours or four year equivalent degree with)
☐ At least 18 credits of Mathematics at HEQSF level 5 (MAM1010F at UCT)
☐ At least 18 credits of Microeconomics at HEQSF level 5 (ECO1010F at UCT)
☐ At least 18 credits of Macroeconomics at HEQSF level 5 (ECO1011S at UCT)
☐ At least 18 credits of Statistics at HEQSF level 5 (STA1000S at UCT)

Admission is at the discretion of the admissions committee and meeting the minimum requirements does not guarantee acceptance.

Programme outline:
The African Institute of Financial Markets and Risk Management in association with the School of Management Studies offers a full-time professional MCom in Risk Management of Financial Markets by coursework. The primary objective of this professional Master’s degree is to equip students with the necessary methodological, regulatory and research skills for financial market risk management. The requisite technical skills cover fundamental mathematics, statistics, econometrics, and computing. The prescribed courses aim to instil the application of technical skills to modelling complex financial and economic concepts, and thereby enhancing the understanding thereof.

The qualification is intensive and challenging, and combines training in mathematical, statistical, econometric, and computing skills with a solid understanding of financial markets and risk management. It consists of 180 credits of coursework including a research component, all of which can be completed within one year. Upon successful completion, candidates should be well equipped for careers in sophisticated areas of risk management in the financial services sector; and to pursue doctoral research within the broad fields of financial risk management or quantitative finance. The programme has been designed to accommodate students from a wide variety of backgrounds.

Duration:
The degree is offered over one year, full-time and begins in February.

Assessment:
To qualify for the degree, the student must pass all four of the prescribed courses.

Readmission rules:
Except with the permission of Senate, a student will not be permitted to renew registration in the degree if he or she
(a) fails DOC5011W (Risk Management Quantitative Modelling) or DOC5012W (Risk Management Research)
(b) fails both DOC5010S (Risk Management Governance) and DOC5013W (Risk Management Markets)
If a student fails only one of DOC5010S (Risk Management Governance) or DOC5013W (Risk Management Markets) during their first year of registration, they will be permitted to repeat this course in the following academic year. A failed course may only be repeated once.

Distinction rules:
The degree will be awarded with distinction if the candidate obtains a mark of 75% or higher for each of the prescribed courses.

Further specific administrative requirements:
In addition to completing the University application form, the applicant must submit academic transcripts, a Curriculum Vitae and a letter of motivation. Application for the following year must be made by 30 September.
RULES FOR POSTGRADUATE QUALIFICATIONS

Doctoral Degrees

Doctor of Philosophy [CD001]

The degree of Doctor of Philosophy (CDOO1) is a research degree under supervision and examination is by thesis alone. The following are notes on specific qualifications. Prospective candidates should consult the appropriate Head of Department, School or section concerned to discuss both the proposed topic and the availability of suitable supervision. The Faculty Office should be contacted for details regarding the application process.

FDA1 A candidate who registers for the degree without submission of an approved research proposal is required to submit this approved research proposal to the Faculty Board by no later than six months from the date of first registration.

FDA2 If the Faculty Board approves the research proposal, the Board shall recommend the candidate for registration to the University’s Doctoral Degrees Board.

FDA3 If the candidate fails to submit a research proposal by not later than six months from the date of first registration, or if the Faculty Board rejects the research proposal, the candidate’s registration shall be cancelled.

FDA4 A candidate registering for the first time for the degree may register at any time.

FDA5 A returning candidate shall register by not later than the last Friday of February each year.

FDA6 The renewal of registration is subject to a satisfactory annual report from the primary supervisor and relevant Head of Department that is approved by the Dean or Dean’s nominee.

FDA7 Except by special permission of the Dean of Commerce, the thesis submitted for the
degree shall not be less than 40,000 words or exceed 80,000 words.

FDA8 Research that involves human participants or the use of animals must undergo ethics review according to Faculty specific guidelines. Candidates must ensure compliance with the Faculty Ethics in Research policy prior to engaging in any research.

FDA9 The MOU must be completed by doctoral candidates in the Faculty of Commerce prior to registration for the thesis course in their programme and is valid for up to a year.

FDA10 A full MOU must be completed prior to re-registration every year.

FDA11 Where a candidate intends to submit his or her dissertation for examination in the hope of the award of the degree at either April or December graduation ceremonies, he or she must inform the Faculty Office in writing of his or her intention to do so six weeks before submitting the dissertation for examination. It is recommended that the thesis be submitted for examination five months before the graduation ceremony to allow time for the examination process to run its course.

Doctor of Philosophy
specialising in BUSINESS ADMINISTRATION [CD001GB04]

Research Director: R Hamann

**Entrance requirements:**
Applicants need to have a recognised master’s degree (or in special circumstances, at the discretion of the Senate, an approved Bachelor’s degree or qualification recognised by the Senate as equivalent). They must demonstrate that they have the necessary competencies in research methodology and practice that are required for the completion of an independent study research degree.

Applicants will need to include a nomination of a suitable supervisor in their application. The nominated PhD supervisor must be a full-time academic at the GSB and must be actively publishing in the scholarly literature in the field in question. GSB faculty can discuss applicants’ research ideas and preliminary proposals at their discretion, but we advise applicants not to contact potential supervisors without some preliminary research ideas.

Applicants must provide the following documents when completing the application:
- Curriculum Vitae (CV)
- Academic transcripts
- A covering letter, which should include:
  - A motivation for embarking on a PhD
  - A motivation for choosing the GSB
- At least one nomination for an appropriate supervisor based at the GSB, and a justification of this choice.
- A preliminary proposal of about five pages in length or about 2500 words. The purpose of the proposal is to make a case for the research to be undertaken, and it will need to show that the applicant has the ability to identify a pertinent research question, has at least an initial grasp of the relevant literature, and has some of the necessary competencies in research methodology and practice that are required for the completion
DOCTORAL DEGREES

of an independent study research degree. The proposal should include (not necessarily in the following order):

- An abstract of 100 words;
- An outline of the essential background literature;
- The rationale of the proposed research, with reference to the intended practical and theoretical contributions;
- The key question(s) to be addressed and the main objectives of the research;
- The approach to be taken in doing the project, including a preliminary outline of the proposed research design and data generation and analysis methods;
- References.

Certified copy of ID or passport
Certified copies of degree qualifications (degree certificate and transcripts)
Two reference letters

Duration:
Typically between three and four years. A student must be registered consecutively for all years of PhD study at the Graduate School of Business.

Programme description:
In line with the research mission of “engaged inquiry in a complex world,” the GSB expects PhD candidates to make an original contribution to theory, while also addressing practical organisational or social challenges. While the primary guidance to PhD candidates is provided by the PhD supervisor, fellow PhD students and other faculty provide a rich network of support and interaction.

The typical duration of a PhD project is between three and four years, if the student is dedicating the bulk of her or his time to the project. A candidate must be registered for at least two consecutive years, although registration for a year at another university may be accepted as part of that period. Although no maximum period of time is prescribed for completing a thesis, the university stipulates a "reasonable time", which is generally taken to be five years. If a candidate is not making satisfactory progress, the Commerce Faculty's Higher Degrees Committee may issue a warning, and, if necessary, may refuse re-registration.

Though we do allow part-time PhD students into the programme, we recommend that students are able to dedicate at least 20 hours a week to the project. Experience shows that otherwise it is difficult to create and maintain the necessary momentum. Supervisors can at their discretion require students to commit to certain time commitments.

Students enrolled in the PhD programme are expected to:

- Participate actively the PhD and Research Colloquia (PRCs), especially in their first year of registration – this is described in more detail below;
- Agree with the supervisor and regularly reconsider a set of commitments and a timeline, which is to be outlined in a signed Memorandum of Understanding;
- In the first six months of registration, develop a formal research proposal, which will be presented to GSB faculty and students and then submitted to the Commerce Faculty’s Higher Degrees Committee;
- Keep the supervisor updated about progress within suitable, agreed timeframes;
- Take a proactive approach to identifying their learning needs and to implementing suitable responses;
- As appropriate, actively participate in the academic life of the GSB through lecturing, research seminars and/or co-supervision of MBA research reports; and
- Re-register every year – failure to do so will lead to deregistration and possible problems when submitting your thesis.
In their first year of registration, PhD candidates are expected to actively participate in our PRCs. These are four or five compulsory three-day workshops distributed throughout the year, and are encompassed in the Doctoral Research Design course. Their objectives are to give students the theoretical and methodological insights that will enable their PhD projects and also provide them with a foundation for their ongoing scholarly careers. They also contribute to a strong and supportive PhD cohort and to the GSB’s research culture. Participating in PRCs will involve comprehensive preparatory readings and exercises. Detailed programmes and preparation instructions for the PRC series will be provided at least one month in advance.

PhD candidates will have about nine months to develop their proposal. This is normally a document of between 30 and 60 pages, and we also expect a 10-15 page version. This proposal will need to be presented formally to a committee consisting of at least three members of faculty (including the supervisor). The key objectives of this assessment will be to a) assess that the student has been making adequate progress and b) provide some helpful feedback so that the student can improve her/his proposal prior to entering the field. The presentation will normally take place in the last PRC of the year, commonly in October. The candidate will be required to submit her or his proposal ten days prior to the presentation. She or he will have 20 minutes to present, followed by 20 minutes discussion.

The appraisal committee will provide formal feedback to the student in writing. The final appraisal could be summarised in one of the three categories (akin to those provided for in PhD final assessments), i.e. a) good as is; b) requires some changes; c) wholly unsatisfactory. If the verdict is “a” the proposal and the committee’s recommendation will be passed on the university’s Doctoral Degrees Board. If the result is “b” the student will need to make specific revisions to the satisfaction of the supervisor, after which it will be passed on. Inadequate proposals that receive a “c” verdict will be considered on a case-by-case basis, but a possible outcome is that the student will not be allowed to re-register in the next year.

Prescribed curriculum
[CD001GSB04]
The programme comprises a thesis, as well as a compulsory series of PhD seminars for all registered PhD students.

Doctor of Philosophy
specialising in INFORMATION SYSTEMS [CD001INFO01]

Convener: W Chigona

Entrance requirements:
The PhD in Information Systems has certain entrance requirements that are different from other PhDs in the Faculty and in UCT. This is an interdisciplinary program, and our typical applicant will have a research Master’s degree in Information Systems, Commerce, Computer Science, Engineering, Social Science, Medicine, Law or fields related to National Development. However, applicants with no IS background but with strong experience in business, commerce or leadership positions in the NGO sector will be considered provided they take appropriate coursework in I.S. to rectify their limited body of knowledge. Under very exceptional circumstances, we will consider applicants with MBAs and others who have master’s degrees without research components but a
strong background in Information Systems. Applicants must submit a detailed CV, and supply answers to questions relating to any past and present work experience and activities, awards, skills, academic and professional qualifications gained, and involvement with the IS industry. They should state why they are seeking a graduate degree in Information Systems, why they feel that UCT is an appropriate institution to supervise their work, indicate whether Full-time or Part-time study, field(s) of research in which they are interested, and describe their preparation for postgraduate studies. They should describe previous research done for their master’s degree, and any research they may have done in industry or society, and list any publications, technical reports, dissertations or conference proceedings they may have. Applicants should give details of any course(s) for which they are currently registered, and an interim evaluation from appropriate instructors, as well as details of any registration cancelled or applications for postgraduate study refused by an academic institution. Applicants from other countries in particular should state how long they intend to be resident and how they will finance their studies. Applicants without a master’s degree in IS from UCT should also submit an authorised academic transcript of their marks, and give contact details of two referees. They are also required to provide a copy of their master’s dissertation (electronic or hard copy) and of any publications they may have, and may be required to attend an interview. Acceptance is at the discretion of the Head of Department, and places will be limited to ensure adequate supervision is available.

Prescribed curriculum
[CD001INF01]
The programme comprises a thesis, with an advanced research methods course as a pre-requisite to registering for the thesis. The pre-requisite course is non-credit bearing for this programme.

Doctor of Philosophy
specialising in ECONOMICS [CD003EC001] (with coursework)

Convener: RC Daniels

Entrance requirements:
Candidates who possess a minimum of a second class (lower division) master’s degree in Economics by coursework are eligible to apply. Candidates with a Master of Economic Science degree are eligible to apply.

Programme outline:
This programme is offered in collaboration with other universities in sub-Saharan Africa and supported by the African Economic Research Consortium (AERC) through donor funding. Its distinguishing features are the integration of advanced theory, tools and African applications in the academic programme.

Duration:
Offered over four years full-time. Two years are devoted to prerequisite courses and two years are devoted to writing the thesis. The programme begins in January.
**Prescribed curriculum**  
*CD003ECO01*

The programme comprises a thesis, with advanced courses as a pre-requisite to registering for the thesis.

A candidate will ordinarily complete the coursework in the first two years before proceeding to the thesis. The programme is equivalent to 360 NQF credits. The pre-requisite courses are non-credit bearing for this programme.

The following specific rules apply to the programme

FED1 Students who fail may repeat a maximum of two courses of the prerequisite coursework component once, provided that they scored at least 40% at the first attempt.

FED2 If a student fails an elective, they may substitute it with another elective.

FED3 There will be no supplementary examinations.

FED4 Students are required to submit a topic and sign a Memorandum of Understanding (MoU) with a supervisor by the end of February of the year following the completion of the prerequisite coursework (typically the 3rd year).

FED5 Satisfactory progress for research as per the MoU.

FED6 The degree is assessed entirely on the basis of the completed thesis.

Further programme specific administrative requirements:
The closing date for applications is 31 July. The programme begins in January.

Doctor of Economic Sciences [CD002ECO05]
The degree of Doctor of Economic Science (CD002) may be awarded in respect of published work representing a major original contribution to a branch of learning.

The degree of Doctor of Economic Sciences may be conferred upon:

FESD1.1 A graduate of this University of not less than five years' standing

FESD1.2 A graduate of not less than five years' standing of any other university recognised by the Senate for the purpose.

FESD2 A candidate shall present for the approval of the Senate original published work or original work accepted for publication in a subject or subjects approved by the Senate which must give proof of distinction by some original contribution to the advancement of science or of learning in the field of economics and/or business studies.

FESD3 The work must be submitted in a satisfactory form. Six bound copies must be presented.

Distinguished Teacher Awards
J Kew (2015)
P Maughan (2013)
J Winfield (2016)

Duly Performed Certificates
Students must comply with the DP requirements set for each course.
For DP purposes class tests exclude objective tests.
For DP purposes assignments include projects, essays etc. but no tutorial hand-ins.
The College reserves the right to set deferred class tests for students who miss class tests.
More than one exemption from an independent assessment may result in a DPR for the course concerned.

ACC4002H TAXATION III
*Fourth year status, whole year course, 2 lectures per week, 1 double period tutorial per week.*
24 NQF credits at HEQSF level 8
Convener: R Carpenter
Course entry requirements: Admission to PGDA or BCom Hons in Accounting
Course outline:
Advanced Income Tax with special reference to: Estates & Trusts, Tax planning for Individuals, Corporate entities and Estates; Value Added tax.
Lecture times: Mon, Tues, Wed, Thur 16:00 – 18:00; Fri, 14:00 – 16:00
DP requirements: See PGDA requirements for DP.
Assessment: Tests and mid-year examination: 40% Final examination: 60%.

ACC4020W MANAGERIAL ACCOUNTING & FINANCE II
*Fourth year status, whole year course, 2 lectures per week, 1 double period tutorial per week*
36 NQF credits at HEQSF level 8
Convener: R Mellon
Course entry requirements: Admission to PGDA or BCom Hons in Accounting
Course outline:
The budgeting process; decision making; financial strategy; control in the organisation; quantitative methods; the investment decision; the financing decision; valuations; decentralisation and performance evaluation; financial engineering; international financial management.
Lecture times: Mon, Tues, Wed, Thur 16:00 – 18:00; Fri, 14:00 – 16:00
DP requirements: See PGDA requirements for DP
Assessment: Tests and mid-year examination 40% Final examination 60%.

ACC4023W  FINANCIAL REPORTING IV
36 NQF credits at HEQSF level 8
Convener: G Modack
Course entry requirements: Admission to PGDA or BCom Hons in Accounting
Course outline:
A detailed analysis of international financial reporting standards, including review of topics covered to date. Group financial statements, including foreign operations. New developments in financial reporting.
Lecture times: Mon, Tues, Wed, Thur 16:00 – 18:00; Fri, 14:00 – 16:00
DP requirements: See PGDA requirements for DP.
Assessment: Tests and mid-year examination 40% Final examination: 60%

ACC4025H  CORPORATE GOVERNANCE III
24 NQF credits at HEQSF level 8
Convener: M Harber
Course entry requirements: Admission to PGDA or BCom Hons in Accounting
Course outline:
The course builds on knowledge and skills gained in Corporate Governance I (ACC2018S) and Corporate Governance II (ACC3022H) but often at a more advanced and integrated level. Topics include:
Auditing Perspective:
Stages of the audit process, Planning, Tests of controls, Substantive audit procedures, Evaluating and concluding and Audit reporting.
Management Perspective:
Legislation/Ethics:
Interpretation and application of the Companies Act, the Auditing Profession Act and the Accounting Profession’s Code of Professional Conduct.
Lecture times: 2 lectures per week
DP requirements: See PGDA requirements for DP.
Assessment: Tests and mid-year examination: 40% Final examination: 60%.

ACC4036T  PUBLIC FINANCIAL MANAGEMENT
36 NQF credits at HEQSF level 8
Convener: C de Jesus
Course entry requirements: Admission to the Postgraduate Diploma in Public Sector Accounting
Course outline:
This course develops the understanding and application of financial management skills in the public sector, and the ability to provide recommendations for improvements in productivity and efficiency and effectiveness. Further focus areas include risk management, the preparation of budgets and forecasts, control and management of projects, and tender processes. This course is offered in a
blended learning format. Students make use of online learning which contains formative assessments.

**DP requirements:** A submission of at least 75% of formative assessments and a weighted average year mark of at least 40% for class tests, assignments and projects

**Assessment:** Tests and assignments: 40%, Final 4-hour examination: 60%.

---

**ACC4037T**  
**PUBLIC SECTOR FINANCIAL REPORTING**  
36 NQF credits at HEQSF level 8  
**Convener:** I Lubbe  
**Course entry requirements:** Admission to the Postgraduate Diploma in Public Sector Accounting  
**Course outline:**  
This course develops competencies relating to the preparation, presentation and evaluation of financial and performance information (reporting) in compliance with standards of Generally Recognised Accounting Practice (GRAP) and other reporting requirements for the public sector. This course is offered in a blended learning format. Students make use of online learning with continuous formative assessments.  
**DP requirements:** A submission of at least 75% of formative assessments and a weighted average year mark of at least 40% for class tests, assignments and projects.  
**Assessment:** Tests and assignments: 40% Final 4-hour examination: 60%  

---

**ACC4038V**  
**PUBLIC SECTOR STRUCTURES & FUNCTIONS**  
24 NQF credits at HEQSF level 8  
**Convener:** I Lubbe  
**Course entry requirements:** Admission to the Postgraduate Diploma in Public Sector Accounting.  
**Course outline:**  
This course develops: the understanding and application of public and administrative structures, functions and policies within the public sector organisation using the legislative frameworks and authorities in the public sector; and the ability to identify and suggest areas of improvement in such functions and reporting structures. There is specific focus given to the PFMA, MFMA and the National Regulations. This course is offered in a blended learning format. Students make use of online learning with continuous formative assessments.  
**DP requirements:** A submission of at least 75% of formative assessments and a weighted average year mark of at least 40% for class tests, assignments and projects.  
**Assessment:** Tests and assignments: 50%; Final 4-hour examination: 50%  

---

**ACC4039V**  
**PUBLIC SECTOR AUDIT GOVERNANCE**  
24 NQF credits at HEQSF level 8  
**Convener:** A Dhansay  
**Course entry requirements:** See rules for admission to Postgraduate Diploma in Public Sector Accounting  
**Course outline:**  
This course covers aspects related to both external and internal audit functions, and ethics. It includes aspects such as the design, analysis and evaluation of financial and related information systems for business monitoring and control purposes; the design of internal control questionnaires; and considerations for an appropriate control environment. Other aspects include ethical issues and frameworks, the identification of acceptable professional conduct and behaviour, business risks and constructive recommendations for the limitation or prevention, detection and correction of such risks.  
**DP requirements:** A weighted average year mark of at least 40% for class tests, assignments and projects  
**Assessment:** Tests and assignments 40% Final 3-hour examination 60% (integrated).
ACC4050W  SPECIALISED TOPICS IN ACCOUNTING & RESEARCH REPORT
30 NQF credits at HEQSF level 8
Convener: S Herbert
**Course entry requirements:** BCom or BBusSc or equivalent degree, containing accounting courses in the final year of that degree (at HEQC level 7), meeting the entrance requirements for PGDA or Honours

**Course outline:**
This course aims to introduce students to further topics within accounting, such as the objectives and constraints of financial reporting, the problem of measurement, creative accounting, the role of the auditor, fundamental financial analysis and corporate evaluation.

**DP requirements:** Students are required to achieve a minimum of 50% for the course.

**Assessment:** Assessment will involve assignments, tests and a research report which students will be required to submit at the end of the course.

ACC5001H  TOPICS IN ACCOUNTING AND GOVERNANCE
30 NQF credits at HEQSF level 9
Convener: S Parsons
**Course entry requirements:** Admission to the Master of Commerce specialising in Financial Reporting, Analysis & Governance.

**Course outline:**
This is a capstone course which reflects on and integrates the areas covered in the prescribed coursework.

After completion of the course, students are able to:
1. Display applications of all areas of accounting to any given scenario
2. Communicate results coherently and accurately
3. Produce work of creditable literary quality

**DP requirements:** None

**Assessment:** This course can be exchanged for a 4000/5000 level course approved by the Programme Convener and subject to meeting relevant course pre-requisites and approval from the Course Convener.

ACC5020H  CORPORATE FINANCIAL ANALYSIS
30 NQF credits at HEQSF level 9
Convener: G Willows
**Course entry requirements:** Admission to the Master of Commerce specialising in Financial Reporting, Analysis and Governance.

**Course outline:**
The aim of the course is to enable students to develop key insights into strategy, financial analysis, forecasting, financial modelling, valuations and credit analysis. The focus is on decision making in the real world and students are place in business situations, which require a decision. Students will be required to analyse South African, UK and Australian companies.

**DP requirements:** Attend all lectures and submit all assignments.

**Assessment:** Assessment will involve group work assignments (submissions and presentations) and a written examination. **Mark allocation:** Group work assignments (submissions and presentations): 40%, Examination: 60%. Students must achieve a minimum of 50% in individual work to pass the course

ACC5023H  FINANCIAL AND EXTERNAL REPORTING
30 NQF credits at HEQSF level 9
Convener: M Graham
**Course entry requirements:** Admission to the Master of Commerce specialising in Financial Reporting, Analysis and Governance.
Course outline:
The aim of this course is to enable students to: determine the way in which financial reporting standards are developed, analyse the current status of International Financial Reporting Standards, develop and implement accounting policies where the standards are silent and critically discuss the financial reporting requirements of various entities. Furthermore, students will be required to review the role and nature of the Integrated Report as well as other external reports that a Finance Director may be required to produce.

DP requirements: Attend all lectures and submit all assignments.

Assessment: Assessment will involve group work assignments (submissions and presentations) and a written examination. Mark allocation: Group work assignments (submissions and presentations): 40%. Examination: 60%. Students must achieve a minimum of 50% in individual work to pass the course.

ACC5025H CORPORATE GOVERNANCE AND RISK MANAGEMENT
30 NQF credits at HEQSF level 9
Convener: G Modack
Course entry requirements: Admission to the Master of Commerce specialising in Financial Reporting, Analysis and Governance.

Course outline:
The aim of this course is to enable students to identify and exploit opportunities while reducing risks (strategic, operational, financial, marketing, legal, environment, etc) in pursuit of an entity's overall objectives. Furthermore, the course will enable students to: analyse the leadership process of the board or other governing body, analyse the role of the audit committee and review the role of the internal audit function.

DP requirements: Attend all lectures and submit all assignments.

Assessment: Assessment will involve group work assignments (submissions and presentations) and a written examination. Mark allocation: Group work assignments (submissions and presentations): 40%. Examination: 60%. Students must achieve a minimum of 50% in individual work to pass the course.

ACC5050W MINOR DISSERTATION ACCOUNTING
90 NQF credits at HEQSF level 9
Convener: G Willows
Course entry requirements: Admission to CM031ACC01: Master of Commerce, Specialising in Financial Reporting, Analysis and Governance.

Course outline:
A student will register for this course at the beginning of the second year. This is the research option in Year 2, Option 2 for the degree of Master of Commerce specialising in Financial Reporting, Analysis & Governance. The dissertation will focus on subject areas culminating from the areas taught on in the separate modules or related topics and will assist students in refining their understanding of the relevant subject matter. Candidates are required to attend a research methods course during which the dissertation proposal will be developed. The dissertation proposal will require course convener and supervisor approval. A candidate will not be permitted to submit the dissertation until such time that the first year coursework components (i.e. ACC5020H, ACC5023H and ACC5025H) are completed.

DP requirements: Satisfactory progress to the supervisor’s satisfaction.

Assessment: Minor Dissertation: 100%

ACC5051W MINOR DISSERTATION ACCOUNTING 60 CREDITS
60 NQF credits at HEQSF level 9
Convener: G Willows
Course entry requirements: See requirements for CM031ACC13: Master of Commerce specialising in Financial Reporting, Analysis and Governance
Course outline:
This is the composite research option in year 2 Option 1 for the degree of Master of Commerce specialising in Financial Reporting, Analysis and Governance.
**DP requirements:** Satisfactory progress to the supervisor's satisfaction.
**Assessment:** Minor Dissertation: 100%
SCHOOL OF ECONOMICS

The School is housed in the School of Economics 2.29, Middle Campus.

The letter code for the Department is ECO.
Telephone Number: (021) 650-5751.

Development Policy Research Unit (DPRU)

The Development Policy Research Unit has been actively engaged in policy-relevant research since 1990 establishing itself as one of SA’s premier research institutions in the field. The DPRU aims to inform economic and social policymaking by specialising in academically rigorous research into various labour market challenges; their causes in areas such as education and regulation; and their consequences as manifest in poverty and inequality. Researchers also engage in projects concentrating on related issues such as financial development, trade and demography, with specific focus on South Africa and Africa more generally. The bulk of the Unit’s research drives from the analysis and manipulation of micro-level datasets, such as individual and household surveys, firm surveys, national census and increasingly administrative databases.

More information about the DPRU is available at: www.dpru.uct.ac.za

Environmental Policy Research Unit (EPRU)

Director:
Environmental Policy Research Unit (EPRU)
Director:
M Visser, BSc(Hons) MCom Cape Town PhD Göteborg

The Environmental Economics Policy Research Unit (EPRU) is a collaborative association of academic researchers specialising in environmental and natural resource issues. Members of EPRU include seven senior researchers and eleven junior researchers (mostly PhD students) based in the School of Economics at the University of Cape Town. The unit is the South African branch of an international network, the Environment for Development initiative (EfD). It was established in 2007 to promote sustainable development and poverty reduction in Southern Africa through policy relevant research. During its eleven years of existence, EPRU has built extensive experience in research related to issues of sustainable development, behavioural change and ecosystems management, and is now focusing its areas of specialisation around the themes of:

- Energy, Water and Waste
- Land, living resources and community wellbeing
- Climate Change Adaptation

EPRU strives to become a centre of excellence in environmental and resource economics in Southern Africa from which decision makers will seek well-researched advice.

More information about EPRU can be found on their website:

Policy Research in International Services and Manufacturing (PRISM)

Director:
A Black, BA Cape Town BA (Hon) Sussex MSocSc Natal PhD Cape Town

Policy Research in International Services and Manufacturing (PRISM) provides a home to a number of related research activities, projects and programmes. The broad focus of these activities has been concerned with issues of globalisation, global value chains, industrialization paths, infrastructure development, the role of knowledge intensive services, innovation and policy focus, responding to economic policy question issues on South Africa, the rest of Africa and beyond.
PRISM has co-ordinated and participated in a wide range of Large Scale, multi-year, multi-country collaborative programmes. These include the Africa-wide “Making the Most of Commodities Programme”, “China and Sub Saharan African Industrialisation” as part of the African Economic Research Consortium’s “Asian Drivers Project” and “Towards employment intensive growth in South Africa” in collaboration with institutes in the Netherlands.

Towards the end of 2011, it was decided to formalise the PRISM network and expand its ambit within the School of Economics. As a consequence, PRISM is now an accredited research unit and in its expanded form it is undertaking work at the public-private interface in the following related areas:

- Industrial development and competitiveness
- International trade and foreign investment
- Infrastructure development
- Resource based linkage industrialisation
- The performance of public agencies
- Economic policy and governance relating particularly to the above areas.

The membership of PRISM includes ten academic staff from the School of Economics as well as graduate students and international affiliates.

**Southern Africa Labour and Development Research Unit (SALDRU)**

**Director:**
M V Leibbrandt, BSocSc(Hons) *Rhodes MA PhD Notre Dame*

The Southern Africa Labour and Development Research Unit (SALDRU) carries out research in applied empirical microeconomics with an emphasis on labour markets, human capital, poverty, inequality and social policy. We strive for academic excellence and policy relevance, SALDRU was founded in 1975 and, in the Apartheid years, conducted a number of important surveys revealing the negative impacts of Apartheid on the population. In the post-Apartheid period, SALDRU has continued to gather data and conduct research directed at informing and assessing anti-poverty policy. Recent survey projects include the on-going Cape Area Panel Study, the Financial Diaries Project, the Public Work Research Project and the Quality of Life Survey. In 2006, the Presidency awarded SALDRU the tender to set up and conduct the base wave of South Africa’s first national panel study of well-being, the National Income Dynamics Study. In 2009, SALDRU won the tender for the second wave of NIDS and in 2011 won the tender for the third wave. Fieldwork for the Third was is being conducted in 2012. J-Pal Africa builds capacity within Africa to run randomised impact evaluations of anti-poverty programmes.

Currently SALDRU’s research team includes a Director (Professor Murray Leibbrandt) a permanent Associate Professor, the Executive Director of J-Pal Africa, 3 Post-doctoral Fellows, a Survey Manager, 4 temporary researchers, 19 research associates from within Economics, 1 honorary research associate. There are also several research affiliates, reflecting SALDRU’s active national and international research collaborators. The NIDS survey office is run by the survey manager and contains 7 dedicated staff and, during fieldwork, up to 30 temporary staff members. The Executive Director of J-PAL Africa is Laura Poswell. We have a team of Research Managers, Policy Associates and Research Analysts. SALDRU is governed by an executive committee.

Aside from the National Income Dynamics Study and the work of J-PAL Africa, current research work falls into the following research themes:

- Post-apartheid Poverty, Inequality, Employment, Education, Health and Migration dynamics

In 2014 our key funders were the NRF Research Chair in Poverty and Inequality Research, the NRF Programme, Grand Challenges, Social Dynamics, European Union’s NoPoor Consortium, the National Institutes of Child Health and
Development, the Presidency’s Programme to Support Pro-poor Policy Development, the National Treasury, WIDER and the OECD.

- Fertility and Intergenerational Transfers (funded by the Hewlett Foundation and Population Reference Bureau).
- Social Protection, Public Works and the Labour Force (funded by the International Development Research Centre, the Ford Foundation and the British ESRC).
- The Economics of Tobacco and Alcohol Control in Africa (funded in 2011 by the American Cancer Society (ACS) and in 2012 onwards by the ACS and the Bill and Melinda Gates Foundation).

Since 1999, SALDRU has run the annual UCT Summer programme in Social Science Research Using Survey Data. Currently, this programme trains about 100 Southern African researchers per year. It was funded by the Mellon Foundation for the first decade and, in 2011 was endowed by large grants from Kresge, the Ford Foundation, the Mellon Foundation and Statistics South Africa as well as smaller grants from 10 of South Africa’s universities. In addition, SALDRU runs Winter Workshops in the analysis of panel data and in programme evaluation.

**Research Unit in Behavioural Economics and Neuroeconomics (RUBEN)**

**Director:**
J Burns, BCom(Hons) Natal MPhil Cantab PhD Massachusetts

RUBEN’s interdisciplinary team of experimental economics researchers seek to understand the way in which people in developing economies assess risk and make decisions. They do this through quantitatively analysed laboratory and field experiments with people earning real monetary rewards for performing experimental tasks. RUBEN researchers especially focus on trust - the essential basis of business relationships – and people’s attitudes to risk, uncertainty and time. This knowledge is crucial to innovative product design in insurance, banking and asset management. For certain studies, RUBEN researchers also have the technology and expertise to conduct brain imaging studies, of the kind needed for neuroeconomics and neuromarketing. RUBEN members within the School of Economics are Don Ross, Justine Burns, Martine Visser, and Andre Hofmeyr.

RUBEN research projects currently underway include studies on problem gambling prevalence and its determinants with 10,000 subjects in Denmark funded by the Danish government; four behavioural economic interventions in the Western Cape sponsored by the Province; behavioural “nudge” interventions around water usage in Cape Town; and studies of social enterprises in Rwanda.

RUBEN is currently the only centre for experimental research in economics on the African continent and thus a key aspect of RUBEN activity is training. RUBEN hosts annual training workshops for scholars from the rest of the continent, and raises funds to cover all workshop costs for these participants.

**ECO4006F MACROECONOMICS**

16 NQF credits at HEQSF level 8

**Convener:** K Eyal

**Course entry requirements:** At least 40% for ECO4112F

**Course outline:**
The course studies the principal macroeconomic approaches towards understanding short-run fluctuations in aggregate output and the longer-term determinants of macroeconomic performance. Business cycles are investigated from a traditional Keynesian and New Keynesian perspective, complemented by a discussion on monetary and fiscal policy options. For understanding economic growth, the course reviews the exogenous growth model as well as new growth theories and alternative perspectives.
Lecture times: Friday: 14h00-15h45
DP requirements: None
Assessment: Coursework consisting of one project (20%) and one test (20%); examination 60%.

ECO4007F  MICROECONOMICS
16 NQF credits at HEQSF level 8
Convener: K Eyal
Course entry requirements: At least 40% for ECO4112F.
Course outline:
This is a course about the dynamic interplay of behaviour and institutions, and the outcomes produced through their interaction. The course focuses on how social interactions can be structured such that people are free to choose their own actions while avoiding outcomes that none would have chosen. Key concepts covered included positive feedbacks and strategic complementarities, behavioural foundations of choice, and institutional responses in light of co-ordination failures.
Lecture times: Friday: 09h00-10h45
DP requirements: None.
Assessment: Coursework 50% (comprising 2 tests and an assignment); Examination 50%.

ECO4013S  INTERNATIONAL FINANCE
14 NQF credits at HEQSF level 8
Convener: K Eyal
Course entry requirements: ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.
Course outline:
The course provides an introduction to international finance and makes use of financial and open-economy macroeconomics modelling techniques to investigate topics that are relevant to this field of study. Topics covered include an overview of the foreign exchange markets, the properties of exchange rate data, models for exchange rate determination, interest rate parity conditions, carry-trade and currency momentum models, measuring and managing exchange rate risk, as well as the role of deficits and current account imbalances.
Lecture times: Thursday: 09h00-10h45.
DP requirements: None.
Assessment: Coursework 30%, Examination 70%.

ECO4016F  ECONOMETRICS
16 NQF credits at HEQSF level 8
Convener: K Eyal
Course entry requirements: At least 40% for ECO4112F
Course outline:
This course is an introduction to econometric theory and practice. It provides the tools with which to test hypotheses and generate predictions of economic activity. The main focus is on causal inference with non-experimental data. The course has a strong lab-based component in which students work with the statistical computing package Stata. The topics covered include omitted variable bias and measurement error in regression models; panel data methods; limited dependent variables and sample selection corrections; and basic regression analysis with time series data (covering stationarity, autocorrelation, and other similar introductory concepts).
Lecture times: Tuesday: 11h00-12h45 & 14h00-14h45
DP requirements: None.
Assessment: Coursework consisting of two tests counting 15% each; one term paper counting 30%; examination 40%.
ECO4020S  ECONOMIC CHALLENGES IN AFRICA
14 NQF credits at HEQSF level 8
Convener: K Eyal
Course entry requirements: ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.
Course outline:
After independence, many parts of Africa suffered serious relative economic decline. Recent growth rates have been very promising. This course is therefore about the challenges confronting economic development in Africa (generally excluding South Africa). It seeks to provide a detailed overview of African development, and exposes students to debates regarding past problems, current issues and future possibilities. The focus is applied and policy oriented. Topics include the state in Africa, challenges of managing capital flows, aid, resources and conflict, agriculture and industrialisation.
DP requirements: None
Assessment: Coursework only consisting of 4 essays, each 20%; 20% on panel performance and class participation.

ECO4021W  RESEARCH & WRITING I
30 NQF credits at HEQSF level 8
Convener: K Eyal
Course entry requirements: See entrance requirements for Honours in Economics. At least 40% for ECO4112F.
Course outline:
The long paper is to take the form of an article intended for submission to the South African Journal of Economics. A student must follow their referencing style. Given that it is to take the form of an article, the long paper should be divided into sections rather than chapters, and a maximum of 8000 words has been imposed. It must be written in an appropriate academic style.
Lecture times: None
DP requirements: None.
Assessment: 100% written work

ECO4026S  THE ECONOMY & ITS FINANCIAL MARKETS
14 NQF credits at HEQSF level 8
Convener: K Eyal
Course entry requirements: ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.
Course outline:
This course is designed to help students appreciate the relationship between the economy and its financial markets so that they may better understand how the economy works, how financial markets behave and how they work and interact with each other. The programme is aimed at developing a feel for the rationality of ‘the market’ and the often discordant sounds and rhythms of financial markets. We hope to develop a stronger sense of how the financial market anticipate and influence economic policy. We will interact with the data on the economy and the markets using Eviews with which students should be familiar. We will use regression analysis and other econometric techniques to build and analyse models of the economy and the financial markets. As a result students will be expected to become more perceptive analysts of published financial data and economic events and of the role played by financial markets in promoting economic development.
Lecture times: Friday: 14h00 – 17h45
DP requirements: None.
Assessment: Coursework 50%; Examination 50%.

**ECO4027S**  THE ANALYSIS OF SURVEY DATA  
14 NQF credits at HEQSF level 8  
Convener: K Eyal  
**Course entry requirements:** ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.  
**Course outline:**  
This course will be jointly offered to both Economics and Statistics honours students. This course examines a range of statistical techniques for using survey data and presents methods to compensate for design features for complex sample survey data. These techniques are then applied to a selection of policy issues through the analysis of South Africa household surveys. Firm survey data is also introduced and economic development applications are presented.  
**Section 1:** Analysis of complex sample surveys.  
**Section 2:** Social policy issues and the analysis of household survey data.  
**Lecture times:** Monday & Wednesday: 14h00-15h45  
**DP requirements:** None.  
**Assessment:** Coursework consisting of problem sets (25%) and lab practicals (25%) 50%; examination 50%.  

**ECO4028S**  POLICY ANALYSIS  
14 NQF credits at HEQSF level 8  
Convener: K Eyal  
**Course entry requirements:** ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.  
**Course outline:**  
This course will give students exposure to policy issues in a number of key economic domains. The course will utilise real policy issues that have emerged in the current context in South Africa in which those teaching will have had an active role. While precise topics will vary each year, examples are industrial policy, trade, overall government strategy, environmental management and alcohol regulation. Students will be exposed to the debates over real policy issues and the techniques and tools to deal with them. Outputs will place emphasis on policy briefings, cabinet memoranda and the like rather than essays. There will be a strong emphasis on discussion and participation in class.  
**Lecture times:** Wednesday: 16h00-17h45  
**DP requirements:** None.  
**Assessment:** Coursework only, consisting of 6 equally weighted essays 100%.  

**ECO4029S**  EXPERIMENTS IN ECONOMICS  
14 NQF credits at HEQSF level 8  
Convener: K Eyal  
**Course entry requirements:** ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.  
**Course outline:**  
This course is an introduction to the methodology of experimental economics and its application to specific topics such as decision making under risk and over time, the provision of public goods, and bargaining. We will primarily focus on laboratory experiments but we will also cover field
experiments, and briefly discuss randomised evaluations, and natural experiments. The course will start with a consideration of the scope and role of experiments in economics. It then explores some basic principles of experimental design such as the role of randomisation and control in experimentation, the use of incentives, and the interplay of theory, experimental design, and statistics. Thereafter we will focus on specific examples of experiments from both decision theory and game theory.

