Scholarships3
Progress reports and results required by external donors and scholarship/bursary granting agencies4
UNDERGRADUATE AWARDS5
AWARDS OFFERED BY OUTSIDE ORGANISATION10

The University has limited funds for assisting students to finance their university studies. We are therefore grateful to those donors who give money to the University for this purpose and to those who provide their own financial aid programmes.

The University has made every effort to ensure the accuracy of the information in its handbooks. However, we reserve the right at any time, if circumstances dictate, to (i) make alterations or changes to any of the published details of the opportunities on offer; or (ii) add to or withdraw any of the opportunities on offer. Our students are given every assurance that changes to opportunities will only be made under compelling circumstances and students will be fully informed as soon as possible.

BURSARY AND SCHOLARSHIP PROGRAMMES

NSFAS AND UCT FINANCIAL ASSISTANCE

As of 1 August 2016, the National Student Financial Aid Scheme (NSFAS) opened its student-centred application model. First-time applications for financial aid, as well as funding renewal for those students who are already recipients of NSFAS funding, will be handled centrally via NSFAS. Although applicants may have applied to multiple institutions for admission to study, only one financial aid application directly to NSFAS will be required.

UCT is part of this new student-centred application model and all students and learners who need financial assistance should apply to NSFAS via the latter's on-line application system www.nsfas.org.za. We do not require a separate application to determine eligibility for funding from UCT as we will receive directly from NSFAS the information we require in order to determine your eligibility for UCT's GAP funding programme.

BURSARIES

This handbook provides applicants and students with information on sponsors that are offering bursaries and or loan assistance. These must be applied for as indicated.

Students should regularly consult Faculty notice boards, the Careers Services and the Student Financial Aid website for information on any sponsors who may be offering bursaries. Depending on when these become available, they may not necessarily be advertised in this booklet.

SCHOLARSHIPS

There are numerous scholarships that are administered by the University each with their own special conditions. The types of scholarships available are:

1. **Sundry Scholarships:** Some scholarships require application. Their closing dates and conditions are publicised on notice boards in the academic and residence buildings.
2. **Vice-Chancellor's scholarships:** These scholarships are across Faculties and reward academic excellence in the matriculation exam and no application is required by school leavers.
3. **Achievement scholarships:** These are awards based on developing partnerships with school groups or schools in a geographical area.

Applicants from these partner schools will be considered for these scholarships should they meet the criteria. No application is required.

4. **Entrance Scholarships:** The University has established several Entrance Scholarships. These are awarded to new first year students. Each of these scholarships will have specific conditions and criteria. No application is required for these scholarships as applicants will automatically be considered should they meet the conditions of the scholarship.
5. **Named Entrance Scholarships:** The University has several named entrance scholarships. Each has specific conditions which may be certain matriculation subjects, courses of study or hometown. No application is required for these scholarships as applicants will automatically be considered should they meet the conditions of the scholarship.
6. **December Scholarships:** The University has several scholarships for those who perform meritoriously in the end of year examinations at University. They range in value and in length of tenure. No application is required.
7. **Sports Scholarships:** The University has established several sports scholarships, which are available to new first year students who have represented their country at national school level. To apply, send your sports C.V. and a list of references to: The Manager, Sports and Recreation, Department of Student Affairs, University of Cape Town, Private Bag X3, Rondebosch, 7701, by 30 September of the year before you intend to study at UCT.

PROGRESS REPORTS AND RESULTS REQUIRED BY EXTERNAL SPONSORS AND SCHOLARSHIP/ BURSARY GRANTING AGENCIES

If you hold an outside award, where the sponsor requires the University to submit an academic progress report or your final results for the year, you must complete the relevant section on your Registration Form when you register each year. It is important to fill in the full name and address of the sponsor. If you are awarded an external bursary or scholarship after registration, you must advise the Student Fees Office, Kramer Law Building before mid-May of the name and address to which a progress report should be sent. It is your responsibility to ensure that your sponsor obtains your progress reports or results. If you forget, your funding may not be renewed.

UNDERGRADUATE AWARDS

The University administers many awards, many of which have been established through the generosity of past and present donors.

SCHOLARSHIP DONORS

As a tribute to them and for your interest, we list Undergraduate Scholarships and Bursaries by name. If you are found eligible on the financial aid or scholarship criteria, your particulars will automatically be matched to the conditions of each vacant award. Exceptions which require specific application forms are indicated with an asterisk. Their closing dates and conditions are publicised on notice boards in the academic and residence buildings.

UCT FINANCIAL AID DONORS

The University would like to thank the following donors listed for their continued support for financially needy students. The University allocates significant funds on an annual basis for bursary funding for financially needy students; however, the demand is far greater than the funds available. With the generous donations of these donors, it has been possible to assist more students than would otherwise have been possible.

AWARDS OFFERED BY OUTSIDE ORGANISATIONS

The following pages list awards known to the University, which are available to you as an intending or current student at UCT. For these awards you should apply to the sponsor as indicated, without reference to the University unless otherwise stated. As a first step you should request the sponsor's application form.

UCT takes no responsibility for the continuing accuracy of the information given. Closing dates may be advanced or retarded, values and conditions changed in the period between the date of publication of this edition, and the next edition.

In reading the listed awards, please note:

- The amount shown is the value per annum
A variable amount means that the award size is at the discretion of the donor or subject to available funds
- The date shown is the closing date for receipt of applications.
- All years means it is open to any academic year of study.
Year-for-year means one year of service for each year the award is held.

Opportunities are listed in alphabetical order with the index at the back to indicate the specific faculty where the sponsor will consider support.