**Lecture times:** Friday: 09h00-10h45

**DP requirements:** None.

**Assessment:** Coursework consisting of pre-class experiment (10%), class presentation (20%) and assignment (35%): 65%; examination 35%.

---

**ECO4032S** ECONOMICS OF INDUSTRY, REGULATION AND FIRMS
14 NQF credits at HEQSF level 8
Convener: K Eyal

**Course entry requirements:** ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.

**Course outline:**
The course is an introduction to industrial economics and competition policy. During the course you will become familiar with theoretical models of price discrimination and product design by a monopolist, regulation of natural monopoly and oligopolistic competition. We will then use these models to study horizontal and vertical mergers between firms and understand the mechanics of collusion. The application of these models will be illustrated using examples of firm strategies as well as regulatory and antitrust cases.
The course is fundamental to students interested in working as economists at the antitrust authorities, regulatory agencies, economic consulting firms or other firms which are involved in regulated activities. During the course you will receive take home exercises to be able to practice how to solve the theoretical models by yourself. You will be also asked to make a group presentation of a selected competition case.
The main topics covered within the course are:
- Monopoly and price discrimination
- Regulation of natural monopoly
- Models of imperfect competition
- Collusion
- Market definition and horizontal mergers
- Vertical relations and restraints.

**Lecture times:** Tuesday: 14h00-15h45

**DP requirements:** None

**Assessment:** Coursework consists of 3 homework assignments (20%) and one presentation (10%); final examination (70%).

---

**ECO4051S** DEVELOPMENT ECONOMICS
14 NQF credits at HEQSF level 8
Convener: K Eyal

**Course entry requirements:** ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.

**Course outline:**
This course covers a range of macro and microeconomic issues of particular relevance to developing countries. While precise topics covered will vary, examples include the nature and measurement of development, privatisation and deregulation, role of institutions, industrialisation and trade strategy, globalisation, transnational corporations and foreign investment and the role of
the state and industrial policy. While key theoretical issues are dealt with, the approach is
primarily applied with extensive use made of actual policy experience in a wide range of
developing countries.

**DP requirements:** None.

**Assessment:** Coursework consisting of one long essay (24%) and 3 short essays (36%) 60%;
examination 40%.

---

**ECO4052S  ENVIRONMENTAL ECONOMICS**
14 NQF credits at HEQSF level 8  
**Convener:** K Eyal  
**Course entry requirements:** ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.

**Course outline:**  
This course will expose students to a variety of real world problems like control of pollution, management of mines, forests and fisheries, funding biodiversity and putting the environment into project and policy decision-making. The emphasis is on practical application of economic tools. The course will consist of a mixture of lectures, readings, seminars and practical/problem solving sessions. There will be group projects for 3-4 people which will be very practically based, but should be written as a short paper, with a basic literature review that draws on the topics covered in the class.

**Lecture times:** Thursday: 14h00-15h45

**DP requirements:** None.

**Assessment:** Coursework consisting of assignments, presentation, participation and an essay 50%; examination 50%.

---

**ECO4053S  FINANCIAL ECONOMICS**
14 NQF credits at HEQSF level 8  
**Convener:** K Eyal  
**Course entry requirements:** ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.

**Course outline:**  
Economics of arbitrage and martingale pricing, derivatives markets; binomial model, introduction to Ito calculus, Black-Merton-Scholes analysis; bond market basics introduction to interest rate derivatives; mean-variance analysis, Capital Asset Pricing Model, multi-factor models and Arbitrage Pricing Model, stochastic discount factor; asymmetric information and limits to arbitrage.

**DP requirements:** None.

**Assessment:** Coursework consisting of tests and essays 50%; examination 50%.

---

**ECO4100Z/ECO4120Z  SECURITIES LEGISLATION**
14 NQF credits at HEQSF level 8  
**Convener:** L Neethling  
**Course entry requirements:** See entrance requirements for the Honours in Financial Analysis and Portfolio Management

**Course outline:**  
The course aims to provide students with a high level and practical understanding of the primary legislation applicable to financial services in South Africa. The course begins by providing students with a working knowledge of how financial services legislation works, how to interpret it and work with it in their jobs. It then focuses on the Financial Advisory and Intermediary Services
Act; insider trading and market manipulation legislation; corporate governance guidelines and practices and expected future regulatory controls.

**DP requirements:** None

**Assessment:** Final examination counts maximum 80%, and coursework the other minimum 20%

---

**ECO4101Z/ECO4121Z**  
**CORPORATE FINANCE AND EQUITY VALUATION**  
14 NQF credits at HEQSF level 8  
Convener: L Neethling  
**Course entry requirements:** See entrance requirements for the Honours in Financial Analysis and Portfolio Management  
**Course outline:**  
The course aims to provide a sound foundation and practical application in equity valuation and corporate finance. The first part of the course is about equity valuation: it covers the various approaches to equity valuations with technical and fundamental analysis. The second part of the course is about corporate finance: it covers issues of capital structure, dividend policy, mergers and acquisitions. The course equips the student with basic tools which may be applied at the workplace.  
**DP requirements:** None  
**Assessment:** Final examination counts maximum 80%, and coursework the other minimum 20%

---

**ECO4102Z/ECO4122Z**  
**PORTFOLIO OPTIMISATION**  
14 NQF credits at HEQSF level 8  
Convener: L Neethling  
**Course entry requirements:** See entrance requirements for the Honours in Financial Analysis and Portfolio Management  
**Course outline:**  
The course aims to provide the theoretical background and practical application in portfolio optimization. The course covers the following topics: the efficient market hypothesis, modern portfolio theory, investment policy and portfolio creation, performance attribution analysis, and measurement of portfolio returns. The course enables students to utilize practically the material taught should they wish to act as practitioners in this field of financial economics.  
**DP requirements:** None  
**Assessment:** Final examination counts maximum 80% and coursework the other minimum 20%

---

**ECO4103Z/ECO4123Z**  
**FIXED INCOME SECURITY ANALYSIS**  
14 NQF credits at HEQSF level 8  
Convener: L Neethling  
**Course entry requirements:** See entrance requirements for the Honours in Financial Analysis and Portfolio Management  
**Course outline:**  
The course aims to provide a sound foundation and practical application in fixed income security analysis. The course covers the following topics: yield curves and forward rate analysis, a framework for analysing bonds, risk analysis of bonds, fixed income strategies. The course enables students to utilize practically the material taught in this course should they wish to act as practitioners in this field of financial economics.  
**DP requirements:** None  
**Assessment:** Final examination counts maximum 80%, and coursework the other minimum 20%

---

**ECO4104Z/ECO4124Z**  
**FINANCIAL MODELLING & STATISTICS MODULES**  
14 NQF credits at HEQSF level 8  
Convener: L Neethling  
**Course entry requirements:** See entrance requirements for the Honours in Financial Analysis and Portfolio Management
Course outline:
This is an introductory course to financial economics. The course aims to provide the foundations of statistics which are utilised in financial economics. The course covers the following topics: refresher of basic statistics, data description and measurement, survey and probability concepts, linear regression, financial programming. The module equips the students with the statistical tools and methods essential for measurement and evaluation in financial economics.

DP requirements: None

Assessment: Final examination counts maximum 80%, and coursework the other minimum 20%

ECO4105Z/ECO4125Z  ECONOMICS MODULE
14 NQF credits at HEQSF level 8
Convener: L Neethling
Course entry requirements: See entrance requirements for the Honours in Financial Analysis and Portfolio Management
Course outline:
The Economics module takes into consideration the diverse background of the students in the FAPM programme. Accordingly, the Economics module introduces the principles of microeconomics and macroeconomics with a particular emphasis on applications.
Microeconomics perspectives:
The economic problem, the operation of markets and price determination. Industrial organisation: from perfect competition to monopoly, market structure, regulating competitive interaction in markets. Controls, excise taxes, elasticity and industry responses.
Macroeconomics perspectives:

DP requirements: None
Assessment: Final examination counts maximum 80%, and coursework the other minimum 20%

ECO4106Z/ECO4126Z  HONOURS LONG ESSAY
30 NQF credits at HEQSF level 8
Convener: L Neethling
Course entry requirements: See entrance requirements for the Honours in Financial Analysis and Portfolio Management
Course outline:
The essay is restricted to between 8,000 and 10,000 words, must be undertaken immediately after the course work, and completed within two years after admission to the programme.

DP requirements: None
Assessment: 100% written work.

ECO4108Z/ECO4128Z  FUTURES, OPTIONS & DERIVATIVES
14 NQF credits at HEQSF level 8
Convener: L Neethling
Course entry requirements: See entrance requirements for the Honours in Financial Analysis and Portfolio Management
Course outline:
The aim of this course is to introduce the theory and mechanics of derivative securities, and to cover the operations of the main types of derivative securities. The topics covered in the course are: introduction to forward and futures contracts, the Binomial framework for pricing options, the Black-Scholes method for pricing options, swaps, warrants and convertibles, financial engineering, the yield curve. Students should be able to apply at the workplace their knowledge gained in the course.
DP requirements: None
Assessment: Final examination counts maximum 80%, and coursework the other minimum 20%

ECO4109Z/ECO4129Z  ACCOUNTING FOR PORTFOLIO MANAGERS
14 NQF credits at HEQSF level 8
Convener: L Neethling

Course entry requirements: See entrance requirements for the Honours in Financial Analysis and Portfolio Management

Course outline:
This is an introductory course to the understanding and interpretation of financial statements. The aim of the course is to provide the accounting foundations relevant to making investment decisions regarding company’s equity instruments. Students are taught principles relating to the following skills: (1) Read financial statements and be able to identify and interpret the significant investment, financing and dividend decisions that a firm has made (2) Calculate and interpret financial statement ratios (3) Analyse the firm’s financial position, return and risk using the financial statements (4) Appreciate the difference between cash flow and accounting earnings as an indicator of a firm’s performance (5) Have a basic understanding of International Financial Reporting Standards (IFRS) so as to be able to make useful comment on most components of a company’s financial statements (6) Appreciate the limitations of financial accounting numbers (7) Appreciate the role of intangible assets and (8) Appreciate the importance of Annual Financial Statements in understanding a business, but also appreciate the need to research further than this, i.e. “beyond the numbers”.

DP requirements: None
Assessment: Final examination counts maximum 80%, and coursework the other minimum 20%

ECO4112F  MATHEMATICS AND STATISTICS FOR ECONOMISTS
0 NQF credits at HEQSF level 8
Convener: K Eyal

Course entry requirements: See entrance requirements for Honours in Economics.

Course outline:
This course covers the basic tools and applications in order to prepare the student for the study of Macroeconomics, Microeconomics and Econometrics at an intermediate and advanced level. Material covered includes linear algebra, comparative statics, optimisation, integration and differential difference equations.

DP requirements: None.
Assessment: Coursework consisting of 3 tests (15% each); 45%; Examination 55%.

ECO4113S  LABOUR ECONOMICS
14 NQF credits at HEQSF level 8
Convener: K Eyal

Course entry requirements: ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.

Course outline:
The Honours course in labour economics intends to introduce a number of topics that are important for the analysis of economies in developing countries as well as our own. The course will focus on the following topics: labour supply and returns to education, inequality and the labour market, discrimination, international migration, intergenerational mobility, data analysis in labour economics, schooling, growth, poverty and inequality: the role of labour markets, minimum wages, labour regulation, enforcement and violation, trade unions, collective bargaining and wage-employment dynamics, labour regulation.

Lecture times: Monday, 09h00 - 10h45, 16h00-17h45

DP requirements: None.
Assessment: The essay and the data exercise will carry a weight of 20% each, thus contributing in total 40% to your final year grade. The final two-year exam will make up the balance. Coursework consisting of 2 assignments (20% each) 40%; examination 60%.

ECO4114S  THE ECONOMICS OF CONFLICT, WAR AND PEACE
14 NQF credits at HEQSF level 8
Convener: K Eyal
Course entry requirements: ECO4006F, ECO4007F and ECO4016F for Economic Honours students. PPE (and other) students who do not have to complete the core as part of their degree requirements may be granted permission to register for this elective at the discretion of the Head of Department.
Course outline: Peace, war and international security is an area in which economists are often conspicuous by their absence, to a degree that rivals the importance of economic issues to the problems at hand. This course considers the contribution that economics has and does make to the understanding of conflict war and peace, with a focus on Africa. It covers topics such as: the causes and economic effects of military spending; the economic causes and effects of conflict and terrorism; the economics of post conflict reconstruction; the international arms industry; and the international arms trade.
Lecture times: Tuesday: 09h00-10h45
DP requirements: None.
Assessment: Coursework consisting of one project 40%; Examination 60%.

ECO4115S  CONSUMPTION AND MICROECONOMIC THEORY
16 NQF credits at HEQSF level 8
Convener: M Wittenberg
Course entry requirements: Cross-sectional Econometrics (ECO4116F) or equivalent.
Course outline: The course reviews relevant microeconomic theory including utility theory, consumer preferences and consumer choice, the theory of demand. It then tackles important topics in consumption theory including demand systems and Engel’s law. Students are then introduced to survey data and taught how to operationalise consumption theory on actual data, as well as to compare micro and macro estimates of consumption. In all sections of the course attention will be paid to becoming familiar with professional econometric software.
DP requirements: None
Assessment: Coursework 50%, Exam 50%

ECO4116F  CROSS-SECTIONAL ECONOMETRIC METHODS
16 NQF credits at HEQSF level 8
Convener: A Kerr
Course entry requirements: Entry into the Postgraduate Diploma in Survey Data Analysis for Development or an undergraduate course in econometrics
Course outline: The course will begin with revision of the classical linear regression model (CLRM). It then covers issues in inference and estimation using the CLRM, as well as common violations of the CRLM assumptions, particularly heteroscedasticity, multicolinearity, omitted variable bias and measurement error. The course then covers Instrumental Variables estimation and limited dependent variable models. In all sections of the course attention will be paid to becoming familiar with the use of professional econometric software.
DP requirements: None
Assessment: Coursework 50% Exam 50%
ECO4117F  PANEL DATA METHODS
16 NQF credits at HEQSF level 8
Convener: A Kerr
Course entry requirements: Concurrent registration in ECO4116F
Course outline:
The aim of the course is to introduce students to the techniques used in the analysis of “cross-sectional” panel data sets, such as the National Income Dynamics Study (NIDS). The course will cover first differencing, fixed effects and random effects estimators as well as the construction and evaluation of transition matrices. Students will also be introduced to the problem of differential attrition. In all sections of the course attention will be paid to becoming familiar with the use of professional econometric software.

DP requirements: None
Assessment: Coursework 50% Exam 50%

ECO4118S  APPLIED LABOUR ECONOMICS
14 NQF credits at HEQSF level 8
Convener: A Kerr
Course entry requirements: Cross-sectional econometric methods or ECO4016F
Course outline:
The course will introduce the theory of labour demand and supply and discuss the role of education and human capital in wage determination and employment outcomes. Other topics in labour economics relevant to South Africa and other developing countries will be introduced, including the role of trade unions, discrimination in the labour market, the public sector, transport to work and the impact of minimum wages. The theory will be complemented with practical training in using survey data with Stata

DP requirements: None
Assessment: Coursework 50% Exam 50%

ECO4119F  THE ANALYSIS OF COMPLEX SURVEYS
14 NQF credits at HEQSF level 8
Convener: A Kerr
Course entry requirements: Concurrent registration in ECO4116F
Course outline:
The course will introduce the elements of sample design. It will discuss the use of weights to correct for the survey design as well as other common weight adjustments, e.g. for nonresponse and to “calibrate” the sample to external population totals. We will also consider the importance of taking the sample design into consideration when estimating standard errors, in particular in the case of multi-stage samples. Besides learning a set of tools necessary to get reliable estimates from social surveys we will also develop an appreciation of some of the trade-offs faced by survey organisations in collecting the data.

DP requirements: None
Assessment: Coursework 50% Exam 50%

ECO4120S  RESEARCH PROJECT
30 NQF credits at HEQSF level 8
Convener: A Kerr
Course entry requirements: Cross-sectional econometric methods or ECO4016F
Course outline:
This course forms the research component of the PG Diploma in Survey Data Analysis for Development. A research project will be undertaken on a topic selected by the student from a list provided by the course convener that is relevant to the student’s work environment. A brief proposal may be requested by the course convener.

DP requirements: None
### ECO4121S WELFARE MEASUREMENT

14 NQF credits at HEQSF level 8

**Convener:** M Wittenberg

**Course entry requirements:** Cross-sectional econometric methods or ECO4016F

**Course outline:**
The purpose of this course is to introduce students to the key concepts in measuring income, expenditure, poverty and inequality. Using actual survey data to measure income and expenditure will provide a practical introduction to welfare measurement. This will include missing data, bracket responses, price indices and data imputation. Other topics covered will include the theory of social welfare functions, poverty and inequality measures, multidimensional poverty, social mobility and the theory of asset indices. Students will also be equipped to use survey data to undertake welfare measurement and analysis using professional econometric software.

**DP requirements:** None

**Assessment:** Coursework 50% Exam 50%

### ECO4131S DIGITAL ECONOMICS

14 NQF credits at HEQSF level 8

**Convener:** K Eyal

**Course entry requirements:** Microeconomics, game theory

**Course outline:**
The purpose of this course is to introduce the main topics in digital (or Internet) economics. During the course we will identify and formalize the main features of digital goods and discuss why they may lead to particular market outcomes (such as market dominance by a single firm). Next, we will discuss pricing and product design strategies used by firms in digital markets. During the lectures we will make references to relevant theoretical and empirical material in industrial organisation and management science. We will debate and students will be asked to deliver oral presentations of past and ongoing regulatory and antitrust cases. We will also discuss the role of government in the regulation of digital markets.

**DP requirements:** Submitted homework assignments; Case study presentation

**Assessment:** Homework assignments: 20%; Case study presentation: 20%; Written examination: 60%

### ECO4132S ECONOMICS OF INEQUALITY: CAUSES, CONSEQUENCES AND POLICY

14 NQF credits at HEQSF level 8

**Convener:** K Eyal

**Course entry requirements:** Students should have successfully completed an honours level course in microeconomics, or equivalent; as well as introductory level courses in both statistics and mathematics

**Course outline:**
This course aims to study the causes, consequences and policy implications of income inequality. Strong emphasis is placed on determining the mechanisms through which the persistence of inequality arises. While the primary lens used to analyse this phenomenon is economics, the course also considers the impacts of financial markets, credit and savings, health, education, social networks and political mechanisms. We complement the theory by reviewing relevant empirical findings where possible. The course includes an overview of global inequality, both within and between countries, as well as a strong emphasis on South African inequality.

**DP requirements:** The classroom presentation will be compulsory. This will be a 10-15 minute presentation on a topic of the student's choosing where they investigate some aspect of economic inequality.
**Assessment:** The course will have three assessment components. 1. A mid-term essay (30%) 2. A classroom presentation (20%) 3. A final essay (50%)

**Course outline:**
- **ECO5000W**
  - The student undertakes, under supervision, a research dissertation of less than 50,000 words. The dissertation should be well conceived and acknowledge earlier research in the field. It should demonstrate the ability to collect, organise and analyse material to communicate effectively. It should illustrate the ability to replicate and/or critically evaluate existing research in the field.
- **ECO5001F/S**
  - “The Economics of AIDS in Sub-Saharan Africa” is designed as a master’s level course for graduate students in economics. It focuses on the economic and welfare implications of the AIDS epidemic and policy responses to it. The recent international effort to ‘roll-out’ antiretroviral treatment in developing countries is a major focus of the course. In addition to economic analysis, the course also requires students to obtain a working knowledge of international best practice demographic modelling, and to understand the social and political dimensions of the AIDS epidemic in Africa. The South African case is examined in some detail, but expressly within the context of Southern Africa. The course requires students to absorb a wide-range of interdisciplinary readings. The course is examined through a process of continuous assessment. Students are required to write a long essay and five short essays, one of which entails a critical evaluation of demographic modelling.
- **ECO5003F**
  - This course explores key themes in development economics focussing on the relationship between state and market, governance and growth. It traces the origins of development economics as ‘colonial’ economics, paying particular attention to the contribution made by Arthur Lewis with regard to labour-intensive industrialisation and the role of savings in generating growth. We trace the evolution of the ‘development doctrine’ over the second half of the twentieth century, drawing connections between the evolving economic context and policy responses. We discuss the emergence of the ‘good governance’ agenda as part of the Washington Consensus about structural adjustment paying close attention to criticisms from scholars in other disciplines about development as an ‘anti-politics’ machine. Such concerns about governance and governmentality have shaped contemporary ‘going with the grain’ strategies in development and renewed focus on
micro-level initiatives. One of the boldest micro-level initiatives in recent development history is the Millennium Development Village initiative. We consider this history in the light of evolving development economic theories about poverty traps and the Millennium Development Goal (MDG) project (2000-2015). The final part of the course focusses on the Sustainable Development Goals, asking to what extent these are an improvement on the MDGs, and the extent to which environmental challenges shape the development agenda today.

**Lecture times:** Monday, Wednesday: 11h00-12h45  
**DP requirements:** None.  
**Assessment:** Coursework 100%.

---

**ECO5011F QUANTITATIVE METHODS OF ECONOMICS**  
30 NQF credits at HEQSF level 9  
**Convener:** RC Daniels  
**Course entry requirements:** ECO4112F Mathematics and Statistics for Economists or equivalent or at the discretion of the Head of Department.  
**Course outline:** This course consists of three modules, namely Real Analysis (RA), Dynamic Optimisation (DO) and Probability & Statistics (PS). The course is intended to offer a solid grounding in the fundamental techniques of real analysis, dynamic optimisation, and probability & statistics. It assumes that students have taken the Honours level mathematics and statistics for economists. Therefore, it will be assumed that students have a very strong understanding of linear algebra and calculus. Students are also assumed to be comfortable with basic microeconomic and macroeconomic theory.  
**DP requirements:** None  
**Assessment:** Coursework 40%; Examination 60%.

---

**ECO5020F ADVANCED MICRO ECONOMICS**  
30 NQF credits at HEQSF level 9  
**Convener:** RC Daniels  
**Course entry requirements:** ECO4007F Microeconomics or equivalent or at the discretion of the Head of the Department. Students not registered for an Economics Masters programme will need permission from the graduate convenor.  
**Course outline:** This is a course in economic theory, covering consumer theory, production, uncertainty and general equilibrium with selected applications. The level, readings, and format represent a condensed version of what has become the international standard for the graduate sequence in core microeconomic analysis at the masters and doctoral level. Basic to intermediate mathematic tools (from calculus, linear algebra, basic probability, and some rudiments of analysis) will be used extensively in order to present economic ideas with clarity and conciseness. Candidates should note that the course is analytically demanding and relatively intense. Detailed reading lists will be provided by the instructors.  
**Lecture times:** Tuesday: 14h00-15h45, Wednesday:09h00-10h45, Thursday: 14h00 - 15h45  
**DP requirements:** None.  
**Assessment:** Coursework 40%; examination 60%.

---

**ECO5021F ADVANCED MACROECONOMICS**  
30 NQF credits at HEQSF level 9  
**Convener:** RC Daniels  
**Course entry requirements:** ECO4006F Macroeconomics or equivalent or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convenor.  
**Course outline:** The course provides an introduction to the tools and methods in modern dynamic macroeconomics. The goal is to develop an advanced understanding of macroeconomic models that are based on
microeconomic foundations, to describe the behaviour of an optimising agents that exhibit rational expectations in a coherent manner. Specific emphasis will be placed on the application of dynamic stochastic general equilibrium and overlapping generations approaches, where we will show how to solve these models, calibrate and/or estimate the parameters, stimulate dynamic responses, and interpret the results

Lecture times: Monday, Wednesday: 11h00-12h45, Friday: 09h00-10h45
DP requirements: None.
Assessment: Coursework 40%; Examination 60%.

ECO5023W  MINOR DISSERTATION
60 NQF credits at HEQSF level 9
Convener: RC Daniels
Course entry requirements: See entrance requirements for Master of Commerce Economics.
Course outline:
This is the final phase of the Masters programme, in which the student undertakes, under supervision, a research dissertation of 6,000-8,000 words. The dissertation should be clearly conceived and acknowledge earlier research in the field. It should demonstrate the ability to collect, organise and analyse material to communicate effectively. It should illustrate the ability to replicate and/or critically evaluate existing research in the field.
Lecture times: None
DP requirements: None.
Assessment: 100% written work.

ECO5030S  ECONOMICS GROWTH: THEORY & EVIDENCE
30 NQF credits at HEQSF level 9
Convener: RC Daniels
Course entry requirements: ECO5021F Advanced Macroeconomics or equivalent or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convenor.
Course outline:
The course will be centered around several topics covering growth theory. The topics are broadly categorised into three main sections: Productivity growth; Institutions and geography; and the link between productivity growth and institutions and geography. The course will cover both the international and South African empirical evidence related to these sections: (1) The Solow-Swan Model and the empirical evidence on convergence; (2) The Ramsey and Cass Koopman Models with special cases of the utility function; (3) Endogenous Growth: Externalities, R&D, Innovation; (4) The Political Economy of Growth.
Lecture times: Wednesday, Friday: 14h00-15h45
DP requirements: None
Assessment: Coursework 40%; Examination 60%.

ECO5046F  ADVANCED ECONOMETRICS
30 NQF credits at HEQSF level 9
Convener: RC Daniels
Course entry requirements: ECO4016F Econometrics or equivalent or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convenor.
Course outline:
This course is intended to equip students with practical econometric skills at an advanced level. The course covers the linear model, generalised linear models, instrumental variables, generalised methods of moments and an introduction to systems of equation. The skills developed in this course are foundational in empirical work involving econometrics, and constitute an essential ingredient in most jobs in the field of economics, whether in the public, private or academic sector. This course
also provides skills that are useful in the dissertation phase of the Masters. The course balances theory and computer-based practical applications.

**Lecture times:** Monday, Wednesday: 14h00-15h45, 16h00-17h45, Thursday: 16h00-17h45
**DP requirements:** None
**Assessment:** Coursework 40%; Examination 60%.

**ECO5050S  INTERNATIONAL FINANCE**
30 NQF credits at HEQSF level 9
**Convener:** RC Daniels

**Course entry requirements:** Honours in Economics or equivalent or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convener.

**Course outline:**
This course exposes participants to the conceptual and methodological issues in international finance.
Topics covered include (i) international asset markets (covering international money and capital markets, and foreign exchange markets – spot, forward, futures, currency swaps, and options); and (ii) contemporary issues in international macroeconomic policies (bearing on economic growth, debt, and foreign aid). A major emphasis is on empirics. The objective is to help participants develop research skills as well, particularly of the kind involving empirical methodologies that are more accommodating of the institutional settings from which the data sets are generated. The other closely related goal is to cultivate the ability to efficiently digest a wide range of scholarly publications in this field, learn how to conduct peer review of papers for publication, and possibly develop researchable topics of interest to the participant.

**Lecture times:** Friday: 09h00-10h45, Monday: 16h00-17h45
**DP requirements:** None
**Assessment:** Coursework 50%; Examination 50%.

**ECO5052S NATURAL RESOURCE ECONOMICS**
30 NQF credits at HEQSF level 9
**Convener:** RC Daniels

**Course entry requirements:** Honours in Economics or equivalent or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convener.

**Course outline:**
The course consists of a mixture of lectures, readings, seminars and practical/problem solving sessions. It combines theoretical analysis with discussions on specific environmental policies as applied to climate change, biodiversity, renewable and non-renewable resources. It is intended to familiarise students with important contributions of the theoretical and applied literature as well as current research in environmental and resource economics. Finally, the course provides students with a better understanding of current debates and issues in the environmental field.

**Lecture times:** Tuesday, Thursday: 11h00-12h45
**DP requirements:** None.
**Assessment:** Coursework 50%; Examination 50%.

**ECO5057S LABOUR ECONOMICS**
30 NQF credits at HEQSF level 9
**Convener:** RC Daniels

**Course entry requirements:** Honours in Economics or equivalent or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convener.
Course outline:
The aim of the Masters course in Labour Economics is to cover many of the core theoretical approaches of modern labour economics as well as to explore how well these apply to the South African situation. Our intention is to be both theoretically rigorous and empirically relevant.

Lecture times: Monday: 11h00-12h45, Wednesday: 16h00-17h45

DP requirements: None
Assessment: Coursework 40%; Examination 60%.

ECO5062S APPLIED INTERNATIONAL TRADE
30 NQF credits at HEQSF level 9
Convener: RC Daniels

Course entry requirements: Honours in Economics or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convenor.

Course outline:
The purpose of the course is the development of applied research skills in the area of international trade theory. There are two key components to this course: (a) an overview of international trade theory, and (b) the application of empirical research techniques and trade models in international trade theory. The first component covers topics relating to classical trade theory, trade liberalisation, trade and labour, new trade theory, regional integration and globalisation. The second component is largely computer based and covers the estimation of comparative advantage, the measurement of effective protection, the use of computable general equilibrium models and gravity/regional integration models. Assessment is largely project based.

DP requirements: None
Assessment: Coursework 70%; Examination 30%.

ECO5064S VIEWS OF INSTITUTIONAL & BEHAVIOURAL ECONOMICS
30 NQF credits at HEQSF level 9
Convener: RC Daniels

Course entry requirements: Honours in Economics or equivalent or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convenor.

Course outline:
The course spends approximately 2/3 of available time on behavioural economics and the remaining 1/3 on institutional economics. The main behavioural economic topics are:
1. Biases and heuristics in decision making
2. Risk attitudes
3. Time discounting
4. Loss aversion
5. Probability weighting
6. Framing effects in decision making
7. Mental accounting
8. Prospect theory
Throughout assessment of available experimental and observation evidence for these phenomena and the extent to which they are incompatible with standard neoclassical models is the main focus. The main topics in institutional economics that are covered included:
- Social preferences, trust, social capital, institutions and economic growth

Lecture times: Wednesday: 09h00-10h45, 11h00 -12h45

DP requirements: None
Assessment: Course presentations 10%; exams 60%; course paper 30%

ECO5066W MASTERS IN ECONOMICS HALF DISSERTATION
120 NQF credits at HEQSF level 9
Convener: RC Daniels

Course entry requirements: Acceptance for a Master’s programme in Economics

Course outline:
This is the final phase of the Masters programme, in which the student undertakes, under supervision, a research dissertation of less than 25,000 words. The dissertation should be well
conceived and acknowledge earlier research in the field, if appropriate. It should demonstrate the
ability to collect, organise and analyse material to communicate effectively. It should illustrate the
ability to replicate and/or critically evaluate existing research in the field.

Lecture times: None
DP requirements: None
Assessment: 100% written work.

ECO5069S  APPLIED TIME SERIES ANALYSIS
30 NQF credits at HEQSF level 9
Convener: RC Daniels

Course entry requirements: ECO4016F Econometrics, STA5085F Introduction to Statistics or
equivalent or at the discretion of the Head of Department. Students not registered for an Economics
Masters programme will need permission from the graduate convenor.

Course outline:
The objective of the course is to develop the skills that are needed to conduct empirical research
using time series data. Topics covered include an introduction to the dynamic properties of time
series, stochastic difference equations, stationary univariate models, forecast evaluation, state-space
models, non-stationary models and unit roots, vector autoregression models, structural vector
autoregression models, Bayesian vector autoregression models, dynamic factor models & factor
augmented vector autoregression models, cointegration & error-correction, conditional
heteroskedastic & stochastic volatility models, as well as nonlinear regime-switching and neural
network models.

Lecture times: Tuesday, Thursday: 16h00-17h45
DP requirements: None
Assessment: Coursework 50%; Examination 50%.

ECO5070S  MICROECONOMETRICS
30 NQF credits at HEQSF level 9
Convener: RC Daniels

Course entry requirements: ECO5046F (Adv. Econometrics) or equivalent or at the discretion of
the Head of Department. Students not registered for an Economics Masters programme will need
permission from the graduate convenor.

Course outline:
The aim of the course is to develop the theoretical knowledge of microeconometrics as well as an
understanding of the use of microeconometrics in economic empirical analysis. Students will
develop the technical and practical skills in cross-section econometric empirical analysis and by the
end of the course, the students will have both the theoretical, technical and practical skills required
for Masters level empirical research. Topics covered in this course are basic linear unobserved
effects Panel Data Models; Discrete and Censored Regression Models; Estimating Average
Treatment Effects; Nonparametric density estimation and regression.

Lecture times: Monday: 09h00 - 10h45, 14h00 - 15h45, Friday: 09h00 - 10h45
DP requirements: None
Assessment: Tests 50%; Project 50%.

ECO5073S  PROBLEMS OF GLOBALISATION, INDUSTRIALISATION &
DEVELOPMENT
30 NQF credits at HEQSF level 9
Convener: A Black

Course entry requirements: An undergraduate major in Economics and an Honours degree in a
relevant discipline. Students not registered for an Economics Masters programme will need
permission from the graduate convenor.
Course outline:
This course exposes students to ‘problem-driven’ approaches (compared to method-driven or theory-driven approaches). The course focuses on a selection of the significant global problems that especially confront the developing world analysing their global and local determinants and effects. Students will be required to complete three 4500-word essays. There will be no final exam. Participation in the course (through seminar presentation and discussion) will count for 10% of the final mark.

Lecture times: Tuesday, Thursday: 11h00-12h45
DP requirements: None.
Assessment: Coursework 100%.

ECO5074F  RESEARCH & POLICY TOOLS: DEVELOPMENT IMPACT AND EVALUATION
30 NQF credits at HEQSF level 9
Convener: A Black
Course entry requirements: An undergraduate major in Economics and an Honours degree or equivalent in a relevant discipline. Students not registered for an Economics Masters programme will need permission from the graduate convenor.

Course outline:
This course aims to equip students working on development problems with conceptual tools for evaluating development projects and interventions. The objectives of particular projects or policy interventions vary and hence there is no single measurement tool applicable to all. Development is multi-dimensional, with some objectives more closely aligned to human rights perspectives, and others more amenable to narrow economic cost-benefit calculations. Since donor resources and government spending are both subject to budget constraints, understanding the economic consequences of development choices is essential, hence this course pays particular attention to cost benefit analysis and assessing productivity/efficiency. However, the key objective of the course is to introduce students to the profoundly problem-driven nature of developmental impact assessment where the important first stage involves framing the question and then determining the most appropriate assessment tool.

Lecture times: Tuesday, Thursday: 14h00-15h45
DP requirements: None
Assessment: Coursework 100%.

ECO5075S  MACROECONOMIC MODELLING & POLICY ANALYSIS
30 NQF credits at HEQSF level 9
Convener: RC Daniels
Course entry requirements: Honours in Economics or equivalent or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convenor.

Course outline:
This course seeks to provide students with an introduction to the modern methods that are employed for empirical macroeconomic research and analysis. A significant portion of the course will focus on the construction of models that may be applied to the data of an African country. By the end of the course, students will have the theoretical, technical and practical skills that are required to construct their own models for empirical research.

Lecture times: Wednesday: 09h00-10h45, Friday: 11h00 - 12h45
DP requirements: None
Assessment: Coursework 100%.
ECO5076S  DEVELOPMENT MICROECONOMICS
30 NQF credits at HEQSF level 9
Convener: RC Daniels
Course entry requirements: Honours in Economics or equivalent or at the discretion of the head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convenor.
Course outline:
This course is about the application of microeconomic analysis to issues of development in low and middle income countries. The main objective is to undertake a critical reading of recent research on the empirical microeconomics of development. Topics covered are: (1) the econometrics of impact evaluation; (2) land contracts and land reform; (3) intra-household resource allocation and gender bias; (4) the evaluation of human capital programs; (5) the structure of labour and credit markets in developing countries; and (6) the microeconomic impacts of international trade.
Lecture times: Tuesday: 09h00-10h45, 11h00 - 12h45
DP requirements: None
Assessment: Assignments (30%); Written commentaries on selected articles (30%); Final exam (40%)

ECO5077S  INDUSTRIAL ORGANISATION
30 NQF credits at HEQSF level 9
Convener: RC Daniels
Course entry requirements: Honours in Economics or equivalent or at the discretion of the Head of Department. Students not registered for an Economics Masters programme will need permission from the graduate convenor.
Course outline:
The objective of this course is to introduce recent quantitative techniques which are used to empirically implement and test models of consumer behaviour and competition between firms. These models are commonly applied to competition policy and regulatory proceedings, for instance to assess the effects of a merger on competition or to regulate telecommunication operators. During the course students should become comfortable with the application of these techniques and understand their limitations. This course should be of interest for students who intend to work as economists at antitrust authorities, industry regulators, and economic consulting firms or pursue a career as a researcher in academia.
The course will be divided into two interchanging parts. First, we will derive theoretical models in the classroom. Next, we will estimate these models using Stata and real data from different industries in the computer lab. About 50% of the course will be devoted to lab exercises. You will also receive regular take home computer exercises to be able to practice the applications by yourself. Lectures notes and a reading list of relevant academic and policy papers will be provided for each topic. The following topics will be covered in the class: (1) Econometric methods for estimation of simultaneous equations models of demand and supply (2) Estimation of oligopolistic models of competition and tests for market conduct (3) Estimation of differentiated products demand functions (4) Merger simulation (5) Detecting collusion and estimation of damages (6) Estimation of models of market entry (8) Quantitative methods used to define markets in antitrust proceedings
DP requirements: None
Assessment: Coursework consists of 4 homework assignments (30%) and one presentation (10%); final examination (60%).

ECO5079W  INTER-DISCIPLINARY RESEARCH THESIS
180 NQF credits at HEQSF level 9
Convener: M Sarr
Course entry requirements: Honours level degree in discipline related to thesis topic
Course outline:
This is an inter-disciplinary research thesis in which the candidate deals at an advanced level with challenges of economic and social development. The overall goal of the thesis is for the student to display the knowledge and capability required for independent and critical research. The candidate is expected to integrate information, data, techniques, tools, perspectives, concepts, and/or theories from different disciplines to advance knowledge.

Lecture times: None
DP requirements: None.
Assessment: Examination is by dissertation alone.

ECO6000W  PHD IN ECONOMICS
360 NQF credits at HEQSF level 10
Convener: RC Daniels
Course entry requirements: Acceptance to the PhD programme in Economics
Course outline:
A PhD thesis is required to be an original, coherent and consistent body of work which reflects the candidate’s own efforts. The thesis may not be more than 80,000 words. A candidate will undertake research, and such advanced study as may be required, under the guidance of a supervisor or supervisors appointed by Senate.

Lecture times: None
DP requirements: None
Assessment: Written work counts 100%.

ECO6007F  MICROECONOMICS II
30 NQF credits at HEQSF level 10
Convener: RC Daniels
Course entry requirements: ECO5011F Quantitative Methods. Students not registered for an Economics Masters programme will need permission from the graduate convenor.
Course outline:
In this course, we will focus on three key areas that are typically under-emphasised in standard Walrasian economics, namely uncertainty, asymmetric information and strategic interactions. Topics covered include: decision theory and human behaviour; strategic interaction: game theory and principal-agent models; moral hazard and adverse selection.

Lecture times: Tuesday: 11h00 -12h45, Thursday: 09h00-10h45, Friday: 11h00-12h45
DP requirements: None
Assessment: Coursework 20%; examination 80%.

ECO6008F  LAND ECONOMICS AND GOVERNANCE
30 NQF credits at HEQSF level 10
Convener: E Muchapondwa
Course entry requirements: Completion of Masters level core courses in Macroeconometrics, Microeconometrics and Quantitative Methods, or at the discretion of the Head of Department.
Course outline:
This course aims to (a) review the role of land, land governance and dynamics in the development process, and in the integrated management of ecological-economic systems; (b) analyse current debates and progress on land issues and challenges in Africa; and (c) illustrate the use of economic techniques to the analysis of land problems, with a focus on Africa. The course comprises a mixture of lectures, computer based empirical applications and excursions. It is organized around five modules namely, (1) Land ownership as a determinant of economic structure and political economy, (2) Land use, land & other factor markets and structural transformation, (3) Economics of urban land use and policy, (4) Using and collecting survey and spatial data on land tenure and use, (5) Evaluating the impact of land-related policy interventions. By the end of the course, students will be
equipped with the latest theories and tools to conduct state of the art research on the economics of land.

**DP requirements:** None

**Assessment:** Class Presentations (by students): 10 %; Class/lab Test: 15 %; Semester/Term Paper: 15 %; Final Examination (3 Hours): 60 %
DEPARTMENT OF FINANCE AND TAX

The Department is housed in the Leslie Social Science Building. Reception: Room No. 4.54

Telephone Number: 021) 650-2598.

FTX4010F ADVANCED TAXATION I
45 NQF credits at HEQSF level 8
Convener: T Johnson
Course entry requirements: BCom or BBusSc or equivalent undergraduate degree where all such degrees include taxation at third year level
Objective: The course purpose is to equip students with necessary practical taxation skills and advanced taxation technical knowledge to be competent tax practitioners.
Course outline:
This course forms part one of the BCom Honours in Taxation stream (see CH001FTX11). The course aims to develop and promote tax technical knowledge and skills with a view to bridge the gap between the competencies gleaned through undergraduate studies in domestic taxation, and the competencies required by tax professional early in their careers. Lectures and workshops will be aimed at introducing advanced tax topics to students as well as introducing topics not previously covered in undergraduate studies such as tax administration and compliance considerations for corporate entities and individuals. A further important aim will be to develop the following skills: research, professional writing, interpretation of legislation, analysis of case law and practical computational skills. The course is part-time but intensive
Lecture times: There is usually one lecture a week, Tuesdays - 2.5hrs or 3 hrs starting from 15h00, and occasionally Saturday lectures/workshops of 4hrs
DP requirements: Satisfactory progress in course assignments
Assessment: In-course assignments: 40%Final assessment: 60%

FTX4035W TAXATION TECHNICAL REPORT
30 NQF credits at HEQSF level 8
Convener: T Johnson
Course outline:
This course forms the research component of the BCom Honours in Taxation programme (see CH001FTX11). A technical report or equivalent research project on a topic (to be selected by the student and approved by the course convenor) must be completed. The report must not exceed 10,000 words (excluding appendices and bibliography).
DP requirements: Satisfactory progress to the convenor’s satisfaction.
Assessment: Technical report (or equivalent): 100%

FTX4036F RESEARCH METHODS IN TAXATION
0 NQF credits at HEQSF level 8
Convener: C West
Objective: To present a complete research proposal for admission to FTX4035W or FTX5031W or FTX5032W
Course outline:
The course prepares students to: (1) conduct independent research; and (2) structure appropriate methodologies applicable to their chosen topic. After formal presentation of research methods and proposal preparations, the student is required to prepare and present a research proposal for entry into the technical report / dissertation courses. The formal structured lecture consists of a single 4-hour lecture after which the student proposal presentation and feedback sessions are scheduled according to student numbers.
DP requirements: Attendance at all research methods lectures and the presentation of a research proposal
Assessment: On the successful presentation of a research proposal, the student will be noted as ATT i.e. having attended and successfully presented a research proposal.
FTX4036S  RESEARCH METHODS IN TAXATION  
0 NQF credits at HEQSF level 8  
Convener: C West  
Objective: To present a complete research proposal for admission to FTX4035W or FTX5031W or FTX5032W  
Course outline: The course prepares students to: (1) conduct independent research; and (2) structure appropriate methodologies applicable to their chosen topic. After formal presentation of research methods and proposal preparations, the student is required to prepare and present a research proposal for entry into the technical report / dissertation courses. The formal structured lecture consists of a single 4-hour lecture after which the student proposal presentation and feedback sessions are scheduled according to student numbers.  
DP requirements: Attendance at all research methods lectures and the presentation of a research proposal  
Assessment: On the successful presentation of a research proposal, the student will be noted as ATT i.e. having attended and successfully presented a research proposal.

FTX4037S  ADVANCED TAXATION II  
45 NQF credits at HEQSF level 8  
Convener: T Johnson  
Course entry requirements: FTX4010F  
Objective: - To build on the tax technical knowledge and skills, with a focus on the taxation of financial instruments and cross-border transactions.  
Course outline: This course forms part of the BCom Honours in Taxation programme (see CH001FTX11 and CH001FTX12). The course aims to build on the tax technical knowledge and skills developed in Advanced Taxation 1 (FTX4010F). The lectures and workshops focus on introducing the students to some of the more technical and complex sections of the tax legislation, particularly in relation to corporate restructuring, the taxation of financial instruments and cross-border transactions (among other topics). The course aims to further develop the students’ research skills, interpretational skills and professional writing skills through the consideration and application of these advanced topics. The course is part-time but intensive.  
Lecture times: 1 lecture per week, Tuesdays, 2.5hrs or 3hrs starting from 15h00, and occasional Saturday lectures/workshops of 4hrs.  
DP requirements: Satisfactory progress in course assignments  
Assessment: In-course assignments: 40%, Final assessment: 60%

FTX4051H  FINANCE RESEARCH PROJECT  
36 NQF credits at HEQSF level 8  
Convener: K Rajaratnam  
Course entry requirements: A combined average of at least 60% for FTX3044F and FTX3045S with a minimum of 50% for each of these courses - ECO2003F and ECO2004S.  
Co-requisites: STA3022F  
Objective: To develop and implement finance research skills through an academic research project.  
Course outline: Lectures are held to impart basic knowledge and skills in order to embark on a finance-related research project. Concurrently, students are required to form a group of specified size, agree on a research topic with a supervisor, and submit a proposal. Once a proposal is accepted, the student-groups apply relevant finance research techniques to solve their research problem. During the course of the year, the student-groups are expected to submit a literature review and a final submission of their report. The report is expected to be in the format of a journal manuscript. Students may be required to attend a question and answer session after the final submission.  
Lecture times: There is 1 double lecture per week, Wednesday, during 7th and 8th period.
**FTX4052H  FINANCE HONOURS RESEARCH PROJECT**

40 NQF credits at HEQSF level 8  
**Convener:** K Rajaratnam  
**Course entry requirements:** Registration for the Bachelor in Commerce Honours degree specialising in Finance (CH001FTX05).  
**Co-requisites:** FTX4056F Applied Investments; FTX4057S Applied Corporate Finance; FTX4086F Alternative Investments  
**Objective:** To develop and implement finance research skills through an academic research project.  
**Course outline:**  
Lectures are held to impart basic knowledge and skills in order to embark on a finance-related research project. Concurrently, students are required to agree on a research topic with a supervisor, and submit a proposal. Once a proposal is accepted, the student applies relevant finance research techniques to solve the research problem. During the course of the year, the student is expected to submit a literature review and a final submission of their report. The report is expected to be in a format of a journal manuscript. Students may be required to participate in a question and answer session after the final submission.  
**Lecture times:** There is 1 double lecture per week, Wednesday, during 7th and 8th period.  
**DP requirements:** Progress to the supervisor’s satisfaction, lecture attendance and 40% average of graded submissions.  
**Assessment:** Assessment will be based on the research project. Literature review submission 10% - 20%, Final submission 80% - 90%. Exact allocation in course outline.

**FTX4056S  APPLIED INVESTMENTS**

18 NQF credits at HEQSF level 8  
**Convener:** C Huang  
**Course entry requirements:** A combined average of at least 60% for FTX3044F and FTX3045S; ECO2003F and ECO2004S; STA2020F/S.  
**Objective:** The course objectives are (1.) to introduce students to the idea that finance is more than the mechanical application of a few formulas; (2.) to teach students how to deal with substantial uncertainty when making investment decisions; (3.) to help students develop and apply skills in the use of finance based research; (4.) to ensure wide reading and understanding of primary research articles and books in finance; (5.) to understand and be able to report on a range of practical problems, which are currently encountered by finance professionals; and, (6.) to further develop and grow practical financial skills and thinking.  
**Course outline:**  
In this course students are exposed to advanced issues in investment finance from both a practical and theoretical perspective. Students are required to understand and be able to deal with substantial uncertainty when making investment decisions, and to report on a range of practical problems which are currently encountered by finance professionals.  
**Lecture times:** 2 lectures per week, Monday and Thursday, both 7th and 8th periods.  
**DP requirements:** A minimum weighted average of at least 40% for tests and assignments as well as 100% workshop attendance.  
**Assessment:** Coursework (including tests and assignments) 40%, Final examination 60%.
FTX4057F  APPLIED CORPORATE FINANCE
Ad Hoc Workshops hosted, no tutorials.
18 NQF credits at HEQSF level 8
Convener: R Kruger
Course entry requirements: A combined average of at least 60% for FTX3044F and FTX3045S with a minimum of 50% for each of these courses; ECO2003F and ECO2004S
Objective: The course objectives are: 1. To give students experience in analysing and solving a range of practical real-life problems involving the application of finance concepts. 2. To expose students to real-life problems facing finance managers and other finance professionals. 3. To bridge the gap between university corporate finance theory and corporate finance practice.
Course outline:
In this course student are exposed to advanced issues in corporate finance from both a practical and theoretical perspective. Academically, the course builds on the theoretical foundation laid in the prerequisite earlier courses. However, this course takes a more application-orientated approach, and is therefore largely case-study based.
Lecture times: 2 lectures per week, Monday, Thursday, both 7th & 8th periods.
DP requirements: Satisfactory progress in the assignments and mid-term test.
Assessment: Coursework (including tests and assignments) 40%; final examination 60%.

FTX4086F  ALTERNATIVE INVESTMENTS
(Ad Hoc Workshops hosted, no tutorials).
18 NQF credits at HEQSF level 8
Convener: F Toerien
Course entry requirements: A combined average of at least 60% for FTX3044F and FTX3045S with a minimum of 50% for each of these courses, ECO2003F and ECO2004S.
Objective: To give students exposure to the main classes of Alternative Investments.
Course outline:
The so-called “alternative investments” are becoming increasingly important as an investment class. This course deals with a number of specialised areas of investment finance which are not typically covered in other parts of the finance undergraduate curriculum, such as real estate investments, hedge funds, commodities and private equity. Each investment class covered in the course will be discussed as a separate module, and students will be exposed to both the theoretical and practical aspects of each. In addition to lectures, this course also includes workshops intended to make concepts and the practical application of alternative investments clearer.
Lecture times: 2 lectures per week, Tuesday, Friday, both 6th & 7th periods.
DP requirements: None.
Assessment: Coursework including tests and projects 40%; Final examination 60%.

FTX4087S  TOPICS IN BANKING AND TREASURY MANAGEMENT
18 NQF credits at HEQSF level 8
Convener: R Kruger
Course entry requirements: A combined average of at least 60% for FTX3044F and FTX3045S with a minimum of 50% for each of these courses, ECO2003F and ECO2004S
Objective: To introduce students to key concepts and challenges in banking and treasury management.
Course outline:
Treasury management is an essential function within every corporation and has as its goal the management of the firm's liquidity, operational and financial risk. This course exposes students to these topics with a focus not only on understanding the theory underpinning these crucial functions, but also the challenges companies face in achieving these aims and practical tools they may use to mitigate these risks. In addition to this, students are introduced to the treasury management function within banking institutions and how they support their clients' corporate treasury management functions.
Lecture times: 2 lectures per week, Tuesday and Friday during 7th and 8th period.

**DP requirements:** None

**Assessment:** Coursework including test and project (40%); Final examination 60%

---

**FTX5000W  MASTERS IN FINANCE BY DISSERTATION**

180 NQF credits at HEQSF level 9

**Convener:** F Toerien

**Course entry requirements:** A suitable undergraduate degree at Honour’s level (or equivalent). Acceptance onto the programme is dependent on a research proposal being approved and the availability of a suitable supervisor.

**Objective:** To complete a finance research dissertation of a publishable standard.

**Course outline:**
A candidate for the degree shall register for at least one academic year. A candidate shall undertake an approved research dissertation under the guidance of a supervisor. The approval process shall include a presentation of the research proposal within six months of registration, to a Departmental panel. Continued registration is dependent on the outcome of this presentation.

**DP requirements:** None

**Assessment:** 100% dissertation

---

**FTX5003W  MINOR DISSERTATION IN FINANCE**

90 NQF credits at HEQSF level 9

**Convener:** F Toerien

**Course entry requirements:** Registration for the Master of Commerce degree specialising in Finance in the field of Financial Management (CM031FTX02) or registration for the Master of Commerce degree specialising in Finance in the field of Investment Management (CM031FTX07).

**Objective:** To complete a finance research thesis of a publishable standard.

**Course outline:**
The dissertation length will be a maximum of 25,000 words excluding appendices and bibliography. A candidate may be required to attend a research method course during which his/her dissertation proposal will be developed. A candidate's dissertation proposal will require the course convener's and his/her supervisor's approval. A candidate will not be permitted to submit the dissertation if he/she has not completed the coursework component. Assessment of the dissertation will be in terms of Rule FM10.2 of the Rules for the Degree of Master by Coursework and Dissertation. The dissertation will be required to be of a publishable standard.

**DP requirements:** Progress to the supervisor’s satisfaction.

**Assessment:** Dissertation 100%

---

**FTX5005W  TAXATION MASTERS DISSERTATION**

180 NQF credits at HEQSF level 9

**Convener:** C West

**Course entry requirements:** As per admission requirements in Commerce Handbook rule FM2.

**Course outline:**
A candidate for the degree shall register for at least one academic year.
A candidate shall undertake an approved research project, under the guidance of a Supervisor nominated by the course convener.
Every candidate shall select a subject for intensive study and research in Taxation. On applying for admission he/she shall submit his/her choice of subject for approval and must satisfy the course convener as to the suitability of his/her subject and the programme of research which he/she proposes to follow and the conditions under which it will be carried out.
Every candidate must satisfy his/her supervisor(s) that his/her work is of an acceptable standard.
The general rules applicable to a master’s by dissertation only (as appearing in the Faculty Handbook) apply to this course.

**DP requirements:** Satisfactory progress to the supervisor’s satisfaction.
Assessment: Dissertation 100%.

FTX5028W  TOPICS IN FINANCIAL MANAGEMENT
30 NQF credits at HEQSF level 9
Convener: P de Jager
Course entry requirements: FTX5043F
Objective: To give students a thorough grounding in Investment Risk concepts.
Course outline:
This course is presented in modular form and the requirements are met once two modules have been completed. Previously the department has offered modules in Advanced Corporate Finance, Risk and Portfolio Management. This course, in combination with FTX5029W and FTX5042W and FTX5043F, will complete the necessary qualifications for Masters of Commerce specialising in Finance in the field of Corporate Finance and Valuations (CM031FTX14) and is also compulsory for the Master of Commerce Finance, specialising in Investment Management (CM031FTX07), as well as Master of Commerce in Applied Finance.
Lecture times: 2 lectures per week, see schedule for details, and some Saturday mornings as well.
Assessment: Assignments 50%, final module examinations 50%. Students need to achieve a mark of 50% or higher for all components of the course.

FTX5029W  MINI DISSERTATION IN FINANCIAL MANAGEMENT
60 NQF credits at HEQSF level 9
Convener: F Toerien
Course entry requirements: Registration for the Master of Commerce degree specialising in Finance in the field of Financial Management (CM031FTX02).
Co-requisites: Registration for course FTX5028W
Objective: To complete a financial research thesis of a publishable standard.
Course outline:
This is the research component for the degree Master of Commerce Finance specialising in the field of Financial Management or Corporate Finance and Valuations (CM031FTX14), and is a paper written in journal format of approximately 15,000 words. When the student has determined a topic, a supervisor will be appointed, and a memorandum of understanding will be agreed upon in order to manage expectations and completion dates.
Assessment: Assignments 50%, final module examinations 50%. Students need to achieve a mark of 50% or higher for all components of the course.

FTX5030W  TAXATION COURSEWORK
90 NQF credits at HEQSF level 9
Convener: C West
Course entry requirements: CA(SA) or LLB or BCom Honours in Taxation and tax work experience.
Objective: The aim of the course is to equip successful candidates with the skills to be well rounded, competent practitioners in the tax field; to assess the tax efficiency of commercial transactions; to do research; to draft legal opinions; to deal with SARS on behalf of clients; and, to prepare for and execute tax litigation.
Course outline:
These course seminars consist of guided group discussions of tax legislation and South African and other decisions in taxation cases heard by the courts over the years, aimed at developing the participant’s ability to interpret the cases and to apply the principles established in a practical manner. There will be prescribed reading for each seminar and from past experience it is estimated that students would need to devote some fifteen hours each week to this preparation. The sessions are structured so as to ensure a high degree of participation from all students.
Group Project:
Candidates will be divided into four or five groups for this purpose. During the course, a case study will be distributed setting out the circumstances of a dispute between a taxpayer and SARS. Each group will be required to do the necessary research and prepare Heads of Argument for both the taxpayer and SARS suitable for submission to the tax court or ADR process. The intention is that candidates should develop their skills in doing research in tax legislation and judicial precedent, and in particular should prepare for the arguments of their opponent. The Heads will be marked by members of the Department and the members of each group will receive the mark awarded to that group. These will form the basis for the class presentations.

**Lecture times:** Lectures are conducted usually every second Monday afternoon and last for four hours each.

**DP requirements:** Successful performance in each of the progress tests, first two assessments and group projects.

**Assessment:** A student must achieve an average of 50% calculated as follows: Assessments 90%; Group projects 10%. [An oral assessment may be substituted for any of the written assessments at the discretion of the course convener.]

---

**FTX5031W  TAXATION MINOR DISSERTATION (90 CREDITS)**

90 NQF credits at HEQSF level 9  
**Convener:** C West  
**Course entry requirements:** FTX5030W and FTX4036S  
**Course outline:** This course forms the research component of the MCom Taxation programme (see CM031FTX10). An individual research paper (maximum length 25,000 words excluding appendices and bibliography) on a topic of taxation is required. The student will be required to submit a proposal to his/her appointed supervisor for approval. The research requires a student to evaluate research undertaken in a specific area or evaluate new or existing legislation. Students are required to demonstrate use of peer-reviewed journals, authoritative texts, legislation and case law.  
**DP requirements:** Approved proposal and performance to the supervisor’s satisfaction.  
**Assessment:** Minor dissertation 100%.

---

**FTX5032W  TAXATION MINOR DISSERTATION, 60 CREDITS**

60 NQF credits at HEQSF level 9  
**Convener:** C West  
**Course entry requirements:** FTX5034F, FTX5033S and FTX4036S  
**Course outline:** This course forms the research component of the MCom Taxation programme (see CM031FTX09). An individual research paper (maximum length 15,000 words excluding appendices and bibliography) on a topic of taxation is required. The student will be required to submit a proposal to his/her appointed supervisor for approval. The research requires a student to evaluate research undertaken in a specific area or evaluate new or existing legislation. Students are required to demonstrate use of peer-reviewed journals, authoritative texts, legislation and case law.  
**DP requirements:** Performance to the supervisor’s satisfaction.  
**Assessment:** Minor dissertation, 100%.

---

**FTX5033S  INTERNATIONAL TAX II**

60 NQF credits at HEQSF level 9  
**Convener:** C West  
**Course entry requirements:** FTX5034F  
**Objective:** Acquiring further knowledge about the analysis and interpretation of double tax conventions and advanced topics in international taxation, as well as problem solving skills based on practical examples of application of these frameworks.
Course outline:
In the second semester the theory and practice of transfer pricing is taught, usually by an international visiting academic. Other advanced topics covered during this semester include international tax avoidance, taxpayer information exchange, taxation and human rights and selected aspects of South Africa’s international tax regime such as provisions for relief of double taxation and controlled foreign company rules. Teaching takes the form of traditional lectures or seminars, consisting of guided group discussions with a focus on case studies applied in a practical manner. A Moot Court assignment dealing with an international tax case study may be presented during this term.

Lecture times: Lectures are conducted usually every second Monday afternoon and last for four hours each.

DP requirements: Satisfactory progress for in-course assessments.
Assessment: 45% for the in-course assessment - long essay, 55% for the final assessment.

FTX5034F INTERNATIONAL TAX I
60 NQF credits at HEQSF level 9
Convener: C West
Course entry requirements: BCom (Honours) (Taxation) and tax work experience, or CA (SA), LLB or equivalent international qualification.
Objective: Acquiring knowledge about the analysis and interpretation of double tax conventions using recognized model conventions as a base and their interaction with South African income tax, as well as problem solving skills based on practical examples of application of these frameworks.

Course outline:
The first semester commences with an intensive full-time week of lectures presented by UCT academics and visiting staff from the International Bureau of Fiscal Documentation (IBFD). The problem of double taxation and double tax conventions are introduced. Additionally, a number of topical areas may be covered. During the remainder of the first semester, classes cover all aspects of double tax conventions. Consideration is given to the OECD, UN and SADC Model Tax Conventions, the history of the international tax system, treaty provisions dealing with business taxation, investment flows, income of individuals, non-discrimination, double tax relief, dispute resolution under tax treaties as well as more complex areas such as legal methods of treaty interpretation and key features of South Africa’s double tax treaty network, including the constitutional process for treaty making.

Lecture times: Lectures are conducted usually every second Monday afternoon and last for four hours each.

DP requirements: Satisfactory progress for in-course assessments.
Assessment: 45% for the in-course assessment - long essay, 55% for the final assessment.

FTX5042W CORPORATE FINANCE AND VALUATIONS
60 NQF credits at HEQSF level 9
Convener: F Toerien
Course entry requirements: Honours or equivalent degree
Course outline:
This course forms part of the first year of the Master of Commerce specialising in Finance (in the fields of Financial Management, Corporate Finance and Valuations) programme and MCom in Applied Finance. The course relies to a large extent on case studies, which require students to evaluate business models, analyse corporate strategies, undertake financial modelling and apply finance theory. The focus is on valuations and financial decision-making. Topics covered include the financial side of corporate strategy, financial analysis, valuations, capital structure and various specialised topics in the field of corporate finance and valuations.

Lecture times: The course is part-time but intensive. There are an average of 2-3 lectures per week, schedule will provide details and some Saturday mornings as well.

DP requirements: Successful performance in each of the progress tests, case studies, assignments and group projects.
Assessment: Case study assignments 25%, group project 25%, tests 50%

FTX5043F  CAPITAL MARKETS AND FINANCIAL INSTRUMENTS
30 NQF credits at HEQSF level 9
Convener: G Holman

Course entry requirements: Honour’s or equivalent degree.
Objective: To give students a thorough grounding in Capital Markets and Financial Instruments.

Course outline:
This course forms part of the first year of the Master of Commerce Finance (Financial Management; Corporate Finance and Valuations, and Investment Management) programmes. The course is part-time but intensive. Lectures are usually on Tuesday evenings and Saturday mornings. The focus of the course is on applied finance and capital markets. Topics include Capital Markets, Futures, Options, Fixed income securities, Duration, Forwards, Hedge Funds, Interest Rate Swaps, and International Finance.

DP requirements: Successful performance in each of the progress tests and assignments.
Assessment: Assignments and projects 50%, examination 50%. Students need to achieve a mark of 50% or higher for all components of the course.

FTX5044H  EMPIRICAL FINANCE
30 NQF credits at HEQSF level 9
Convener: P van Rensburg

Course entry requirements: Acceptance for Master’s in Finance Investment Management. Otherwise, a relevant level 8 qualification with an appropriate research component at a recognised university. At least a level 7 course in finance (FTX3044F and FTX3045M at UCT which, for the purposes of illustration, has the prescribed textbook Bodie, Kane and Marcus, “Investments”) or ECO4053S Financial Economics and second year level course in statistics (STA2020 at UCT) is required. Should demand exceed capacity, admission will be granted on the basis of the applicants being on the Masters in Investment Management programme (where this is a compulsory course).

Objective: To develop skills in the critical interpretation of existing research and lay a foundation for the dissertation to be conducted as part of the Masters in Finance in Investment Management Programme.

Course outline:
This seminar series entails formal lectures and the interactive discussion of a series of topics regarding existing empirical research findings in the field of investments. This course aims to develop skills in the critical interpretation of existing research and lay a foundation for the dissertation to be conducted as part of the Masters in Finance in Investment Management Programme.

Lecture times: 2 lectures per week, Monday, Thursday, both 4th & 5th periods.

DP requirements: 90% minimum attendance of lectures and seminars and submission of all coursework assignments
Assessment: 50% coursework and 50% an individual examination

FTX6000W  PHD IN FINANCE
360 NQF credits at HEQSF level 10
Convener: P van Rensburg

Course entry requirements: Acceptance to a PhD programme [CD001FTX01]
Objective: To complete a finance research thesis of a publishable standard.

Course outline:
A PhD thesis is required to be an original, coherent and consistent body of work which reflects the candidate’s own efforts. The thesis may not be more than 80,000 words (excluding bibliography and appendices). A candidate will undertake research, and such advanced study as may be required, under the guidance of a supervisor or supervisors appointed by Senate.
A candidate for the degree shall register for at least two academic years. The approval process shall include a presentation of the research proposal within six months of registration, to a Departmental panel. Continued registration is dependent on the outcome of this presentation.

**DP requirements:** None

**Assessment:** 100% Thesis

---

**FTX6001W  PHD IN TAXATION**

360 NQF credits at HEQSF level 10

**Convener:** C West

**Course entry requirements:** Acceptance to a PhD programme [CD001FTX02]

**Course outline:**
A PhD thesis is required to be an original, coherent and consistent body of work which reflects the candidate’s own efforts. The thesis may not be more than 80,000 words (excluding bibliography and appendices). A candidate will undertake research, and such advanced study as may be required, under the guidance of a supervisor or supervisors appointed by Senate.

**DP requirements:** None

**Assessment:** 100% Thesis

Centre for Information Technology and National Development (CITANDA)

Contacts
Director: Prof Jean-Paul Van Belle (Jean-Paul.VanBelle@uct.ac.za).
Deputy-director: Prof Irwin Brown (Irwin.Brown@uct.ac.za)

CITANDA is a research unit housed within the Department of Information Systems at the University of Cape Town. CITANDA aims to bring together researchers, projects, funders, and programmes focused on the use of Information and Communication Technology (ICT) in the service of national development. Many policy analysts, government leaders, industry pundits and development specialists look to ICT for assistance in achieving social, economic, political, cultural and human resource development goals nationally, regionally, or in terms of an industry sector. Our goal is to become the leading centre of development and research activity for this important effort in Africa.

The main research themes pursued by CITANDA are:

- IS Education and Educational Technology: the investigation of both the teaching and learning of IS, and the use of education technology as an aid to teaching and learning.
- ICTs and Innovation: the investigation of ICT innovations and the use of ICTs for innovation. The Internet, e-commerce, e-government, mobile phones, m-commerce, t-commerce, and emerging phenomenon such as RFID technology warrant investigation as to their impact, adoption, adaptation and diffusion amongst individuals, organisations, nations and the global community.
- IS Management, Knowledge Management, IS Project Management and IS Development: IS management
- Knowledge management
- the IS professional, project management, work teams, systems development, IS security and computer forensics. The focus is not only on large commercial organisations, but also on the public sector, health sector, NGOs and SMMEs.
- IS in Developing Country Contexts: Although a focus on IS in developing countries is a theme that pervades almost all CITANDA research, specific attention is given to issues relating to IT in the context of disadvantaged, underserved and under-represented rural and urban communities and individuals are investigated.

INF4012W ENTERPRISE SYSTEMS AND BPM COURSEWORK

Fourth year status, part-time whole year course.
60 NQF credits at HEQSF level 8
Convener: L Seymour
Objective: This course exposes students to the principles and practices of Business Process Management (BPM), Enterprise Systems and Business Process Integration, to allow them to apply and integrate these principles to BPM and integration projects. It is highly relevant for the roles of Business Process Experts, ERP Business Analysts, Enterprise systems Managers or Systems integrators.
Course outline:
Four full-time weeks are spread across the year with two examinations. This course covers enterprise systems, strategic ICT management and Business process management (BPM) integrated around a central architectural theme. Students are exposed to ERP software and software tools used in business process modelling and business process integration. Students are coached in business and academic writing, group work and reviewing literature and have to apply their skills and knowledge to real business cases and reflect on their practice. Strategic ICT Management and IT Project Management includes IS strategy and the strategic use of ICT, evaluating ICT, funding ICT, formulating IT Business Cases, acquisition, implementation,
upgrading, support and usage as well as evaluating the organisational impact of ICT. IT Project Management frameworks are introduced and applied at the organisational level.

BPM includes methods and techniques to identify, model, measure and improve processes as well as process technologies and governance. Enterprise Systems includes ERP concepts such as organisational data, master data and the integration of standard business processes as implemented in a leading ERP system in the following areas: Sales, Procurement; Inventory Management; and Financial Accounting. The technical content includes managing change, customizing, transaction management, integration, report creation and auditing.

**DP requirements:** None

**Assessment:** Students will be evaluated on multiple deliverables and overall participation as follows: Written papers and essays 18%; Written examinations 50%; Class and group contribution 16%; Student assignments 16%. All modules will be examined. The examinations may be written at the end of each module on dates announced at the start of the semester, and/or in combined papers in July and November. A sub-minimum of 50% is required for the combined exam marks.

---

**INF4015W  INFORMATION SYSTEMS COURSEWORK**

60 NQF credits at HEQSF level 8

**Convener:** JP van Belle

**Objective:** This course is designed for students who have practical business and IS experience and aims: to deepen expertise in topics relevant to the course, to develop critical reading and writing skills, and to formalise and extend knowledge gained through work in industry.

**Course outline:**

This programme covers system development, technology, project management and strategic use of information technology as applied to modern organisational information systems.

There are four modules integrated around a central architectural theme:

- **System Development methods and techniques including:** object orientation, components, patterns, requirements analysis, object domain modelling, business process engineering, prototyping, event modelling and architecture driven design development tools (January full time week plus3 weeks).
- **Technology including:** architectures, database, communications, SOA, internet, middleware, mobile technologies, virtualisation, cloud computing, information management, business intelligence, security (12 weeks).
- **Project Management including:** project definition, scoping, feasibility, estimating, risk management, planning, execution, quality management, people management and monitoring and reporting (July full time week plus 3 weeks).
- **Strategic Management of IT including:** Business and IT alignment, inter-organisational systems, architecture-based management, managing IT talent, business analytics, outsourcing, knowledge management, IT futures, innovative business models, leveraging emerging technologies for competitive advantage and innovation, strategic technology trends (12 weeks).

**DP requirements:** Students must attend at least 80% of lectures.

**Assessment:** Students will be evaluated on multiple deliverables and overall participation as follows: Written papers and essays 25%, Written examinations 50% (A sub-minimum of 50% is required for the combined exam marks.) Class and group contribution 15%, Student presentations 20%. Examination requirements: Each of the four modules will be examined. The examination may be written at the end of each module on dates announced at the start of the semester, and/or in combined papers in June and November. A sub-minimum of 50% is required for the combined exam marks.

---

**INF4016W  COMPUTER FORENSICS COURSEWORK**

60 NQF credits at HEQSF level 8

**Convener:** A Stander

**Course outline:**

This course is designed for specialist investigators and managers in computer forensics and aims to:

- deepen expertise in topics relevant to the course,
develop critical reading and writing skills, and
formalise and extend knowledge gained through work in industry.

This course identifies the risk factors arising from the use of technology. It aims to equip the student with an understanding of the legal issues involved, how to manage such investigations, to manage and to detect such crimes. The course covers:

Legal aspects of computer forensics, the right to privacy and access to evidence, operating systems concepts, application system concepts, forensic application software, computer forensic investigations and procedures, investigation project management, computer security concepts and research methodology.

Lecture times: The lectures will be taught in four block weeks that are normally scheduled during the university breaks. Four full-time weeks during February, April, July and September. Guest experts will be used to enrich the programme by lecturing certain of the topics where they have highly specialised knowledge and experience.

DP requirements: None

Assessment: Written papers and essays 50%, Written examinations 50%

Examination requirements: Each of the four modules will be examined. The examination may be written at the end of each module on dates announced at the start of the semester, and/or combined papers in June and November. A sub-minimum of 50% is required for the combined exam marks.

---

**INF4017H INFORMATION SYSTEMS PROJECT**

60 NQF credits at HEQSF level 8

Convener: J-P Van Belle

**Course entry requirements:** INF4015W (Information System Coursework) or (INF4016W Computer Forensics Coursework) or INF4012W (Enterprise Systems and BPM Coursework) or INF4018W (business and Systems Analysis Coursework) or INF4018W (Business and systems Analysis Coursework)

**Course outline:** Students are required to complete and report on a work-related project which demonstrates clearly how the knowledge gained in their coursework course has been or can be applied to a real-world setting. This can be in an employed situation, as part of volunteer work or can also use be in another practical setting. The project is not classified as research and hence is not similar to a research dissertation. The nature of the project is very flexible but a written project report of no less than 50 pages is required on completion, as well as presenting their report via an oral assessment format. In the case of students who completed the INF4016W course, the nature of the project will be a complete investigation of, and report on a hypothetical computer forensics investigation, including an oral presentation. The student should prepare a short description of the proposed project after which the student may be allocated a responsible staff member in the department who can act as a “supervisor/mentor”. The staff member may help the student with the scope and possible questions. All 4018W (BASA) students are required to consolidate their individual coursework deliverables into a final work project report which they are required to submit.

**DP requirements:** Submission of all deliverables including an unmarked progress report in July.

**Assessment:** There are two deliverables which will be assessed: A proposal must be submitted and approved at the start of the course (weighting of 20% towards final mark); The final work project - A minimum of 50% must be obtained in order to pass (weighting of 80% towards final mark); The marks for the above assessment will be combined to produce a final INF4017H course mark and an overall mark of 50% is required to pass.

---

**INF4018W BUSINESS AND SYSTEMS ANALYSIS**

60 NQF credits at HEQSF level 8

Convener: M Pollock

**Course entry requirements:** An undergraduate degree; or meet the RPL requirements of the department. Candidates should have access to a mentor in a business analysis environment.

**Course outline:**
This is an applied program in Information Systems Business and Systems Analysis. Graduates learn how to analyse, model and design appropriate technology laden products and services that meet organisational needs together with appropriate project processes to realise the benefits from such products and services. The course is structured across four full-time weeks spread over the year. The full-time weeks comprise theory lectures and hands-on practical class exercises, designed to carefully integrate theory and practice. The aim is to guide students through a transformative process of following, detaching and becoming fluent, while also taking responsibility for their own growth. Students on the programme are required to use a project or a process that they are busy working on in the host company or the company where they are currently employed, that will be developed and evolve in the course of the year. Students will learn to independently research, write coherently and lucidly, form valid arguments, understand organisations and information systems, analyse organisational processes and information, formulate a business case, design organisational processes and data structures, formulate a user requirements specification document, gain knowledge about business intelligence, understand IT governance, and implement project management techniques pertinent to the IT industry.

**Lecture times:** The lectures will be taught in four block weeks that are normally scheduled during the university breaks.

**DP requirements:** Failure to attend at least 80% of the UCT sessions and failure to achieve a year mark of more than 50% may, at the discretion of UCT, result in your exclusion from the UCT programme

**Assessment:** There will be continuous and summative assessments for the program through academic essays (15%), work assignments (35%), and exams (50%). Examination requirements: Students will be examined in May and November. A sub-minimum of 50% is required for the combined exam marks of equal weighting.

### INF4024W INFORMATION SYSTEMS RESEARCH PROJECT
60 NQF credits at HEQSF level 8

**Convener:** S. Kabanda

**Course entry requirements:** This course is restricted to students admitted into the honours programmes in Information Systems and the honours programme in Management Information Systems.

**Objective:** The course provides a first research exposure leading to an Honours Degree. Candidates will be expected to develop critical reading, analysis and research design skills, as well as to demonstrate good writing skills.

**Course outline:**
The course commences with taught sessions in research techniques. The Department may, at its discretion, choose to cover these materials in evening sessions of three hours each or via short full-time blocks, not exceeding six days in duration. Thereafter students will select research areas and prepare research proposals. Students will be assigned to mentors, who will assist and guide them through the research process. Additional three-hour seminars covering academic writing and research methodology will be provided at appropriate times throughout the year.

**Lecture times:** This course runs in 2 block session: One in the beginning of the 1st semester, and the second block runs in the middle of the 1st semester

**DP requirements:** None

**Assessment:** Students will be evaluated as follows: Interim deliverables 35%; Empirical report 65%. An overall mark of at least 50% is required to pass the programme and a minimum of 50% must be obtained for the Empirical Report.

### INF4025S INFORMATION SYSTEMS MANAGEMENT
20 NQF credits at HEQSF level 8

**Convener:** M. Tanner

**Course entry requirements:** Students must have attained a DP for INF4026F.

**Objective:** The major objectives of the course are to research, present and discuss the major academic contributions in the field of IS development and management in seminars. To develop
strong communication, interpersonal and change agent skills. To develop a community spirit through the Honours Outreach and Community Involvement Programme (HOCIP), and Global Citizen (GC) course.

Course outline:
The course covers IS Management topics, which are selected based on current research from academia and industry. Students are required to research a topic, and firstly produce a seminar paper in collaboration with an academic. Once the seminar paper has been approved by the academic, students have to develop and present a seminar on the topic, and facilitate a question and answer session. Guests from industry are often invited to present their experience on the topic after the students.

Lecture times: Monday and Tuesday, 14h00 & 15h00

DP requirements: 75% attendance and participation in seminars, a minimum of 50% for seminar management (developing and presenting a seminar paper according to scope, quality and time guidelines), and a minimum of 50% in the final examination

Assessment: Seminar and Associated deliverables 50%, Examination 50%

INF4026F  APPLICATION & TECHNICAL DEVELOPMENT
20 NQF credits at HEQSF level 8
Convener: M Tanner

Course entry requirements: Students should meet the entrance requirements to the IS Honours programme.

Objective: The major objectives of the course are to research, present and discuss the major academic contributions in the field of IS development and management in seminars. To develop strong communication, interpersonal and change agent skills. To develop a community spirit through the Honours Outreach and Community Involvement Programme (HOCIP), and Global Citizen (GC) course

Course outline:
The course covers twelve IS application and technical development topics, which are selected based on current research from academia and industry. Students are required to research a topic, and firstly produce a seminar paper in collaboration with an academic. Once the seminar paper has been approved by the academic, students have to develop and present a seminar on the topic, and facilitate a question and answer session. Guests from industry are often invited to present their experience on the topic after the students.

Lecture times: Monday and Thursday, 6th to 7th period

DP requirements: 75% attendance and participation in seminars, a minimum of 50% for seminar management (developing and presenting a seminar paper according to scope, quality and time guidelines), and a minimum of 50% in the final examination.

Assessment: Seminar Paper & Associated Deliverables 50%, Examination 50%

INF4027W  SYSTEM DEVELOPMENT PROJECT II
40 NQF credits at HEQSF level 8
Convener: M Tanner

Course entry requirements: Students should meet the entrance requirements to the IS Honours programme.

Course outline:
As part of the course, students are required to analyse, design code, and implement a real-life information system. In particular, students will be required to produce relevant, innovative and practical solutions to real life business problems which are put forward by industry sponsors. These projects are to be implemented using relevant latest technologies. Students are required to use an agile approach (i.e. the Scrum methodology) to manage their project throughout the year. Formal project demos are to be held every quarter and students are expected to regularly meet with sponsors to clarify requirements (in line with the agile approach). The projects are completed in teams of 4-5 students. Overall, the course combines theoretical elements of project management with the practical implementation of these concepts through the completion of a systems development group project.
**INF5000W**  INFORMATION SYSTEMS MASTERS BY DISSERTATION ONLY

*Only students with an exceptionally strong and broad research background will normally be accepted for this Course*

180 NQF credits at HEQSF level 9

Convener: M Kyobe

**Course entry requirements:** At least 65% at Honours level. (See also rule FM2 & FM2.2 -Rules for Post-graduate degrees – Masters)

**Objective:** The Master of Information Systems programme aims to enhance students’ knowledge and analytical skills in researching, designing, implementing and managing information systems in a fast-changing environment.

**Course outline:**
The student will be required to attend and hand-in assignments for the following 3 Coursework modules: Information systems thinking; Proposal writing; and Literature review. In addition, the student will attend regular one-on-one meetings with the dissertation supervisor. During this time a research plan will be approved and executed based on the research proposal. Changes to the candidate’s dissertation proposal will require approval of both the course convener and the candidate’s supervisor. The dissertation must have both theoretical and practical implications. Candidates will be expected to present a public seminar shortly before submission of the dissertation.

**Lecture times:** Monday, 8th and 9th period; Thursday, 9th and 10th period

**DP requirements:** None

**Assessment:** Assessment of the dissertation will be in terms of Rule FM5 of the Rules for the Degree of Master by Coursework and Dissertation.

---

**INF5004W**  INFORMATION SYSTEMS MASTERS COURSE WORK

90 NQF credits at HEQSF level 9

Convener: M Kyobe

**Course entry requirements:** At least 65% in INF4024W.

**Objective:** The Master of Information Systems programme aims to enhance students’ knowledge and analytical skills in researching, designing, implementing and managing information systems in a fast-changing environment.

**Course outline:**
The pedagogy will include individual study, small group discussion, regular seminars, research papers, projects and mentored research. Subject matter will consist of current topics in Information Systems theory research, and practice with particular focus on developing a critical approach to reading and writing in Information Systems. During this period the course convener will assist students in developing a research proposal for the dissertation component of the degree, and they will be allocated a suitable supervisor for the dissertation.

**Lecture times:** Monday, 8th and 9th period, Thursday, 9th and 10th period. The department may, at its discretion, choose to cover the materials in 4 weekly full time blocks to accommodate students not residing in Cape Town or those who cannot attend the weekly sessions. Each block would be for 5 days, starting at 9am until 3pm.

**DP requirements:** None

**Assessment:** Assessment will be based on deliverables within the following categories: Assignments on IS management topics, Professional writing, Systems thinking and quantitative analysis, Essays in a critical reading module. Draft research proposal. Full literature survey on proposed dissertation topic, Research design proposal for dissertation topic, Student presentations on various topics, Research article, and Participation.
INF5005W INFORMATION SYSTEMS MASTERS DISSERTATION
90 NQF credits at HEQSF level 9
Convener: M Kyobe
Course entry requirements: At least 50% in INF5004W.
Objective: The Master of Information Systems programme aims to enhance students’ knowledge and analytical skills in researching, designing, implementing and managing information systems in a fast-changing environment.
Course outline: The student will attend regular one-on-one meetings with the dissertation supervisor. During this time a research plan will be approved and executed based on the research proposal. Changes to the candidate’s dissertation proposal will require approval of both the course convener and the candidate’s supervisor. The dissertation must have both theoretical and practical implications. Candidates will be expected to present a public seminar shortly before submission of the dissertation.
DP requirements: None
Assessment: Assessment of the dissertation will be in terms of Rule FM5 of the Rules for the Degree of Master by Coursework and Dissertation.

INF6000W INFORMATION SYSTEMS THESIS
360 NQF credits at HEQSF level 10
Convener: W Chigona
Course entry requirements: A pass in INF6001W or equivalent
Course outline: A PhD thesis is required to be an original, coherent and consistent body of work which reflects the candidate’s own efforts. The thesis may not be more than 80,000 words (excluding bibliography and appendices). A candidate will undertake research, and such advanced study as may be required, under the guidance of a supervisor or supervisors appointed by Senate.
DP requirements: None
Assessment: The thesis will be assessed in terms of Rule GP5 of the rules for a doctoral degree. Examination is by thesis only.

INF6001W RESEARCH METHODS IN INFORMATION SYSTEMS
0 NQF credits at HEQSF level 10
Convener: W Chigona
Course entry requirements: Acceptance into the PhD Programme in Information Systems.
Course outline: The course explores different philosophical and methodological approaches to Information Systems research with a view to helping students become aware of the options they face in engaging in their selected areas of research, and to understand the logic and rationale of different research perspectives. Opportunities are created throughout the course for students to apply the ideas being discussed to their own personal research situations. The course provides an introduction to Information Systems research, and offers practical insight and guidance on the conduct of research. It is designed as a foundation for the development of the major research project or thesis. Students are required to attend a compulsory workshop at the start of the course and monthly class seminars. These seminars run for two to three days each month from February to July.
Lecture times: Students are required to attend a compulsory workshop at the start of the course and monthly class seminars. These seminars run for two to three days each month from February to July.
DP requirements: None
Assessment: Students will be assessed based on interim deliverables. The final mark for the course will be based on the final assignment – the research proposal and the presentation. Students are expected to submit and present their doctoral proposals to the department within the first year of their studies.
SCHOOL OF MANAGEMENT STUDIES

The School is housed in the Leslie Commerce Building, Room 4.09

Telephone Number: 021 650 2311.

BUS4006W ORGANISATIONAL PSYCHOLOGY HONS COURSEWORK
60 NQF credits at HEQSF level 8
Convener: C Duffy

Course entry requirements: The minimum admission requirement is a bachelor’s degree with Organisational Psychology / Industrial Psychology / Human Resource Management as a major. In order to qualify for selection into the programme applicants should have an average mark of at least 65% for their third year level Organisational Psychology courses. BBusSc students from UCT may be eligible for enrolment in their fourth year of study, but all students are subject to the selection process. Selection is based on academic performance and the University’s equity policy.

Course outline:
The central theme of this component is organisational change. This component aims to equip students with the knowledge and skills to act as change agents within an organisation.

This component consists of six compulsory modules.

Compulsory modules:
Organisational change
Change consulting
Research methods
Psychometrics
Change and Organisational Culture
Measuring Change and Learning

DP requirements: Students must attend all lectures and complete all assessments.

Assessment: Students are required to obtain at least 50% for all coursework modules. Each module contains both formative and summative assessments. Students are required to pass both the coursework (BUS4006W) and the research (BUS4030H) components in order to be awarded the degree.

BUS4027W ACTUARIAL RISK MANAGEMENT

No supplementary examinations are awarded for this course.
54 NQF credits at HEQSF level 8
Convener: P Botha

Course entry requirements: BUS2016H, BUS3018F and BUS3024S, STA3041F, STA3043S, STA3045F, BUS4028F (prerequisite/co-requisite).
Course outline:
The aim of this subject is to instil in successful candidates the ability to apply a wide range of key actuarial concepts in simple traditional and non-traditional situations. It comprises the following topics: How to do a professional job, Stakeholders, Client needs and customer needs and implications for other stakeholders, Managing risks, Marketing, External environment, Investment environment, Meeting investor needs, Capital, Interaction with client, Awareness of risk, Management of provisions for liabilities, Project planning and management, Input validation, Methodology and techniques, Assumption setting, Design, Expenses, Developing the cost and the price, Provisioning, Relationship between assets and liabilities, Maintaining profitability, Determining the expected results, Reporting actual results, Risk management, Asset management, Capital management, Surplus management, Mergers and acquisitions, Insolvency and closure, Options and guarantees, Monitoring, Principal terms.

DP requirements: Completion and timeous submission of tutorial exercises. Sitting all class tests. An overall average of 40% for class work.

Assessment: Tutorials 10%; Tests 40%; End of year examinations (2x 3 hours) 50%

---

BUS4028F ACTUARIAL SCIENCE III: FINANCIAL ECONOMICS
No supplementary examinations are awarded for this course.
21 NQF credits at HEQSF level 8
Convener: E Maritz
Course entry requirements: BUS2016H, BUS3018F and BUS3024S (or 60% for FTX3044F and 60% for FTX3045S, for Quantitative Finance students), STA3041F, STA3043S, STA3045F.

Course outline:
The aim of the course is to provide students with the ability to develop and apply asset/liability models and to value derivatives. A basic understanding of modern financial theories will be provided. Topics include utility theory, risk assessment, mean variance portfolio theory, multifactor models of asset returns, stochastic asset models, valuation of futures and options, Black Scholes analysis and arbitrage free pricing.

DP requirements: Completion of tutorials and tests with an average of 40%.

Assessment: Tutorials 8%; Tests 32%; End of year examination (1 x 3 hours) 60%.

---

BUS4030H ORGANISATIONAL PSYCHOLOGY RESEARCH PAPER
60 NQF credits at HEQSF level 8
Convener: A Boodhoo
Course entry requirements: Students must be registered for BUS4006W (i.e. students must have been accepted into the 4th year of Organisational Psychology.)

Course outline:
The aim of this component is to introduce students to the full cycle of a research project. Students who complete this component also will have a fundamental understanding of the ethics involved in the research process.

Staff members conceptualise substantial research projects and act as supervisors who guide students through the research cycle. Students form small research teams and are assigned to a supervisor. Regular meetings take place between supervisors and research teams. Deadlines for completion are set and have to be met at the different stages of the research process. At the end of the process, research teams present their projects as a poster or at a colloquium.

DP requirements: Students must complete all assessments.

Assessment: Each chapter of the research project has an assessment weighting (literature review, method, results and discussion. Together with the final research report submission these draft submissions make up the mark for BUS4030H). Students are required to obtain at least 50% for the research report. Students are required to pass both the coursework (BUS4006W) and the research (BUS4030H) components in order to be awarded the degree.
BUS4034S  PROFESSIONAL COMMUNICATION (ACTUARIAL SCIENCE)

No supplementary examinations are awarded for this course.

27 NQF credits at HEQSF level 8

Convener: C Kalil

Course entry requirements: BUS2016H, BUS3018F and STA3041F. BUS3024S, STA3043S, STA3045F, BUS4028F.

Course outline:
The course aims to provide students with the ability to design and produce various types of documents (e.g. correspondence, reports and proposals) common to the workplace. Students are required to plan and give persuasive presentations and oral reports to selected audiences as well as to prepare visual and graphic material for oral and written messages. Group work and group presentations are also emphasised.

Theory and application:
Formats, style, vocabulary, organisation patterns and readability for oral and written messages, individual and group presentation techniques; Correspondence (letters, email and factsheets) (with a focus on communicating actuarial science topics to various non-specialist audiences); report writing, proposal writing, integration of graphic and visual materials, individual and group oral presentations.

Prescribed text
A communication handbook and a course outline will be given to every student.

DP requirements: Submission of all assignments and participation in oral presentations; attendance at all compulsory lectures and workshops.

Assessment: PCU component: semester course work and presentations (60%); 3-hour written examination [Paper 1] (40%). Students must achieve a sub-minimum of 40% for each component with an average of 50%. In addition there is a 3-hour written examination (Paper 2) for professional exemption (A302). The final BUS4034S mark will be weighted as follows: PCU final mark: 70%; A302 Paper 2: 30%.

BUS4035F  INTRODUCTION TO SPORT MANAGEMENT

18 NQF credits at HEQSF level 8

Convener: D. Maralack

Course entry requirements: Registration for the Postgraduate Diploma in Management in Sport Management.

Objective: The course provides a comprehensive introduction to the various disciplines of sport management and provides students with a general understanding of the structure and functioning of sport both locally and internationally. Students will be encouraged to assess the current models and thinking behind sport management, particularly in a development context.

Course outline:
The South African sporting landscape and its role in the transformation imperative (policy, official and other structures and organisations; major and minor sports and other local sporting stakeholders e.g. the wellness and fitness industry). An overview of the international sporting landscape. International games (Olympics, Commonwealth Games and other). Elite athlete versus mass participation principles of sport. Scientific thinking and the role of science in sport (how scientists think; the use of science and technology, how to access sports science information in the South African context). Sports organisation structures and key roles within the sporting organisation. Competition structures and models.

DP requirements: TBC

Assessment: One 2-hour examination 50%, Essays and tests 40%, Tutorials 10%
BUS4040S  SCIENCE OF SPORT
18 NQF credits at HEQSF level 8
Convener: D Maralack

Course entry requirements: Registration for the Postgraduate Diploma in Management in Sport Management

Course outline:
The course provides students with a holistic understanding of core scientific approaches to sport management. Students will develop a broad understanding of the ways in which disciplines such as research and science, physiology, sports medicine, human movement, biomechanics, metabolism, sports nutrition, high performance, performance analysis and monitoring are interconnected and how these disciplines impact on sports management. Students will apply a scientific methodology to exercise and sport and in particular focus on managing, analysing and monitoring sport performance. Students will be able to engage with the physiology of athletes (muscle, cardiovascular system, genetics, metabolism and neurophysiology), the principles of training for fitness, injury and rehabilitation (adaptation and de-adaptation; team monitoring and fatigue management over a season). Students will engage with debates in sport nutrition, performance enhancement in sport (supplements, banned substances, anti-doping protocols), and mental approach to physical performance. Students will be exposed to tools for analysis and monitoring of performance to enable them to effectively manage sport teams, elite athletes and individuals seeking to improve their health and fitness.

DP requirements: Attendance of all tutorials and submission of all assignments as indicated in the course outline to be distribute at the beginning of the course. A sub-minimum of 40% is required for all coursework.

Assessment: Coursework 50%, Tutorials and classwork 20%, Project 30%, Exam 50 %

BUS4041S  SPORTS ADMINISTRATION AND BUSINESS
18 NQF credits at HEQSF level 8
Convener: D Maralack

Course entry requirements: Registration for the Postgraduate Diploma in Management in Sport Management

Course outline:
The course will provide students with theoretical and practical appreciation of administration, governance, business and finance within sports-related organisations. Students will be exposed to the different specialist sports management disciplines across law, development, marketing, marketing research, the major business and related components of sport, and specifically how funds are raised, managed and circulated within the industry. The key governance, policy and economic drivers in the sports industry will be explored, aiming to create effective and efficient sports clubs, institutions, events and sports development programmes. The course will enable students to apply general administration methodologies in different organisation types (South African Sports Confederation and Olympic Committee, national federations, tertiary institutions, professional teams, and fitness and recreation organisations). These methodologies will help analyse sports policies and systems and contribute to the students’ ability to critically assess various sport governance systems, sport finance structures and apply the principles of law to sports. Practical exposure will be provided to students to appreciate the general principles of sports facilities management, competition management, various sports development systems (designing and managing mass participation programmes, life-skills programmes), sport marketing and marketing research, and applications of broadcasting, sponsorship, media, public relations, event management and sport tourism management in the sports industry.

DP requirements: Attendance of all tutorials and submission of all assignments as indicated in the course outline to be distributed at the beginning of the course. A sub-minimum of 40% is required for all coursework.

Assessment: Coursework 50% Tutorials and classwork 20% and Project 30% Exam 50 %
BUS4049W  ORGANISATIONAL PROJECT
36 NQF credits at HEQSF level 8
Convener: S Hendry
Course entry requirements: Student must be registered for the Postgraduate Diploma in Management in Entrepreneurship.
Course outline:
This course requires students to set-up and run their own businesses, each of which reports to a Board of Directors from Industry. Attached to the project will be a research component that requires each student to undertake research into some specified area of entrepreneurial activity.
DP requirements: Attendance at ALL Genesis activities is compulsory. To attempt the November examination, the group or individual mark for a student should be no less than 40%. Students are required to achieve no less than 50% in the November examination. Any student who fails to achieve a minimum of 50% in this examination will NOT have the group mark incorporated in their final mark and the mark achieved in the examination will be the only mark reflected. A fail in the November Genesis exam will result in the student failing Genesis and he/she will not be permitted to graduate with the Diploma.
Assessment: Although the Genesis project is a group project, candidates will be evaluated individually as well. The evaluation of the Genesis Project is continuous and is derived from the principles of action learning. Coursework 60%, Mid-year examination 10%, Final examination 30%

BUS4039S  SPORT MANAGEMENT IN PRACTICE
18 NQF credits at HEQSF level 8
Convener: D. Maralack
Course entry requirements: Registration for the Postgraduate Diploma in Management in Sport Management
Course outline:
To provide students with methodologies to apply various sports theories to global and the South African sporting contexts. Students will gain an understanding of the steps required to grow a sport, manage an organisation, nurture sports talent and improve overall performance of individual athletes, teams and organisations. Students will be required to apply theoretical knowledge gained across all sport management disciplines and ground it in practical cases locally. The course will develop the students’ ability to integrate the various disciplines in sports management and apply these to practice. The course focuses on cases that leverage sport for the purposes of development for elite and mass community sport. Cases are selected to articulate various coaching theories and methodologies and evaluate appropriateness of each to manage high performance athletes and mobilise mass participation for fitness and health. The disciplines that are emphasised are sport information technologies, such as game analysis techniques and other related software, coaching, team structures and systems and mass participation events. Students will engage with various monitoring and evaluation tools in their analysis of sport management in practice.
DP requirements: Attendance of all tutorials and submission of all assignments as indicated in the course outline to be distributed at the beginning of the course. A sub-minimum of 40% is required for all coursework.

BUS4075S  MANAGEMENT THEORY IN PRACTICE
18 NQF credits at HEQSF level 8
Convener: D Priilaid
Course entry requirements: Students must be registered for a Postgraduate Diploma in Management in Entrepreneurship and must have completed all first semester courses in the Postgraduate Diploma or be a Semester Study Abroad student.
Course outline:
Challenges facing organisations in the 21st century, how to effectively manage key organisational aspects of people, projects, change and control, the conflicting values model, Understanding the role
of global corporations, post-modern business strategies, effective leadership within these contexts. The aim of this course is to learn about the dynamics regarding management effectiveness.

**DP requirements:** 40% classwork mark. Must attend all lectures and submit all assignments as indicated in the course outline to be distributed at the beginning of the course.

**Assessment:** Coursework 50%, Final examination 50%; 40% subminimum for exams

### BUS4078F ENTREPRENEURIAL STRATEGIES
18 NQF credits at HEQSF level 8

**Convener:** D Priilaid

**Course entry requirements:** Student must be registered for a Postgraduate Diploma in Management in the School of Management Studies, or be a Semester Study Abroad student.

**Course outline:**
Identification of potential business ideas, their assessment, the establishment of organisations, paths of business development, needs analysis, market research, habits of effective personal management, developing implementation strategies and action plans, structuring an organisation, strategic assessment.

The purpose of this course is to introduce students to Entrepreneurship and its attendant strategies. It is about the routes to the creation and ownership of a venture and the subsequent paths a business may take.

**DP requirements:** 40% classwork mark. Must attend all lectures and submit all assignments as indicated in the course outline to be distributed at the beginning of the course.

**Assessment:** Coursework 50%; Final Examination 50%; 40% subminimum for exams

### BUS4087S QUANTITATIVE FINANCE SELECTED TOPICS
This course is intended for students in the Quantitative Finance programme. Supplementary examinations will not be awarded for this course.
18 NQF credits at HEQSF level 8

**Convener:** P Botha

**Course entry requirements:** FTX3044F (60%) and FTX3045S (60%), ECO2003F and ECO2004S.

**Co-requisites:** Strategic Thinking BUS4050W.

**Course outline:**
The aim of this course is to cover advanced topics in the theory and practice of finance. The course covers the following areas:

1. Asset-liability Management,
2. Quantitative Methods,
3. Behavioural Finance and
4. Corporate Finance

**DP requirements:** None.

**Assessment:** Class tests and tutorials 50%, Examination 50%.

### BUS4088S ACTUARIAL SCIENCE III ASSETS
This course is intended for students doing Quantitative Finance. Supplementary examinations will not be awarded for this course.
27 NQF credits at HEQSF level 8

**Convener:** J Legutko

**Course entry requirements:** BUS2016H, FTX3044F (60%), FTX3045S (60%), STA3041F, STA3043S, STA3045F, BUS4028F (40%).

**Course outline:**
The aim of this subject is to instil in successful candidates an understanding of the investment environment and the principles and objectives of investment management. It will also give the candidates mastery of some of the techniques of asset valuation. It comprises the following topics:
Professionalism, external environment, regulations, stakeholders, providers of benefits, cash flows, money market instruments, bonds, equities, property, futures and options, overseas investments,
collective investment vehicles, principle economic influences on investment markets, major investments indices, asset modelling, valuation techniques for individual investments and portfolios, asset/liability management.

**DP requirements:** Completion and timeous submission of tutorial exercises. Sitting all class tests. An overall average of 40% for class work.

**Assessment:** Tutorials 8%, Tests 32%, End of year examination (1 x 3 hours) 60%

**BUS4090F  CREATIVITY IN BUSINESS**
18 NQF credits at HEQSF level 8
Convener: D Priilaid

**Course entry requirements:** Student must be registered for a Postgraduate Diploma in Management in the School of Management Studies, or be an SSA student.

**Course outline:**
On completion of the course, students will be able to explain critical theories of art, execute an original piece of creative work, apply the habits of successful artists in the generation of new business ideas, critique an existing business model and develop an innovative alternative. Some of the topics covered will include: perspective and social constructs, proactivity, developing ideas, commitment, intuition and the role of the unconscious.

This course aims to introduce students to the fundamental tenets of creativity and its application within a business context, enabling students to see problems differently and to develop innovative solutions accordingly. The course runs concurrently with the Second Semester of the Genesis Project and is designed to support students in their projects with the development of innovative and alternative solutions. It seeks to challenge existing silo-based thought patterns and to assist students in their transition to developing a creative working life.

**DP requirements:** Participation in all classes/workshops. Completion and submission of an Individual Learning Log, an Individual assignment and a Group project, and to attain a minimum of 40% for the coursework.

**Assessment:** Coursework 50%, Exam 50%; Subminimum for exam 40%

**BUS4104F  BUSINESS AND CORPORATE COMMUNICATION: THEORY AND PRACTICE**
18 NQF credits at HEQSF level 8
Convener: T Grant

**Course entry requirements:** Acceptance to the Postgraduate Diploma in Management in Business Communication

**Course outline:**
Course aims:-To allow students to explore, highlight and debate various business and corporate communication theoretical frameworks and issues apt for the 21st century -To provide opportunities for students to review the literature in the field to enhance their scholarly knowledge and insights-To allow students to apply these theoretical frameworks and concepts to practical instances within various business and institutional domains, not only to test their knowledge but to contribute to various theoretical and methodological issues and debates. After completion of the course students will be able to: -Critically review and differentiate between various theoretical constructs that underpin corporate and business communication,-Synthesise viewpoints and grapple with disjunctures, contradictions and tensions that arise in modern-day communication practices, and-Apply their learning to various practical arenas in the workplace in order to engage with and deliver appropriate and relevant decisions.

**DP requirements:** Full attendance recommended as a workshop approach is taken; a 40% subminimum in the year mark (which comprises 60% of the marks) and final examination (which comprises 40% of the marks), with an overall passing grade of 50%

**Assessment:** Formative assessment: DP requirement is 60% for coursework comprising short assignments, a group written project and a practical oral seminar presentation. Summative assessment: Final written examination (40%) with 50% passing average overall
BUS4105F  INTERCULTURAL AND DIVERSITY MANAGEMENT
18 NQF credits at HEQSF level 8
Convener:  G Nodoba
Course entry requirements: Acceptance to the Postgraduate Diploma in Management in Business Communication
Course outline:
Diverse and evolving styles of management in Africa and globally require a keen understanding of intercultural communication and issues of diversity within organisations and the societies they serve. This is especially important in post-Apartheid South Africa where issues of race, gender, power, belonging and much more bedevil effective communication and community relations. The socio-economic realities of South Africa are such that students in commerce, particularly management, have an enormous and onerous responsibility to ensuring sustainable, transparent and ethical communications and transactions within the continent and internationally. Understanding how these realities have played and continue to play out, is essential to forge ahead on a positive track that will benefit all stakeholders, the 'haves' and the 'have nots'. If we wish to build a country and economy that has a future, then everyone has a role to play and this course aims to contribute to that role.
DP requirements: Full attendance recommended as a workshop approach is taken; a 40% subminimum in the year mark (which comprises 60% of the marks) and final examination (which comprises 40% of the marks), with an overall passing grade of 50% Assessment: Formative assessment: DP requirement is 60% for coursework comprising short assignments, seminars, a mid-semester test and team project. Summative assessment: Final written examination (40%)

BUS4106F  TEAM MANAGEMENT AND COMMUNICATION
18 NQF credits at HEQSF level 8
Convener:  C Kalil
Course entry requirements: Acceptance to the Postgraduate Diploma in Management in Business Communication
Course outline:
Diverse and evolving styles of management in Africa and globally require leadership frameworks for transformation and change. Appreciating the differences between managing and leading is primary in this context. The complexities involved in corporate communication practices require practitioners who can critique and select appropriate and relevant strategies for effective and dynamic team wellbeing. Leaders who are visionary, adaptive, sensitive to context with capacity to energise colleagues and subordinates are required to guide and build individuals and teams in complex business environments. Mindfulness, introspection and personal mastery are hallmarks of effective team membership and leadership. Likewise mastery of operational and administration practices related to team meeting and collaboration are fundamental competencies to complement the less technical aspects of leadership.
DP requirements: Full attendance recommended as a workshop approach is taken; a 40% subminimum in the year mark (which comprises 60% of the marks) and final examination (which comprises 40% of the marks), with an overall passing grade of 50% Assessment: Formative assessment: DP requirement is 60% for coursework comprising short assignments, seminars, a mid-semester test and team project. Summative assessment: Final written examination (40%)

BUS4107S  PERSUASION IN MULTIMODAL DISCOURSES AND DOMAINS
18 NQF credits at HEQSF level 8
Convener:  T Grant
Course entry requirements: Acceptance to the Postgraduate Diploma in Management in Business Communication
Course outline:
Course aims: Develop students' theoretical grounding in persuasion and argumentation-Develop their theoretical understanding of multimodality and social semiotics including metafunctions (functional grammar) and multiliteracies-Develop their abilities to critique various verbal and visual modes, media, channels as well as analyse various genres, discourses, domains and sites of display-Identify and select appropriate traditional and digital modes and media for meaningful message delivery and dissemination. After completion of the course students will be able to:-Understand various texts and the types of 'grammar', both socio-linguistic and visual, in order to select from a repertoire of resources, those most apt for purpose and audience-Understand the concepts of affordance and design as essential to critiquing and creating multimodal texts appropriate to communication messages in the workplace-Use persuasive techniques and strategies to develop and deploy targeted messaging to all relevant audiences, both internal and external-Understand the interactive and interactional tools of metadiscourse and stance in reader-writer relationships.

DP requirements: Full attendance recommended as a workshop approach is taken; a 40% subminimum in the year mark (which comprises 60% of the marks) and final examination (which comprises 40% of the marks), with an overall passing grade of 50%

Assessment: Formative assessment: DP requirement is 60% for coursework comprising short assignments, seminar participation and an individual written test. Summative assessment: Final written individual business proposal/plan (40%)
Course outline:
The project course aims at equipping students with research skills, to empower students with paper writing skills and to equip students with ability to search for information online using e.g. library resources, Bloomberg and other sources. The project also aims at inculcating a sense of responsibility and discipline among students. Submissions will be checked for plagiarism and other research misconduct. The project process consists of a submission of proposal, a literature review, an initial draft of the final paper and the final paper. Except for the proposal, all the other submissions will be evaluated with the marks forming part of the final project mark.

DP requirements: Passing the draft proposal by at least 4/10.

Assessment: Course work 20%. Dissertation 80%. The literature Review will be marked out of 10 and the draft proposal will be marked out of 10. The final draft will get marked out of 100 but the overall mark = Literature Review Mark + Draft mark + 0.8* Final Mark.

BUS4153H QUANTITATIVE FINANCE RESEARCH PROJECT
36 NQF credits at HEQSF level 8
Convener: S Mataramvura

BUS5000W MASTERS IN BUSINESS SCIENCE
180 NQF credits at HEQSF level 9
Convener: A Schlechter
Course entry requirements: Relevant honours level degree

Course outline:
The Master’s by dissertation only is a research degree on an advanced topic under supervision. A candidate shall submit the dissertation of 25 000 -50 000 words in length for examination.

DP requirements: None
Assessment: 100% written work

BUS5002W MASTERS DISSERTATION IN BUSINESS SCIENCE
108 NQF credits at HEQSF level 9
Convener: P Botha
Course entry requirements: Completion of at least 2 F100 subjects

Course outline:
The dissertation should be supervised by one of the members of staff who is a FASSA, and a student must demonstrate capacity to do research in one of the specialist technical or application as agreed by the supervisor.

DP requirements: None
Assessment: None
BUS5003W  PEOPLE MANAGEMENT I  
60 NQF credits at HEQSF level 9  
Convener: S Goodman  
Course entry requirements: The minimum admission requirement is an Honours degree in Human Resources or Organisational Psychology / Industrial Psychology and a minimum of three years’ work experience in the field of human resources. In order to qualify for selection into the programme applicants should have an average mark of 65% for their Honours degree. At the discretion of the Head of Section, applicants who do not have an Honours degree in these fields or the required mark in the Honours degree, but have at least eight years of work experience in the field of human resources may receive recognition of prior learning. Such candidates may be required to write specialised admission tests.  
Course outline:  
The central theme of this component is strategic partnership. This component aims to equip students with the knowledge and skills to take up their role as strategic partners in a human resource environment. The component is made up of three compulsory modules, Strategy, Reward and Talent Management, and Intergroup Skills.  
DP requirements: None  
Assessment: All modules will include formative assessments (individual assessments during the course of the module) 60% and summative assessments (a final individual assessment at the end of the module) 40%. The coursework component for BUS5003W and BUS5004W contributes 66% towards the final mark for the Master’s degree. Students are required to pass each module in order to pass the course.  

BUS5004W  PEOPLE MANAGEMENT II  
60 NQF credits at HEQSF level 9  
Convener: S Goodman  
Course entry requirements: The minimum admission requirement is an Honours degree in Human Resources or Organisational Psychology / Industrial Psychology and a minimum of three years’ work experience in the field of human resources. In order to qualify for selection into the programme applicants should have an average mark of 65% for their Honours degree. At the discretion of the Head of Section, applicants who do not have an Honours degree in these fields or the required mark in the Honours degree, but have at least eight years of work experience in the field of human resources may receive recognition of prior learning. Such candidates may be required to write specialised admission tests.  
Course outline:  
The central theme of this component is strategic partnership. This component aims to equip students with the knowledge and skills to take up their role as strategic partners in human resource environment. The component is made up of three compulsory modules, Research Methods, Design and Staffing and Human Resource Development.  
DP requirements: None  
Assessment: All modules will include formative assessments (individual assessments during the course of the module) 60% and summative assessments (a final individual assessment at the end of the module) 40%. The coursework component for BUS5003W and BUS5004W contributes 66% towards the final mark for the Masters’ degree. Students are required to pass each module in order to pass the course.  

BUS5006W  PEOPLE MANAGEMENT RESEARCH PROJECT  
60 NQF credits at HEQSF level 9  
Convener: S Goodman  
Course entry requirements: The minimum admission requirement is an Honours degree in Human Resources or Organisational Psychology / Industrial Psychology and a minimum of three years’ work experience in the field of human resources. In order to qualify for selection into the programme applicants should have an average mark of 65% for their Honours degree. At the
discretion of the Head of Section, applicants who do not have an Honours degree in these fields or the required mark in the Honours degree, but have at least eight years of work experience in the field of human resources may receive recognition of prior learning. Such candidates may be required to write specialised admission tests.

Course outline:
This course forms the research component of the MPhil in People Management. An individual research paper (maximum length 15,000 words excluding appendices and bibliography) on a topic of people management is required. Students select a research topic to address a work-based problem and are allocated a suitable supervisor. They submit a proposal for the project to the supervisor, the Faculty’s Ethics in Research Committee and the Faculty’s Higher Degrees Committee. Students and their supervisors are expected to meet regularly, design a delivery schedule and adhere to agreed-upon deadlines. The research project must be submitted by the date stipulated by the Section of Organisational Psychology.

DP requirements: Dissertation
Assessment: Students are required to obtain at least 50% for their research project. The research project component contributes 34% towards their final mark for the programme/degree.

BUS5018F LIFE INSURANCE
Supplementary examinations will not be awarded for this course. Presentation of this course will be subject to sufficient demand and to the availability of suitable resources.
36 NQF credits at HEQSF level 9
Convener: P Botha
Course entry requirements: Suitable undergraduate degree together with subjects A101-103, A201-205 and A301 of the Actuarial Society or equivalent. Students narrowly failing to meet this requirement (e.g. missing one A2 subject) may be considered on merit, although students meeting the requirements will be given priority.
Course outline:
Features of products and markets; tax legislative and statutory controls; major areas of risk; reinsurance underwriting; principles of investment; professional guidance; unit pricing; valuation data and analysing experience; values of liabilities for reserving, solvency, pricing, management accounts; value to shareholders; modelling claim frequency and amount; pricing bases; asset-liability matching.
DP requirements: 45% average over all class tests.
Assessment: Examination (3 hours) 50%, Class tests 50%

BUS5019S PENSIONS
Supplementary examinations will not be awarded for this course. Presentation of this course will be subject to sufficient demand and to the availability of suitable resources.
36 NQF credits at HEQSF level 9
Convener: J Legutko
Course entry requirements: Suitable undergraduate degree together with subjects A101-103, A201-205 and A301 of the Actuarial Society or equivalent. Students narrowly failing to meet this requirement (e.g. missing one A2 subject) may be considered on merit, although students meeting the requirements will be given priority.
Course outline:
This course aims to develop students to the specialist technical level of pension fund knowledge (equivalent to the F100 level in the South African profession). This will include the framework and features of state, occupational and personal pension provision; legislation, tax controls, economic and demographic factors, and professional guidance; valuation data collection, analysing experience, valuing liabilities and assets, calculating contribution rates; terms for individual options, bulk transfers; choice and management of assets.
DP requirements: 45% average over all class tests
Assessment: Examination (3 hours) 50%, Class tests 50%
BUS5022F  SELECTED SOUTH AFRICAN TOPICS

Presentation of this course will be subject to sufficient demand and to the availability of suitable resources.

36 NQF credits at HEQSF level 9

Convener: R Dorrington

Course entry requirements: Suitable undergraduate degree together with subjects CT1-CT8 of the joint examinations of the Institute of Actuaries and the Faculty of Actuaries.

Course outline:
Topics selected from areas of actuarial practice with specific emphasis on the theory and practice of these areas in the South African context.

BUS5028F/S  PENSIONS SPECIALIST

Supplementary examinations will not be awarded for this course. Presentation of this course will be subject to sufficient demand and to the availability of suitable resources.

54 NQF credits at HEQSF level 9

Convener: J Legutko

Course entry requirements: Suitable undergraduate degree together with parts A1 and A2 of the Actuarial Society or equivalent.

Course outline:
The aim of the course is to develop students to the level of being able to apply the principles of pension funds in a professional environment. This covers the roles of the various parties involved in pensions provision; the South African legal framework for pensions provision compared with alternatives; reporting and accounting standards and professional guidance for actuaries in respect of pension provision; methods of financing pension benefits and the associated investment choices in South Africa; design of pensions benefits and contributions with special reference to AIDS and the security of such benefits; mergers and acquisitions of retirement funds; valuation of open defined benefit pension schemes; calculation of benefit rights and expectations and the availability of assets on discontinuance of retirement funds; determining appropriate assumptions for calculating values; choosing and monitoring investments; asset-liability modelling; re-insurance; sources and analysis of surplus.

DP requirements: Satisfactory attendance and participation in the seminars and tutorials.

Assessment: Examination (3 hours) 100%

BUS5033W  ORGANISATIONAL PSYCHOLOGY MASTERS (COURSEWORK)

90 NQF credits at HEQSF level 9

Convener: F de Kock

Course entry requirements: An honours degree in Organisational Psychology/Industrial Psychology. In order to qualify for selection students should have achieved 65% for their honours degree.

Course outline:
This component of the programme is aligned with the Health Profession Council of South Africa’s scope of practice for the professional training of industrial/organisational psychologists. The programme aims to equip students with the knowledge and skills to perform the role of scientist practitioner.

This component consists of seven compulsory modules.

- Theories and approaches to work
- Research I
- Research II
- Psychological assessment
- Professional practice and career
- Evaluating organisational psychology interventions
- Occupational health psychology
DP requirements: Compulsory class attendance. Completion of all assessments.  
Assessment: All modules will include formative assessments (individual assessments during the course of the module) 60% and summative assessments (a final individual assessment at the end of the module) 40%. The coursework component contributes 50% towards the final mark for the Master’s degree. Students are required to pass each module in order to pass the course.

BUS5034H ORGANISATIONAL PSYCHOLOGY MASTERS (DISSERTATION)  
90 NQF credits at HEQSF level 9  
Convener: F de Kock  
Course entry requirements: Admission to the qualification  
Course outline:  
The aim of this component is to assess whether students have mastered the principles of the research process and are able to apply these to a dissertation. Students choose a research topic offered by a supervisor working in a focus area. After consultation with and support from their supervisor, they submit a proposal for a dissertation to the Department and the Faculty’s Ethics Research Committee. Students and supervisors are expected to meet regularly, design a work schedule and adhere to agreed deadlines. All students are required to submit a dissertation of not more than 20,000 words. The dissertation must be submitted by the date stipulated by the Section of Organisational Psychology.  
DP requirements: Dissertation  
Assessment: Students are required to obtain at least 50% for their dissertation. The dissertation component contributes 50% towards the final mark for the degree.

BUS5035S FINANCE & INVESTMENT  
Supplementary examinations will not be awarded for this course. Presentation of this course will be subject to sufficient demand and to the availability of suitable resources.  
36 NQF credits at HEQSF level 9  
Convener: P Botha  
Course entry requirements: Suitable undergraduate degree together with subjects A101 – 103, A201-205 and A301 of the Actuarial Society or equivalent. Students narrowly failing to meet this requirement (e.g. missing one A2 subject) may be considered on merit, although students meeting the requirements will be given priority.  
Course outline:  
The aim is to prepare students for a career specialising in finance and investment, and specifically to develop students to the specialist technical level of finance and investment knowledge (equivalent to the F100 level in the South African profession). The course covers taxation, industry classification and investment indices, fundamental share analysis and specialist asset classes including derivatives. It also covers the wider issues of the theory of finance and the practical issues of regulation of financial services, applications of the legislative and regulatory framework, environmental influences and overall risk control. Actuarial techniques will be studied for portfolio management and performance measurement.  
DP requirements: 45% average over all class tests and tutorials.  
Assessment: Examination (3 hours) 50%, Class tests 50%

BUS5036S DISSERTATION (PROGRAMME EVALUATION)  
0 NQF credits at HEQSF level 9  
Convener: S Chapman  
Course entry requirements: None  
Co-requisites: None  
Course outline:  
This component of the course aims to assess whether or not students have mastered the principles of programme monitoring and evaluation, are able to apply these to a real-life programme and construct a written report in the form of a dissertation based on this application. Students will
register for this course at the start of the second semester in which they registered for the M.Phil in Programme Evaluation.

Students have to choose a programme that is being planned or that is currently running. In consultation with their supervisor and a client from the organisation planning/running the programme, students formulate appropriate evaluation questions and levels. A proposal for the evaluation has to be presented to the Section and submitted to the Commerce Faculty Ethics in Research Committee. All students are required to submit the evaluation as a dissertation of not more than 20,000 words. The dissertation must be submitted by the date stipulated by the Section.

**DP requirements:** Dissertation

**Assessment:** Students are required to obtain at least 50% for their dissertation. The dissertation component contributes 50% toward the final mark for the degree.

---

### BUS5037W  PROGRAMME EVALUATION MASTERS COURSEWORK

90 NQF credits at HEQSF level 9

**Convener:** S Chapman

**Course entry requirements:** In order to qualify for selection into the programme applicants should have an honours degree or a four year professional bachelor’s degree at HEQSF level 8. In this honours degree applicants should have completed a component of quantitative research methods/statistics. In order to qualify for selection applicants should have obtained an average mark of 65% for their honours degree.

**Co-requisites:** BUS5036S

**Course outline:**

In order to qualify for selection into the programme applicants should have an honours degree or a four year professional bachelor’s degree at NQF level 8. In this honours degree applicants should have completed a component of quantitative research methods/statistics. In order to qualify for selection applicants should have obtained an average mark of 65% for their honours degree.

The coursework aims to equip students with advanced programme evaluation knowledge and skills. The course consists of five compulsory modules (the first three modules are presented in the first semester and the last two modules in the second semester; at the discretion of the Head of Section some second semester modules could be offered in the first semester):

- Principles of programme evaluation
- Research design for evaluation (Research methods I)
- Monitoring using programme theory
- Data analysis for evaluation (Research methods II)
- Advanced approaches for complex evaluations

At the discretion of the Head of Section, modules may be added or withdrawn

**DP requirements:** 100% Class attendance. The coursework component contributes 50% towards the final mark for the degree. Students are required to obtain at least 50% for all coursework modules.

**Assessment:** Formative assessment (group or individual assessments during the course of each module) 60% Summative assessment (a final, individual assessment at the end of the module) 40%

---

### BUS5038S  LIFE INSURANCE SPECIALIST

Supplementary examinations will not be awarded for this course. Presentation of this course will be subject to sufficient demand and to the availability of suitable resources.

54 NQF credits at HEQSF level 9

**Convener:** P Botha

**Course entry requirements:** Suitable undergraduate degree together with parts A1 and A2 of the Actuarial Society or equivalent.

**Course outline:**

The aim is to instil an understanding of Life Office valuation, understanding Life Insurance product design/profit testing, understanding the risks inherent in a Life Office operation and an understanding the legislative framework for Life insurance.
Roles of the various parties involved in the Life Insurance Industry in South Africa; The South African legal framework for Life insurance; Reporting and accounting standards and professional guidance for actuaries in respect of Life Office valuation and product design; Special reference to the financial risks of AIDS; analysing experience; valuing assets and liabilities for reserving, solvency, pricing, management accounts; Value to shareholders; Modelling claims frequency and amounts.

**DP requirements:** Satisfactory attendance and participation in the seminars and tutorials.

**Assessment:** Examination (3 hours) 100%

---

**BUS5039F/S HEALTHCARE SPECIALIST**

*Supplementary examinations will not be awarded for this course. Presentation of this course will be subject to sufficient demand and to the availability of suitable resources.*

54 NQF credits at HEQSF level 9

**Convener:** P Botha

**Course entry requirements:** Suitable undergraduate degree together with parts A1 and A2 of the Actuarial Society or equivalent.

**Course outline:**
The aim is to instil an understanding of financing Healthcare in the private sector, understanding Health and Care product design and benefit design, understanding the risks inherent in Healthcare financing and Reinsurance and understanding the legislative, tax and policy framework for the Health and Care environment.

Roles of the various parties involved in the Health and Care environment in South Africa; The South African legal, tax and policy framework for Health and Care; Reporting and accounting standards and professional guidance for actuaries in respect of Capital Adequacy Requirements; Sources of data and analysing experience; financing risks and reinsurance; funding for post-retirement Health and Care expenses; Modelling claims frequency and amounts; underwriting policy and restrictions; assessing impact of HIV/AIDS on Health and Care environment.

**DP requirements:** Satisfactory attendance and participation in the seminars and tutorials.

**Assessment:** Examination (3 hours) 100%

---

**BUS5040S GENERAL INSURANCE**

36 NQF credits at HEQSF level 9

**Convener:** P Botha

**Course entry requirements:** Suitable undergraduate degree together with parts A101 – 103, A201 – 205 and A301 of the Actuarial Society or equivalent. Students narrowly failing to meet this requirement (e.g. missing one A2 subject) may be considered on merit, although students meeting the requirements will be given priority.

**Course outline:**
Features of products and the market; tax, legislative and supervisory environment; principles and standards of accounting; major areas of risk and the methods of reinsurance; professional guidance notes; valuation data and analysing experience; values of liabilities for reserving, solvency, pricing, management accounts; value to shareholders; modelling claim frequency and amounts; pricing bases; asset/liability matching.

**DP requirements:** 45% average over all class tests and tutorials

**Assessment:** Examination (3 hours) 50%, Class Tests 50%

---

**BUS5041F/S FINANCE AND INVESTMENT TECHNICAL B**

36 NQF credits at HEQSF level 9

**Convener:** D Strugnell

**Course entry requirements:** Suitable undergraduate degree together with parts A1 and A2 of the Actuarial Society or equivalent.
Course outline:
Forward and Future prices by no-arbitrage; Wiener process; Ito’s formula; Ornstein-Uhlenbeck process and multi-variate Brownian motion; derivative instruments; martingale measures; Giransov theorem; Black-Scholes derivative pricing model; American options; Black Model for pricing and valuing options on futures contracts and interest rates; yield curve, interest rate swaps; Vasicek, Cox-Ingersoll-Ross and Hull and White models for interest rate term-structures; market risk; credit risk.

DP requirements: 45% average over all class tests and tutorials
Assessment: Examination (3 hours) 50%, Class tests and tutorials 50%, Supplementary examinations will not be awarded for this course. Presentation of this course will be subject to sufficient demand and to the availability of suitable resources.

BUS5042F  HEALTH AND CARE

Supplementary examinations will not be awarded for this course. Presentation of this course will be subject to sufficient demand and to the availability of suitable resources.
36 NQF credits at HEQSF level 9
Convener: P Botha

Course entry requirements: Suitable undergraduate degree with subjects A101 – 103, A201 – 205 and A301 of the Actuarial Society or equivalents. Students narrowly failing to meet this requirement (e.g. missing one A2 subject) may be considered on merit, although students meeting the requirements will be given priority.

Course outline:
Describe and understand the main type of contracts, various stakeholders in health and care, product design, understand the operating environment, role of the State in provision, pricing of products, understand the nature of risks and the use of reinsurance, other risk management tools, modelling techniques, valuation and reserving and supervisory reporting. The aim of the course is to instil in successful candidates the ability to apply in a range of situations, the principles of actuarial planning and control in health and care matters on sound financial lines.

DP requirements: 45% average over all class tests and tutorials.
Assessment: Examination (3 hours) 50 %, Class tests 50 %

BUS5049W  ORGANISATIONAL PSYCHOLOGY INTERNSHIP

0 NQF credits at HEQSF level 9
Convener: F de Kock

Course entry requirements: Students who completed their first year of the Master of Organisational and Industrial Psychology programme.

Course outline:
Organisational Psychology students are required academic supervision as per the Health Professions Council South Africa (HPCSA) regulation.

DP requirements: None
Assessment: None

BUS5050F  DISSERTATION (PROGRAMME EVALUATION)

90 NQF credits at HEQSF level 9
Convener: S Chapman

Course entry requirements: None
Co-requisites: BUS5037W (Coursework) and BUS5036S

Course outline:
This is a continuation course for BUS5036S, which Programme Evaluation students will have registered for in the second semester of the preceding year. As with BUS5037W, the course aims to assess whether or not students have mastered the principles of programme evaluation, are able to apply these to a real-life programme and construct a written report in the form of a dissertation based on this application.
Students have to choose a programme that is being planned or that is currently running. In consultation with their supervisor and a client from the organisation planning/running the programme, students formulate appropriate evaluation questions and levels. A proposal for the evaluation has to be presented to the Section and submitted to the Commerce Faculty Ethics in Research Committee. All students are required to submit the evaluation as a dissertation of not more than 20,000 words. The dissertation must be submitted by the date stipulated by the Section.

**DP requirements:** Dissertation

**Assessment:** Students are required to obtain at least 50% for their Dissertation. The dissertation component contributes 50% towards the final Mark for the degree.

---

**BUS6000W**  PHD IN BUSINESS SCIENCE  
360 NQF credits at HEQSF level 10

**Course entry requirements:** Acceptance to a PhD programme

**Course outline:**
A PhD thesis is required to be an original, coherent and consistent body of work which reflects the candidate’s own efforts. The thesis may not be more than 80,000 words (excluding bibliography and appendices). A candidate will undertake research, and such advanced study as may be required, under the guidance of a supervisor or supervisors appointed by Senate.

A candidate for the degree shall register for at least two academic years. The approval process shall include a presentation of the research proposal within six months of registration, to a Departmental panel. Continued registration is dependent on the outcome of this presentation.

**Lecture times:** None

**DP requirements:** None

**Assessment:** 100% Thesis

---

**BUS6001W**  PHD IN PROGRAMME EVALUATION  
360 NQF credits at HEQSF level 10

**DOC4002F**  DEMOGRAPHIC DATA AND STATISTICS  
15 NQF credits at HEQSF level 9

**Convener:** T Moultrie

**Course entry requirements:** Admission to the MPhil in Demography

**Course outline:**
Students will be exposed to techniques of assessment and analysis of demographic and biomedical data. The course material will cover the evaluation and assessment of the quality of demographic data; frequently encountered errors and biases; and the application of multiple linear, logistic regression and Poisson regression and event-history analysis to cross-sectional and longitudinal demographic data.

**DP requirements:** Submission of both assignments. A sub-minimum of 40% for the assignments is required

**Assessment:** Two assignments 50%, Final examination 50%. A pass mark of 50% is required overall, with a 40% sub-minimum on each of the examination and semester mark

---

**DOC5000Z**  DISSERTATION  
90 NQF credits at HEQSF level 9

**Convener:** T Moultrie

**Course entry requirements:** Admission to the MPhil in Demography

**Course outline:**
A thorough investigation, of between 15,000 and 20,000 words, that utilises demographic data sources to contribute to and enhance understanding of demographic processes. Students must finalise their proposals by the start of the third term of study, and should start considering their likely field of research in the first few weeks of term. Students will also have to attend and
participate in compulsory seminars on Social Research Methods, as well as attend and participate in the regular series of departmental research seminars.

**DP requirements**: 100% attendance at seminars on Social Research Methods

**Assessment**: Dissertation 100%.

---

**DOC5001F/S  BASIC DEMOGRAPHY**

15 NQF credits at HEQSF level 9  
**Convener**: T Moultrie

**Course entry requirements**: Admission to the MPhil in Demography

**Co-requisites**: This course is also available to Statistics and Economics honours students. Subject to demand, the same course will be offered again in the second semester.

**Course outline**:  
This course offers a foundation in demographic methods and principles, including the elementary analysis of mortality, fertility and nuptiality. Emphasis is placed on application of knowledge gained in lectures to problems using regional data. On completion of the course, students will have a clear understanding of the fundamentals of demographic analysis, and be able to apply these techniques to a range of simple demographic problems.

Topics covered include: Age and sex structures of populations; life tables; stationary populations; direct and indirect standardisation; model life tables; measures of fertility and nuptiality; multiple decrement life tables; migration and population projections.

**DP requirements**: Submission of all tutorials and writing of class tests, with a sub-minimum of 40%

**Assessment**: DOC5001F examined in June, DOC5001S examined in November, Practicals, tests, and assignments 40%. Final examination 60%

---

**DOC5002S  TECHNIQUES OF DEMOGRAPHIC ESTIMATION**

30 NQF credits at HEQSF level 9  
**Convener**: T Moultrie

**Course entry requirements**: Successful completion of DOC5001F

**Course outline**:  
Students will be exposed to many techniques of analysis of demographic data, and will be able to apply them to data collected from a wide range of sources in different settings. Particular emphasis is placed on the appraisal and analysis of defective data using indirect methods. The course covers the analysis of fertility, mortality and migration. Techniques in the measurement of fertility: Relational Gompertz models, measures of family formation and parity progression, birth interval analysis. Techniques in the measurement of mortality: estimation of child mortality from data on children born and surviving; estimation of adult mortality using data on survival of siblings, spouses and parents. Measurement of migration.

**DP requirements**: Submission of all required practicals and assignments, with a sub-minimum of 40%

**Assessment**: Examination 60%

---

**DOC5003S  POPULATION PROJECTIONS & MODELLING**

15 NQF credits at HEQSF level 9  
**Convener**: R Dorrington

**Course entry requirements**: DOC5001F

**Course outline**:  
This course will expose students to techniques of population projection and epidemiological modelling. At the end of the course, students will be able to apply the knowledge gained to derive population projections for national and sub-national populations using a variety of methods, and taking anticipated changes in epidemiological and demographic variables into account. Students will also have a thorough understanding of different approaches to demographic modelling, and their limitations.
DP requirements: Submission of all required practicals and assignments, with a sub-minimum of 40%.
Assessment: Practical, tests, and assignments 40%. Final examination 60%

DOC5004F SELECTED TOPICS IN POPULATION STUDIES
15 NQF credits at HEQSF level 9
Convener: C Toweiss
Course entry requirements: Admission to the MPhil in Demography
Course outline: Through a seminar series, presented by students and facilitated by a staff member, students will be exposed to a range of topics in population studies. Students will be graded by their contributions to the seminar, and through a general exam at the end of the term. The intention is for this course to be run as a seminar/reading course, with students preparing inputs for each week, presenting their work, and then opening up discussion in the class, facilitated by the lecturer. Detailed reading lists will be provided, showing readings which all students are expected to read before the seminar.
DP requirements: Attendance and participation in seminars. Submission of essays and assignments
Assessment: Essay and assignments 50% Examination 50%

DOC5005W MINOR DISSERTATION
Fifth-year status, whole year.
60 NQF credits at HEQSF level 9
Convener: P Ouwehand
Course entry requirements: Acceptance into MPhil in Mathematical Finance.
Course outline: The dissertation should be well conceived and acknowledge earlier research in the field, if appropriate. It should show your ability to undertake a substantial and informed piece of research, and demonstrate your ability to collect, organise and analyse material to communicate effectively. It should illustrate that you are able to replicate and/or critically evaluate existing research in the field. The dissertation should demonstrate a capacity for research and creditable literary quality.
DP requirements: None
Assessment: Written work 100%; graded one of Fail, Pass or Distinction

DOC5009F/S WRITING FOR PUBLICATION
47 NQF credits at HEQSF level 9
Convener: J Burns
Course entry requirements: Must have formally submitted Master's thesis for examination. Admission is dependent on a letter of support/motivation by existing supervisor who indicates willingness to continue supervision/mentorship activities.
Course outline: This course allows Master's students to remain registered at the University after they have formally submitted their Masters thesis for examination with the explicit aim of turning their thesis work into a series of scholarly articles, ready for submission to accredited, peer-reviewed journals.
DP requirements: Student submission Master's thesis
Assessment: Submission of Master's thesis for examination with the explicit aim of turning their thesis work into a series of scholarly articles, ready for submission to accredited, peer-reviewed journals

DOC5010S RISK MANAGEMENT GOVERNANCE
30 NQF credits at HEQSF level 9
Convener: A Mukherjee
Course entry requirements: Acceptance into the MCom in Risk Management of Financial Markets.
Course outline:
This course equips students with an understanding of the ethical, accounting, legislative and regulatory frameworks that govern economic activities within the financial services sector. It completes the technical, economic and market knowledge base, which has been built by the Risk Management Quantitative Modelling and Risk Management Markets courses, with the relevant ethical, accounting and governance structures.

DP requirements: None.
Assessment: Coursework 50%, Final examination 50%

DOC5011W  RISK MANAGEMENT QUANTITATIVE MODELLING
45 NQF credits at HEQSF level 8
Convener: P Ouwehand

Course entry requirements: Acceptance into the MCom in Risk Management of Financial Markets.

Course outline:
This course equips students with the necessary technical skills for financial risk management. These technical skills span the following core areas: quantitative methods, econometrics and computing skills.

DP requirements: None.
Assessment: Coursework 50%, Final examination 50%

DOC5012W  RISK MANAGEMENT RESEARCH
60 NQF credits at HEQSF level 9
Convener: A Mukherjee

Course entry requirements: Acceptance into MCom in Risk Management of Financial Markets

Course outline:
This is the composite research option for the degree of MCom in Risk Management of Financial Markets. The student is required to complete a research topic that will comprise three research tasks (or the equivalent thereof). These tasks will be related to the courses taken for the degree and shall require the student to demonstrate innovation or professional expertise.

DP requirements: None
Assessment: Composite mark 100%.

DOC5013W  RISK MANAGEMENT MARKETS
45 NQF credits at HEQSF level 9
Convener: P Ouwehand

Course entry requirements: Acceptance into the MCom in Risk Management of Financial Markets.

Course outline:
This course equips students with a comprehensive understanding of the financial services sector, the three main subsectors (insurance, banking and asset management), their business models, as well as the general and specific risks associated with each. It covers the financial markets within which these businesses operate, along with the vast array of financial instruments that are both tradable and untradeable, and the multifaceted diversity of financial risks that these instruments bear. The course focuses primarily on market and credit risk, and enables an integration of the technical knowledge of the Quantitative Modelling course with the practicalities of the financial services business environment, in order to measure, analyse, and manage risk.

DP requirements: None.
Assessment: Coursework 50%, Final examination 50%
DOC5032F  SOUTH AFRICAN FINANCIAL MARKETS
15 NQF credits at HEQSF level 8
Convener: O Mahomed
Course entry requirements: Acceptance into MPhil in Mathematical Finance.
Course outline:
The course SAFM introduces the mechanics of South African financial markets from a theoretical and practical perspective. It includes fundamental material on financial mathematics and derivatives pricing with key emphasis on money market and fixed income instruments. The course content also covers inflation linked and currency products.
DP requirements: None.
Assessment: Final examination 60%, Assignments and class tests 40%

DOC5037S  FINTECH AND CRYPTOCURRENCIES
24 NQF credits at HEQSF level 9
Convener: C Georg
Course entry requirements: Acceptance into MSc in Data Science and successful (Above 65%) completion of all core courses in the degree.
Co-requisites: None
Course outline:
The course has three parts. The first part will give an overview of the existing regulatory environment of financial institutions, which includes an overview of their various activities and how they will be disrupted by fintech applications. The second part will introduce distributed ledgers as the foundation for a new financial infrastructure. The third part then introduces cryptocurrencies and shows how to develop practical applications on the blockchain using Ethereum. The course starts with giving students a thorough overview of the regulatory environment financial institutions operate in, both domestically and internationally. the course will cover the regulatory framework for both banks and non-bank financial intermediaries. the second part of the course provides an introduction to distributed ledgers. Students will be able to understand how they work in detail and what the difference to double-entry bookkeeping is. The course will focus on blockchain as a foundation for many modern cryptocurrencies. Finally, after providing students with the necessary background knowledge on cryptography, the course will then give a thorough overview of distributed consensus mechanisms. The course will introduce the Ethereum cryptocurrency and students will be able to develop simple applications using smart contracts in Ethereum at the end of the course.
DP requirements: None
Assessment: Coursework 50%; Exam 50%.  Two assignments counting 25% each of the final mark.2.  Two exams (with a shorter theoretical and longer practical component) counting 15% and 35% of the year mark, respectively.

DOC5038Z  MATHEMATICAL COMPUTING SKILLS
Preliminary course, before start of first semester (12 practical sessions).
0 NQF credits at HEQSF level 9
Convener: D.R. Taylor
Course entry requirements: Acceptance into MPhil in Mathematical Finance.
Course outline:
This purely practical course provides the basic structured coding and computational skills required to implement mathematical and numerical algorithms. While the emphasis is on Matlab as a computing language, Excel and VBA will also be used. Topics covered in the modules will include advanced Excel, vectorisation, structured coding, graphics, numerical calculus and minimisation, ODEs and PDEs, and VBA applications.
DP requirements: 100% completion of tutorials
Assessment: Final examination counts 100%.
DOC5039S    FINANCIAL SOFTWARE ENGINEERING
27 NQF credits at HEQSF level 9
Convener: C Georg

Course entry requirements: Acceptance into MSc in Data Science and successful (above 65%) completion of all core courses in the degree.

Co-requisites: None

Course outline:
The course aims to enable students to master the fundamental principles of software engineering in the specific context of the financial services industry. The course aims to develop students' skills and knowledge to design, implement, and integrate large-scale financial software systems from heterogeneous components and services. Emphasis will be put on fundamental principles and practical issues of software engineering including unit-testing, test-driven development and other methods to ensure that code is not only correct and well-documented, but also re-usable. the course will be using python as programming language of choice and also introduce the students to a number of highly useful libraries developed for python.

Key Outcomes:
1. Exhibit mastery of basic principles of software engineering on both a theoretical and practical level.
2. Understand and be able to apply advanced software engineering methods used to develop complex software.
3. Being able to develop complex software in python.

DP requirements: None

Assessment: 1. Two assignments counting 25% each of the final mark. 2. Two exams (with a shorter theoretical and longer practical component) counting 15% and 35% of the year mark, respectively.

DOC5043F    NUMERICAL METHODS IN FINANCE I
30 NQF credits at HEQSF level 9
Convener: T A McWalter

Course entry requirements: Acceptance into MPhil in Mathematical Finance.

Course outline:
This course develops the basic computational skills required for pricing contingent claims using Monte Carlo Methods. This is accomplished through a combination of lectures and computer-based practical sessions in which candidates implement the techniques learned. The course will cover random number generation, stock price generation, Monte Carlo integration, variance reduction and Quasi-Monte Carlo integration.

DP requirements: An average of at least 70% for practical session grades.

Assessment: Final examination 60%, Assignments and class tests 40%.

DOC5044S    RISK MANAGEMENT OF FINANCIAL MARKETS
Fifth-year status, second semester, one double lecture and one tutorial session per week.
15 NQF credits at HEQSF level 9
Convener: O Mohomed

Course entry requirements: South African Financial Markets

Course outline:
This course provides an introduction to the process of risk management in relation to a portfolio of financial market assets, with a particular focus on derivative assets. The content shall be largely South African centric, covering the South African regulatory framework, the financial market landscape and the specific nuances pertaining to the most liquidly traded financial market products. The process of risk management shall be covered from conceptual theoretical design to computational practical application, thereby preparing the student for a financial market risk management role in a modern financial institution.

DP requirements: None.
Assessment: Final examination 60% Assignments and class tests 40%.

**DOC5045F INTRODUCTION TO FINANCE AND DERIVATIVES**

*Fifth-year status, first semester, one double lecture and one tutorial session per week.*

0 NQF credits at HEQSF level 8

**Convener:** D Taylor

**Course entry requirements:** Acceptance into MPhil in Mathematical Finance.

**Course outline:**
The course comprises of two main sections: An introduction to asset pricing and theoretical models in finance, including expected utility and risk, risk aversion, mean-variance analysis, efficient frontier, CAPM and Arrow-Debreu pricing; and, An introduction to derivative securities, including forwards/futures and options, hedging and speculation, valuation principles, model-free no-arbitrage relations and an introduction to pricing options based on the Black-Scholes method.

**DP requirements:** None.

**Assessment:** Final examination: 100%

---

**DOC5046F STOCHASTIC CALCULUS FOR FINANCE I**

*Fifth-year status, first semester, two double lecture and one single tutorial session per week.*

30 NQF credits at HEQSF level 9

**Convener:** P Ouwehand

**Course entry requirements:** Acceptance into MPhil in Mathematical Finance.

**Course outline:**
This course develops the basic probabilistic concepts and methods in discrete- and continuous-time mathematical finance. This is accomplished through a combination of lectures and tutorials, in which candidates implement the techniques learned. The course will cover random walks, filtrations, martingales, Markov and stochastic processes, stochastic differential equations and the application of these to modelling financial markets and to the valuation of derivatives. The ultimate goal is to provide a strong background in probability and the theory of stochastic processes and to understand the pricing and hedging of financial derivatives.

**DP requirements:** Class mark of 40%.

**Assessment:** Final examination 60%, Assignments and class test(s) 40%

---

**DOC5047S STOCHASTIC CALCULUS FOR FINANCE II**

*Fifth-year status, first semester, two double lecture and one single tutorial session per week.*

30 NQF credits at HEQSF level 9

**Convener:** P Ouwehand

**Course entry requirements:** Stochastic Calculus for Finance I

**Course outline:**
This course develops applications of the basic concepts and methods of mathematical finance. This is accomplished through a combination of lectures and tutorials, in which candidates learn to implement the techniques. The course will cover numeraire changes, interest rate models and derivatives (both pricing and hedging), exotic derivative pricing and hedging and stochastic credit, volatility and market models.

**DP requirements:** Class mark 40%

**Assessment:** Final examination 50%, Assignments and class test(s) 50%

---

**DOC5048S NUMERICAL METHODS FINANCE II**

*Fifth-year status, second semester, one double lecture and one practical session per week.*

30 NQF credits at HEQSF level 9

**Convener:** T A McWalter

**Course entry requirements:** Numerical Methods in Finance I

**Course outline:**
This course develops more sophisticated computational skills required for pricing contingent claims. This is accomplished through a combination of lectures and computer-based practical sessions in which candidates implement the techniques learned. The course will cover implementing term structure and stochastic rates, finite difference techniques, Fourier techniques, American options, local and stochastic volatility models and credit risk.

**DP requirements:** An average of at least 70% for practical session grades.

**Assessment:** Final examinations 60%, Assignments and class test(s) 40%.

---

**DOC5015W  MASTERS BY DISSERTATION IN QUANTITATIVE FINANCE**  
180 NQF credits at HEQSF level 10  
**Convener:** D Taylor  
**Course entry requirements:** Standard pre-requisites for entrance to a Masters degree.  
**Course outline:**  
The master’s by dissertation only is a research degree on an advanced topic under supervision offered by any department in the Faculty. Examination is by dissertation alone (180 NQF credits). Prospective candidates should consult the appropriate Head of Department, School or Section concerned to discuss both the proposed topic and the availability of suitable supervision. The Faculty Office should be contacted for details regarding the application process. Entry is by selection. Selection is based on academic performance and demonstrated research competence and the availability of suitable supervision.  
**DP requirements:** Acceptable research proposal. Dissertation to be completed within 3 years.  
**Assessment:** This is a research degree under supervision and examination is by dissertation alone.

---

**DOC6000W  PHD IN QUANTITATIVE FINANCE**  
360 NQF credits at HEQSF level 10  
**Convener:** D Taylor  
**Course entry requirements:** Master's degree  
**Co-requisites:** None  
**Course outline:**  
A PhD thesis is required to be an original, coherent and consistent body of work which reflects the candidate's own efforts. The thesis may not be more than 80,000 words (excluding bibliography and appendices). A candidate will undertake research, and such advanced study as may be required, under the guidance of a supervisor or supervisors appointed by Senate. A candidate for the degree shall register for at least two academic years. The approval process shall include a presentation of the research proposal within six months of registration, to a Departmental panel. Continued registration is dependent on the outcome of this presentation.  
**DP requirements:** Acceptable research proposal. Thesis to be completed within 5 years.  
**Assessment:** This is a research degree under supervision and examination is by thesis alone.

---

**DOC6001F/S  WRITING FOR PUBLICATION**  
0 NQF credits at HEQSF level 9  
**Convener:** J Burns  
**Course entry requirements:** Must have formally submitted PhD thesis for examination. Admission is dependent on a letter of support/motivation by existing supervisor who indicates willingness to continue supervision/mentorship activities.  
**Course outline:**  
This course allows PhD students to remain registered at the University after they have formally submitted their PhD thesis for examination with the explicit aim of turning their thesis work into a series of scholarly articles, ready for submission to accredited, peer-reviewed journals.  
**DP requirements:** Submission of PhD thesis  
**Assessment:** Submission of PhD thesis for examination with the explicit aim of turning their thesis work into a series of scholarly articles, ready for submission to accredited, peer-reviewed journals.
NELSON MANDELA SCHOOL OF PUBLIC GOVERNANCE

As a multi-disciplinary centre, the Nelson Mandela School of Public Governance makes public service at the highest levels of leadership an aspiration for the rising generation. The School promotes the development of strategic public leadership, including a strong emphasis on public sector reform, accountability and trust in governance. There are four main components to the School’s activities:

- A professional Master’s Degree in Development Policy and Practice;
- Executive short courses designed for public leaders and officials, international and national non-profit organisations, think tanks and the private sector;
- The Building Bridges programme which brings together established and emerging public leaders, policymakers and experts from across Africa on key policy issues;
- A research centre on governance and development.

The School is housed in Linkoping House, Lower Campus. 27 Burg Road, Rondebosch.

Phone (021) 650-1420.
The letter code for the School is GPP

Email: zikhona.sikota@uct.ac.za

GPP4000W RESEARCH AND POLICY NUMERACY
10 NQF credits at HEQSF level 8
Convener: R Govender
Course entry requirements: Admission to the programme.
Course outline:
The course is designed to help participants improve their skills in the treatment and analysis of quantitative data and the reporting of research results. It begins with an overview of primary
concepts in sampling, measurement and data sources before proceeding to explore and apply various bivariate and multivariate analytic techniques to available data. The course is not a statistics course per se, but instead focuses on how statistical techniques may be applied to quantitative data to answer specific questions related to development policy, planning and practice. The techniques covered range from frequency and contingency analysis to correlation and simple and multiple linear regression.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Examination at the end of the course

---

**GPP4001W  PUBLIC LEADERSHIP I**

20 NQF credits at HEQSF level 8

Convener: S Haricharan

**Course entry requirements:** Admission to the programme.

**Course outline:**

This course aims to equip students with skills, personal insight and inter-personal capabilities to enhance their effectiveness as leaders – within their organisations, across government, and at the interfaces between government, citizens, the private sector and civil society.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Submission of all assignments and projects

---

**GPP4002F  PUBLIC LEADERSHIP II**

10 NQF credits at HEQSF level 8

Convener: I Goldman

**Course entry requirements:** Admission to the programme.

**Course outline:**

The course will focus on examining the key ingredients of how the government can have a positive impact on its citizens. Aiming to provide participants with a framework for relating impact management theory to their own experience of managing policies, programmes and projects, and the related challenges faced in their work.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Submission of all assignments and projects

---

**GPP4003W  TOPICS IN DEVELOPMENT POLICY**

20 NQF credits at HEQSF level 8

**Course entry requirements:** Admission to the programme.

**Course outline:**

This course aims to equip students with cutting edge knowledge and tools in specialised areas of direct relevance to public sector leaders. At the beginning of the course, 3-4 subject areas will be introduced to all students by leading experts in each area, following which students will work in depth on one of these subject areas with the expert faculty.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Submission of all assignments and projects

---

**GPP4004S  THE PRACTICE OF POLICY IMPLEMENTATION**

25 NQF credits at HEQSF level 8

Convener: M Andrews

**Course entry requirements:** Admission to the programme.
Course outline:
The course and assignments focus students on implementation realities with complex public policy problems, and help students think about and experiment with an implementation approach suited to complex problems. The students learn about constructing and deconstructing policy problems (to bring these onto the policy agenda and to enable policy responses). They also learn about the many options available to policy makers (in terms of solutions) and how to explore different options, experiment, and learn about what works and why. Students also learn about building and maintaining their authorizing environment and building and growing the multi-agent groups that make policy happen. Students work actively during the time in class to produce a problem analysis and implementation protocol for a problem of their choosing and then spend three months iterating with ideas to enact this protocol. This allows learning by doing.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Submission of all assignments and projects.

---

**GPP4006F  THE PRACTICE OF STRATEGIC POLICY-MAKING FOR DEVELOPMENT**
20 NQF credits at HEQSF level 8
Convener: B Levy

**Course entry requirements:** Admission to the programme

**Course outline:**
This course aims to equip students with knowledge and tools to identify, design and build support for priority development policies.

The course will:
- Provide a comparative overview of different approaches to development policy-making, across countries and over time;
- Explore ways to identify a ‘good fit’ between policy design and a country’s economic, political and social context and institutions;
- Anchor the learning in case studies, with an emphasis on South African, and other African examples; and
- Provide a practical bridge between priority policy objectives in the student’s place of work and the knowledge and tools explored in the course

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Submission of all assignments and projects.

---

**GPP4008F  INTRODUCTION TO AFRICAN ECONOMIC DEVELOPMENT**
10 NQF credits at HEQSF level 8
Convener: A Hirsch

**Course entry requirements:** Admission to the programme.

**Course outline:**
The purpose of this module is to help participants to engage with the major concepts used in the analysis of economic development in Africa and to become familiar with some of the more important recent contributions to thinking about economic development that are relevant to Africa.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Submission of all assignments and projects.

---

**GPP4009F  THE PROCESS OF POLICY-MAKING & IMPLEMENTATION**
14 NQF credits at HEQSF level 8
Convener: M Nxele

**Course entry requirements:** Admission to the programme
Course outline:
This course will explore how economics, institutions and politics interact to contain and shape development strategies. It will explore the tension between, on the one hand, 'best practise' economic policy and governance prescriptions and, on the other, the practical challenge of identifying feasible 'next steps' in concrete settings.

**DP requirements:** Submission of term paper

**Assessment:** Submission of all assignments and projects.

---

**GPP5001F**  STRATEGIC POLICYMAKING FOR DEVELOPMENT: ANALYSIS & PRACTICES

25 NQF credits at HEQSF level 9

**Convener:** B Levy

**Course entry requirements:** Honours degree or equivalent

**Course outline:**
This course aims to equip students with knowledge and tools to identify, design and build support for priority development policies. The course will:

- Provide a comparative overview of different approaches to development policy-making, across countries and over time;
- Explore ways to identify a ‘good fit’ between policy design and a country’s economic, political and social context and institutions;
- Introduce and apply tools that can help build momentum for policy change by engaging multiple government and non-governmental stakeholders in the policy formulation process;
- Anchor the learning in case studies, with an emphasis on South African, and other African, examples; and
- Provide a practical bridge between priority policy objectives in the student’s place of work and the knowledge and tools explored in the course.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Submission of all assignments is required (research papers).

**Assessment:** No examinations. Two papers (each 50% of the course grade) that apply the knowledge and tools of the course.

---

**GPP5002S**  POLICY IMPLEMENTATION & THE REGULATION OF MARKETS

25 NQF credits at HEQSF level 9

**Convener:** M Andrews

**Course entry requirements:** Successful completion of GPP5001F

**Course outline:**
This course aims to equip students with knowledge and tools to move from broad policy goals and strategies to the details of design and implementation that are key to development effectiveness.

The course will:

- Survey the multiple management functions that need to be addressed within the public sector (including budget planning; management of public expenditure and administration; procurement; parastatal governance);
- Diagnose the strengths and weaknesses of public bureaucracies as instruments of implementing public policy;
- Examine the potential of a variety of tools to enhance the transparency, accountability and effectiveness of public bureaucracies;
- Anchor the learning in case studies, with an emphasis on South African, and other African, examples; and
- Provide a practical bridge between priority policy implementation challenges in their places of work and the knowledge and tools explored in the course.
Review key economic concepts, with a focus on their relevance for policymaking, and the governance of markets;

Explore the role and challenges of market regulation (e.g. utility regulation, environmental regulation, competition policy), with a focus on how economic reasoning can help guide regulatory design;

Provide continuing instruction in methodological tools to evaluate current knowledge and data and facilitate the making of sound judgements on policy and implementation.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Submission of all assignments is required (research papers).

**Assessment:** Submission of all assignments and projects.

---

**GPP5003W LEADERSHIP I**

20 NQF credits at HEQSF level 9

**Convener:** S Haricharan

**Course entry requirements:** Honours degree or equivalent

**Course outline:**

This course aims to equip students with skills, personal insight and inter-personal capabilities to enhance their effectiveness as leaders – within their organisations, across government, and at the interfaces between government, citizens, the private sector and civil society.

The course will: (1) Explore the role of leaders in setting priorities, mobilizing commitment within an organisation to these priorities, and orchestrating stakeholders external to the organisation in support of the priorities; (2) Introduce and support ongoing practice with tools to enhance self-awareness, reflective perspective-taking, and more effective day-to-day self-management; (3) Explore small group dynamics from both theoretical and practical perspectives, with a focus on how leaders can be more effective facilitators of effective group work; (4) Probe the ethical dimensions of leadership within government, including analysis and reflection as to the compulsory ethical principles which should guide public service, as well as ways to deal with complex ethical dilemmas; and (5) Provide a practical bridge between the leadership skills developed in the course, and the day-to-day leadership, inter-personal and ethical challenges that arise in the student’s place of work.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Submission of all assignments and projects.

---

**GPP5004W TOPICS IN DEVELOPMENT POLICY**

30 NQF credits at HEQSF level 9

**Convener:** J Seekings

**Course entry requirements:** GPP 5001F; GPP5003W. Generally, students will be encouraged to complete GPP5002S before beginning GPP5004W. However, with permission of the instructors, GPP 5002S and GPP5004W can be taken at the same time.

**Course outline:**

This course aims to equip students with cutting edge knowledge and tools in specialised areas of direct relevance to public sector leaders. At the beginning of the course, 3-4 subject areas will be introduced to all students by leading experts in each area, following which students will work in depth on one of these subject areas with the expert faculty.

Key features will include: (1) The subject areas are likely to vary from semester to semester. Areas where UCT has a strong platform of expertise, and which thus are likely to be well-represented in the offerings, include health care; trade, industrial policy and export promotion; climate change mitigation and adaptation; infrastructure and its regulation; labour markets and employment; information and transparency; (2) Each subject area will be taught by a leading expert from within UCT, or from outside the university (including internationally); (3) Each subject area will be customized to enhance its direct relevance to the challenges of policy formulation and implementation; (4) Students will be encouraged to focus their in-depth work around a topic of direct relevance to their current job, with ongoing mentorship by the expert faculty.
**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Assessment will comprise the following: 2 examinations, one per semester (total 30% of course grade); 2 in-depth applied papers (total 70% of the course grade) each on one of the specialist subject areas, focused on a practical policy problem.

---

**GPP5005W MINOR DISSERTATION 60 CREDIT**

60 NQF credits at HEQSF level 9

**Convener:** B Levy

**Course entry requirements:** ‘Duly performed’ on paper 2 in each of GPP 5001F and GPP 5002S.

**Course outline:**

This is the final phase of the Master’s programme, in which the student submits a research dissertation of 20-30,000 words. The dissertation should demonstrate the student’s ability to apply the material covered in the Master’s programme to a concrete development problem.

It is desirable, though not required, that the dissertation address a development problem linked to the student’s work experience.

The dissertation generally should:

- demonstrate mastery of the technical (economic and other) material relevant to the problem;
- show an ability to diagnose the political, social and institutional environment within which the problem is embedded;
- show an ability to assess how this environment influences what might be feasible options for addressing the problem; and
- include and motivate a set of feasible technical and process proposals to address the problem.

**DP requirements:** None

**Assessment:** Dissertation will be examined - 100% written work

---

**GPP5006S RESEARCH AND POLICY NUMERACY II**

10 NQF credits at HEQSF level 9

**Convener:** R Govender

**Course entry requirements:** Honours degree or equivalent.

**Course outline:**

The course is designed to help participants improve their skills in the treatment and analysis of quantitative data and the reporting of research results. It begins with an overview of primary concepts in sampling, measurement and data sources before proceeding to explore and apply various bivariate and multivariate analytic techniques to available data. The course is not a statistics course per se, but instead focuses on how statistical techniques may be applied to quantitative data to answer specific questions related to development policy, planning and practice. The techniques covered range from frequency and contingency analysis to correlation and simple and multiple linear regression.

To align with the Development Economics component of the programme, the course utilises a narrative on poverty and inequality, with relevant quantitative data on poverty and inequality drawn from the national Income and Expenditure Surveys (IES) and supplied to participants for analysis in MS Excel. The primary function of the narrative is to ensure that hypotheses testing and data analysis is rooted in the discourse of development.

At the end of the course participants are expected to be more proficient users and consumers of quantitative data and bivariate and multivariate analysis in their respective policy and planning environments.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department.

**Assessment:** Submission of all assignments and projects.

<td>GPP5007F</td>
<td>LEADERSHIP II</td>
<td>15</td>
<td>I Goldman</td>
<td>Honours degree or equivalent. Successful completion of GPP5003W</td>
<td>This course aims to consolidate the leadership skills learned in Leadership I. The course will reflect on the ongoing leadership challenges and experiences of the students, by exploring in-depth specific challenges of leading within the public sector, including: □ The ways in which different conceptual approaches to public management (including results-based new public management, and Weberian bureaucratic reform initiatives) have played out in practice in different country settings; □ The influence of historical legacies on the operation and reform of public sectors; □ The potential as a management tool of a continuous evaluation cycle in problem diagnosis, policy design, monitoring and impact evaluation.</td>
<td>Attendance at lectures is compulsory except with the permission of the Head of Department.</td>
<td>Submission of all assignments and projects.</td>
</tr>
<tr>
<td>GPP5008W</td>
<td>ISSUES IN ECONOMIC DEVELOPMENT IN AFRICA</td>
<td>10</td>
<td>A Hirsch</td>
<td>Admission to the programme.</td>
<td>The purpose of this module is to help participants to engage with the major concepts used in the analysis of economic development in Africa, to understand some key analytical tools and information sources, and to become familiar with some of the more important recent contributions to thinking about economic development that are relevant to Africa.</td>
<td>Attendance at lectures is compulsory except with the permission of the Head of Department.</td>
<td>Submission of all assignments and projects.</td>
</tr>
<tr>
<td>GPP5009S</td>
<td>RESEARCH DESIGN AND PROPOSAL DEVELOPMENT</td>
<td>15</td>
<td>B Levy</td>
<td>Admission to the programme.</td>
<td>The course is designed to equip students to carry out successful research for their research project. The course will expose participants to various methodologies of both qualitative and quantitative research. For the qualitative research component, the course will expose students to analytic narrative methodology and process tracing. The quantitative element will build on the work covered in the Research and Policy Numeracy course offered earlier on in the program. The course will also cover issues of academic writing, ethical research and plagiarism. Teaching during the course will be focused on workshop style engagements, working towards the submission of a completed research proposal.</td>
<td>None</td>
<td>Submission of proposal</td>

</tbody>
</table>
Course outline:
This is the final phase of the Masters programme, in which the student submits a research project of 15,000 to 20,000 words. The research project should demonstrate the student’s ability to apply the material covered in the Masters programme to a concrete development problem. It is desirable, though not required, that the research project address a development problem linked to the student’s work experience.

**DP requirements:** None

**Assessment:** Final submission of Research Project 100%

---

**GPP5011F**  THE PRACTICE OF POLICY MAKING AND IMPLEMENTATION
30 NQF credits at HEQSF level 9

**Convener:** M Nxele

**Course entry requirements:** Honours degree or equivalent.

**Course outline:**
- To provide an orienting framework for achieving better development results by aligning policy choices and approaches to implementation with political and institutional realities; and
- To provide an opportunity to apply the framework in addressing concrete development challenges of direct relevance to the students’ country contexts.

The course will argue that reforms need to be compatible with the incentives of a critical mass of influential actors, so that they have a stake in the reforms and are willing to champion them in the face of opposition from those who benefit from the pre-existing arrangements. The aim is to identify entry points through which to nudge things along, seeking incremental gains that can give rise to a cascading sequence of change for the better. The course thus aims to encourage the exploration of possibilities that respond creatively to the governance ambiguities of our early twenty-first century

**DP requirements:** Attendance at all sessions, and submission of all assignments

**Assessment:** Coursework 100%

---

**GPP6000W**  THESIS IN DEVELOPMENT POLICY AND PRACTICE
360 NQF credits at HEQSF level 10

**Convener:** B Levy

**Course entry requirements:** Admission to the qualification.

**Course outline:**
This is a research degree on an advanced topic under supervision.

**DP requirements:** None

**Assessment:** Final submission of Thesis 100%
GRADUATE SCHOOL OF BUSINESS

The Graduate School of Business, formed in 1965, enrolled South Africa's first full-time Master of Business Administration students in 1966. It is located at the Breakwater Campus at the Victoria and Alfred Waterfront. The GSB offers the Master of Business Administration (MBA) degree, the MBA specialising in Executive Management (EMBA) degree, the Master of Commerce in Development Finance (MCom DF) degree, the Master of Philosophy specialising in Inclusive Innovation degree, the Postgraduate Diploma in Management Practice (customised/open) and a portfolio of executive short courses comprising open and in-company programmes. The full-time MBA and Executive MBA routinely attract a significant proportion of students from outside South Africa.

GSB4102W SYSTEMIC MANAGEMENT PRACTICE
30 NQF credits at HEQSF level 8
Convener: B Shrand
Course entry requirements: Admission to the Postgraduate Diploma in Management Practice (customised)
Course outline:
The course includes a significant focus on personal mastery, and explores recent developments in the field of management practice with a particular focus on systems thinking. It introduces the action learning, systems thinking and the adult learning theories on which the programme as a whole is based. On completion of the course, students are able to demonstrate their ability to integrate systems thinking and learning into their management practice and knowledge and to apply it to a significant organisational issue, problem or opportunity. It integrates the concept of organisational learning.

DP requirements: Full engagement in the academic process by attending lectures, group meetings and by submitting all assignments on or before the due date.
Assessment: Position Paper (55%), Reflective Practice Paper (30%), Group Work (15%)

GSB4103W MANAGING VALUE STREAMS
30 NQF credits at HEQSF level 8
Convener: B Shrand
Course entry requirements: Students must have completed GSB4102W.
Course outline:
The course introduces the concept of value streams within an organisation and enables students to describe, diagnose and manage the value streams in an organisation. Appropriate frameworks are designed and implemented to improve the performance of the value streams in the organisation. These are the streams that create value for the customers of the organisations and are the primary revenue generating streams.

DP requirements: Full engagement in the academic process by attending lectures, group meetings and by submitting all assignments on or before the due date.
Assessment: Position Paper (55%), Reflective Practice Paper (30%), Group Work (15%)
GSB4107Z  ACTION LEARNING RESEARCH PROJECT  
30 NQF credits at HEQSF level 8  
Convener: B Shrand  
Course entry requirements: Students must have completed GSB4102W and any two of the available electives, relevant to the programme/industry.  
Course outline:  
The action learning research project tests students’ ability to apply the analytical and integrating skills and knowledge gained on the programme to a particular and substantial management problem. The action research challenges students to become acquainted with the problem, the problem context and the current literature, specifically in the problem field; to make independent critical evaluations of contending points of view; and to show an understanding of the theory and its implications for decision-making practice.  
DP requirements: A student must present all assignments for marking according to published deadline dates. A student may be asked to revise and resubmit should he/she fail this major assignment with 45% or above and have passed the programme to date with a minimum average of 50%.  
Assessment: Research Project (100%). Students conduct an action-based investigation which adds substantive depth to their management studies, by researching a specific topic, collecting methodologically robust data, interpreting the data and applying the findings to resolve the research questions.

GSB4169W  BUILDING BUSINESS ACUMEN  
30 NQF credits at HEQSF level 8  
Convener: B Shrand  
Course entry requirements: Students must have completed GSB4102W  
Course outline:  
The aim of the course is to introduce key concepts and propositions that characterise the field of business and integrate these into a practical business acumen framework to inform problem-solving and decision-making processes in an organisation. On completion of this course the students will have demonstrated their ability, therefore, to make better business decisions. The syllabus consists of two parts. Part 1: Financial decision-making develops the ability to use financial information in managing a business. Part 2: Building business acumen builds students’ ability to promote and sustain the profitability of a firm.  
DP requirements: Full engagement in the academic process by attending lectures, group meetings and by submitting all assignments on or before the due date.  
Assessment: Position Paper (55%), Reflective Practice Paper (30%), Group Work (15%).

GSB4401F  ACCOUNTING  
10 NQF credits at HEQSF level 8  
Convener: M Graham  
Course entry requirements: Admission to the MBA degree  
Course outline:  
The Accounting course provides students with the skill necessary to appreciate the role of accounting in making decisions and controlling and planning the operations of an organisation. Accounting is the language of finance and business. Like any language we can get to understand it either by learning the grammar or by reading literature and poetry and in that way gain an appreciation of its structure. This course will take the latter approach. The primary learning takes place through cases that are closely related to the work background and industry sectors of MBA students. The cases will be attempted in groups and will form the basis for further discussion during the class sessions. Although there will be some traditional lecturing the teaching approach in the class will centre on the resolving of problems/issues related to accounting that arise from the cases and elsewhere. The case studies are carefully selected to highlight the diversity in business sectors but with emphasis on emerging market issues.
**DP requirements:** An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.

**Assessment:** Mid-term Test 20%, Final Examination 40%, Group Assignments 40%

---

**GSB4402F BUSINESS, GOVERNMENT AND SOCIETY**

5 NQF credits at HEQSF level 9

**Convener:** R Hamann

**Course entry requirements:** Admission to the MBA degree

**Course outline:**

Students will become familiar with a variety of economic, social, environmental and political trends and developments that may impact either directly or indirectly on the strategy and operations of businesses in an emerging market economy such as South Africa, and to consider the role and some of the current responses of the business community to these trends. The course commences with an introductory session that consider the risks facing business leaders, both globally and in South Africa, and the role that companies have in contributing to or alleviating such challenges. This is followed by discussions on the role of business in society and politics, business responses to social-ecological problems, and opportunities and challenges associated with cross-sector collaboration. Throughout, the key purpose of the course is to think critically about the dynamic context and role of business and to consider implications for strategic decision-making.

**DP requirements:** An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.

**Assessment:** Final Essay: 60%, Group Assignments: 40%

---

**GSB4417S STRATEGIC MARKETING**

5 NQF credits at HEQSF level 9

**Convener:** G Bick

**Course entry requirements:** Students must have completed GSB4509S or GSB4409F

**Course outline:**

The increasing importance of superior customer value, leveraging distinctive capabilities, responding to diversity in the marketplace, and recognizing global business challenges require effective marketing strategies for gaining and sustaining a competitive edge. Developing and implementing dynamic business and market-driven strategies that are adaptable to changing conditions are critical success factors. This course deals with some of the major issues involved in the formulation and implementation of marketing. While there will be some formal lecturing, much of the course is built around student participation and a discussion format. The main objective of this course is to provide students with the tools and techniques needed to develop a marketing strategy as well as discuss some of the emerging issues in marketing strategy. Case studies will be used to develop and improve marketing decision making. The course will enable you to gain insight into some of the major issues facing marketing leaders today.

**DP requirements:** Attendance of all lectures and obtaining 33% for all individual components

**Assessment:** Group Assignment: 30%, Class Participation: 20%, Final Individual Assignment: 50%

---

**GSB4476S NEGOTIATION TO CREATE VALUE**

5 NQF credits at HEQSF level 9

**Convener:** D Venter

**Course entry requirements:** Admission to the MBA degree

**Course outline:**

Although South Africa some twenty years ago cast aside the shackles of apartheid, having negotiated a peaceful transition to a democratic future, we unfortunately are still grappling with the consequences of many decades of social engineering, which continue to manifest in all spheres of human endeavour. In the public and private sectors there remains a very pressing need to better equip managers and leaders with the knowledge, insights and skills they need to positively resolve
conflict, and to develop value enhancing agreements that are ethical, mutually beneficial and sustainable. For students to succeed in the new business environment, it is crucially important that they are afforded the opportunity of acquiring negotiation capability and competence as a generic skill that will not only enhances their effectiveness in all spheres of business, but also in their communities and private lives. This elective is consequently structured to empower them with the knowledge, skills and confidence they need to successfully master and apply the key determinants of principled, value enhancing negotiation.

**DP requirements:** Attend lectures, submit all assignments and achieve an average of 33% on all individual coursework components

**Assessment:** Individual Assignment: 50%, Group assignment: 50%

---

**GSB4477S**  
**PLANNING NEW VENTURES**  
10 NQF credits at HEQSF level 9  
**Convener:** J Schueler  
**Course entry requirements:** Admission to the MBA degree  
**Course outline:**  
Students will learn how to prepare a business plan for launching a new venture together with methods of how to finance entrepreneurial venture in their respective life cycle. The course will conclude with pitching the business plans to a panel of judges with investment background. Students will work in multi-disciplinary project groups, and will be given the opportunity to pool their skills and experience and apply them to a very practical, hands-on project focused on developing a comprehensive plan for a new venture. Once the business plan has been written, students will learn how to raise finance for their new venture, whether the venture requires seed funding or any other type of funding to support the implementation of the business plan. During the latter part of the elective students will; Understand their reasons for starting or running an entrepreneurial business. Additionally, they will develop an understanding of how the different types of capital companies think and act. Students will also develop an understanding of the process of raising capital from various capital suppliers, and gain useful practical tools and methodologies that allow the entrepreneur to be more successful in achieving their objective.

**DP requirements:** Attend all lectures, submit all assignments and achieve an average of 33% on all individual coursework components.  
**Assessment:** Individual Pitch Presentation: 15%, Interim Project Hand-ins: 20%, Elevator Presentation: 20%, Final Business Plan: 30%, Personal Learning Log: 15%

---

**GSB4488S**  
**APPLIED SRI**  
5 NQF credits at HEQSF level 9  
**Convener:** S Giampocaro  
**Course entry requirements:** Admission to the MBA degree  
**Course outline:**  
This course aims to unpack critically the multilayered field of Sustainable Responsible Investment (SRI). SRI is used in the course as an umbrella term to describe any investment strategies and philosophies aiming to integrate, environmental, social and governance issues and opportunities (ESG) into investment decision making and to create a positive ESG impact (including impact investing). After having explored and discussed the specialised body of historical, theoretical and practical knowledge around the growing field of SRI, students will interact with SRI practitioners who are currently developing the SRI industry in South Africa. Eventually the students will be asked to act as professional investors in order to innovatively design, select and apply SRI strategies and techniques to solve current SRI dilemmas or embraced SRI opportunities on the African continent.  
**DP requirements:** Attend all lectures, submit all assignments and achieve an average of 33% on all individual coursework components.  
**Assessment:** Group Presentation 50%, Individual Assignment 50%
GSB4419S  CAPITAL FLOWS AND EMERGING MARKETS
5 NQF credits at HEQSF level 9
Convener:  S Gossel
Course entry requirements: Admission to the MBA degree
Course outline:
This elective is designed to help students understand the effects of global capital movements on the economies and financial systems of emerging countries. It seeks to expose students to debates regarding past problems, current issues, and future possibilities. Key topics covered include the patterns of capital flows to emerging countries post-WW2, the positive and negative effects that capital flows have on the financial and macroeconomic systems of emerging countries, the impact that capital flows have on economic and financial development, the role of capital flows in emerging market financial crises, and macroeconomic and financial sector policy implications. The objectives of this course are that students will be able to demonstrate an ability to understand the historical context and development of global capital flows; demonstrate an understanding of the key theories associated with capital flow transmission channels; demonstrate the ability to understand the historical context and development of global capital flows; and demonstrate an understanding of the various ways in which capital flows can be attracted or ‘tamed’.
DP requirements: Attend all lectures, submit all assignments and achieve an average of 30% on all individual coursework components.
Assessment: Group Assignment: 50%, Individual Assignment: 50%

GSB4496S  SOCIAL INNOVATION LAB
10 NQF credits at HEQSF level 9
Convener:  W Nilsson
Course entry requirements: Admission to the MBA Degree
Course outline:
This course is structured as a lab that builds on the conceptual material introduced in the Social Innovation and Entrepreneuring core course. It emphasizes practical application of social innovation concepts in real-world contexts. The lab provides a dynamic academic, practical, and personal experience. During the course, we ask students to see themselves as potential social innovators. Students are immersed in the world of designing creative, sustainable processes towards social change using multiple learning strategies that can be customized for each student. Student teams pursue real-world social initiatives of their own design. By the end of the course, students will have formed their own approach to social innovation, and will have begun to develop the concepts, mindsets, skills, and relationships that will enable them to continue to be effective social innovators throughout their life. Students apply paradigms such as complexity, action learning, and systems thinking in order to better understand societal and environmental contexts, challenge current systemic problems, and develop creative, practical approaches to those problems.
DP requirements: An average of 33% for the individual coursework components. Attendance at lecture sessions and submission of all assignments.
Assessment: Team project portfolio: 50%; Review of individual contribution to project: 50%

GSB4498S  BUSINESS DEVELOPMENT IN EMERGING MARKETS
5 NQF credits at HEQSF level 9
Convener:  R Man
Course entry requirements: Admission to the MBA degree
Course outline:
In this practical course, students will gain a deeper appreciation of what it takes to develop a business in an economy which has not yet reached full maturity; the business scope may vary from a limited sales presence to a full-scale investment involving more complex deals (incorporating longer term contracts & technology interchange) through partnerships and joint ventures. In these markets, an effective legal system is often not well established enough to protect your investment; nor could there be there sufficient reliable published information for decision making purposes. Hence special
efforts are needed to verify information obtained from various sources; and the ability to develop
and nurture relationships is an essential skill. Contracts must be structured such that reliance on legal
redress in the event of problems arising is left as a last resort. All these unique issues will be covered
at length. The normal & necessary business development activities (applicable in any environment)
needed to ensure business success are also discussed, include establishing leads, initial contacting,
preparation for negotiations, negotiating the deal, getting both organisations fully aligned behind a
deal, coordinating in-company multi-functional teams, and finally setting up the new organisation
and preparing for full operations.
**DP requirements:** Attend all lectures, submit all assignments and achieve an average of 33% on all
individual coursework components
**Assessment:** Class Participation: 50%, Individual Assignment: 50%

---

**GSB4601F/S**  **EMERGING MARKETS IN CONTEXT**
25 NQF credits at HEQSF level 8
Convener: E Shelley
**Course entry requirements:** Admission to the Postgraduate Diploma in Management Practice
**Course outline:**
The overall aim of the course is that participants become familiar with the political, economic and
social forces at work in a modern economy, with a view to making constructive use of this
information in operational and strategic decision making. Students will be able to apply adaptable
managerial and leadership skills that allow them to operate in diverse national and international
contexts. The goal is to familiarise students with those forces, trends and developments that may
impact either directly or indirectly on the operation and functioning of businesses in an emerging
market economy such as South Africa, and to consider the role and some of the current responses
of the business community to these trends and developments.
**DP requirements:** Attendance at all lectures and group meetings; all individual and group
assignments handed in on or before deadline date, both during and after the course’s contact session.
**Assessment:** Preparatory assignment (10%), group assignment on the exam day/last day of Module
(35%) as a team project, individual assignment (55%)
“ground rules” and, through self-awareness, putting in place a framework for future enhancement and development (lifelong enhancement). The aim is to also equip Students with the tools for personal reflection and insight – thus creating future leaders who will lead with intent and create values-based solutions.

**DP requirements:** Full engagement in the academic process by attending lectures, group meetings and by submitting all assignments on or before the due date.

**Assessment:** Preparatory assignment (10%), Group assignment on the exam day/last day of Module (35%), ARL paper (55%)

---

**GSB4605F/S  BUSINESS ACUMEN I**
25 NQF credits at HEQSF level 8

**Convener:** E Shelley

**Course entry requirements:** Admission to the Postgraduate Diploma in Management Practice

**Course outline:**
The Business Acumen course aims to develop the participants’ business acumen and their understanding of fundamental principles of key business functions. The course is designed for students wishing to equip themselves with a business acumen skill set to progress confidently in their managerial role or to become more effective entrepreneurs.

**DP requirements:** Full engagement in the academic process by attending all lectures, group meetings and by submitting all assignments on or before the due date.

**Assessment:** Preparatory assignment (10%), Group assignment on the exam day/last day of module (35%), ARL paper (55%)

---

**GSB4606F/S  ACTION LEARNING REPORT**
20 NQF credits at HEQSF level 8

**Convener:** E Shelley

**Course entry requirements:** Admission to the Postgraduate Diploma in Management Practice

**Course outline:**
Students will show the pedagogical skills of critical thinking, problem solving, collection and analysis of data and effective written communication in an action learning assignment which utilises all of the learnings from Courses on this programme and incorporates them in a final report (200 notional hours) completed back in the workplace. This goal highlights the programme’s design, which gives students the resources they need to gain a competitive advantage - both locally and internationally. Students are encouraged to think in new ways and are challenged to come to terms with being part of the global economy, in a particular Industry and with managing under conditions of change and uncertainty.

**DP requirements:** Submission of the report on or before the due date.

**Assessment:** Written Report/Assignment (100%)

---

**GSB5001F  DESIGNING SUSTAINABLE BUSINESS MODELS**
30 NQF credits at HEQSF level 9

**Convener:** K Sewchurran

**Course entry requirements:** The successful completion of all GSB4223F/S assignment requirements

**Course outline:**
The Designing Sustainable Business Models course aims to develop a conceptual framework to allow for the disclosure of a different way of being in strategic management and leadership functions. It rests on the foundational concepts of systemic management practice. The learning processes and projects are designed to allow for the emergence of disclosing a new way of being by allowing students to dwell and reflect on particular experiences using relevant theoretical concepts, as well as trying out various heuristics and thought experiments, and making explicit hitherto qualitative markers of this emerging competence. Beyond this, the course aims to introduce students to the concept of qualitative knowledge and a framework to understand performance and artistry.
This course further introduces the philosophy of everydayness and history making, and presents the foundational concepts for continued discussion and sensitising to concepts related to performance, artistry and qualitative knowledge.

**DP requirements:** 80% attendance at all lecture sessions and group meetings; full preparedness for class participation; submission of all assessments by the due dates.

**Assessment:** Business Model Innovation Project: 30%, Design on Business Models Paper: 45%, Performance Management Framework: 15%, Group Project and Presentations: 10%, Qualitative Research Assignment: duly performed

---

**GSB5003W**  
**DISSERTATION**  
60 NQF credits at HEQSF level 9  
**Convener:** K Sewchurran  
**Course entry requirements:** All coursework must be submitted prior to the due date of the Intention to Submit form. The Intention to Submit form will not be accepted by the programme should any coursework remain outstanding.

**Course outline:**  
The Minor Dissertation marks the final phase of the programme with a 25,000 words research report. Students demonstrate how to undertake and successfully complete a research project designed to improve executive management practice in an organisational context.

**DP requirements:** Attendance of all lecture sessions and group meetings; full preparedness for class participation; submission of the proposal and final minor dissertation by the due dates.

**Assessment:** Minor Dissertation: 100%

---

**GSB5006W**  
**DISSERTATION**  
180 NQF credits at HEQSF level 9  
**Convener:** W Nilsson  
**Course entry requirements:** Admission to the Master of Philosophy (by Dissertation only) specialising in Inclusive Innovation Degree

**Course outline:**  
The dissertation in inclusive innovation is designed to allow students to pursue an idea that is worthy of a thoughtful research endeavour in a “living lab” environment. The student will work through a rigorous academic curriculum rooted in research and practical development and demonstration of the resulting solutions. The research should be tied to a challenging and socially relevant problem or possibility in South Africa and/or on the African continent. It should have the potential to be sustainable and to create a better future for Africa.

Inclusive innovation research will require students to test assumptions and prototypes through cycles of immersion and critical engagement in a “living lab” environment. Being a part of a free-thinking and cross disciplinary “living lab” environment shortens the cycle time to invent and apply innovative ideas and solutions through regular interaction and debate with consumers, experts, industry and other organisations in the relevant ecosystem. Students will be expected to undertake regular cycles of activities to assess, build, test and evolve applied ideas and their research throughout the year in a collaborative manner with their peers and faculty members.

**DP requirements:** Attendance at all compulsory seminars. Students will have to attend and participate in compulsory seminars that will include topics such as research paradigms, research methodologies, design thinking for inclusive innovation, entrepreneuring in emerging markets, values-based leadership and inclusive business model innovation.

**Assessment:** Dissertation: 100%
GSB5108F  FINANCIAL RISK MANAGEMENT
12 NQF credits at HEQSF level 9
Convener: L Gumede
Course entry requirements: Admission to the MCom Development Finance degree
Course outline:
The Financial Risk Management course exposes students to the theory and practice of modern financial risk modeling. The course covers the key themes of financial risk management in context, financial engineering, market risk, liquidity risk, credit risk, operational risk, the credit crisis, enterprise risk management.
DP requirements: Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.
Assessment: Class Tests: 10%, Case Study Assignment: 40%, Final Exam: 50%

GSB5109F  SOVEREIGN DEBT MANAGEMENT
12 NQF credits at HEQSF level 9
Convener: N Biekpe
Course entry requirements: Admission to the MCom Development Finance degree
Course outline:
The course covers a range of topics, including and introduction to sovereign debt management, historical perspective of debt management, external debt and economic growth, long-term and short-term contracts, optimal debt contracts, debt relief policies, high indebtedness, recent developments such as the HIPC initiative, design of incentives, role of sanctions, sovereign debt restructuring, and new reforms. The course will discuss a number of case studies.
DP requirements: Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.
Assessment: Final Examination: 50%, Class Test: 10%, Case Studies/Essay: 40%

GSB5111F  GLOBAL FINANCIAL ARCHITECTURE
12 NQF credits at HEQSF level 9
Convener: N Biekpe
Course entry requirements: Admission to the MCom Development Finance degree
Course outline:
The course aims to critically examine the role, purpose and functioning of national capital markets in the context of global markets, national and international regulations and other major related international bodies.
DP requirements: Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.
Assessment: Final Examination: 50%, Individual Assignment: 25%, Class Test: 25%

GSB5112F  FINANCIAL SERVICES REGULATION
12 NQF credits at HEQSF level 9
Convener: N Biekpe
Course entry requirements: Admission to the MCom Development Finance degree
Course outline:
The course will broadly discuss the objectives of regulation economic theory: Market forces; Market failure; Economic justifications for regulation; Regulatory tools; Disclosure rules; suitability; Licensing and accreditation; Issues in regulatory practice: the concept of regulatory capture; game theoretical modelling of the relationship between regulators and firms; Moral hazard; Cost/benefit analysis and its application to regulation; Statutory versus self-regulation, Alternative responses to market failures. The capital market: Disintermediation and securitization. Efficiency of markets:
technical, informational and allocative. Financial Institutions and markets: Role and Functions in the financial system. Risk and risk control in settlement. Netting and apportionment, Off-market transfers. Financial Services and Regulatory Theory: Systemic risk- Negative externalities; systemic risk as a negative externality; public confidence in the financial system as a public good. The role of the lender of last resort, Prudential supervision, capital adequacy; The identification and control of reputational and operational risk.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.

**Assessment:** Final Class Examination: 50%, Individual Assignment: 25%, Class Test: 25%

---

**GSB5113F**  INTERNATIONAL TRADE POLICIES  
12 NQF credits at HEQSF level 9  
Convener: F Ismail  
Course entry requirements: Admission to the MCom Development Finance degree  
Course outline:  
The aim of this course is to introduce students to the theory of international trade and its application to policy issues which arise in the world trading environment. The course starts by examining the gains from trade, as they constitute the building block of any analysis of trade flows. The main topics covered are Differences in Technology: The Ricardian Model of Trade. Differences in Factor Endowments: The Heckscher-Ohlin-Samuelson Model of Trade, Economies of Scale, Market Structure and Trade International Factor Movements. Trade Policy Instruments: Tariffs, quotas, and non-tariff barriers; comparison of different trade restrictions; estimates of the cost of protection; arguments for protection. Import-substituting industrialization: the infant industry argument; export-oriented industrialization. The Political Economy of Trade Policy: Preferential trade agreements; trade creation and trade diversion; multilateral trade agreements; the WTO (GATT). In addition the Singer-Prebisch hypothesis; income terms of trade; double factoral terms of trade and the (international) Lewis model are examined. Other topics include Labour Mobility Direction and measures of foreign direct investment; transaction costs explanation of multinationals; location decisions of multinationals; technology transfer; taxation and transfer pricing; costs and benefits of multinationals.  
**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.  
**Assessment:** Final Examination: 50%, Test: 25%, Assignment: 25%

---

**GSB5114F**  CORPORATE FINANCE AND INVESTMENT  
12 NQF credits at HEQSF level 9  
Convener: S Gossel  
Course entry requirements: Admission to the MCom Development Finance degree  
Course outline:  
The goal of the course is to develop the theoretical and practical tools essential to the execution of the corporate finance function. The course aims at value creation through integrated financial, strategic, and operating decisions. Students build the knowledge and skills critical to the finance function of evaluating investment decisions; proposing, assessing, and implementing financial decisions; and evaluating and managing risk. Topics include corporate valuation, capital asset pricing, financing decisions and market efficiency, dividend policy and capital structure, debt financing and leasing, mergers and acquisitions, and investment performance evaluation.  
**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.  
**Assessment:** Final Class Examination: 50%, Test 25%, Assignment: 25%
GSB5117W  MINOR DISSERTATION
60 NQF credits at HEQSF level 9
Convener: L Alhassan
Course entry requirements: GSB5115F and six other MCom Development Finance courses (provisional registration while awaiting final course marks is allowed)
Course outline:
The course will equip students with a high level of understanding in development finance research. It will also equip students to undertake sound literature review, develop an academically sound research report or thesis, gather, treat, analyse and interpret data, design and test hypotheses, and write high level scientific papers and/or reports. Students will work on the minor dissertation over two semesters.
Assessment: Dissertation: 100%.

GSB4404F  ECONOMICS
10 NQF credits at HEQSF level 9
Convener: G Chelwa
Course entry requirements: Admission to the MBA degree
Course outline:
The economy is the environment of business. One of the prerequisites of doing well in business is to understand the environment that you are operating in. In this context there are a number of forces that act on business. Some are slow and often predictable. Others are sudden and very often unexpected. At the same time, while these forces play themselves out governments are also likely to react with a variety of policy changes. Hence the dual challenge for people in business is not only to position themselves to either take advantage of favourable economic conditions or take defensive action from negative economic shocks but also to anticipate the likely policy response on the part of government. In addition to this there can be quite dramatic differences in the economics experienced in developed economies compared to emerging markets. The course will explore some of these differences.
This course is a principles course in micro and macroeconomics. The purpose of the course is to outline the key principles that will be of use to people in their business lives.
DP requirements: An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.
Assessment: Pre-assignment 5%, Group Assignment/Presentation 15%, Class Participation 5%, Mid-term examination 25%, Final Examination 50%

GSB4407F  LEADERSHIP AND PERSONAL DEVELOPMENT
10 NQF credits at HEQSF level 9
Convener: K April
Course entry requirements: Admission to the MBA degree
Course outline:
The Leadership and Personal Development course provides students with the opportunity to explore the topic of personal leadership by establishing the individual ‘ground rules', and through self-awareness, provides the opportunity to put in place a framework for future enhancement and development (lifelong enhancement). The purpose of the course is not to provide a single, ‘correct' perspective, but rather, through Narrative Inquiry, it is intended to be a catalyst for personal reflection and insight (mirroring-principle) into processes and concepts critical for personal growth.
DP requirements: An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.
Assessment: Class participation: 10%, Final Essay: 60%, Group assignments: 30%
GSB4513W  DISSERTATION
55 NQF credits at HEQSF level 9
Convener: K Ramaboa
Course entry requirements: Admission to the MBA degree
Co-requisites: Successful completion of the proposal (i.e. mark of 50% and above)

Course outline:
The dissertation provides an important opportunity to develop critical reasoning, research and writing skills, and will also provide students with an in-depth understanding of a particular aspect of business management or related fields. Students are expected to hand-in a dissertation of 20 000 – 25 000 words.

DP requirements: None
Assessment: Dissertation: 100%

GSB4514W  STRATEGY
10 NQF credits at HEQSF level 8
Convener: G Africa
Course entry requirements: Admission to the MBA degree

Course outline:
The strategy course introduces students to the fundamental principles and concepts of strategic thinking and management. It provides the opportunity for students to develop the necessary skills for strategic thinking and analysis. Students learn about business and corporate strategy formulation relevant to the macro-environment and industry, as well as the competitive drivers which face organisations. They also learn about the role that purpose, resources, and capabilities play in strategy formation and implementation, with the main purpose of this course being to develop rigour and confidence in strategic thinking.

DP requirements: Attend all lectures, submit all assignments and achieve an average of 33% on all individual coursework components
Assessment: Group Assignment: 20%, Mid-term Examination: 30%, Final Examination: 50%

GSB4502F  BUSINESS, GOVERNMENT AND SOCIETY
5 NQF credits at HEQSF level 9
Convener: R Hamann
Course entry requirements: Admission to the MBA degree

Course outline:
Students will become familiar with a variety of economic, social, environmental and political trends and developments that may impact either directly or indirectly on the strategy and operations of businesses in an emerging market economy such as South Africa, and to consider the role and some of the current responses of the business community to these trends. The course commences with an introductory session that consider the risks facing business leaders, both globally and in South Africa, and the role that companies have in contributing to or alleviating such challenges. This is followed by discussions on the role of business in society and politics, business responses to social-ecological problems, and opportunities and challenges associated with cross-sector collaboration. Throughout, the key purpose of the course is to think critically about the dynamic context and role of business and to consider implications for strategic decision-making.

DP requirements: An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.
Assessment: Final Essay: 60%, Group Assignments: 40%

GSB4508F/S  ORGANISATIONAL BEHAVIOUR & PEOPLE MANAGEMENT
10 NQF credits at HEQSF level 9
Convener: C Swart-Opperman
Course entry requirements: Admission to the MBA degree
Course outline:
The OBPM course covers three main themes: the individual in the organisation, high performance work practices and leading and managing people. The course provides an overall organisational approach to people management strategies. The first theme sets the context by creating a rationale and frame for the course. Centring on the changing world of work, it examines the different assumptions about people, their motivation, how they work and what they want out of their experiences. The second and final themes illustrate how organisations go about leading and managing their employees also focussing on the specific practices within organisations that can assist them in being more effective. Guest lecturers will attend some of the class sessions and play their role in the learning process by bringing the ‘realities’ in to the classroom and relating theory to particular work contexts. Lectures, class discussion, case studies, short exercises, role plays, and presentations are used. The approach is one of participative learning. Students are required to complete the prescribed readings and to discuss the cases and exercises in their groups to prepare for each class session. The lecturer facilitates guided class discussion. Students are encouraged to engage in constructive dialogue and debate on the topics.

DP requirements: An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.

Assessment: Individual assignments: 5%, Final examination: 50%, Group assignments: 25%, Group presentation: 20%
course builds on the systems thinking foundation course and includes interactive planning, idealized design, personal mastery: developing self-awareness and interpersonal skills.

**DP requirements:** Full engagement in the academic process by attending lectures, group meetings and by submitting all assignments on or before the due date.

**Assessment:** Position Paper (55%), Reflective Practice Paper (30%), Group Work (15%).

---

**GSB4196F/S  PROFESSIONAL SALES ORGANISATION**
30 NQF credits at HEQSF level 8

**Convener:** B Shrand

**Course entry requirements:** Admission to the Postgraduate Diploma in Management Practice (customised)

**Course outline:**
This course builds on the systems thinking foundation course and includes viable systems methodology, personal mastery: developing self-awareness and interpersonal skills. Topics covered in this course are: Strategy and organisational viability; the Strategic role of marketing sales management in shareholder value; Integrating marketing and sales strategies on both global and local levels; Sales strategy as practice. Topics covered are: Formulating key strategic initiatives and management of sales resources; Structures - groups, projects, teams, lines of authority, communication; Systems - operations, intelligence, coordination, control, planning, budgeting, accounting, information; Processes - value chains, internal communications, performance management.

Different leadership and management styles; Job satisfaction, motivation and performance; Culture, climate and commitment; Managing performance; Managing change; Team selling.

**DP requirements:** Full engagement in the academic process by attending lectures, group meetings and by submitting all assignments on or before the due date.

**Assessment:** Position Paper (55%), Reflective Practice Paper (30%), Group Work (15%).

---

**GSB4110Z  EMPLOYEE/EMPLOYER RELATIONSHIPS AND ORGANISATIONS**
30 NQF credits at HEQSF level 8

**Convener:** B Shrand

**Course entry requirements:** Students must have completed GSB4102W.

**Course outline:**
This course provides an overview of International Labour Organisation frameworks and applies them to the Southern African context, specifically to tripartism and social dialogue at the workplace, enterprise, industry and national levels; and mainstreaming employment and decent work. It covers the key concepts and standards that constitute these frameworks; and the relevant issues and challenges faced by Southern African organisations. Students learn to use this material to construct contextually relevant plans and strategies to deal with the problems and issues they face in their management practice.

**DP requirements:** Full engagement in the academic process by attending lectures, group meetings and by submitting all assignments on or before the due date.

**Assessment:** Position Paper (55%), Reflective Practice Paper (30%), Group Work (15%).

---

**GSB4451S  ADVANCED LEADERSHIP**
10 NQF credits at HEQSF level 9

**Convener:** K April

**Course entry requirements:** Admission to the MBA degree

**Course outline:**
This course is split into two course modules. Module 1 explores leadership maturity: what it is, whether it is desirable and how one could possibly support oneself and others to mature. Using Psychodynamic Theory and Ego Development Theory as a basis for understanding the adult development process, the course will focus on supporting people to move from “conventional” levels of maturity towards “post-conventional” levels of maturity, encouraging students to explore
their own individuality and personal journey in the context of leadership. The course will utilise the enneagram to provide insights into personality and suggest ways in which individuals can grow and develop. Module 2 seeks to “go a bit deeper” than was required in the Leadership (LEA) foundational course earlier in the MBA, and its methodological premise is based on Suppression Theory – we explore Psychological Suppression, Emotional Suppression and Cognitive Suppression throughout the course. The objective of the sessions will be to reflect on the impact of our conditioning on what we believe is possible and what we deserve in work and life.

**DP requirements**: Attend all lectures, submit all assignments and achieve an average of 50% on all individual coursework components

**Assessment**: Module 1: Class Participation: 30%, Group Exercise: 20%, Final Individual Essay: 50%, Module 2: Class Participation: 10%, Final Individual Essay: 90%

---

**GSB4452S COACHING**

5 NQF credits at HEQSF level 9

**Convener**: J Ahlers

**Course entry requirements**: Admission to the MBA degree

**Course outline**: This course will explore the exciting evolution and application of Executive Coaching as a new and compelling competency for the 21st century. Coaching has emerged from the confluence of a series of powerful core roots such as linguistics, existentialism, hermeneutics, ontology, phenomenology, somatics, biology, consulting, therapy and HR to become one of the fastest growing areas in business today. Despite its relative infancy, coaching has already begun to branch rapidly according to the core focus. ‘Life Coaching’, ‘Spiritual Coaching’, ‘Personal Coaching’ and ‘Executive Coaching’ all being key derivatives. The focus of this elective will be Corporate, Business or Executive coaching as well as building students’ ability to coach as a manager and leader in the workplace. The focus of the course will be competency building and will attempt to leave students in a position where they are able to engage in coaching conversations at any time. In addition, they will start the potentially life-long journey which participants will need to take to become master External (running a coaching business) or Internal (being an internal coach within an organisational context) coaches.

**DP requirements**: Attend all lectures, submit all assignments and achieve an average of 30% on all individual coursework components

**Assessment**: Individual Essay/Coaching Report: 100%

---

**GSB4453S COMPANY VALUATIONS**

5 NQF credits at HEQSF level 9

**Convener**: D Holland

**Course entry requirements**: Admission to the MBA degree

**Course outline**: The course is to enable participants to value companies by applying the underlying principles of creating sustainable value. No matter how complex the situation, if students truly understand and internalise the fundamental concepts of valuations, they will be able to cut through the proposals, deals, analyses and rhetoric to form a focused and informed opinion. This will be achieved by understanding the role of the following three much used approaches in valuations; the Dividend discount model and constant growth; Free cash flow models; Relative valuations and price earnings multiples.

**DP requirements**: Attend all lectures, submit all assignments and achieve an average of 33% on all individual coursework components

**Assessment**: Group Class Cases: 15%, Group Assignment: 35%, Individual Assignment: 50%
GSB4460F/S  DOING BUSINESS IN AFRICA
5 NQF credits at HEQSF level 9
Convener: M Soko
Course entry requirements: Admission to the MBA degree
Course outline:
The principal goal of the course is to deepen the participants’ understanding of the African commercial environment and to explore strategies and approaches that could be implemented by businesses/entrepreneurs to exploit Africa’s vast economic opportunities. The lectures will be presented by Assoc. Prof Mills Soko and guest lecturers. The guest lecturers will be giving lectures on their specialist areas of interest. The lectures will take various formats, and are designed to provide participants with a comprehensive understanding of the key concepts, ideas and processes concerned with the topic of the session. The central philosophy of the lectures is to foster an interactive and participative learning environment.
DP requirements: Attend all lectures, submit all assignments and achieve an average of 33% on all individual coursework components.
Assessment: Group Assignment: 40%, Individual Assignment: 60%

GSB4462S  DOING BUSINESS IN ASIA AND CHINA
5 NQF credits at HEQSF level 9
Convener: M Soko /K van der Wath
Course entry requirements: Admission to the MBA degree
Course outline:
This course is for those who are serious about developing a career in international business - or for those that have entrepreneurial interests. With the rise of China/Asia, and the rapidly growing business-to-business relationship between South Africa and China/Asia, there is a growing need for South African managers and executives that can operate effectively in the “strategically difficult” Chinese and Asian market. The course is aimed at developing the ability of managers (and entrepreneurs) to successfully do business in China/Asia (or with Chinese/Asians in any other location). Participants will gain a deeper understanding of - and insights into - the social, political and economic transformation that is playing out in China/Asia; and will learn to appreciate how these changes impact business decision-making.
DP requirements: Attend lectures, submit all assignments and achieve an average of 33% on all individual coursework components.
Assessment: Class Preparation and Participation: 30%, Individual Assignment: 50%, Group Assignment: 20%

GSB4416S  E-MARKETING
5 NQF credits at HEQSF level 9
Convener: G Bick
Course entry requirements: Admission to the MBA degree
Course outline:
The E-Marketing elective course will enable students to utilise the latest trends in technology to develop a competitive advantage in the digital world. It incorporates a number of aspects of electronic marketing, including e-commerce, internet and mobile media, social media, the impact of technology on marketing, and digital marketing metrics. It will develop skills in utilising digital marketing tools to interact with customers and develop a competitive advantage while improving customer service, by integrating into marketing programmes.
DP requirements: Attend all lectures, submit all assignments and achieve an average of 33% on all individual coursework components.
Assessment: Class participation: 10%, Syndicate group assignment: 30%, Individual assignment: 60%

<td>MANAGEMENT CONTROL SYSTEMS</td>
<td>5 NQF</td>
<td>9</td>
<td>E Uliana</td>
<td>Admission to the MBA degree</td>
<td>Management control systems are an integral part of any organisation’s pursuit of its strategies. Many organisation problems arise because of the failure of individuals to appreciate the nuances and issues in the way in which the management control system is designed, and used. This is true both of the user and the designer (often the accountant). This course will enable participants to design, implement and use management control systems in an informed manner. Participants will be able to assess whether a system is appropriate in the circumstances, and to challenge preconceived notions about how things should be measured.</td>
<td>Attend all lectures, submit all assignments and achieve an average of 33% on all individual coursework components.</td>

</table>
The aim of this MBA elective is to explore the synergy between strategic brand building and business leadership. Brand building is a total value chain and stakeholder concept. The brand is the vessel of value and brand strategy guides leadership and management in building sustainable stakeholder relationships. Discussion sessions will apply industry models and tools to current global and local brand scenarios. This approach enables real-world exploration of the purpose and application of identity design, architecture, contact strategy, leadership and the building of brand equity.

**DP requirements:** Full engagement in academic process by attending lectures, group sessions and by submitting all assignments on or before the due date.

**Assessment:** Group Assignment: 40% Individual Essay: 60%

---

**GSB4419S  CAPITAL FLOWS & EMERGING MARKETS**
5 NQF credits at HEQSF level 9

**Convener:** S Gossel

**Course entry requirements:** Admission to the MBA degree

**Course outline:**
This elective is designed to help students understand the effects of global capital movements on the economies and financial systems of emerging countries. It seeks to expose students to debates regarding past problems, current issues, and future possibilities. Key topics covered include the patterns of capital flows to emerging countries post-WW2, the positive and negative effects that capital flows have on the financial and macroeconomic systems of emerging countries, the impact that capital flows have on economic and financial development, the role of capital flows in emerging market financial crises, and macroeconomic and financial sector policy implications. The objectives of this course are that students will be able to demonstrate an ability to understand the historical context and development of global capital flows; demonstrate an understanding of the key theories associated with capital flow transmission channels; demonstrate the ability to understand the historical context and development of global capital flows; and demonstrate an understanding of the various ways in which capital flows can be attracted or ‘tamed’.

**DP requirements:** Full engagement in the academic process by attending lectures, group sessions and by submitting all assignments on or before the due date. Achieve a minimum of 33% of individual marks.

**Assessment:** Group Assignment: 50%; Individual Assignment: 50%

---

**GSB5110F  WTO AND TRADE NEGOTIATIONS**
12 NQF credits at HEQSF level 9

**Convener:** N Biekpe

**Course entry requirements:** Admission to the MCom Development Finance degree

**Course outline:**
This course introduces students to the purpose and design of the WTO (World Trade Organisation) and its relationship with developing countries. It critically examines the rules, laws and regulations governing the WTO. The course will commence chronologically with a comprehensive examination of the WTO Agreements on Goods (GATT) and Services (GATS) as an introduction of the WTO institution. It will then consider a series of topics that include: The nature of international disputes and the manner in which they are settled, the choice between regional and global approaches to trade cooperation; international regulation of subsidies; the dynamics of coalition-formation and bargaining; the interface between international obligations and domestic regulations; “safeguard measures” to protect troubled industries from import competition and trade preferences for developing countries in the WTO.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.

**Assessment:** Final Class Examination: 50%, Case Study Analysis: 30%, Short Essay: 20%
**GSB4616S/W  RESEARCH METHODS**  
5 NQF credits at HEQSF level 9  
**Convener:** K Ramaboa  
**Course entry requirements:** Admission to the MBA degree  
**Course outline:**  
The Research Methods course will assist in preparing the students for the MBA dissertation, by training the students to develop a well-reasoned, empirically rigorous argument, and to make decisions on the basis of existing evidence and research. It will cover a broad introduction to the design used in business research and the tools required to conduct research. Students will be expected to take significant personal initiative in this course, and will be responsible for identifying a suitable supervisor for their dissertation during this course, and for investigating and building capabilities in appropriate, specific research methods. The content of the course will be addressed through assigned pre-reading material, which students will be expected to prepare for lectures individually and within their groups, and through lectures.  
**DP requirements:** Attendance of all lecture sessions; full preparedness for class participation; submission of all assessments on/before the due dates.  
**Assessment:** Pre-MBA Excel Assignment: 2%, Quantitative methods Excel assignment Part 1: 6%, Quantitative methods Excel assignment Part 2: 12%, Quantitative methods 1-pager: 20%, Qualitative methods 2-pager: 20%, Research Proposal: 40%.

**GSB4013S  ADVANCED CORPORATE FINANCE**  
5 NQF credits at HEQSF level 9  
**Convener:** R Kruger and F Toerien  
**Course entry requirements:** Admission to the MBA degree  
**Course outline:**  
By completing this course, students have a better understanding of the realities and constraints faced by practitioners in the corporate finance space. The emphasis is therefore not only on a sound understanding of the theories and practice underlying corporate finance (learned in foundational finance courses) but also on the uncertainty in decision-making and the shortcomings in the tools and processes employed to manage these. Students will be exposed to a number of case studies reflecting scenarios typically faced by financial managers in practice and debate and problem-solve the challenges they encountered. This will enable students who have successfully completed the module to more readily adapt to uncertainty and better model the flexible nature of decision-making in this space. The course also introduces practices and processes in Black Economic Empowerment in the South African market place, a key topic in the current business environment.  
**DP requirements:** Attendance at lectures and group meetings; all individual and group assignments handed in on or before deadline date, both during and after the course’s contact session.  
**Assessment:** Individual Project: 20%, Group Project: 30%, Individual Assignment: 50%.

**GSB4596F/S  SOCIAL INNOVATION LAB**  
10 NQF credits at HEQSF level 9  
**Convener:** W Nilsson  
**Course entry requirements:** Admission to the MBA Degree  
**Course outline:**  
This course is structured as a lab that builds on the conceptual material introduced in the Social Innovation and Entrepreneuring core course. It emphasizes practical application of social innovation concepts in real-world contexts. The lab provides a dynamic academic, practical, and personal experience. During the course, we ask students to see themselves as potential social innovators. Students are immersed in the world of designing creative, sustainable processes towards social change using multiple learning strategies that can be customized for each student. Student teams pursue real-world social initiatives of their own design. By the end of the course, students will have formed their own approach to social innovation, and will have begun to develop the concepts, mindsets, skills, and relationships that will enable them to continue to be effective social innovators.
throughout their life. Students apply paradigms such as complexity, action learning, and systems thinking in order to better understand societal and environmental contexts, challenge current systemic problems, and develop creative, practical approaches to those problems.

**DP requirements:** An average of 33% for the individual coursework components. Attendance at lecture sessions and submission of all assignments.

**Assessment:** Group project: 100%

**GSB4528F/S  SOCIAL INNOVATION AND ENTREPRENEURING**  
5 NQF credits at HEQSF level 9  
Convener: W Nilsson  
Course entry requirements: Admission to the MBA degree  
Course outline:  
This course offers students an initial introduction to the field of social innovation. While there are many emerging perspectives on social innovation, most generally a social innovation can be understood as an intentional, positive, creative shift in systemic social-ecological patterns. Many social innovations have global ambitions, but even when pursued primarily at the local level, social innovations go beyond simply providing a needed service or remediation. They challenge and experiment with a given system’s underlying building blocks: its rules, policies, technologies, structures, beliefs, habits, values, etc. Social innovation can be pursued from any organisational platform, from businesses to not-for-profits to government agencies. Businesses and other types of organisations are increasingly being called upon to act as innovative agents of social benefit. This call is particularly strong in emerging markets, so it is critical for GSB MBAs to develop a broad base of social innovation knowledge and skill.  
**DP requirements:** An average of 33% for the individual coursework components. Attendance at all sessions and submission of all assignments.  
**Assessment:** Class participation 10%, Individual assignment 50%, Group Assignment 40%

---

**GSB4427S  BUSINESS MODEL INNOVATION LAB**  
10 NQF credits at HEQSF level 9  
Convener: J Schueler  
Course outline:  
The Business Model Innovation Lab will provide students with the opportunity to critically explore, through the combined use of integrative and systems thinking, the topic of business models. This will be done through the evaluation of various business models and business designs using a real-life enterprise setting. It is intended that the Lab is a catalyst for personal reflection and insight (mirroring-principle) into the processes and concepts essential for completing the MBA
successfully, as well as in providing a framework for the development of a personal practice, as managers or leaders, in innovating, business models, and entrepreneuring.

**DP requirements:** An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.

**Assessment:** Group Presentations: 30% or 0%, Group Assignment: 30% or 60%, Peer Assessment: 40%

**GSB4527S  BUSINESS MODEL INNOVATION LAB**
10 NQF credits at HEQSF level 9
Convener: J Schueler

**Course outline:**
The Business Model Innovation Lab will provide students with the opportunity to critically explore, through the combined use of integrative and systems thinking, the topic of business models. This will be done through the evaluation of various business models and business designs using a real-life enterprise setting. It is intended that the Lab is a catalyst for personal reflection and insight (mirroring-principle) into the processes and concepts essential for completing the MBA successfully, as well as in providing a framework for the development of a personal practice, as managers or leaders, in innovating, business models, and entrepreneuring.

**DP requirements:** An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.

**Assessment:** Group Presentations: 30% or 0%, Group Assignment: 30% or 60%, Peer Assessment: 40%

---

**GSB5508F  INNOVATIVE FINANCE IN AFRICA**
12 NQF credits at HEQSF level 9
Convener: N Biekpe

**Course outline:**
This course gives students an overview and critical analysis of the African innovative finance space by examining the evolving roles of stakeholders – including investors, foundations, high net worth individuals, governments, corporates, communities, non-profits, social enterprises and social entrepreneurs – in developing and applying new financial vehicles and structures to allocate capital in a way that includes measurement of social and environmental impact. Students will apply transformative perspectives in conceptualising, designing and implementing solutions that aim to address complex social challenges. Students will also discuss case studies from development finance institutions.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.

**Assessment:** Class Test: 20%, Essay: 30%, Final Exam: 50%

---

**GSB5509F  HOUSING FINANCE FOR EMERGING MARKETS**
12 NQF credits at HEQSF level 9
Convener: S Rogers

**Course outline:**
This course introduces and analyses housing finance systems and housing market outcomes across emerging markets with focus on sub-Saharan Africa, specifically on the development of securitisation markets and addresses the current challenges of housing finance reform. This course provides an overview of the elements of a housing finance system and identifies the issues and constraints that prevent most housing finance systems in sub-Saharan Africa from reaching their potential. The course covers issues of access to housing and housing informality in developing countries, financial crises arising out of the housing sector, and potential market-oriented and public policy solutions. It sets out the preconditions for the success of housing finance systems and different housing finance products such as mortgages, pension-backed finance, instalment sale
finance and housing micro-finance. The course indicates how governments can improve the functioning of housing finance systems and how targeted interventions such as state subsidies can improve access of lower income households to housing finance.  
**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.  
**Assessment:** Class Test: 20%, Written Assignment: 30%, Final Exam: 50%  

---

**GSB5010F/S  SOCIAL FINANCE**  
5 NQF credits at HEQSF level 9  
**Convener:** S Gossel  
**Course entry requirements:** Admission to the MBA Degree  
**Co-requisites:** None  
**Course outline:**  
This course aims to give students an overview of the African Innovative Finance space by examining the evolving roles of stakeholders, including investors, foundation, high net worth individuals, governments, corporates, communities, non-profits, social enterprises and social entrepreneurs, in developing and applying new financial vehicles and structures to allocate capital in a way that includes measurement of social and environmental impact.  
**DP requirements:** Complete all assessments; achieve an average mark of 50% or more across all assessments  
**Assessment:** Forum discussion: 15%, Online quiz: 20%, Group presentation: 20%, Written paper: 45%  

---

**GSB5011F/S  LEADING ORGANISATIONS IN A VUCA WORLD**  
5 NQF credits at HEQSF level 9  
**Convener:** T London  
**Course entry requirements:** Admission to the MBA degree  
**Co-requisites:** None  
**Course outline:**  
The fact that an MBA programme needs to cover so many different disciplines highlights the necessity for leaders to be able to understand and manage complexity. This course examines all of the learning from the MBA in the context of a VUCA world (one of volatility, uncertainty, complexity, and ambiguity). The course starts with an examination of VUCA and related concepts (complexity, change, crisis, etc.), then focuses heavily on applying the lessons from the rest of the MBA to actual organisations (either current ones or proposed entrepreneurial ventures) in the context of this complex environment.  
The purpose of the course is to help students think dynamically about the environment in which they'll be working while critically applying concepts and skills from previous courses in an interdisciplinary way. Following from this course, students should be able to better understand how different disciplines will connect in their professional life, develop a better awareness of where risks and opportunities lie in their organisation/field/discipline, and develop greater skill in thinking and working in dynamic and complex environments.  
**DP requirements:** Attendance at all sessions, min 50% on assessments  
**Assessment:** 10% of mark is based on a self-evaluation of their engagement with the course; 20% of mark is based on the submission of a topic for the group assignment and list of relevant resources/reference list; 70% of the mark is based on the group assignment (groups of either 4 or 5 students), which contains both group and individual assessment elements.
GSB4486S  PROJECT MANAGEMENT
5 NQF credits at HEQSF level 9

Course outline:
Project Management: Key areas to be covered in the course are: 1. The Project Management Life Cycle establishing a business case from user requirements through to testing and quality control 2. The role of the Project Manager in the Project Team 3. The importance/relevance of Project Management to the overall success of the company 4. Communication 5. Planning financial & time 6. Risk Management 7. Client Management 8. Risk versus Stakeholders versus Quality Major objectives/outcomes of the course include: Define the role of the Project Manager in the Project Team Compile a financial and a time plan for a given project case study List and discuss the various types of risk required to be managed on a project List and discuss the various types of stakeholders involved in a project Differentiate between good and bad project management techniques Differentiate between successful and unsuccessful projects and identify the primary causes of the success or failure Provide a recommendation of how you would have done things differently to optimize the chances of a successful project.

GSB4560F/S  DOING BUSINESS IN AFRICA
5 NQF credits at HEQSF level 9

Convener: M Soko

Course outline:
The principal goal of the course is to deepen the participants' understanding of the African commercial environment and to explore strategies and approaches that could be implemented by businesses/entrepreneurs to exploit Africa's vast economic opportunities. The lectures will be presented by Assoc. Prof Mills Soko and guest lecturers. The guest lecturers will be giving lectures on their specialist areas of interest. The lectures will take various formats, and are designed to provide participants with a comprehensive understanding of the key concepts, ideas and processes concerned with the topic of the session. The central philosophy of the lectures is to foster an interactive and participative learning environment.

DP requirements: Attend all lectures, submit all assignments and achieve an average of 33% on all individual coursework components.

Assessment: Group Assignment: 40%, Individual Assignment: 60%

GSB6000W  PHD IN BUSINESS ADMINISTRATION
360 NQF credits at HEQSF level 10; 5 PhD Research Colloquiums comprising 12 seminars and 1 mini-conference.

Convener: R Hamann

Course entry requirements: Registered as a PHD student specializing in Business Administration at the Graduate School of Business

Co-requisites: None

Course outline:
In line with the research mission of “engaged inquiry in a complex world,” the GSB expects PhD candidates to make an original contribution to theory, while also addressing practical organisational or social challenges. While the primary guidance to PhD candidates is provided by the PhD supervisor, fellow PhD students and other faculty provide a rich network of support and interaction. The typical duration of a PhD project is between three and four years, if the student is dedicating the bulk of her or his time to the project. A candidate must be registered for at least two consecutive years, although registration for a year at another university may be accepted as part of that period. Although no maximum period of time is prescribed for completing a thesis, the university stipulates a "reasonable time", which is generally taken to be five years.

GSB6001H  DOCTORAL RESEARCH DESIGN
0 NQF credits at HEQSF level 10

Convener: Ralph Hamann
Course entry requirements: Admission to the GSB PhD degree

Course outline:
PhD candidates have about nine months to develop their proposal, which needs to connect a competent review of the pertinent literature with a proposed research design, centred upon a well-motivated research question. This course seeks to support PhD students (and their supervisors) in the development of a compelling proposal. It will consist of workshops with lectures and practical exercises focused on key components of research design: the literature review; identifying a gap or problem in the literature; translating this into a clear research question; identifying a suitable research context and setting; developing coherent data collection and analysis strategies; identifying and responding to reliability and validity risks; and addressing possible ethical concerns. In between workshops, students will be expected to work on pre-workshop preparatory submissions.

DP requirements: Attendance at all workshop sessions except where excused. Submission of all preparation exercises. Submission, presentation and acceptance of a PhD research proposal.

Assessment: Proposal: 100%.

GSB4222Z SYSTEMIC EXECUTIVE PRACTICE
30 NQF credits at HEQSF level 9
Convener: K Sewchurran
Course entry requirements: Admission to the EMBA degree

Course outline:
The aim of the Systemic Executive Practice course, which is the foundation course for this programme, is to construct a conceptual framework of systemic management practice on which all the other courses will develop. The learning processes and projects are designed to introduce and embed systemic practices in the students’ own management practices.

DP requirements: Min. 80% attendance at all lecture sessions and group meetings; full preparedness for class participation; submission of all assessments by the due dates.

GSB4223Z MANAGING FOR SHAREHOLDER VALUE
30 NQF credits at HEQSF level 9
Convener: K Sewchurran
Course entry requirements: Admission to the EMBA degree

Course outline:
The aim of the Managing For Shareholder Value course is to develop a framework for exploring opportunities for future value creation. It integrates key concepts and propositions from the fields of economics, finance, globalisation and entrepreneurship into a strategic framework. It guides the establishment of a strategic intent and identifies and organises the activities, resources, capabilities, structures and processes needed to realise the strategic intent.

DP requirements: Complete 80% of the inter-modular submission requirements.

GSB4224Z MANAGING FOR CUSTOMER VALUE
30 NQF credits at HEQSF level 9
Convener: K Sewchurran
Course entry requirements: The successful completion of all GSB4222F assignment requirements.

Course outline:
The Managing For Customer Value course focuses on the operations domain of organisations and their functions. This is where both internal and external customer value are created in terms of quality, cost, volume and timing. The course aims at constructing a cybernetic conceptual model of
operations and to apply it to the value chain of the organisation and the value chains of its different functions.

**DP requirements:** 80% attendance of all lecture sessions and group meetings; full preparedness for class participation; submission of all assessments by the due dates.

**Assessment:** Viable Systems Modelling: 30%; Micro-Economics Project: 25%, Business Acumen: Operations Management Project: 15%, Reflective paper, Narrating the leadership experience: 10%; Quantitative Methods Project: 10%, Group project and presentations: 10%

---

**GSB4413S**  **DISSERTATION**  
55 NQF credits at HEQSF level 9  
**Convener:** K Ramaboa  
**Course entry requirements:** Admission to the MBA degree  
**Course outline:**  
The dissertation provides an important opportunity to develop critical reasoning, research and writing skills, and will also provide students with an in-depth understanding of a particular aspect of business management or related fields. Students are expected to hand-in a dissertation of 20 000 – 25 000 words.  
**DP requirements:** None  
**Assessment:** Dissertation: 100%

---

**GSB4419F/S**  **CAPITAL FLOWS & EMERGING MARKETS**  
5 NQF credits at HEQSF level 9  
**Course outline:**  
This elective is designed to help students understand the effects of global capital movements on the economies and financial systems of emerging countries. It seeks to expose students to debates regarding past problems, current issues, and future possibilities. Key topics covered include the patterns of capital flows to emerging countries post-WW2, the positive and negative effects that capital flows have on the financial and macroeconomic systems of emerging countries, the impact that capital flows have on economic and financial development, the role of capital flows in emerging market financial crises, and macroeconomic and financial sector policy implications.

---

**GSB4421F/S**  **LEADERSHIP, ORGANISATION AND VALUES**  
10 NQF credits at HEQSF level 9  
**Convener:** C Peter  
**Course entry requirements:** Admission to the MBA degree  
**Course outline:**  
This course introduces students to leadership theories, organisational leadership, and the complexity of a number of leadership and managerial situations in order to give insight into what it means to run, develop, and sustain values-driven organisations. The course invites students to develop a critical attitude towards leadership and organisational theories and practices. It aims to develop a thorough understanding of the relationships between organisations, people, and leadership. Students will explore what values-driven leadership is and reveal some of its complexity by examining it through the lens of a number of theories. The purpose of this course is to help students understand the dynamics of individual, group and organisational leadership and to examine values driven leadership in the broader context of transformation in South Africa, emerging markets and internationally. A key aspect of this is the interrogation of the role of values, both personal and organisational, for the ways in which people interact with each other in organisations.  
**DP requirements:** An average of 33% for the individual coursework components. Attendance at lecture sessions and submission of all assignments.  
**Assessment:** Class engagement: 10%; Individual assignment: 90%
GSB4428X  SOCIAL INNOVATION ENTREPRENEURING
5 NQF credits at HEQSF level 9
Convener: W Nilsson
Course entry requirements: Admission to the MBA degree
Course outline:
This course offers students an initial introduction to the field of social innovation. While there are many emerging perspectives on social innovation, most generally a social innovation can be understood as an intentional, positive, creative shift in systemic social-ecological patterns. Many social innovations have global ambitions, but even when pursued primarily at the local level, social innovations go beyond simply providing a needed service or remediation. They challenge and experiment with a given system’s underlying building blocks: its rules, policies, technologies, structures, beliefs, habits, values, etc. Social innovation can be pursued from any organisational platform, from businesses to not-for-profits to government agencies. Businesses and other types of organisations are increasingly being called upon to act as innovative agents of social benefit. This call is particularly strong in emerging markets, so it is critical for GSB MBAs to develop a broad base of social innovation knowledge and skill.

Course requirements:
An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.
Assessment:
Group Project: 30%, Individual Exam: 70%

GSB4459X  INTRODUCTION TO COMPLIANCE MANAGEMENT
30 NQF credits at HEQSF level 8
Convener: E Shelley
Course entry requirements: Admission to the PGDip: management Practice
Co-requisites: None
Course outline:
This course provides the foundational theoretical and practical skills-based knowledge of compliance practice in South Africa. The outcomes for the course will focus on specific technical competencies and knowledge base that provides the foundation of effective compliance practice. The course will focus on the banking sector; and will facilitate the development of practical skills and expertise in regulatory compliance management. The latest theories and approaches to compliance will be covered which includes issues such as motivating compliance, challenging the accepted meaning and perceptions of compliance, and the importance of growing a thriving culture of compliance within the organisation.
Key concepts and propositions in the field of compliance practice will be introduced and integrated into a contextually relevant practical analysis of the management of compliance focusing on specific topical compliance related issues.

Course requirements:
Attendance at all lectures, submission of all assignments.
Assessment:
Position Paper (55%), Reflective Practice Paper (30%), Group Work (15%)

GSB4459Z  INTRO TO COMPLIANCE MANAGEMENT
30 NQF credits at HEQSF level 8
Convener: E Shelley
Course entry requirements: Admission to the PGDip: management Practice
Co-requisites: None

---

**GSB4463X**  
**APPLIED COMPLIANCE MANAGEMENT PRACTICE**  
30 NQF credits at HEQSF level 8  
Convener: E Shelley  
**Course entry requirements:** Admission to the PGDip: Management Practice  
**Co-requisites:** None  
**Course outline:**  
This course introduces key behavioural and strategic management aspects relevant to the practice of compliance. These key components are then integrated into a study focusing on the interrelationship between the management of compliance risk and specific behaviours. Students will engage with social and cultural influences that affect behaviour and relate this to the Afrocentric compliance focus. Specific case studies that build upon the knowledge gained from the Systemic Management Practices and Introduction to Compliance Management Practice courses will provide the basis for students to understand and analyse the specific challenges faced by a compliance professional in mitigating the 'human-element' of risk.  
**DP requirements:** Attendance at all lectures, submission of all assignments.  
**Assessment:** Attendance at all lectures, submission of all assignments.

---

**GSB4463Z**

**GSB4471F**  
**GLOBAL SUPPLY CHAIN MANAGEMENT**  
5 NQF credits at HEQSF level 8  
Convener: H Parker  
**Course entry requirements:** Admission to the MBA degree.  
**Course outline:**  
The course focuses on providing students with skills to evaluate an organisation as part of a broader value chain. The course will enhance the students understanding of tradeoffs and aims to equip them with the skills to make better decisions regarding how to achieve business growth through supply chain design and management. Further the course aims to equip students with the ability to describe and analyse logistics and operations; to understand the key operations decision areas with respect to supply chain design and management.
**DP requirements:** Fully engage in the academic process by attending lectures, group sessions and by submitting all assignments on or before the due date.

**Assessment:** Pre-course Assignment: 20%, Class Participation: 10%, Individual Learning Log: 20%, Individual Assignment: 50%

---

**GSB4493F/S  STRATEGIC BRAND BUILDING**  
5 NQF credits at HEQSF level 9

**Course outline:**  
The aim of this MBA elective is to explore the synergy between strategic brand building and business leadership. Brand building is a total value chain and stakeholder concept. The brand is the vessel of value and brand strategy guides leadership and management in building sustainable stakeholder relationships. Discussion sessions will apply industry models and tools to current global and local brand scenarios. This approach enables real-world exploration of the purpose and application of identity design, architecture, contact strategy, leadership and the building of brand equity.

---

**GSB4498F/S  BUSINESS DEVELOPMENT IN EMERGING MARKETS**  
5 NQF credits at HEQSF level 9

**Course outline:**  
In this practical course, students will gain a deeper appreciation of what it takes to develop a business in an economy which has not yet reached full maturity; the business scope may vary from a limited sales presence to a full-scale investment involving more complex deals (incorporating longer term contracts & technology interchange) through partnerships and joint ventures. In these markets, an effective legal system is often not well established enough to protect your investment; nor could there be there sufficient reliable published information for decision making purposes. Hence special efforts are needed to verify information obtained from various sources; and the ability to develop and nurture relationships is an essential skill. Contracts must be structured such that reliance on legal redress in the event of problems arising is left as a last resort. All these unique issues will be covered at length. The normal & necessary business development activities (applicable in any environment) needed to ensure business success are also discussed, include establishing leads, initial contacting, preparation for negotiations, negotiating the deal, getting both organisations fully aligned behind a deal, coordinating in-company multi-functional teams, and finally setting up the new organisation and preparing for full operations.

---

**GSB4501X  ACCOUNTING**  
10 NQF credits at HEQSF level 8

**Convener:** M Graham

**Course outline:**  
The Accounting course focuses on introducing students to the language of accounting and providing students with the ability to read, interpret and understanding financial statements. Furthermore, the course will provide students with the skill necessary to appreciate the role of accounting in making decisions and controlling and planning the operations of an organisation. Accounting is the language of finance and business. Like any language we can get to understand it either by learning the grammar or by reading literature and poetry and in that way gain an appreciation of its structure. This course will take the latter approach. The primary learning takes place through cases that are closely related to the work background and industry sectors of MBA students. The cases will be attempted in groups and will form the basis for further discussion during the class sessions. Although there will be some traditional lecturing the teaching approach in the class will centre on the resolving of problems/issues related to accounting that arise from the cases and elsewhere. The case studies are carefully selected to highlight the diversity in business sectors but with emphasis on emerging market issues.

**DP requirements:** An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.
Assessment: Mid-term Test 20%, Final Examination 40%, Group Assignments 40%

GSB4504X  ECONOMICS FOR BUSINESS
10 NQF credits at HEQSF level 8
Convener: G Chelwa
Course outline:
The economy is the environment of business. One of the prerequisites of doing well in business is to understand the environment that you are operating in. In this context there are a number of forces that act on business. Some are slow and often predictable. Others are sudden and very often unexpected. At the same time, while these forces play themselves out governments are also likely to react with a variety of policy changes. Hence the dual challenge for people in business is not only to position themselves to either take advantage of favourable economic conditions or take defensive action from negative economic shocks but also to anticipate the likely policy response on the part of government. In addition to this there can be quite dramatic differences in the economics experienced in developed economies compared to emerging markets. The course will explore some of these differences. This course is a principles course in micro and macroeconomics. The purpose of the course is to outline the key principles that will be of use to people in their business lives.

DP requirements: An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.
Assessment: Pre-assignment 5%, Group Assignment/Presentation 20%, Class Participation 5%, Mid-term examination 20%, Final Examination 50%

GSB4505X  FINANCE
10 NQF credits at HEQSF level 8
Convener: L Gumede
Course entry requirements: Admission to the MBA degree
Course outline:
The finance function exists at the intersection between accounting and economics. Hence, understanding the role of modern finance requires exposure to a range of theories and practical tools; as well as insights on corporate governance, social and environmental factors that can no longer be externalised. Decisions taken by the boards of directors and executive management may rely on consolidated financial statements and an understanding of the macroeconomic environment, but investors assess and value the company's management based on financial performance and behaviour. Thus this MBA Finance course focusses on both theory and practise at a corporate and investor level. This course will enable students to develop an understanding of the practical aspects of finance. By the end of this course they should no longer just read texts in the financial press, but be able to comprehend and critically review the information.

DP requirements: An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.
Assessment: Mid-Term Test: 25%, Final Examination: 50%, Group Assignments: 10%, Group Presentation: 15%

GSB4507X  LEADERSHIP AND PERSONAL DEVELOPMENT
10 NQF credits at HEQSF level 9
Convener: K April
Course entry requirements: Admission to the MBA degree
Course outline:
The Leadership and Personal Development course provides students with the opportunity to explore the topic of personal leadership by establishing the individual ‘ground rules', and through self-awareness, provides the opportunity to put in place a framework for future enhancement and development (lifelong enhancement). The purpose of the course is not to provide a single, ‘correct' perspective, but rather, through Narrative Inquiry, it is intended to be a catalyst for personal reflection and insight (mirroring-principle) into processes and concepts critical for personal growth.
**GSB4510X  OPERATIONS MANAGEMENT**
10 NQF credits at HEQSF level 8
Convener: H Parker
Course entry requirements: Admission to the MBA degree.
Course outline:
In most organisations, operations management lies at the core of value creation. The quality of the translation of an organisation’s competitive strategy into operational objectives and the effectiveness and efficiency in achieving these objectives often define success (or failure). The course aims to equip students with the ability to describe and analyse operations; to understand the key operations decision areas with respect to process, capacity, inventory, workforce, quality and measurement; to begin developing an approach to the improvement of operations to meet strategic competitive criteria; and importantly to understand the new mind-set of creating the learning organisation. Operations management principles are equally applicable in manufacturing and service organisations. Fast, low-cost, accurate, and consistent operations are important in service areas such as financial services, education, healthcare, government, transportation, retail, hospitality, airlines, and insurance, among others. Case studies will provide the main vehicle for classroom learning in this course. Students will be expected to prepare readings and case studies individually and within their groups, prior to each class session. Operations Management is a very practical skill, so there will also be direct application of certain concepts that have been introduced during class in the form of certain assignments and “doing” experiences.
**DP requirements:** An average of 30% for the individual coursework components. Attendance at all sessions and submission of all assignments.
**Assessment:** Individual Assignment: 10%, Final Examination: 50%, Group Exercises: 10%, Paired Assignment: 30%

---

**GSB4514X  STRATEGY**
10 NQF credits at HEQSF level 9
Convener: M Samuelsson
Course entry requirements: Admission to the MBA degree
Course outline:
The strategy course introduces students to the fundamental principles and concepts of strategic thinking and management. It provides the opportunity for students to develop the necessary skills for strategic thinking and analysis. Students learn about business and corporate strategy formulation relevant to the macro-environment and industry, as well as the competitive drivers which face organisations. They also learn about the role that purpose, resources, and capabilities play in strategy formation and implementation, with the main purpose of this course being to develop rigour and confidence in strategic thinking.
**DP requirements:** Attend all lectures, submit all assignments and achieve an average of 33% on all individual coursework components
**Assessment:** Group Assignment 20%, Mid-term Examination 30%, Final Examination 50%

---

**GSB4526X  MARKETS IN EMERGING COUNTRIES**
5 NQF credits at HEQSF level 9
Course outline:
The course provides an in-depth analysis of markets from different perspectives focusing on how markets are different within emerging and developing countries. Markets are fundamental to economics and to business and yet we do not question how they are constructed, what they mean and how they function in practice as opposed to theory. The course will begin with an analysis of the conventional notion of the market and then continuously challenge the conventional model of the
market to unpack various other dimensions of the market concept. This forms the basis of the course where we examine what markets are from different disciplinary perspectives.

---

**GSB4604Z  VALUES BASED LEADERSHIP**  
25 NQF credits at HEQSF level 8  
**Convener:** E Shelley  
**Course entry requirements:** Admission to the Postgraduate Diploma in Management Practice  
**Course outline:**  
In this course, students will learn how to exhibit personal leadership competencies, which reflect values-based solutions that address the contexts in which they operate. This provides students with the opportunity to explore and experience personal leadership by establishing the individual “ground rules” and, through self-awareness, putting in place a framework for future enhancement and development (lifelong enhancement). The aim is to also equip students with the tools for personal reflection and insight – thus creating future leaders who will lead with intent and create values-based solutions.  
**DP requirements:** Full engagement in the academic process by attending lectures, group meetings and by submitting all assignments on or before the due date.  
**Assessment:** Preparatory assignment (10%), Group assignment on the exam day/last day of Module (35%), ARL paper (55%)

---

**GSB4605Z  BUSINESS ACUMEN I**  
25 NQF credits at HEQSF level 8  
**Convener:** E Shelley  
**Course entry requirements:** Admission to the Postgraduate Diploma in Management Practice  
**Course outline:**  
The Business Acumen course aims to develop the participants’ business acumen and their understanding of fundamental principles of key business functions. The course is designed for students wishing to equip themselves with a business acumen skill set to progress confidently in their managerial role or to become more effective entrepreneurs.  
**DP requirements:** Full engagement in the academic process by attending all lectures, group meetings and by submitting all assignments on or before the due date.  
**Assessment:** Preparatory assignment (10%), Group assignment on the exam day/last day of module (35%), ARL paper (55%)

---

**GSB4607F/S  LEAN THINKING AND OPERATIONAL EXCELLENCE**  
5 NQF credits at HEQSF level 9  
**Convener:** H Parker  
**Course entry requirements:** Admission to the MBA degree  
**Course outline:**  
The aim of this course is to delve deeper into the concepts of Lean Thinking – how it has been framed, how it compares with other operational excellence methodologies and what some of the key tools are. In the latter part of the course, we also take the opportunity to engage the issue of sustainability of changes introduced through any operational excellence drive. In so doing, we engage what it is that enables or hinders the sustained implementation of operational excellence drives.  
**DP requirements:** Attendance of all lecture sessions and group meetings; full preparedness for class participation; submission of all assessments on/before the due dates.  
**Assessment:** Group work: 10%, Learning summary: 25%, Final project: 65%.

---

**GSB4616X  RESEARCH METHODS**  
5 NQF credits at HEQSF level 9  
**Convener:** K Ramaboa  
**Course entry requirements:** Admission to the MBA degree
Course outline:
The Research Methods course will assist in preparing the students for the MBA dissertation, by training the students to develop a well-reasoned, empirically rigorous argument, and to make decisions on the basis of existing evidence and research. It will cover a broad introduction to the design used in business research and the tools required to conduct research. Students will be expected to take significant personal initiative in this course, and will be responsible for identifying a suitable supervisor for their dissertation during this course, and for investigating and building capabilities in appropriate, specific research methods. The content of the course will be addressed through assigned pre-reading material, which students will be expected to prepare for lectures individually and within their groups, and through lectures.

DP requirements: Attendance of all lecture sessions; full preparedness for class participation; submission of all assessments on/before the due dates.

GSB5002Z MANAGING FOR SOCIETAL VALUE
30 NQF credits at HEQSF level 9
Convener: K Sewchurran

Course entry requirements: The successful completion of all GSB4224S assignment requirements

Course outline:
The Managing For Societal Value course focuses on the wider socio-economic context in which businesses and other institutions operate. It is designed to instil an appreciation that organisations are only as viable as the socioeconomic system they form part of. It equips them with appropriate knowledge, skills and mind-sets needed to positively engage with and contribute to the viability of the socioeconomic context in which their organisations functions.

DP requirements: 80% attendance of all lecture sessions and group meetings; full preparedness for class participation; submission of all assessments on/before the due dates.

Assessment: Ethics & Macro-Economics Project: 30%; ‘Sustainability by Design’ conceptual framework: 25%; Strategic Social Engagement: 25%; Reflective Paper: 10%; Group Project and Presentations: 10%

GSB5100Z MICRO-ENTERPRISE FINANCE
12 NQF credits at HEQSF level 9
Convener: N Biekpe

Course entry requirements: Admission to the MCom Development Finance degree

Course outline:
This course explains the essential concepts of entrepreneurial finance. The objective of this course is to prepare students to take on roles as small business managers, entrepreneurs, policy analysts and technical advisers on small enterprises and development in foundations, governments, multilateral development institutions and international agencies. The course covers the main issues regarding financing micro, small and medium enterprises (MSMEs). The course deals with both institutional finance and finance as a structured approach to decision making in MSMEs finance. The course also covers the role of micro finance in financing MSMEs. Topics include overview of micro-enterprise finance, new venture creation and sources of financing, venture capital, microfinance intervention, working capital management, valuation, evaluating investment decisions, choice of financing and harvesting. Students will have an appreciation of the broader context that underpins the field of micro-enterprise finance, understand how and why the formal credit market fails to meet the financial needs of the poor and small businesses, be knowledgeable about the challenges and controversies facing micro–enterprise finance, and be equipped with a framework to objectively examine and assess these issues.

DP requirements: Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.
Assessment: Written Examination: 50%, Class Test: 25%, Individual Assignment: 25%

GSB5102Z  PROJECT FINANCE
12 NQF credits at HEQSF level 9
Convener: N Biekpe
Course entry requirements: Admission to MCom Development Finance degree
Course outline:
This course provides students with the concepts and theories, as well as the practical tools and techniques for project finance valuation, analysis and modelling. This provides students with an opportunity to understand the risk-return character of limited recourse projects from multiple perspectives. Topics will include introduction to project finance, analysis of project viability, designing security arrangements, structuring the project, financing plan, discounted cash flow analysis, financial modelling and project evaluation, issues for host government, project finance market, managing project risk. The course will discuss a number of case studies.
DP requirements: Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.
Assessment: Exam: 50%, Class Test: 25%, Individual Assignment: 25%

GSB5103Z  INTERNATIONAL FINANCE FOR DEVELOPMENT
12 NQF credits at HEQSF level 9
Convener: N Biekpe
Course entry requirements: Admission to the MCom Development Finance degree
Course outline:
The module is organised into ten topics. The first topic provides an introduction to exchange rates and the foreign exchange market that provides a necessary foundation for the study of the principles of international business. Topic 2 reviews the forward market and transaction risk. The three critical theories of exchange rate determination – covered interest rate parity, uncovered interest rate parity and purchasing power parity – are reviewed in Topics 3, 4 and 5 respectively. The subject of Topic 6 is exchange rate regimes. Topics 7 and 8 are closely linked, with the former providing an introduction to international debt markets and the latter sovereign risk, sovereign debt and credit default swaps. The nature and role of international trade and capital flows and their role in development are assessed in Topics 9 and 10.
DP requirements: Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.
Assessment: Final Examination: 50%, Class Tests: 25%, Individual Assignment: 25%

GSB5104Z  QUANTITATIVE METHODS IN DEVELOPMENT FINANCE
12 NQF credits at HEQSF level 9
Convener: N Biekpe
Course entry requirements: Admission to MCom Development Finance degree
Course outline:
This course provides statistical applications relevant to financial and risk management techniques in the context of development finance. Topics include probability theory, statistical inference, regression analysis, time series analysis and forecasting. The course aims to develop an understanding of statistical methods and their application to management and financial decision making. On completion of the course, the students should be able to use statistical tools to perform financial and risk analysis, use statistical tools to support postgraduate level research in development finance, understand the relevance and practical implications of statistical inference and analyse and interpret statistical relationships between two or more variables.
**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.

**Assessment:** In-class test: 20%, Individual Assignment: 30%, Final Exam: 50%

---

**GSB5105Z  ISSUES IN DEVELOPMENT FINANCE**
12 NQF credits at HEQSF level 9
**Convener:** M Kabinga
**Course entry requirements:** Admission to the MCom Development Finance degree

**Course outline:**
The module is organized in seven units. The first unit reviews basic concepts that are useful for understanding development finance. Unit 2 examines the nature of transaction costs in financial markets and their implications. Capital market theory and features of capital markets in developing countries are considered in Unit 3. The theme of Unit 4 is credit markets in developing countries. The role of foreign aid in economic development is addressed in Unit 5. Country risk appraisal is presented in Unit 6. Unit 7 deals with sustainability issues in finance. The main aim of the course is to provide insight into the key concepts, approaches, and policy issues in development finance as it relates to the topics of financial and economic development.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.

**Assessment:** Final examination: 50%, Class Test: 25%, Individual Assignment: 25%

---

**GSB5106Z  RESPONSIBLE INVESTMENT**
12 NQF credits at HEQSF level 9
**Convener:** N Biekpe
**Course entry requirements:** Admission to the MCom Development Finance degree

**Course outline:**
This course aims to explore some alternative and critical ways of thinking about economic growth and development in Africa by analysing the multilayered field of Sustainable Responsible Investment (SRI). SRI, as used in the course, is an umbrella term to describe any investment strategies and philosophies aiming to integrate environmental, social and governance issues and opportunities (ESG) into investment decision making and to create a positive ESG impact (including impact investing). The primary aim of this course is to provide students with a comprehensive theoretical and practical view of SRI worldwide, with a more focused look at SRI in emerging economies. The secondary objective of this course is to encourage thoughtful, honest and serious debate about SRI. Students will debate through group exercises and dialogues whether and how SRI can be a powerful tool to gear investments towards a more sustainable and responsible impact in Africa.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.

**Assessment:** Class Test: 15%, Individual Assignment: 35%, Final Exam: 50%

---

**GSB5107Z  PUBLIC SECTOR FINANCE**
12 NQF credits at HEQSF level 9
**Convener:** N Biekpe
**Course entry requirements:** Admission to the MCom Development Finance degree

**Course outline:**
The course aims to provide an understanding of the processes, mechanisms and institutions relevant to the raising and allocation of finance required by the public sector to enable it to perform its roles.
Following the dictum that “finance follows function,” it examines the functions of government (particularly in the developmental context), the structures required to perform those functions, and the allocation of spending responsibilities amongst them. In addition, it pays particular attention to financial decision making in the public sector, the relationship between the public and private sectors, the notion of public goods and externalities, the purposes and processes of public sector budgeting, theories and mechanisms of taxation, other sources of funding (such as borrowing), fiscal decentralisation and intergovernmental finance systems. The course will enable students to evaluate critically the effectiveness of public sector finance frameworks.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.

**Assessment:**
- Class Test: 25%
- Assignment: 25%
- Final Exam: 50%

---

**GSB5115Z RESEARCH METHODS**
12 NQF credits at HEQSF level 9

**Convener:** L Alhassan

**Course entry requirements:** Admission to the MCom Development Finance degree

**Course outline:**
The course is designed to equip students with the necessary soft and varied skills to conduct a research investigation. Skills covered by the course include conceptualising a research idea and turning it into a researchable proposal; familiarising students with electronic literature archives and key databases; critical review of published material; writing and presentation skills. It covers aspects such as the broad problem area, problem definition, hypothesis formulation, and data gathering techniques, data analysis and interpretation of results. In the end, students should be able to conduct research whose results will offer both theoretical and practical solutions to challenges encountered in the business world.

**DP requirements:** Attendance at lectures is compulsory except with the permission of the Head of Department. Students are required to write all tests; and to hand in all necessary individual assessments or reports.

**Assessment:**
- Class Test: 20%
- Research Proposal: 30%
- Final Exam: 50%

---

**GSB5117X MINOR DISSERTATION**
90 NQF credits at HEQSF level 9

---

**GSB5301H INCLUSIVE INNOVATION RESEARCH AND PRACTICE**
0 NQF credits at HEQSF level 9

**Convener:** Warren Nilsson

**Course entry requirements:** Admission to the GSB MPhil specialising in Inclusive Innovation programme.

**Course outline:**
This course serves as an introduction to inclusive innovation and will focus heavily on practical outcomes, based on design principles for innovation and entrepreneurship. This course also sets the background and context for inclusive innovation with specialised understanding and learning about sustainable development and innovation systems. Students will be introduced to the practice of Design Thinking through a hands-on workshop format. The research methods component of this course will introduce students to research design principles and will offer guidance on how to work with academic literature.

**DP requirements:** Attendance at all sessions of all modules (except where excused by the HOD); submission of MOU, research proposal, ethical clearance application on the due dates; submission of ad hoc reflections on the dates set at the discretion of lecturers and HOD.

**Assessment:** None: Attendance only.
DEPARTMENT OF STATISTICAL SCIENCES

The Department is housed in PD Hahn Building, Level 5.

Telephone (021) 650-3219 Fax (021) 650-4773
The Departmental abbreviation is STA.

RESEARCH IN STATISTICAL SCIENCES

The department focuses on research in Statistics, Operations Research and Decision Modeling and the underlying methodology and application of these methods to Ecology, Medicine, Finance and Big Data. Specific research areas that fall into these groupings include:

OPERATIONAL RESEARCH and MULTICRITERIA DECISION SUPPORT:
The development of interactive decision aids, to assist in the analysis of decision problems with multiple and conflicting objectives (with particular reference to natural resource management and others); combinatorial optimisation; application to decision making and planning in private and public sectors (TJ Stewart, J Nyirenda, L Scott, J Stray, N Watson).

BAYESIAN DECISION THEORY:
General principles of Bayesian statistical analysis; applications in sequential stochastic optimization and other fields (TJ Stewart).

BIOINFORMATICS:
The application of statistical and computational techniques to problems in genetics and molecular biology (MJ P Lacerda).

BIOSTATISTICS:
Medical applications of statistics (F Little, LM Haines, F Gumede, S Silal, R Kassanjee). The objectives of the Biostatistics Interest group are to develop statistical methodology motivated by medical problems.

DATA SCIENCE:
Development and application of statistical methods for the analysis of large data sets (MJP Lacerda, S Er, J Nyirenda, S Britz, E Pienaar).

FINANCIAL MODELLING AND MARKET MICROSTRUCTURE:
Econometric techniques are being used to test theories related to the South African economy in the fields of finance, monetary economics, interest rate theory and stock market research. Time series, portfolio construction and risk management (GDI Barr, T Gebbie).

MIXED EFFECT LINEAR MODELS:
Longitudinal data analysis, analysis of repeated measures data, generalized linear (mixed) models, hierarchical generalized linear mixed models (robust estimation and diagnostics). (F Gumede, F Little).

OPERATIONAL RESEARCH and MULTICRITERIA DECISION SUPPORT:
The development of interactive decision aids, to assist in the analysis of decision problems with multiple and conflicting objectives, with particular reference to natural resource management and others; combinatorial optimization, application to decision making and planning in private and public sectors (T J Stward, L Scott, J Nyirenda, N Watson).

OPTIMAL DESIGN:
The design of experiments in agriculture, biology and engineering which are in some sense optimal (LM Haines).

SOCIAL SCIENCE STATISTICS:
Research surveys; local government support; analysis of poverty and development, structural equation modelling (S Er).

SPATIAL STATISTICS AND TIME SERIES: (B Erni, M Ngwenya, C Thiart)
STATISTICS IN ECOLOGY:
Application of statistics to biological and environmental data. (B Emi, G Distiller, R Altwegg, M Varughese, A Clark)

STOCHASTIC MODELLING: (M Mavuso, E Pienaar)

Undergraduate Courses
NOTE: Students who intend to specialise in Statistics are strongly advised to include Computer Science in their curriculum.

A student cannot obtain credits for more than one of STA1000F/S/P/L, STA1007S, STA1006S, STA1008F/S.
A student cannot obtain credits for more than one of STA2020F/S, STA2007F/H/S, STA2005S.
A student cannot obtain credits for both STA2004F and STA2030S.
A student cannot obtain credits for both STA3030F and STA3041F.

STA4006W STATISTICAL SCIENCES HONOURS
Since the code STA4006W will not carry a NQF credit value, students will be concurrently registered for STA4020W (coursework component of 120 NQF credits) and STA4021W (research project of 40 NQF credits).
160 NQF credits at HEQSF level 8
Convener: Dr G Distiller

Course entry requirements: The minimum requirements are MAM1000W (MAM1010 and MAM1012), one semester of Computer Science 1 plus one of the following two sets of 3rd year courses: Applied Statistics stream: STA3030F + STA3036S; OR Mathematical Statistics Stream: STA3041F, STA3043S. Applicants fulfilling the minimum requirements above with an average of 65% or more for their 3rd year courses (at first attempt) can be confident of admission into the programme. Students who do not achieve the 65% level will be considered on a case-by-case basis, taking into consideration.

DP requirements: Attendance of 85% of departmental seminars.
Assessment: Each coursework module contains a combination of tests, assignments and a final examination. The relative weighting placed on the year work varies for different modules between 30% and 50%. The final grade for the course as a whole is a weighted average (weighted by numbers of credits) of marks for each coursework module and the individual project. In addition, the student is required to obtain a mark of at least 50% in all core courses and for the individual project. These component parts of the course will be combined in a final overall mark which will be reflected against the course code STA4006W, with PA (pass) entered against the coursework and project codes; each of these components must be passed separately for the award of the degree.
Essential Terminology

Pre-requisite courses
Degree qualifications and streams in the Commerce Faculty have been carefully constructed in order to provide students with the best possible integrated learning experience. Most courses (except some 1st year courses) at UCT require prior knowledge either in the same discipline (eg Macroeconomics at 2nd year level requires macroeconomics at 1st year level) or in other disciplines, eg a student may not attempt Finance unless he/she has already completed courses in Mathematics and Statistics. This is because the concepts learnt and knowledge accrued in these previous courses needs to be applied in the later course; ie a pre-requisite is the foundation upon which the later course is built. Pre-requisite rules will be applied consistently because not to do so will jeopardise your chances of success.

Co-requisite courses
Some courses have particular courses as co-requisites, which means that students need to register for two or more courses at the same time. Where a course has a co-requisite of another course, it implies that the courses integrate closely with each other, and it is essential to learn and apply the concepts in both courses at the same time.

Classification of results Refer to General Rules G25
DP and DPR (Duly Performed Certificate / Duly Performed Certificate Refused) Refer to General Rules GB 9
The academic departments in the Faculty of Commerce and elsewhere across campus support continuous learning and assessment. This means that in your Commerce courses you will be required to engage with the coursework and perform consistently well from the beginning of the course; you cannot do nothing for 12 weeks then suddenly hit the books or your friend’s notes in the last week of term. One of the primary reasons you have chosen to come to UCT is probably because of the high academic standards; we work hard to maintain those standards but you have to work equally hard to meet them. Performing consistently well throughout the course will earn you the right to attempt the final assessment – the examination. Earning this right is called being given a DP (Duly Performed Certificate). If you have not attended required tutorials, or missed a test without being excused, or missed something else your marks do not reflect that you have participated fully in the course to date we will refuse you this Duly Performed certificate and you will not be eligible to sit the examination. Check the DP requirements carefully in each course to make sure that you comply.

What is a DP?
1. UCT requires academic engagement throughout the duration of a degree, and the extent to which you are required to engage in an individual course is defined in the Duly Performed requirements for that course (DP). Being awarded a DP means that you have completed your assignments, attended the necessary classes, and can write your exam. A DPR for a course indicates that you have not engaged sufficiently with the ongoing academic content of the course to be eligible to write the exam, so the DP is Refused (hence DPR).
2. Each course has different DP requirements, which are listed in the course entry in your faculty handbook.
3. The calculation of the DP and the final year mark where assignments or tests have been missed are either defined in the course outline or are specific to a particular department and defined in the departmental entry in the Faculty handbook.
What happens if I don’t get my DP?

1. If you don’t meet your coursework requirements, you will be marked as DPR (‘duly performed refused’) – which means you cannot write the exam for that course (and even if you did write the exam, your paper would not be marked).
2. A DPR on your record counts as a fail, and contributes a 0 towards your overall grade point average in your academic year and your overall degree.

How do I avoid a DPR?

1. If you have good reasons for missing tutorials or handing in work late, you can sometimes negotiate late submissions with your department. Remember: it helps to negotiate extensions in advance via a short leave application.
2. If, within the first six weeks of your course, it’s clear you’re not going to meet your DP requirements, it is often better to deregister from your course than to have the DPR appear on your record (keeping in mind that the UCT Fees Office also have deadlines for dropping courses and obtaining refunds and dates by which an INC (Incomplete will appear on your transcript which is treated as a first attempt at the course.). These deadlines appear on page 2 of the Change of Curriculum form which can be found at this link on the UCT website. [http://forms.uct.ac.za/studentadmin/aca09.pdf](http://forms.uct.ac.za/studentadmin/aca09.pdf)

DP Appeals Policy

1. The purpose of the DP is to get students to work consistently and secondly to ensure that they have a wider range of competency than might be assessed in the final assessment. Academic participation throughout the course is the guide as to whether or not a student should be permitted to write an exam as we believe the achievement of educational outcomes in any course is measured by far more than just a final exam.
2. The decision to award DP is an academic one not an empathetic one.
3. Fairness to all students in terms of precedent.
4. Administrative justice compliance. E.g. if permission was obtained but the documentation e.g. a short leave form or a medical certificate was subsequently lost. This is why we give students copies of stamped medical certificates to keep and advise them to keep copies of their short leave applications that are granted.

Appeal process

Unless there is factual error it is VERY seldom that a DP appeal is granted.

1. For information and clerical errors please liaise with the course convenor.
2. If you’re unhappy with the course convenor’s response, you can appeal to the Head of Department offering the course by email setting out the facts. Appeals must be received within 2 working days of the publication of the DP list. The student will be notified of the outcome of the appeal to the HOD within 72 hours after the appeal is received.
3. If you are still denied your DP and you feel that the department is treating you unfairly, you can make a written email submission to the Deputy Dean (Academic) tessa.minter@uct.ac.za.

For affective (non-academic) issues that are affecting your performance please consult the relevant UCT support service e.g. Financial Aid or Student Wellness or the Career Service or a programme advisor.

Sub-minimum

Many courses will require you to achieve a sub-minimum mark in your coursework and/or the final examination. This means that if you do not achieve this sub-minimum mark you will not be
awarded a DP (if you fail to meet the sub-minimum in your coursework) or an UF SM if you do not get the subminimum in the final examination. Check the rules for your course in the Faculty Handbook to see whether there is a subminimum.

Progression codes
At the end of every year, after the November examination period, the Faculty Examinations Committee (FEC) provides every student in the faculty with a progression code that goes on to the student’s academic transcript. The purpose of this code is to describe accurately the student’s academic status in the faculty.

These codes appear on the transcript as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Status</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CONT</td>
<td>Good Standing</td>
<td>Academically eligible to continue</td>
</tr>
<tr>
<td>FECC</td>
<td>Good Standing</td>
<td>Concession (FEC) to continue</td>
</tr>
<tr>
<td>FEFC</td>
<td>Good Standing</td>
<td>Concession (FEC) to change field/specialisation/degree within Faculty</td>
</tr>
<tr>
<td>FECP</td>
<td>Pending</td>
<td>Status pending FEC decision</td>
</tr>
<tr>
<td>RENN</td>
<td>Dismissed</td>
<td>Academically not eligible to continue</td>
</tr>
<tr>
<td>SUPP</td>
<td>Pending</td>
<td>Status pending: continue if SUPP/DE exams passed. Qualifies for award of degree/diploma</td>
</tr>
<tr>
<td>QUAL</td>
<td>Good Standing</td>
<td></td>
</tr>
<tr>
<td>QUAS</td>
<td>Pending</td>
<td>Qualification depends on supp/DE results</td>
</tr>
</tbody>
</table>

Supplementary examination
Refer to General Rules G 22 Deferred examination Refer to General Rules G 26 & 27

Recognition of Academic Merit

RECOGNITION OF ACADEMIC MERIT

Class Medals
A class medal may be awarded to a student who has shown special ability in an undergraduate course. They are only awarded where special merit should be recognised. Only one medal may be awarded in a course. Any student who repeats a course will be ineligible for any medal in that course.

Class Medals may be awarded in all undergraduate courses offered in the Faculty of Commerce and in a number of postgraduate qualifications.

Where more than 1 student has an equal final mark to 1 decimal point the decision will be made based on the performance in the final summative assessment which must have been reviewed by the external examiner.

UNDERGRADUATE DEGREES
A class medal is offered to the top student in the course at first attempt. It is very unusual to have two students with the same overall final mark who cannot be differentiated.

Any awards below 75% to be justified by the course convenor.
Separate awards will be made where courses are repeated in different semesters.
POSTGRADUATE/ADVANCED DIPLOMAS
Either best overall coursework mark or class medals for courses > or = 24 credits
“PGDip in Data analysis the top student that achieves an average grade of at least 75% and completes the diploma within a single academic year.

Dean's Merit List
The Dean’s Merit List is published annually in recognition of academic excellence. The achievement is included on a student’s academic transcript. To qualify for the Dean's Merit List in the Faculty of Commerce, a student should:

(a) Take at least the standard full year’s course load appropriate both to the year of the degree, and to the specialisation chosen, as laid out in the Faculty of Commerce Undergraduate Handbook.
Standard course load implies:
1. Unless a lesser number of courses is prescribed for the year within the specialisation –
   · At least 8 courses are completed during the standard academic year; and
   · At least 8 courses towards the prescribed specialisation are completed during the academic period March to February.
2. Any course that could count towards the qualification, including elective courses.
(b) Pass all of their standard courses in the current year – i.e. no fails OR supplementary examinations.
(c) Obtain a weighted average of at least 75% for the standard course load (enrichment courses will be excluded).

Dean’s Merit List for UCT students on exchange programmes:
UCT Commerce Faculty students on IAPO approved exchange programmes can be included for DML consideration based on the following criteria:
a) The student was on the DML in the previous year.
b) Will be considered for the DML in the current year based on the one semester results at UCT subject to meeting the criteria full workload etc.
c) DML students need to perform well consistently throughout the year.
d) Completed an equivalent of four semester courses whilst on exchange

Rules for Distinction
NOTES:
1. The degrees and diplomas specified below may be awarded with distinction in the degree/diploma and/or with distinction in a particular course(s).
2. In applying the rules, only the first attempt at a subject is taken into account.

BACHELOR OF COMMERCE
The degree may be awarded with distinction with a weighted average of at least 80%. The degree must be completed in the standard number of years stipulated. There must be no failures. Courses passed at a supplementary exam do not count as failures.
The award of the degree with distinction will depend upon the candidate's performance in all years of study with weighting determined by levels of seniority of the course, viz: course levels 1 and 2 are weighted 1, course level 3 is weighted 2. Only first attempt and only courses required for the programme are used in the calculation. AB = 0, Inc = 0, DPR = 0. The percentage is shown as two decimal points and not rounded up to a whole number.

BACHELOR OF BUSINESS SCIENCE
The degree may be awarded with distinction (80%)
The award of the degree with distinction, will depend upon the candidate's performance in all years of study with weighting determined by levels of seniority of the course, viz: course levels 1 and 2 are weighted 1, course levels 3 and 4 are weighted 2. Only first attempt and only courses required
for the programme are used in the calculation. AB = 0, Inc = 0, DPR = 0. The percentage is shown as two decimal points and not rounded up to a whole number.

**COURSE DISTINCTIONS**

NB: The percentage is shown as two decimal points and not rounded up to a whole number.

**Actuarial Science:**

**Corporate Governance:**
75% or above for Corporate Governance II and Corporate Governance I.

**Computer Science:**
Average of 75% or above for Computer Science 2001 and Computer Science 2002, and average of 75% or above for Computer Science 3002 and Computer Science 3003.

**Economics:**
An average of 80% or more across ECO3020F and two other 3000-level ECO courses, with at least 75% in at least two of these three courses.

**Finance BBusSc:**
An average mark for FTX3044F and FTX3045S of 75% or more;
An average mark for FTX4056F, FTX4056S and FTX4087S of 75% or more;
With a subminimum of 70% required for each of the above five courses.

**Finance BCom:**
75% or above for BUS3026W Finance II OR FTX3044F Finance IIA AND FTX3045S Finance IIB
FTX2024F/S: >=80% , Average of FTX3044F and FTX4035S of >=75%

**Financial Reporting:**
75% or above for Financial Reporting III/Accounting and Financial Analysis and a weighted average of 75% for the combined first (Financial Accounting and Financial Reporting I) and second year (Financial Reporting II) non-terminating courses.

**Information Systems:**
70% or above for all third-year Information Systems courses and a 75% weighted average.

**Management Accounting:**
75% or above for Management Accounting II and 80% or above for Management Accounting I.

**Marketing:**
At least 75% for BUS4026W (Marketing III), BUS4052H (Marketing Research Project), BUS3008W (Research in Marketing), BUS3041F (Marketing IIA) and BUS3043S (Marketing IIB).

**Mathematics:**
At least 75% passes in Mathematics II and Mathematics III.

**Organisational Psychology:**
At least 75% overall for BUS4006W and BUS4030H, obtaining not less than 70% for both the coursework and the research report components.
Statistics:
75% in two 2000-level and two 3000-level courses required for the major subject.

Taxation:
80% or above for ACC2023 Taxation I and 75% or above for ACC3004 Taxation II

Prizes:
The Faculty awards a variety of prizes at discipline, programme and course level at the Faculty of Commerce Awards for Excellence ceremonies each year. Corporates, professional firms, research units and various departments sponsor these prizes.

Category 1 - Faculty Scholarships
The Faculty Scholarships are funded from Donations to the University and candidates are selected by the individual Faculty Boards. Scholarships are restricted to specific areas of study and values vary in terms of income received. The Faculty Scholarships are available to both Undergraduate and Postgraduate students.

UNDERGRADUATE AWARDS

Twamley Undergraduate Scholarship
Tenure: One year
One award p.a.
Funds available: R2 000
Condition of award: Awarded on the basis of the most outstanding academic performance at the end of the first year of study.

Alexander & Elizabeth Norval Memorial Scholarship
Tenure: One year
One award p.a.
Funds available: R2 400
Conditions of award: Awarded to the best second year BCom student in CA specialisation of the curriculum.

Bankers Scholarship
Tenure: One year, renewable, 2 years maximum
Two awards p.a.
Funds available: R4 000
Conditions of award: Awarded on the results of the second year examinations to a student registered for the BCom or BBusSc Degree.

Category 2 – The 3-Year Bachelor Scholarships
The 3-Year Bachelor Scholarships are awarded to students who have completed a 3-Year Bachelor degree, and are based on final examination results. 3-Year Bachelor Scholarships are funded from the income derived from University investments and from GOB-sourced UCT Council Funds. The Scholarships are restricted to specific areas of study and are of fixed value.

Where the monetary value of the award cannot be claimed, the student may hold the award in Honorary capacity.

Conditions of award:
- Scholarships may not be deferred and are not renewable, and may only be paid to successful candidates if they register at UCT for further study for an official Honours degree at UCT.
- The monetary part of these awards may not be claimed by students who register for a 2nd Undergraduate degree or for a Diploma or Certificate.
William Hutt Scholarship
Awarded to the best graduate at the end of the third year of the curriculum for the BCom degree, in the Faculty of Commerce. Students who have taken 5 or more years to complete the degree are ineligible.

Condition of award:
The Scholarship, valued at R5 000 is offered for an approved course for full-time postgraduate study based on work completed for the Bachelor’s degree. The Scholarship may be taken up for study at the UCT for an Honours degree.

University of Cape Town Council Scholarship
Awarded to a student having obtained a sufficient high standard in the successful completion of the third year of the BCom degree. Students who have taken 5 or more years to complete the degree are ineligible.

Condition of award:
The Scholarship, valued at R3 500 is offered for an approved course for full-time postgraduate study based on work completed for the Bachelor’s degree. The Scholarship may be taken up for study at the UCT for an Honours degree.

Category 3 – Senior Scholarships
The Senior Scholarships are named Scholarships with specific conditions. These awards are available to each Faculty, giving a relatively even spread and opportunity for each Faculty to select the best 4-year Degree, Honours and *Master’s* students for award.

Awards of the scholarships must be based on EXAMINATION RESULTS. *Master’s* Students qualifying with degrees by research/dissertation only are ineligible. Faculties are requested to select the most academically excellent and deserving students for award of the available scholarships.

The standard required for selection is to consider students who have achieved their degrees with a First Class pass or Distinction. However, equity should be borne in mind and students coming from previous disadvantaged education systems must be considered where a sufficiently high standard is achieved.

Where the monetary value of the award cannot be claimed, the student may hold the award in Honorary capacity.

Tenure of award
The tenure of each award is ONE YEAR ONLY.

Conditions of award:
- The Scholarships cannot be deferred and are not renewable.
- Eligible candidates may not receive more than one Senior Scholarship per annum.
- The Scholarships may not be awarded to students who are older than 30 years.
- The Scholarships must be awarded to students who have studied for at least one year at UCT.
- The standard required for selection is to consider students who have achieved their degrees with a First Class pass or Distinction. However, equity should be borne in mind and students coming from previous disadvantaged education systems must be considered where a sufficiently high standard is achieved.
- These scholarships may not be claimed for study towards Postgraduate Diplomas or Certificates.

Because students who are nominated may be required to complete 2 to 3 years of compulsory community service, awards made to such individuals may be deferred for the appropriate tenure.
Conditions apply to such deferral. These are outlined in the letters of offer-of-award that are sent to the student. The following from this letter is as follows, for your information.

Students who have graduated with any degree requiring one or more year’s compulsory community service, may apply in writing to the Postgraduate Studies Funding Committee for permission to defer their awards for a maximum period of two years.

POSTGRADUATE AWARDS

**ONE SA College Croll Scholarship** is available to a student who has completed:
- 4-Year Bachelor’s Degree
- BCom (Hons) Degree
- MCom Degree

*Value: R15 000*
*Total Value: R15 000*

**THREE Manuel & Luby Washkansky Scholarships** are available to students who have completed:
- 4-Year Bachelor’s Degree
- BCom (Hons) Degree
- MCom Degrees

*Value: R15 000*
*Total Value: R45 000*

**THREE UCT Council Albertonie Broeksma Scholarships** are available to students who have completed:
- 4-Year Bachelor’s Degree
- BCom (Hons) Degree
- MCom Degrees

*Value: R10 000*
*Total Value: R30 000*

**ONE UCT Council Donald Currie Scholarship** is available to a student who has completed:
- 4-Year Bachelor’s Degree
- BCom (Hons) Degree
- MCom Degree

*Value: R15 000*
*Total Value: R15 000*

**History of the Faculty of Commerce**

The University of Cape Town’s Faculty of Commerce had its beginnings immediately after World War I. Edinburgh-trained Professor Robert Leslie, the founding head of the Economics Department, led the drive to establish a faculty which would provide students with the broad educational background and professional training most appropriate to an executive career in the business world. From its inception, the Faculty of Commerce displayed that spirit of enterprise and unorthodoxy and that strong sense of purpose which were to become its most distinguishing characteristics.

Thus the Faculty Board met for the first time on 25th November 1921, four days before it had been formally constituted by the University Council.

A two-year Diploma in Commerce was immediately organised. Then, in 1924, Professor (later Sir Arnold) Plant was appointed to the John Garlick Chair of Commerce, and drew up a curriculum for
In 1952 the University of Cape Town agreed to train articled clerks seeking to qualify as Chartered Accountants, and the Certificate in the Theory of Accountancy was introduced. The offering of the CTA course led to such an increase in student numbers that the Faculty of Commerce soon became one of the largest in the University.

The Graduate School of Business, formed in 1965, enrolled South Africa's first full-time Master of Business Administration students in 1966. The GSB currently offers several versions of the MBA degree and provides short courses in special topics of current interest to the business executive.

The undergraduate Degree of Bachelor of Business Science has been available in the Faculty since 1968. This four-year professional degree provides a broad training in business, while the postgraduate Master of Business Science affords an opportunity for advanced study and research. The BCom (Hons) was first offered in 1969.

In December 1977—the then Department of Business Science, the then Department of Accounting, the School of Economics and the Faculty Office moved to new quarters in the Leslie Commerce Building. Many distinguished names have been associated with the Faculty of Commerce, but it is fitting that the name of the man who was the driving force behind the Faculty's founding, and its first Dean, Robert Leslie, should be commemorated in this fine building, its congenial atmosphere and outstanding design making it a worthy successor to the Faculty's original premises - the historic Hiddingh Campus in the shadow of the Lioness Gate.

In 1981 a BCom Conversion Course, aimed at graduates from other disciplines wishing to qualify as Chartered Accountants, was offered for the first time.

Also in 1981 two new higher degrees were introduced: the Master of Philosophy to cater for cross-disciplinary research, and the Doctor of Economic Sciences. The Faculty also now offers full-time and part-time Postgraduate Diplomas in Management in fields ranging from Information Systems to Sports Management. Several of these are designed specifically for students without an undergraduate degree in Commerce.

During 1991 the Department of Statistical Sciences was formed from a merger of staff offering Quantitative Methods courses in the Business Science Department and the Department of Mathematical Statistics. Staff members of this new department were given the choice of becoming members of the Commerce Faculty or the Science Faculty. A number of staff of the Statistical Sciences Department became members of the Faculty of Commerce.

In 1994 the School of Management Studies was formed when the Industrial Psychology section of the Department of Psychology and the section of Organisation and Management were brought in to the Department of Business Science. The School comprises a number of sections including Marketing, Actuarial Science, Organisational Psychology and Applied Management.

The increasing influence of technology, as well as the need to prepare students to tackle real-life problems at the nexus of technology, people and business, led to the establishment of the Department of Information Systems in 1994. The department soon embarked on a research focus, led by the late Prof Dewald Roode and the first PhD graduate, Prof Alemayehu Molla, was created in 2002 with a thesis on e-Commerce in developing countries.

After many years of providing academic development programmes to equity students in the Faculty, the Education Development Unit (EDU) was formally established in the Faculty in October 2007,
thanks to the initiative and generosity of an alumnus, Duncan Saville. The EDU has the aims of addressing previous educational disadvantage through carefully developed and managed interventions and stimulating and nurturing excellence in teaching and learning practice across the faculty (see below for more details).

In 2011 a BCom in Management Studies was offered for the first time, to enable students to focus on a suite of management studies courses within a three-year degree. 2011 also saw the opening of a new custom-designed building for the School of Economics on Middle-Campus. The opening ceremony created the opportunity to celebrate strategic links between the Faculty and its partners in the private and public sector, as well as a host of individuals (staff, alumni and others) through an iconic sculpture, The Silver Tree.

The Faculty has been led by a number of globally-recognised scholars over the years. In recent times these have included Emeritus Professor John Simpson, Emeritus Professor Brian Kantor, Professor Melvin Ayogu, Professor Don Ross, Professor Ingrid Woolard and the current incumbent Associate Professor Linda Ronnie.

The need to constantly evolve in order to meet changing local and global needs resulted in far-reaching changes and in 2011 UCT’s Senate approved a restructuring process. Approval was granted to change the name of the Department of Accounting to the College of Accounting. In addition a decision was taken to establish the Department of Finance and Tax as well as the Nelson Mandela School of Public Governance.

The new shape and form of the Faculty of Commerce is thus as follows:
- One college - **College of Accounting**;
- Two departments - **Information Systems** as well as **Finance and Tax**;
- Four schools - **School of Management Studies**, **School of Economics**, **Graduate School of Business** as well as the **Nelson Mandela School of Public Governance**.

**Commerce Students' Council**
The Commerce Students' Council (CSC) was established to ensure representation of Commerce students in the University governing structure. The CSC is elected each year in September by students within the Commerce Faculty. Those elected to the Council are Commerce students who volunteer their services for the welfare of their fellow students.

On the academic side, the Council co-ordinates a class representative system which is aimed at enhancing relationships between students and academic staff. The Council is also involved in course and time-table evaluations. These evaluations are discussed at Commerce Faculty Board meetings, at the Academic Policy and Practice Committee, and at the Student Assembly, on all of which Commerce students are actively represented by senior CSC members.

On the social side, the Commerce Students' Council organises several functions throughout the year, where students, together with lecturers and administrators, can meet. The events usually organised include, the Orientation Week festivities, guest speakers and other events.

The official magazine of the CSC, Rands & Sense, is published annually and distributed among Commerce students. This magazine informs Commerce students about the activities of the Council and a wide range of current issues that affect students, who are encouraged to contribute articles to the magazine.

The CSC urges all Commerce students to become actively involved in shaping the future of the Council and the Faculty of Commerce, by running for Council or by applying to become a class representative. It invites suggestions and constructive ideas on how to improve efficiency and effectiveness.
For more information and/or queries regarding the CSC, please contact the CSC at its offices (Room 3.13.2, 3rd floor, Leslie Social Science Building) during their consultation times (12-2pm Monday to Friday) or alternatively send an email to CSC@myuct.ac.za.

**Education Development Unit (EDU Commerce)**

The Education Development Unit (EDU) is focused on enhancing the teaching and learning environment in the Commerce Faculty. Academic Development (AD) is situated in the EDU as an equity programme situated in Commerce. It has been designed to enable students to complete Commerce degrees over either a standard or extended period offering a range of additional interventions. The duration of the degree will be determined by Commerce Faculty admission requirements. Once accepted to the programme, students are eligible to complete any of the degree streams (provided they meet the requirements for particular streams).

AD Commerce is a response to the well-known inequalities in South African society and caters for varying levels of student preparedness. It ensures that different curricular paths run together as early as possible, so that the same exit standards are clearly applied to all.

AD Commerce works diagnostically to address gaps and disparities in students' educational/life experience so that they can be better equipped to manage Commerce programmes. In addition, it provides students with a variety of engagements that enhance a broad and comprehensive range of educational and life skills. Specific interventions exist in subject knowledge, academic and language literacy, life skills and mathematics, as well as a range of additional engagements at varying levels in the degree course. Interventions are focused on a developmental and incremental impact, rather than one of 'support' only.

While students are mostly in separate small classes in their first year, they continue their studies and lectures as integral members of the Commerce Faculty.

**Bookstore**

The UCT Bookstore is committed to making the most of student experience and the least of student expenses. The shop sells prescribed and recommended books, stationery, UCT clothing and memorabilia and second hand books. UCT Campus Bookstore is located on the Upper Campus, Steve Biko Building, Cissie Gool Plaza. Contact (021) 650-2485/6/7.

**Minimum requirements for admission to undergraduate degrees**

The Joint Matriculation Board was dissolved in September 1992. Its functions were transferred to the South African Certification Council (SAFCERT), and subsequently to Umalusi, in respect inter alia of the issue of senior (school-leaving) certificates; and to the Committee of University Principals Matriculation Board in respect of the issue of certificates of complete exemption and conditional exemption.

A candidate for the degree of Bachelor must have obtained a National Senior Certificate endorsed by Umalusi to the effect that he or she has met the minimum requirements for degree study, or a Matriculation Certificate or have obtained a Senior Certificate endorsed to state that he or she has met the matriculation requirements, or a certificate of exemption issued by the Matriculation Board.

Council and Senate may, in addition, prescribe, as a prerequisite for admission to any programme or course the attaining of a specified standard in specified subjects at the matriculation or equivalent exam. (where these have been prescribed, they are set out in the admissions policy).

The minimum requirement for the period prior to the existence of Umalusi is a senior certificate issued by SAFCERT, or before 1993, issued by one of the provincial or other government education departments, or an equivalent.
All references in the rules for undergraduate degrees and diplomas to admission requirements, matriculation and matriculation exemption are to be read in the context of these requirements.

Certificates of matriculation or exemption from matriculation issued by the Joint Matriculation Board remain valid for the purpose of applying for admission to Bachelor's degree study.

Further information on Faculty entrance requirements can be found in Handbook 1, Undergraduate Prospectus.

**POLICIES AND PROCEDURES**

**Short Leave Process**

**Note**
This is for circumstances that do not fall within the University policy for *Leave of Absence* General Rule G16.2 – G16.6.

**Rationale**
To support diligent students who wish to attend significant events/occasions in their lives.

**Principles**
1. To be granted where a student is deemed to be representing their nation/province/UCT in a sporting/cultural event or on compassionate grounds e.g. death/illness.
2. All requests to be supported by evidence.
3. The need to support the educational basis of continuous assessment.
4. Consistency of treatment amongst courses within the Faculty.
5. Administrative efficiency.

**Issues to be considered in the granting of Short Leave include that:**
1. The student has displayed evidence of planning to accommodate UCT timetable wherever possible.
2. The event/circumstance has no alternative(s).
3. It is a significant event or circumstance.
4. If a student is assessed as meeting the above then it is recommended that the Short Leave concession would apply to all course tests/assignments during that period.

**Process**
1. The student fills in a downloadable standard form from http://www.commerce.uct.ac.za/Commerce/Information/Undergraduate/student_advisors.asp on which his/her responsibilities are outlined and which he/she signs.
2. Student hands this form to the convener who on behalf of the Dean, alone or in consultation with course conveners approves the Short Leave in principle.
3. The relevant course convener to sign to indicate his/her approval for the agreed course specific accommodations made in respect of, all affected assessments/compulsory activities/deliverables during the Short Leave.
4. The course convener/administrator to keep a copy of the form for DP and final mark calculation purposes.
5. This form is sent to the Faculty Office where it is kept on the student’s file and a marker indicating short leave placed on PeopleSoft.

**NB:** For any missed test the student is advised to write the test in his/her own time under examination conditions and mark it against the suggested solution.
**Academic Year of Study (AYOS)**

This term is used to describe the academic level of study for a student within a programme in the faculty. Where a student has changed programme or has needed to repeat courses required for the degree, the number of years they have spent already at UCT can differ from their AYOS. It is determined easily by the minimum number of years in which a student can graduate from the programme for which they are registered.

**Examples of AYOS:**

- A student currently registered for ACC2012W who has been at UCT for three years and is doing BCom Accounting is an AYOS 2 (the minimum period of registration for the degree is three years and they still have an additional year of Accounting to complete before they could possibly graduate).
- A student currently registered for ACC2011S who has been at UCT for two years doing a BCom ACC is an AYOS 1 (the minimum period of registration for the degree is three years and they still have a minimum of two years to go until possible graduation).
- A student currently registered for BUS2010F who has been at UCT for three years and is doing a BBusSc (Marketing) is an AYOS2 (the minimum period of registration for the degree is 4 years – they still have a minimum of two years to complete before possible graduation).

**Recognition of prior learning (RPL)**

If you do not have the required formal educational qualifications specified for admission into a programme in which you are interested, but you believe that your age, work and life experiences have provided you with equivalent levels of learning, you may apply for admission through the Recognition of Prior Learning (RPL) process. This does not mean that you will be accepted for study in the programme of your choice, but it does ensure that a broad range of your knowledge and skills will be taken into account when considering your application.

Applying using the RPL method means a considerable amount of work for the candidate in the preparation of materials, completion of various exercises and sometimes taking admissions tests - the specific requirements will be determined by the Higher Degrees Committee in consultation with the relevant convener.

If you are interested in utilising the RPL method for admission to UCT, we suggest the following:

- Establish what course, degree or programme you are interested in and find out exactly what the entry requirements are. To do this, contact the Departmental Secretary of the course in question.
- Complete a UCT application form and the Departmental application form by the closing date for applications of the year before you wish to enrol for study. Submit both forms together with a covering letter stating that you plan to seek an RPL route into the programme.
- Compile all the documentation about existing education qualifications and identify on which grounds you do not currently qualify.
- Write a 2-3 page letter of motivation which outlines 1) a profile of yourself, 2) why you are interested in this particular course of study, 3) in what way your work or life experiences have prepared you for this course of study.
- Send this letter to the programme leader of the course of study you wish to follow, by October of the year before you wish to enrol for study.

A nominal fee may be involved in the assessment process. For more information on RPL generally at UCT, and for assistance in completing the RPL process, please contact the following members of the Centre for Higher Education Development: Linda Cooper at Linda.Cooper@uct.ac.za or Dr Salma Ismail at Salma.Ismail@uct.ac.za.
Curriculum articulation for Semester Exchange students from UCT (SE)
Relevant to all programmes

Winter Term Law courses:
SE students have priority (second only to potential graduates) and are guaranteed registration for the Winter Term Law courses.

Summer Term Business Ethics:
If a Summer term course is offered for Business Ethics, SE students would be eligible to register for this course at the end of their first year, as they would technically be about to begin their second year of studies.

Plan/discipline specific:
Where a student is doing the AYOS 2 courses for their major/discipline at a foreign University, the student may be required to write an entrance examination(s) to convert a credit from a CR to a CX, and that this requirement will be indicated at the IAPO approval stage.

NOTE: All students, and advisors to these students, should review the curricula to ensure that, wherever possible, the majors are done at UCT. For example Any BBusSc Finance student going on a 2nd semester study abroad should swap FTX2024S and BUS2010F to FTX2024F and BUS2010S.

Entrance Examinations (ENTs)

NB! For current students: An Entrance Examination (ENT) is only offered to students that have previously written and passed the course.

These are written as Examinations without attendance. The examination may be written as either the final examination in the course or the supplementary examination (if offered).

Currently registered UCT students
☐ Students need to complete a Change of Curriculum form, adding the course(s) for which an ENT is needed.
☐ Students to obtain signatures of the course convener(s) before submitting the Change of Curriculum form to the Faculty Office for processing before the end of September if writing in November of the same year and before 5 December if writing in January of the following year.
☐ ENTs will be written during the final examination period and during the supplementary examination period of each year.
☐ Faculty Office to process Change of Curriculum form.
☐ Student to check their enrolment using the PeopleSoft self-service by 13 October if writing in November and by 12 December if writing in January.
☐ Entrance examination fees will automatically be calculated and added to the student’s fee account – see the Fees Handbook for the cost.
☐ Students who have not settled their fees for the previous year will not be allowed to register for the ENT examination(s).
☐ Students’ results will be recorded on official UCT transcript.

Please note:
Students must settle their ENT fees before they will be allowed to register in February of the following year.

New applicants or previously registered UCT students
☐ Applicants need to apply through the Admissions Office and register as an occasional student at UCT by 13th October if writing in November or by 5th December if writing in January.
ENTs will be written during the final examination period (November) and during the supplementary examination period (January) of each year.

Students will be given a UCT student number as an occasional student.

Students will be made an offer and will come to register at the Faculty Office.

When registering as an occasional student, all related fees need to be paid in full up front.

A student will not be registered if there are outstanding fees from a previous year.

Student’s results will be recorded on an official UCT transcript.

To ALL students, examination clashes with the ENT will not be rescheduled.

No deferred or supplementary exams are awarded for an entrance exam (ENT).

June tests for W and H courses are scheduled during the official university examination timetable.
